

# THE CASE OF THE MISSING BUNNY

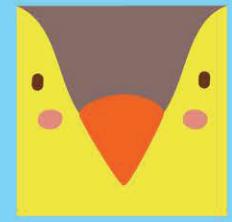

It was a dark and stormy day. After a long day playing in the rain, the citizens of Big City could finally head home. Cat was doing laundry, Bear was locking up their toy store, Robot was finishing their grocery trip, and Dog...? Dog's day was just beginning as the best detective on this side of Bone Street.

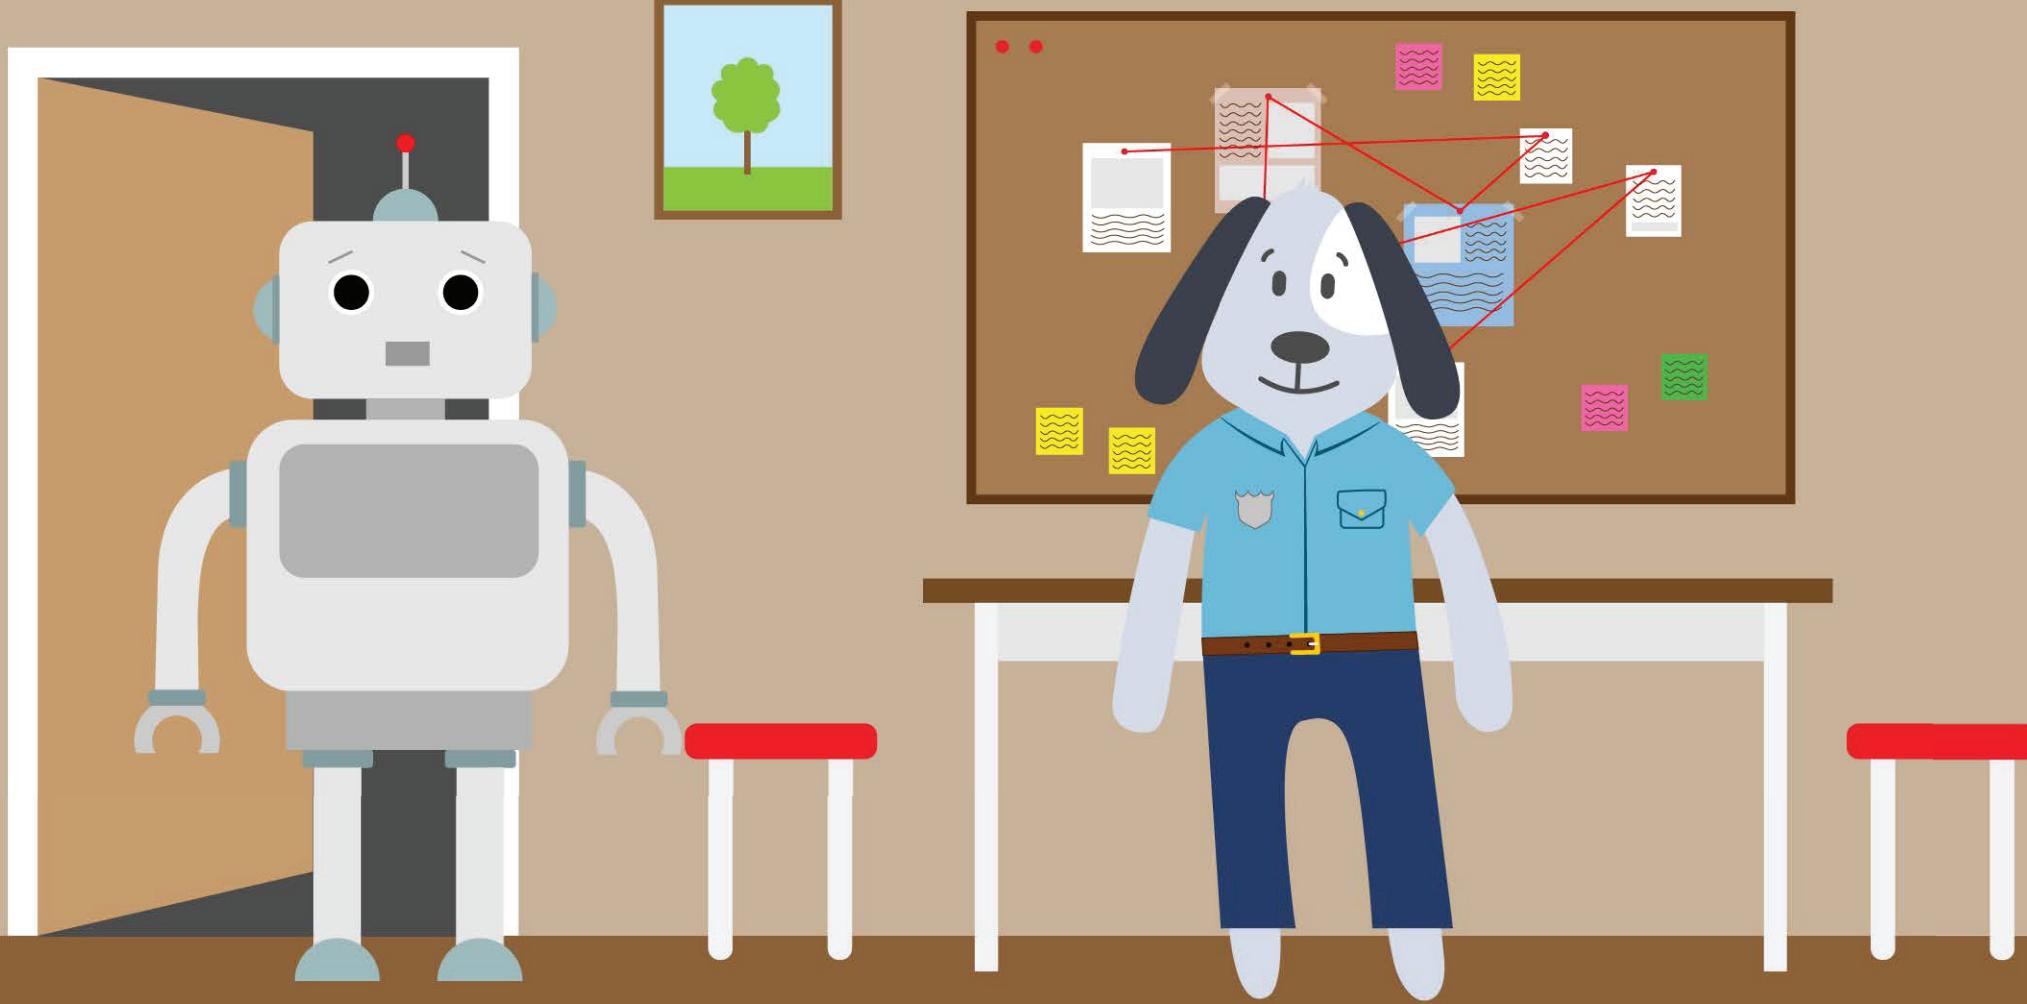

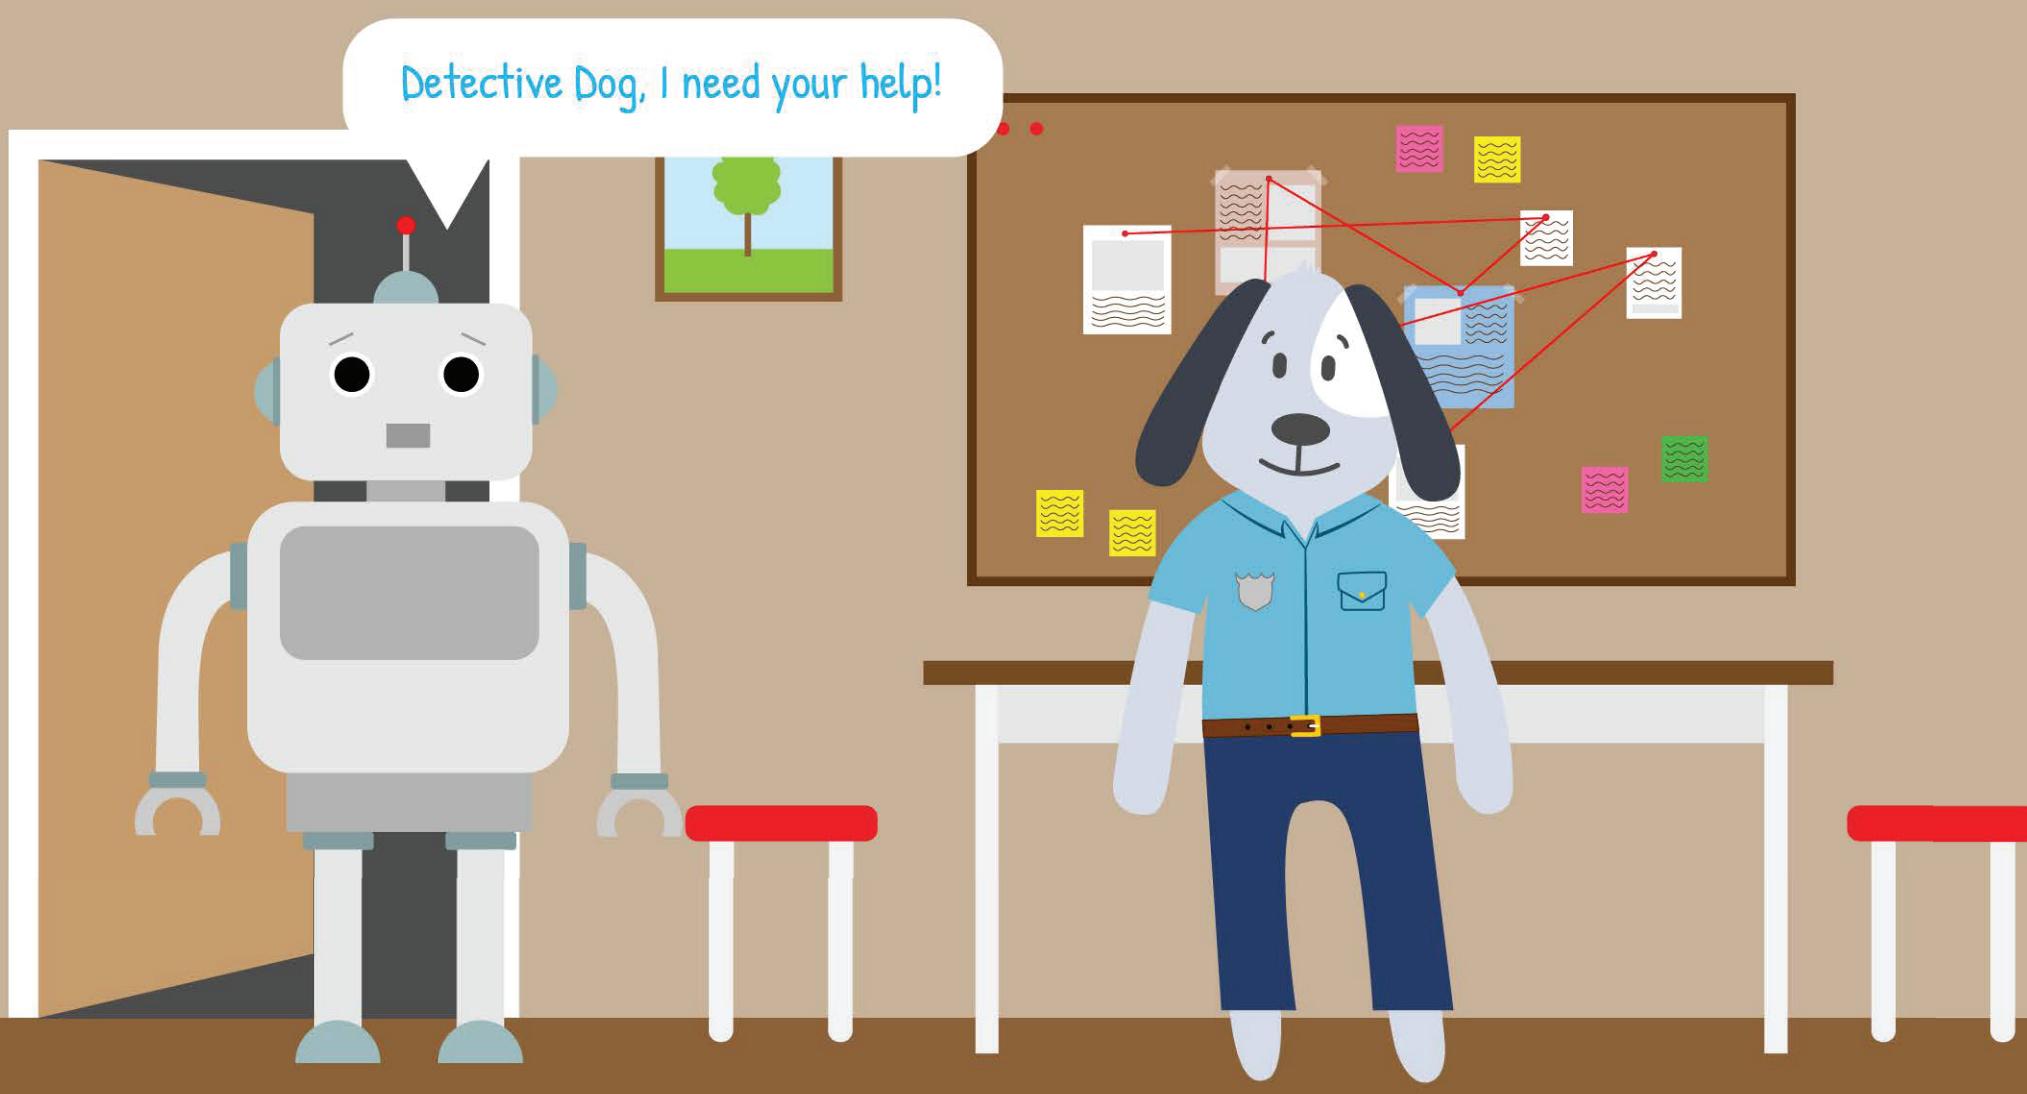

Suddenly, Dog's door SLAMS open!

