The background is a dark blue space scene. It features various celestial bodies: small white stars, larger white and yellow circles representing planets or moons, and two white dashed lines representing shooting stars or comets. The text is centered in the middle of the image.

# *SPACE EXPLORERS*

— DAY 2 —

Early the next morning, the four friends awoke and decided to take the moon rover exploring.

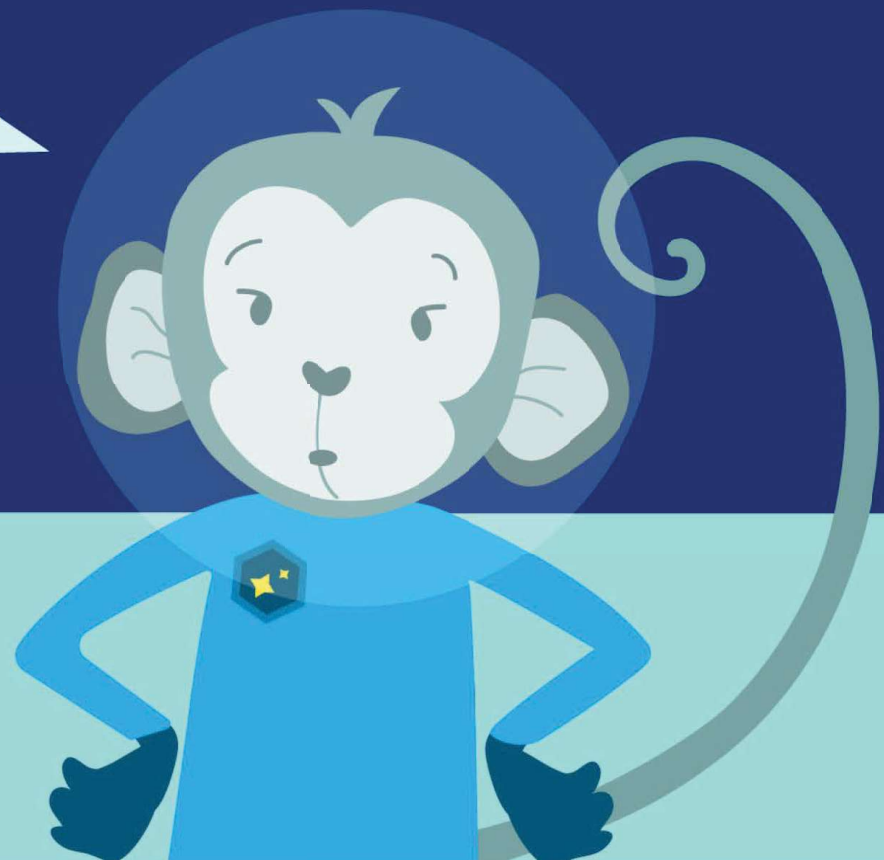

Not long into the trip, MiniBird shouted...

Attention, explorers!  
The sensors have picked  
up some strange  
readings.

What do your  
readings tell  
you?

Oh, I hope it means I  
get to drive us  
someplace fun!

The sensors are  
picking up a house 10  
miles to the south of  
our current location.