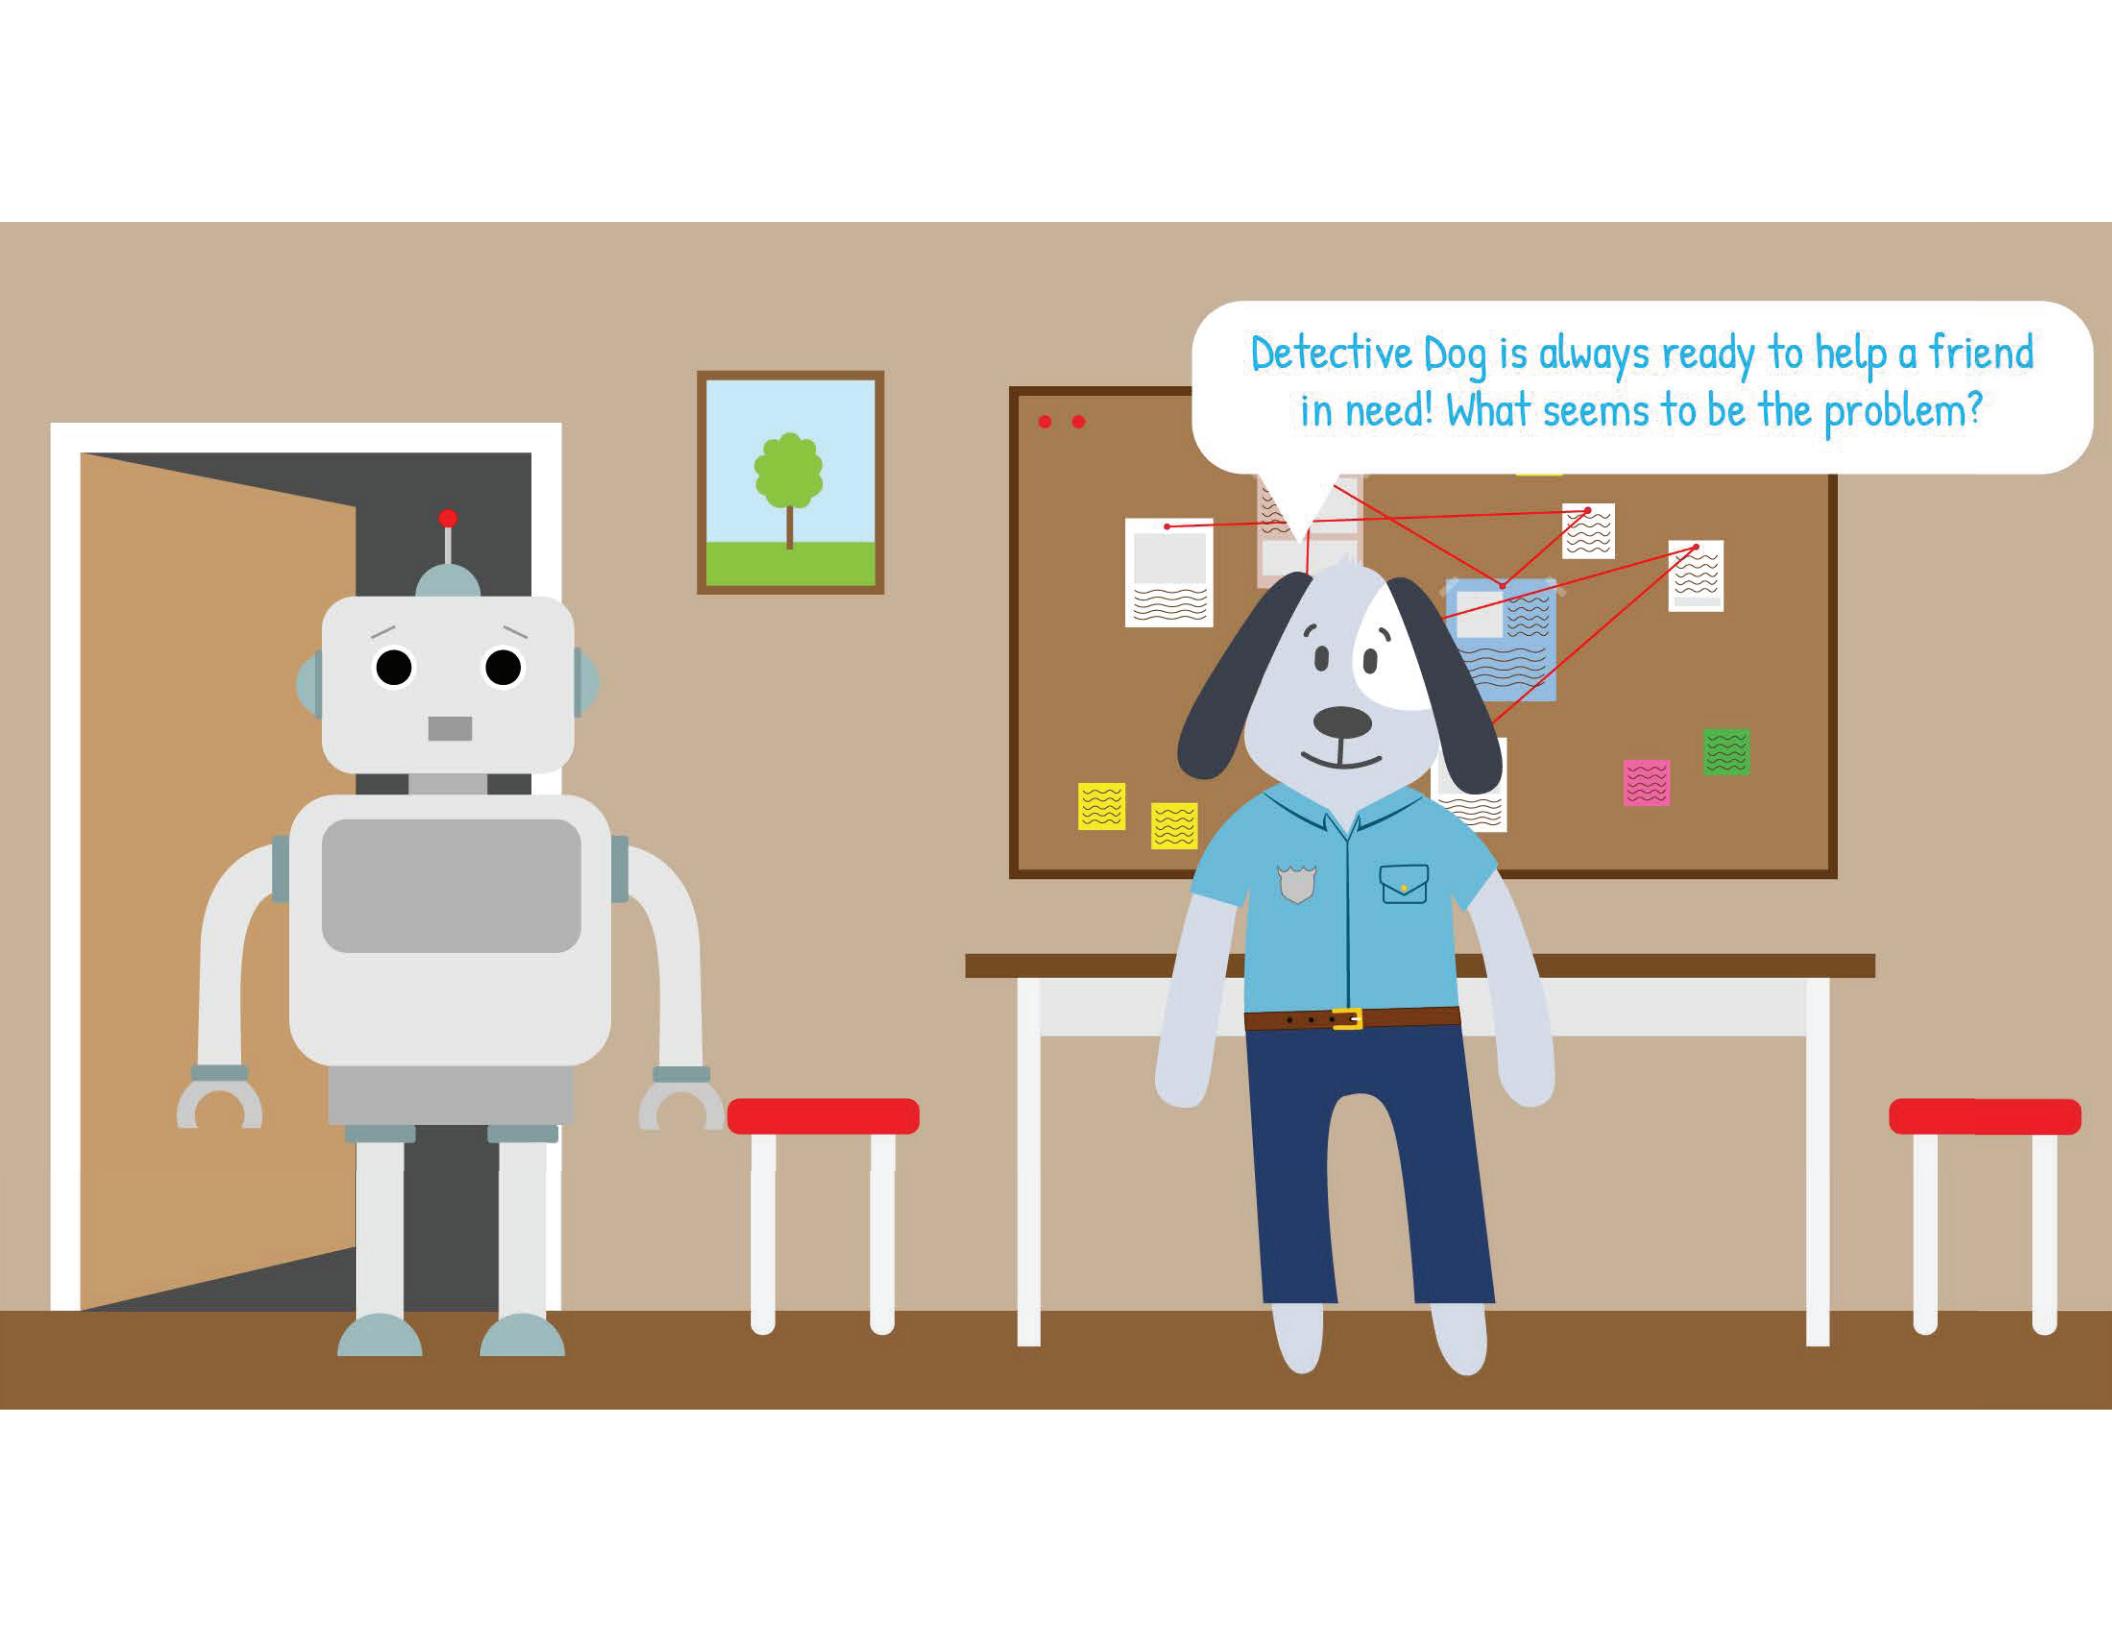

**\*BANG\***

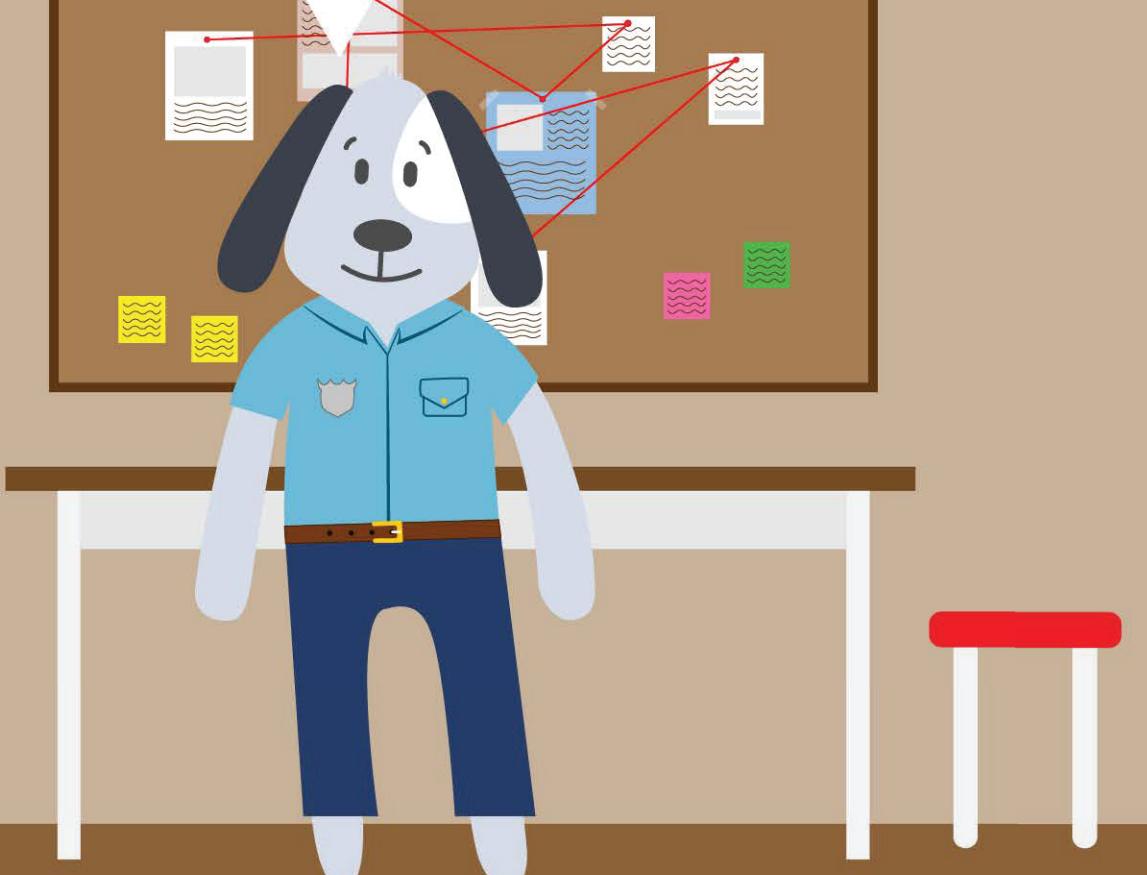

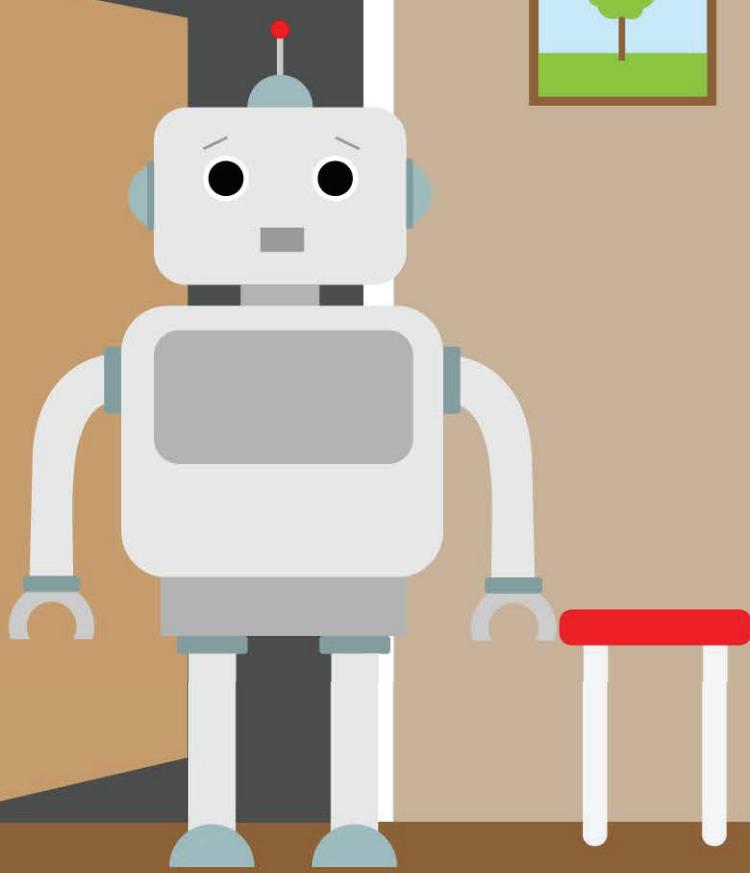

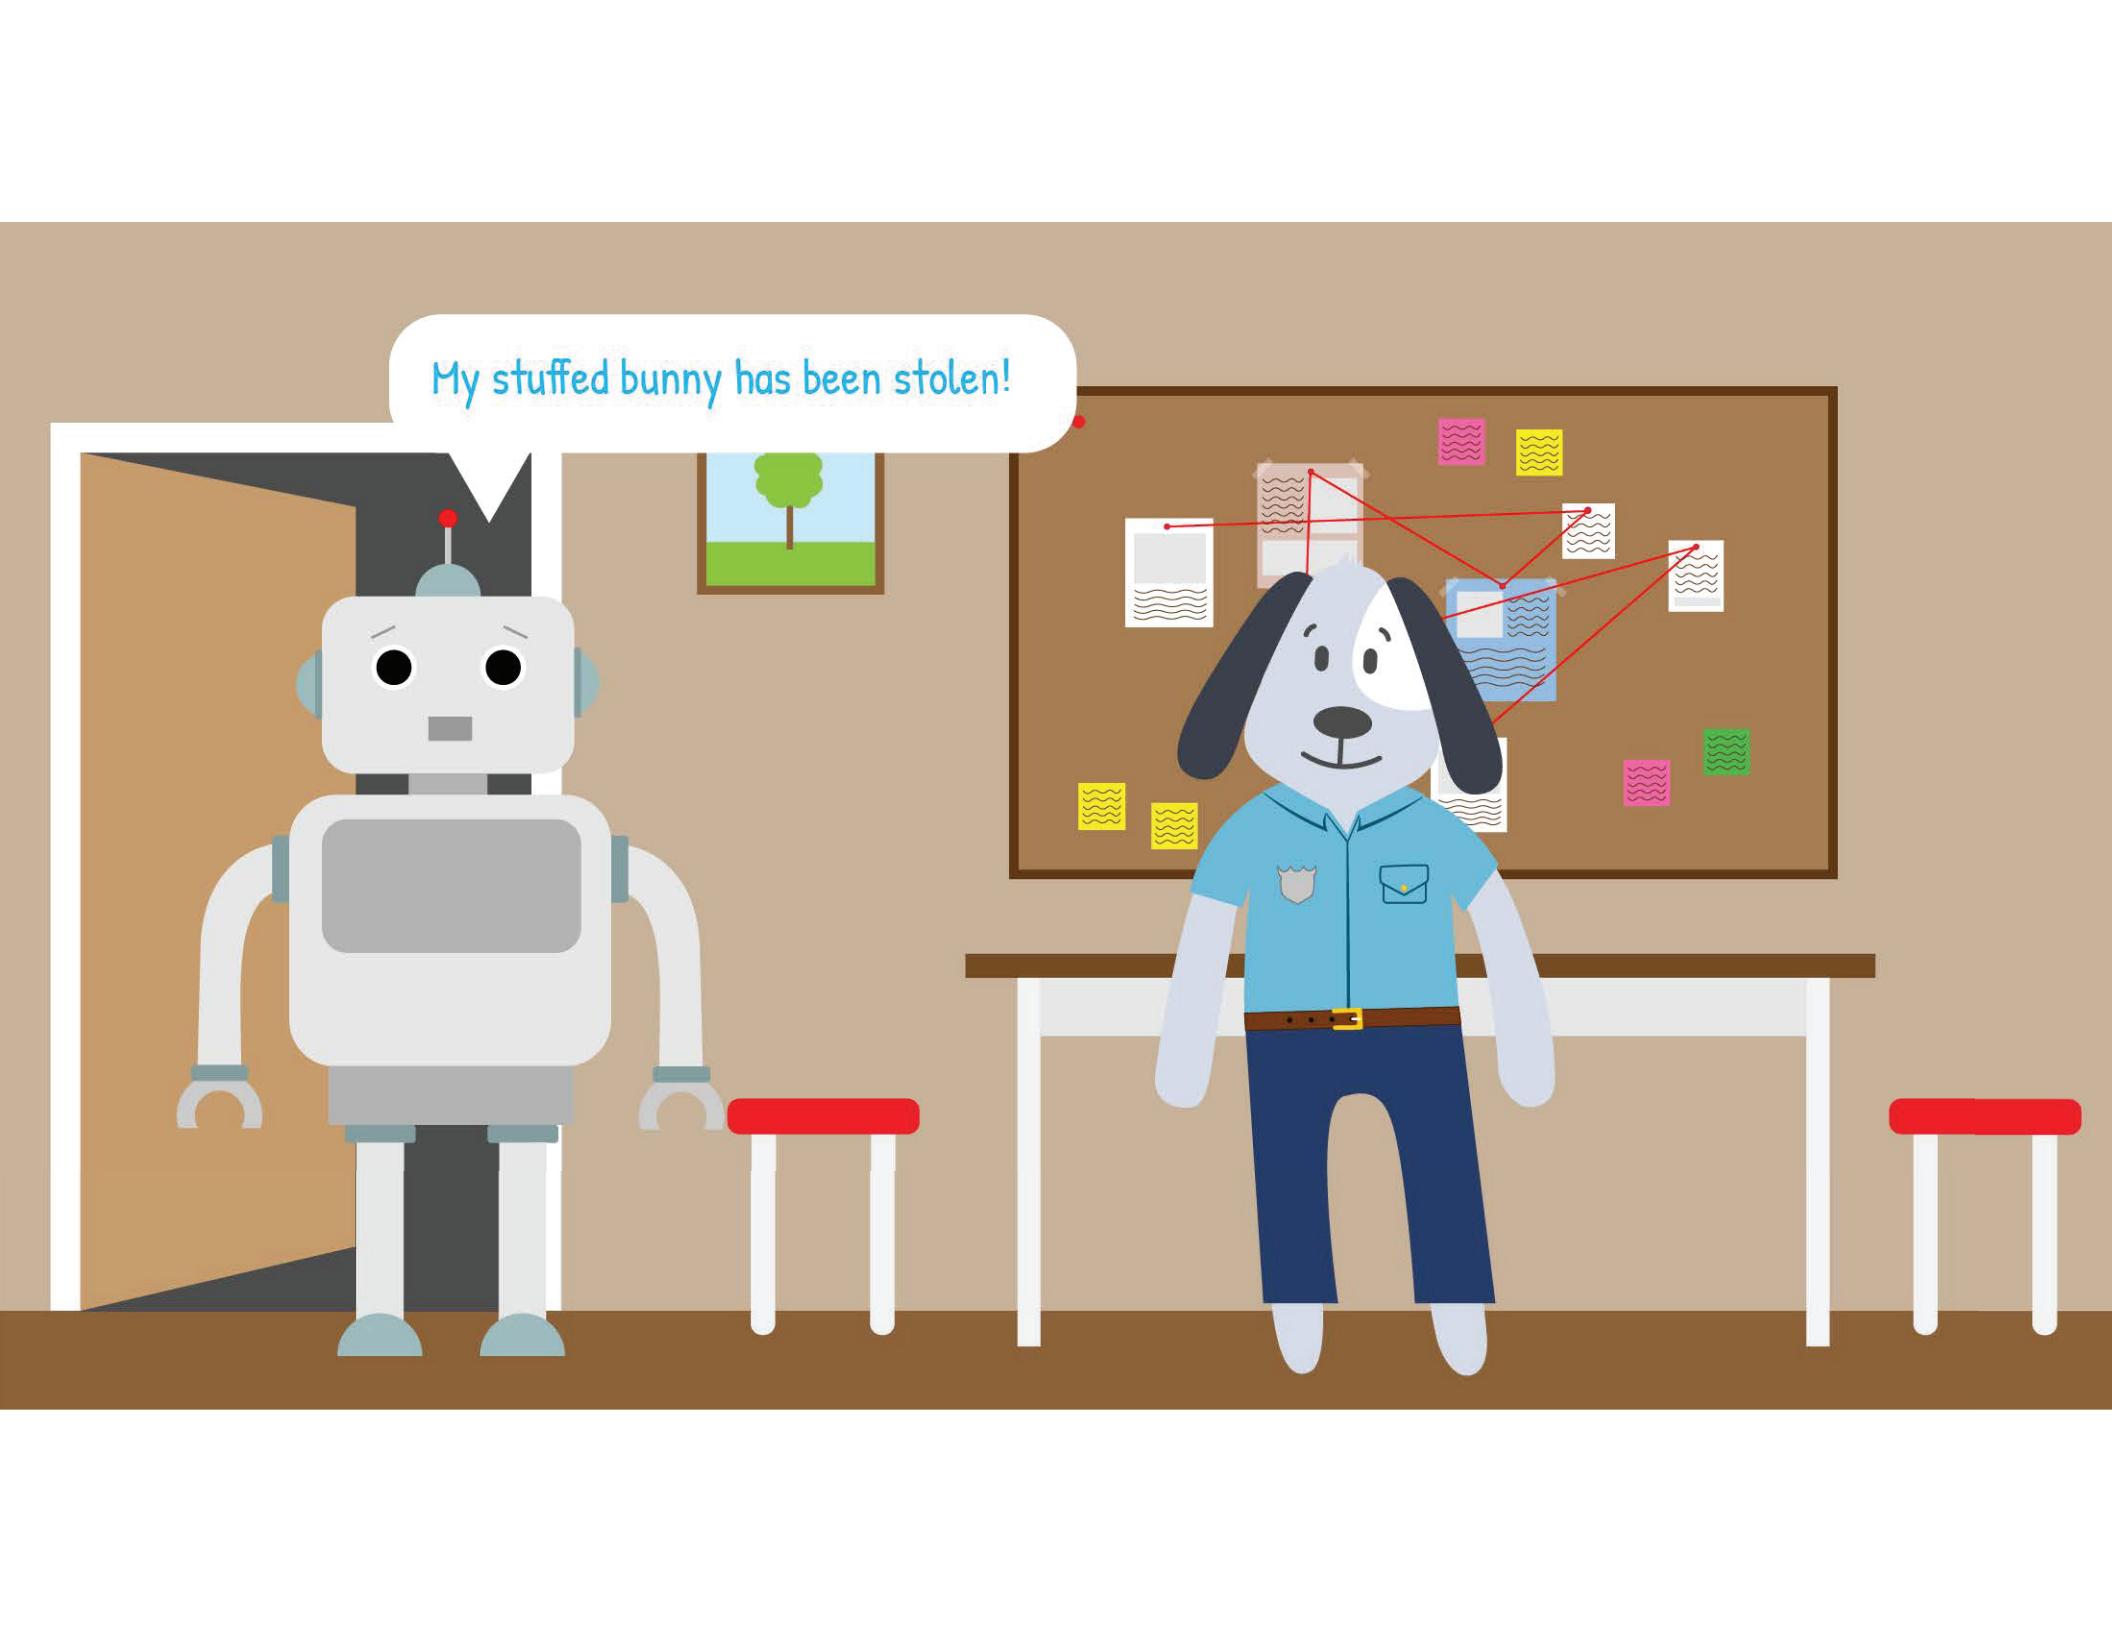

Detective Dog, I need your help!