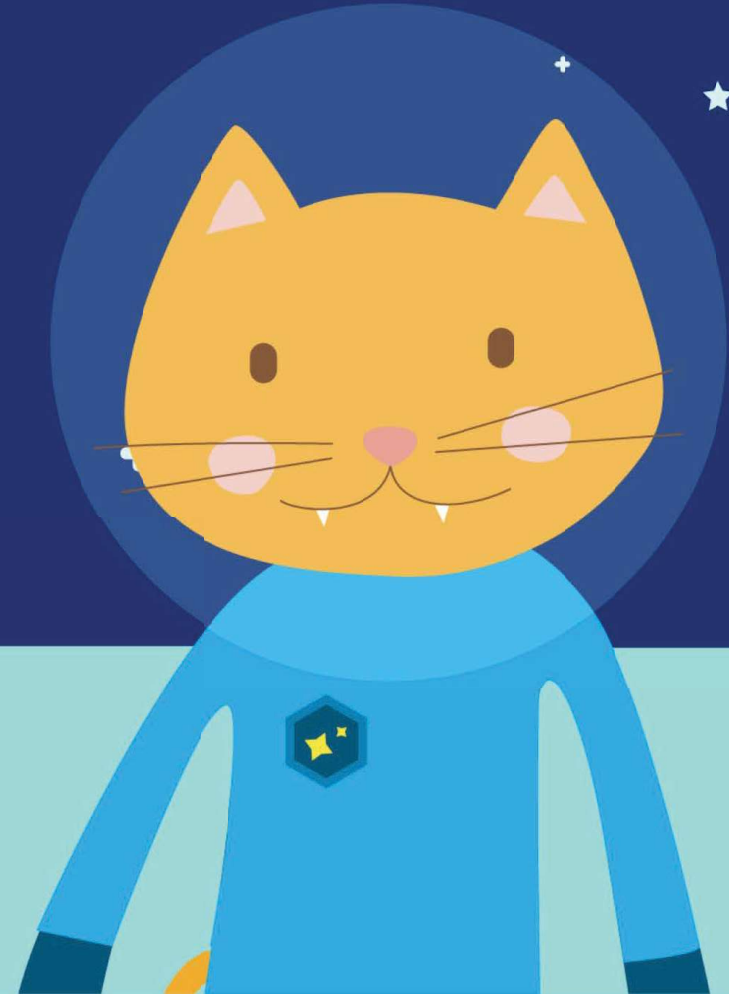

A house... Could it  
be that someone  
else is on the  
moon too?

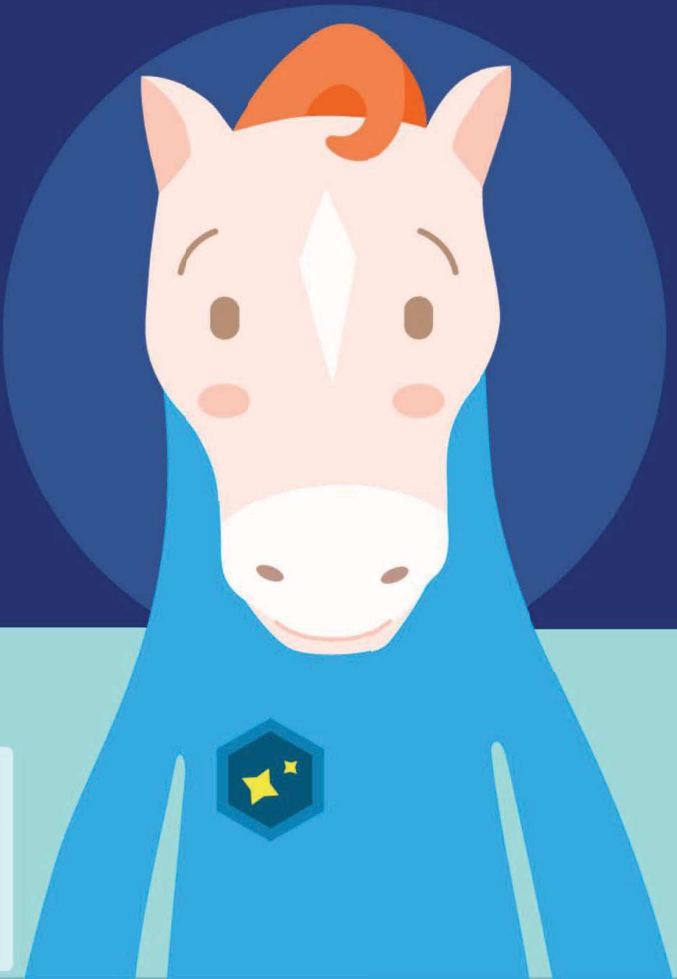

That would be  
unlikely because I  
am not reading any  
signs of life.