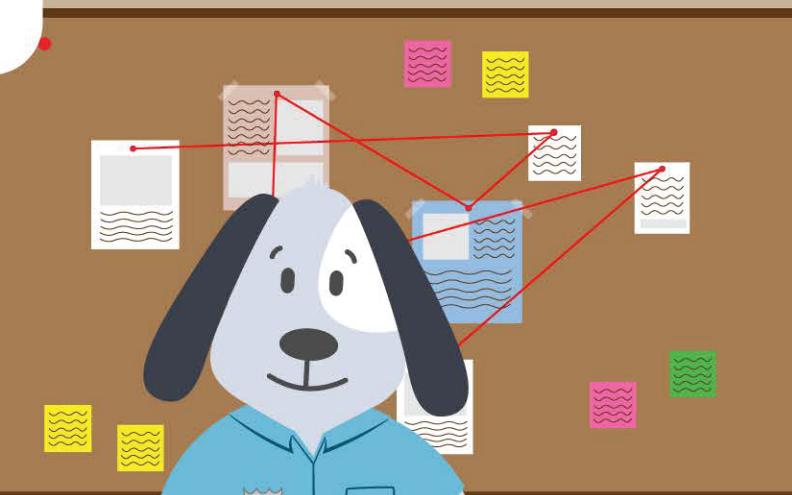

Detective Dog is always ready to help a friend  
in need! What seems to be the problem?

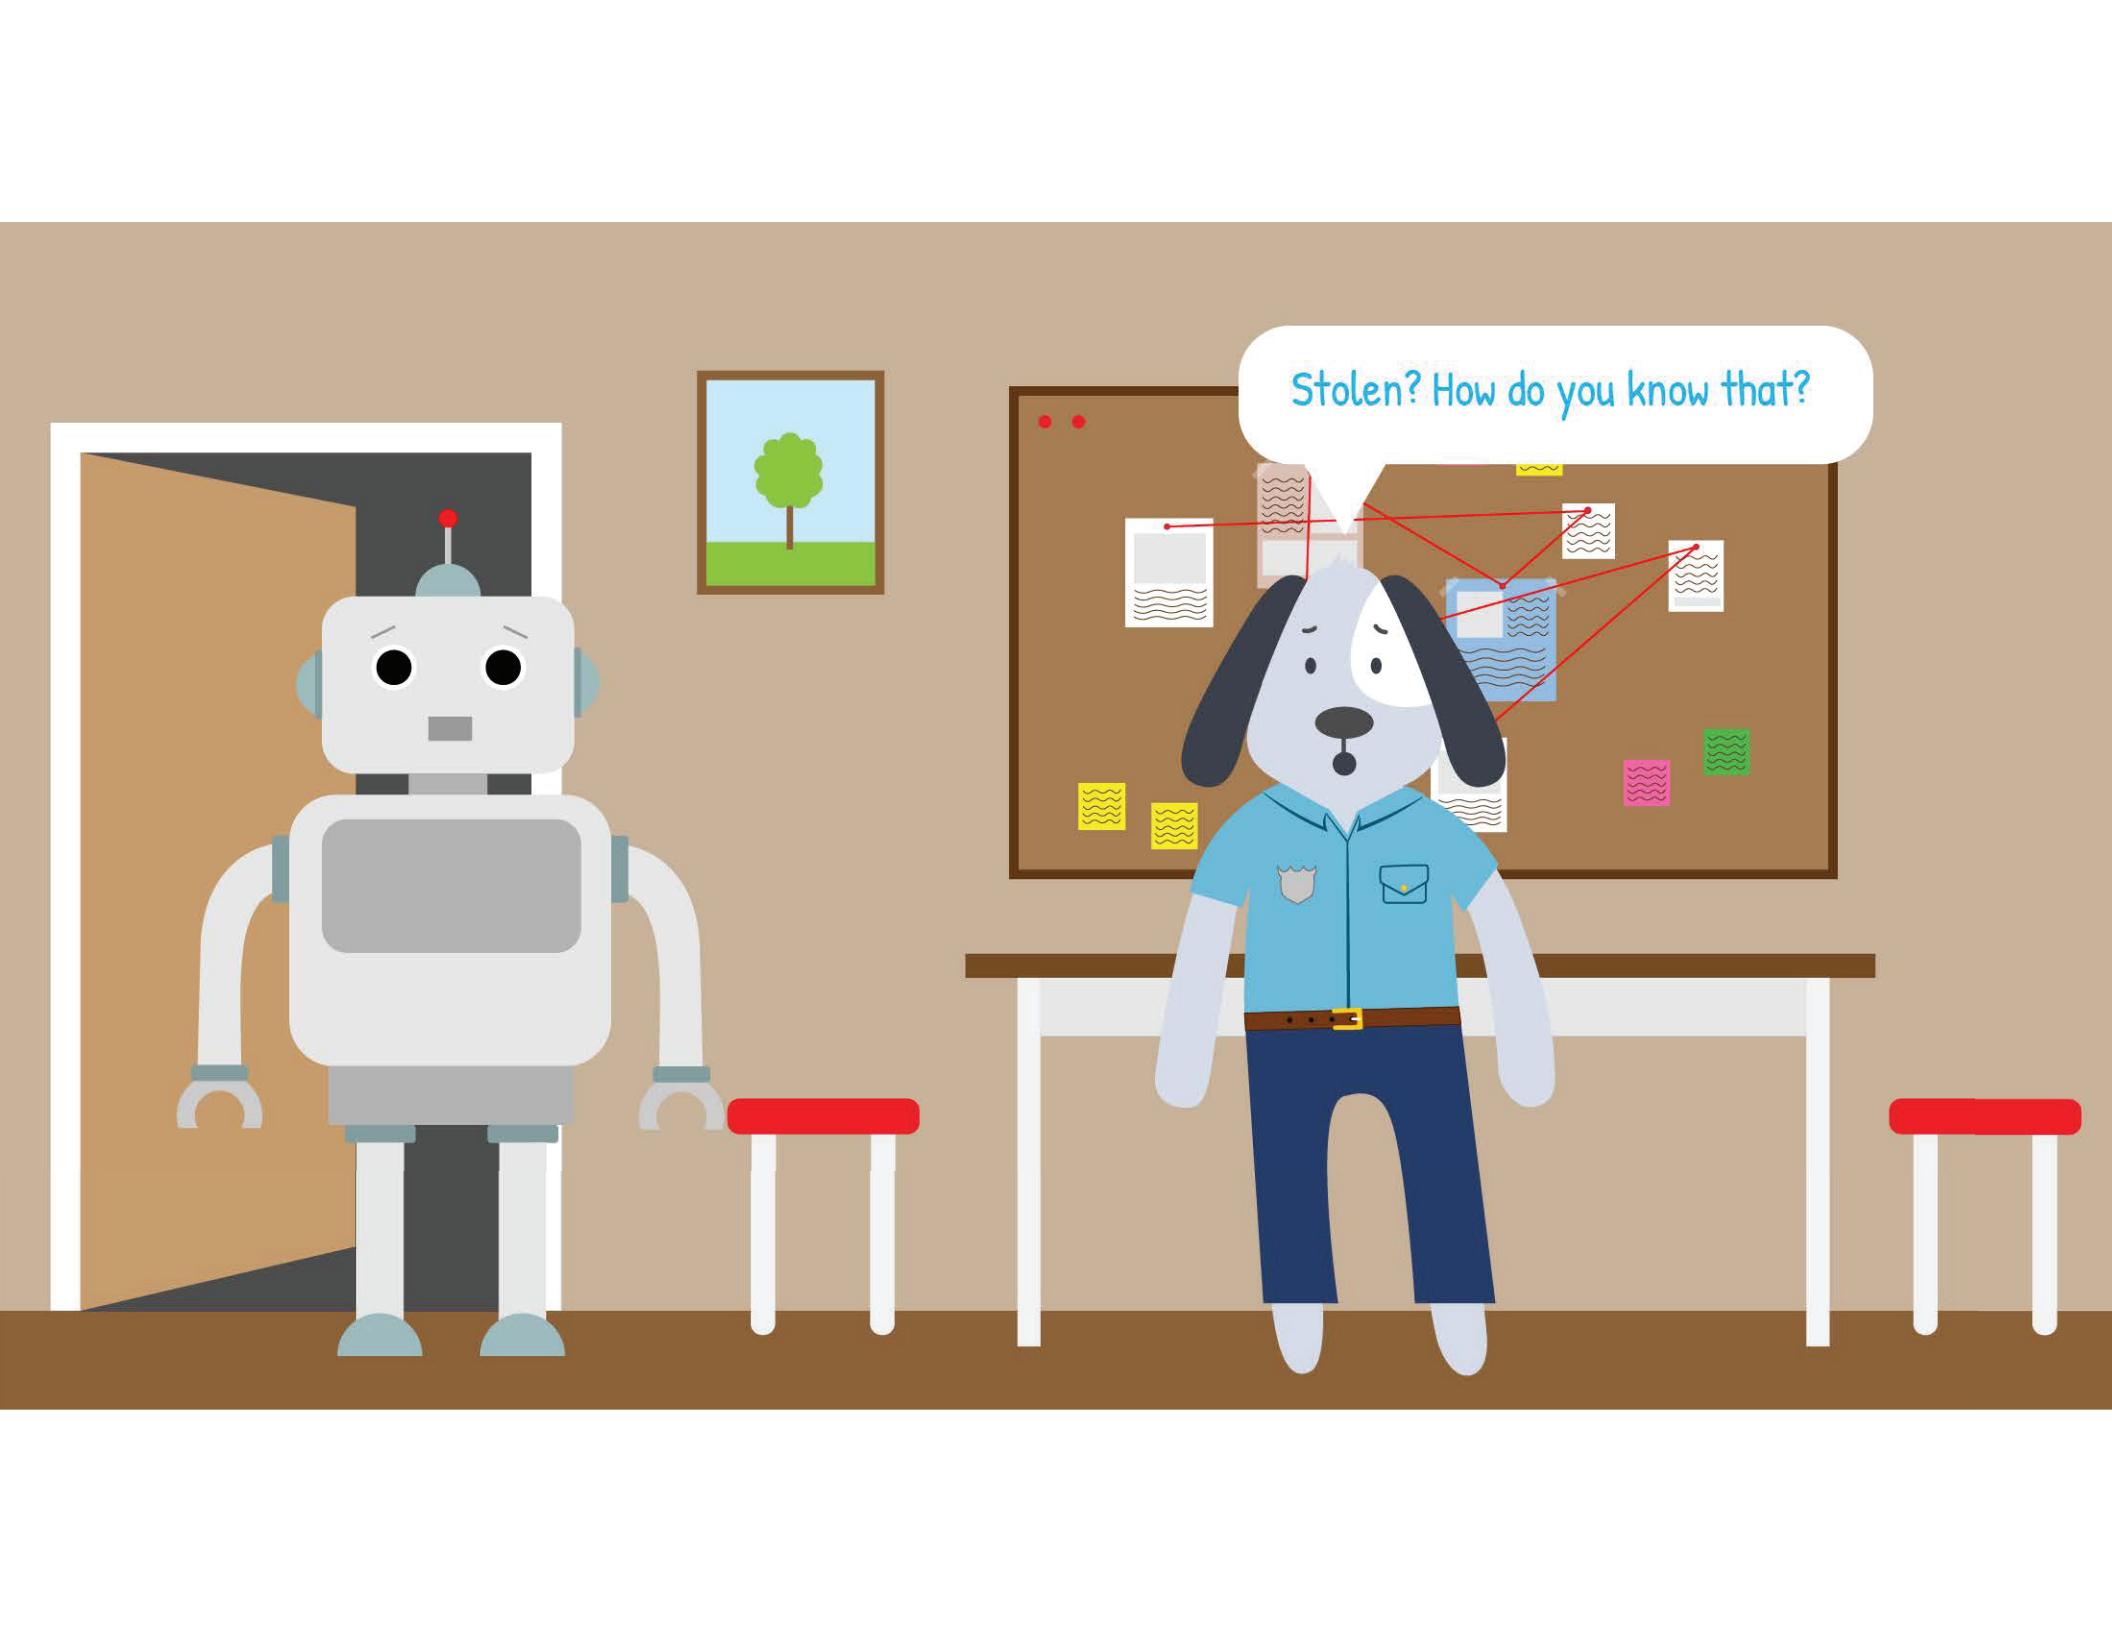

A white robot with a grey torso and teal arms and legs stands on the left, facing a dog. The dog, wearing a blue shirt with a badge and dark blue pants, stands on the right. They are in a room with brown walls and a brown door. A red speech bubble from the robot contains the text "My stuffed bunny has been stolen!"