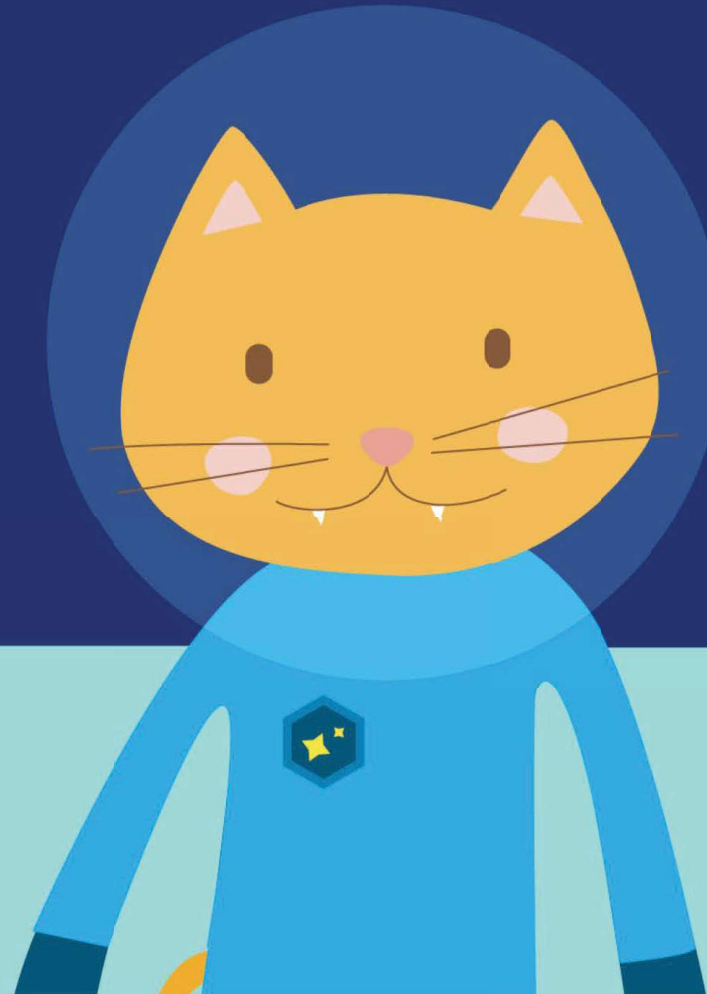

We should go check it  
out. Who knows what  
we might find?

The four explorers set out to locate the  
house that MiniBird found...

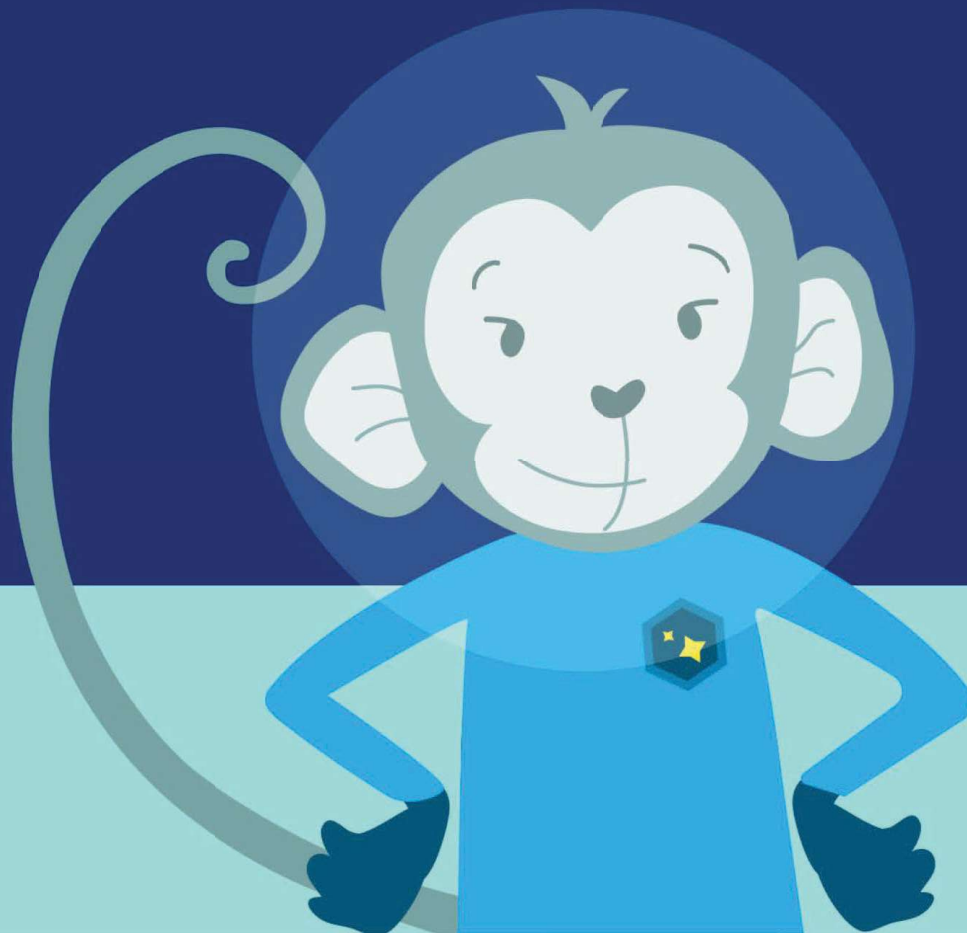

THE  
END

I am a maker. I can  
make anything new  
that our team  
needs.

I am a grower. I  
can grow anything  
that our team  
needs.

I am a fixer. I  
can fix any  
broken thing.

I am a driver. I can  
drive any vehicle  
that we find.