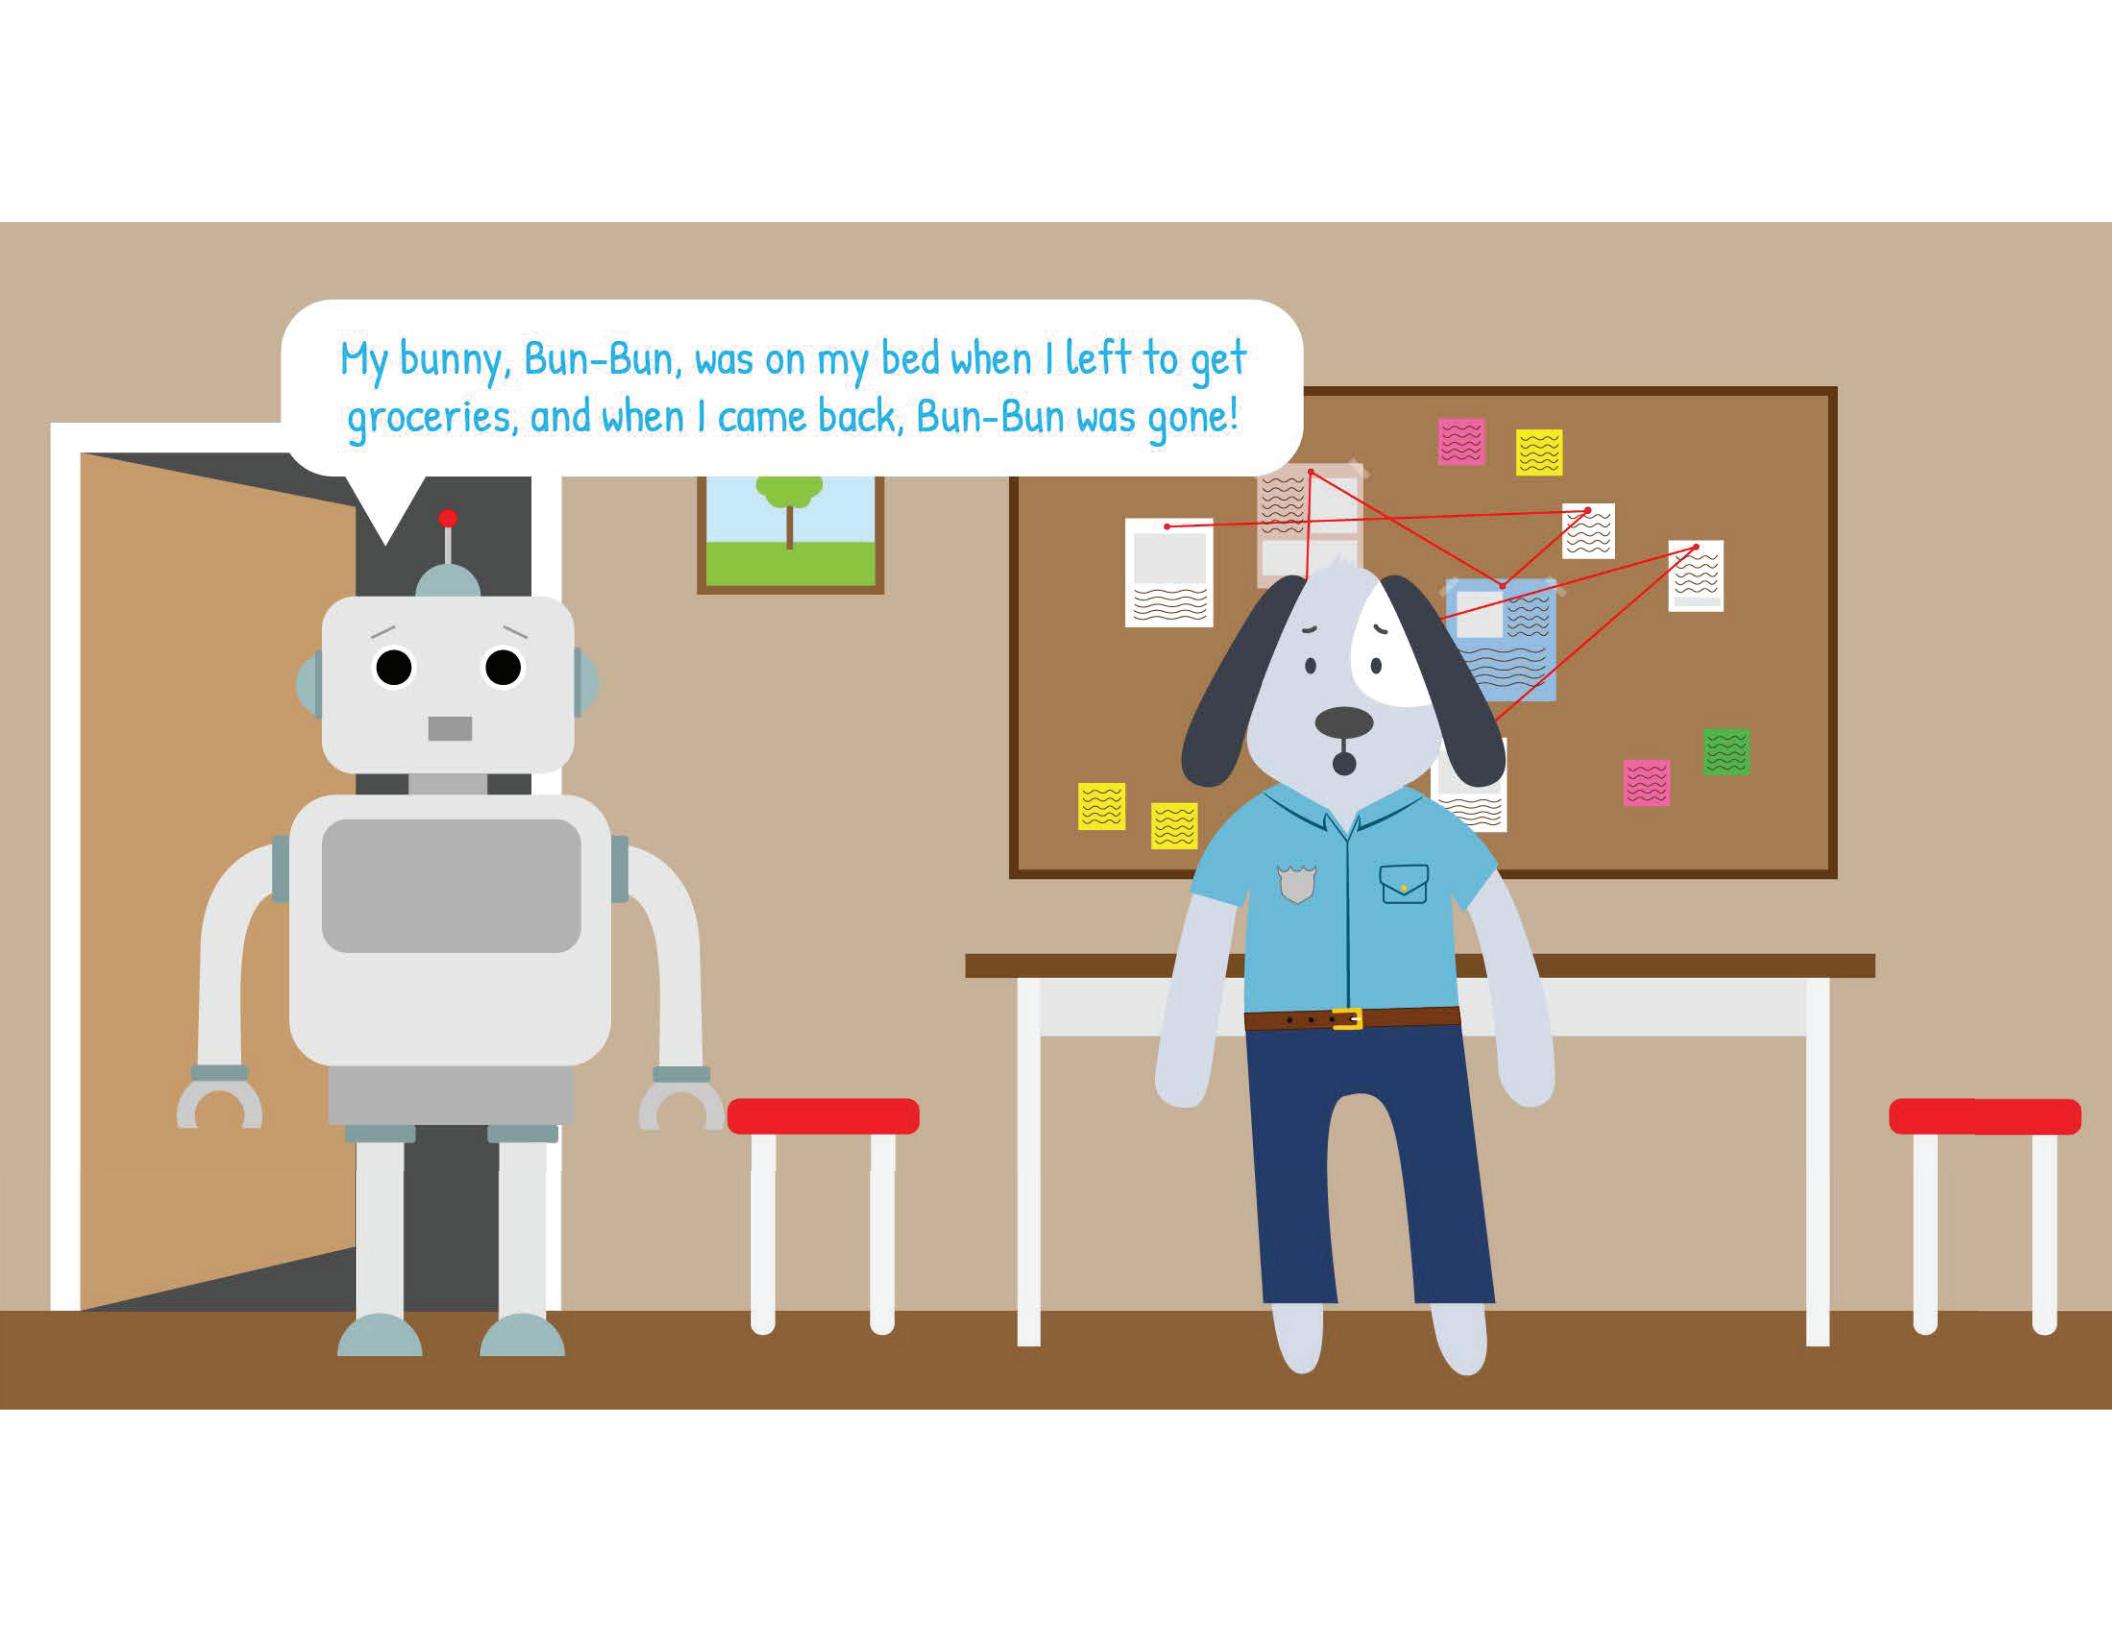

My stuffed bunny has been stolen!

A white robot with a grey torso and teal accents stands on the left. A dog in a blue uniform with a badge on the chest stands on the right. The dog is speaking, indicated by a speech bubble.

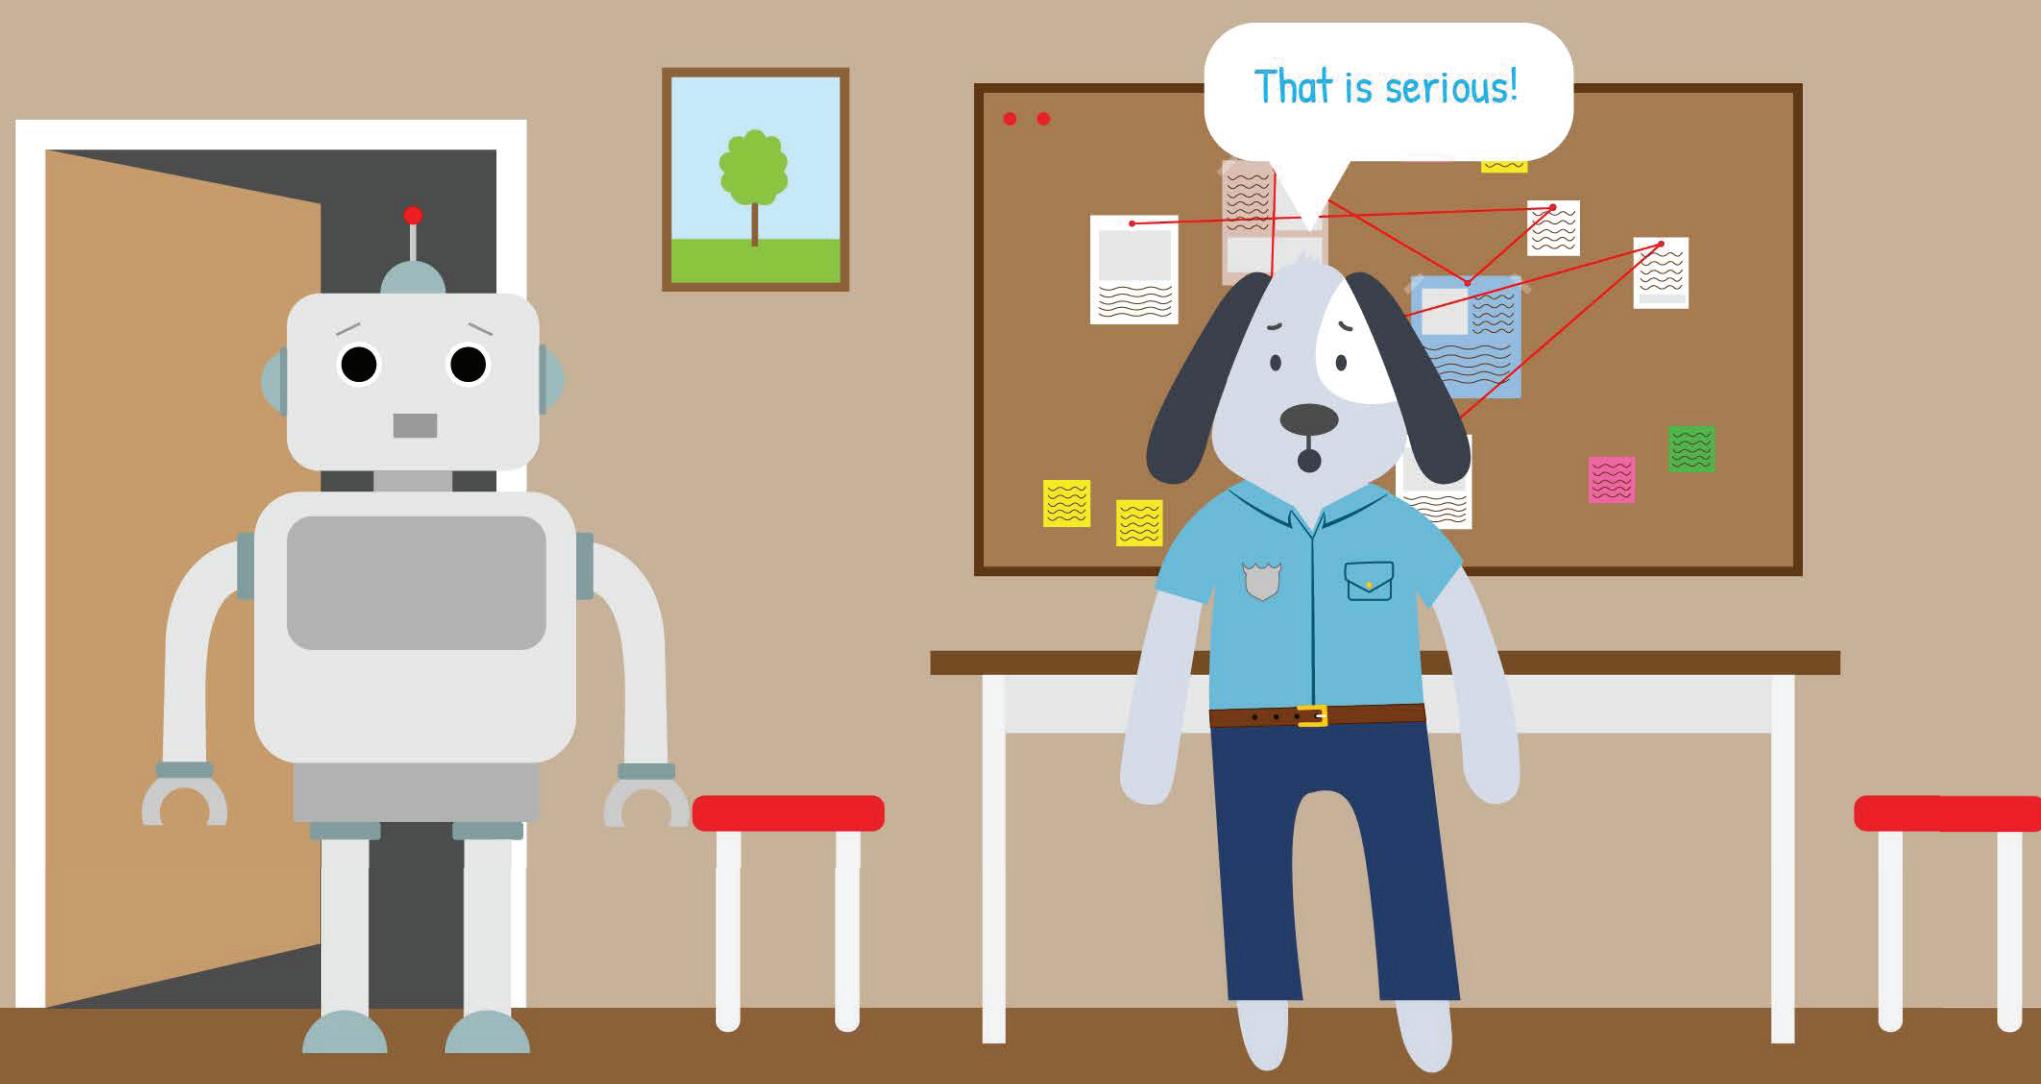

Stolen? How do you know that?

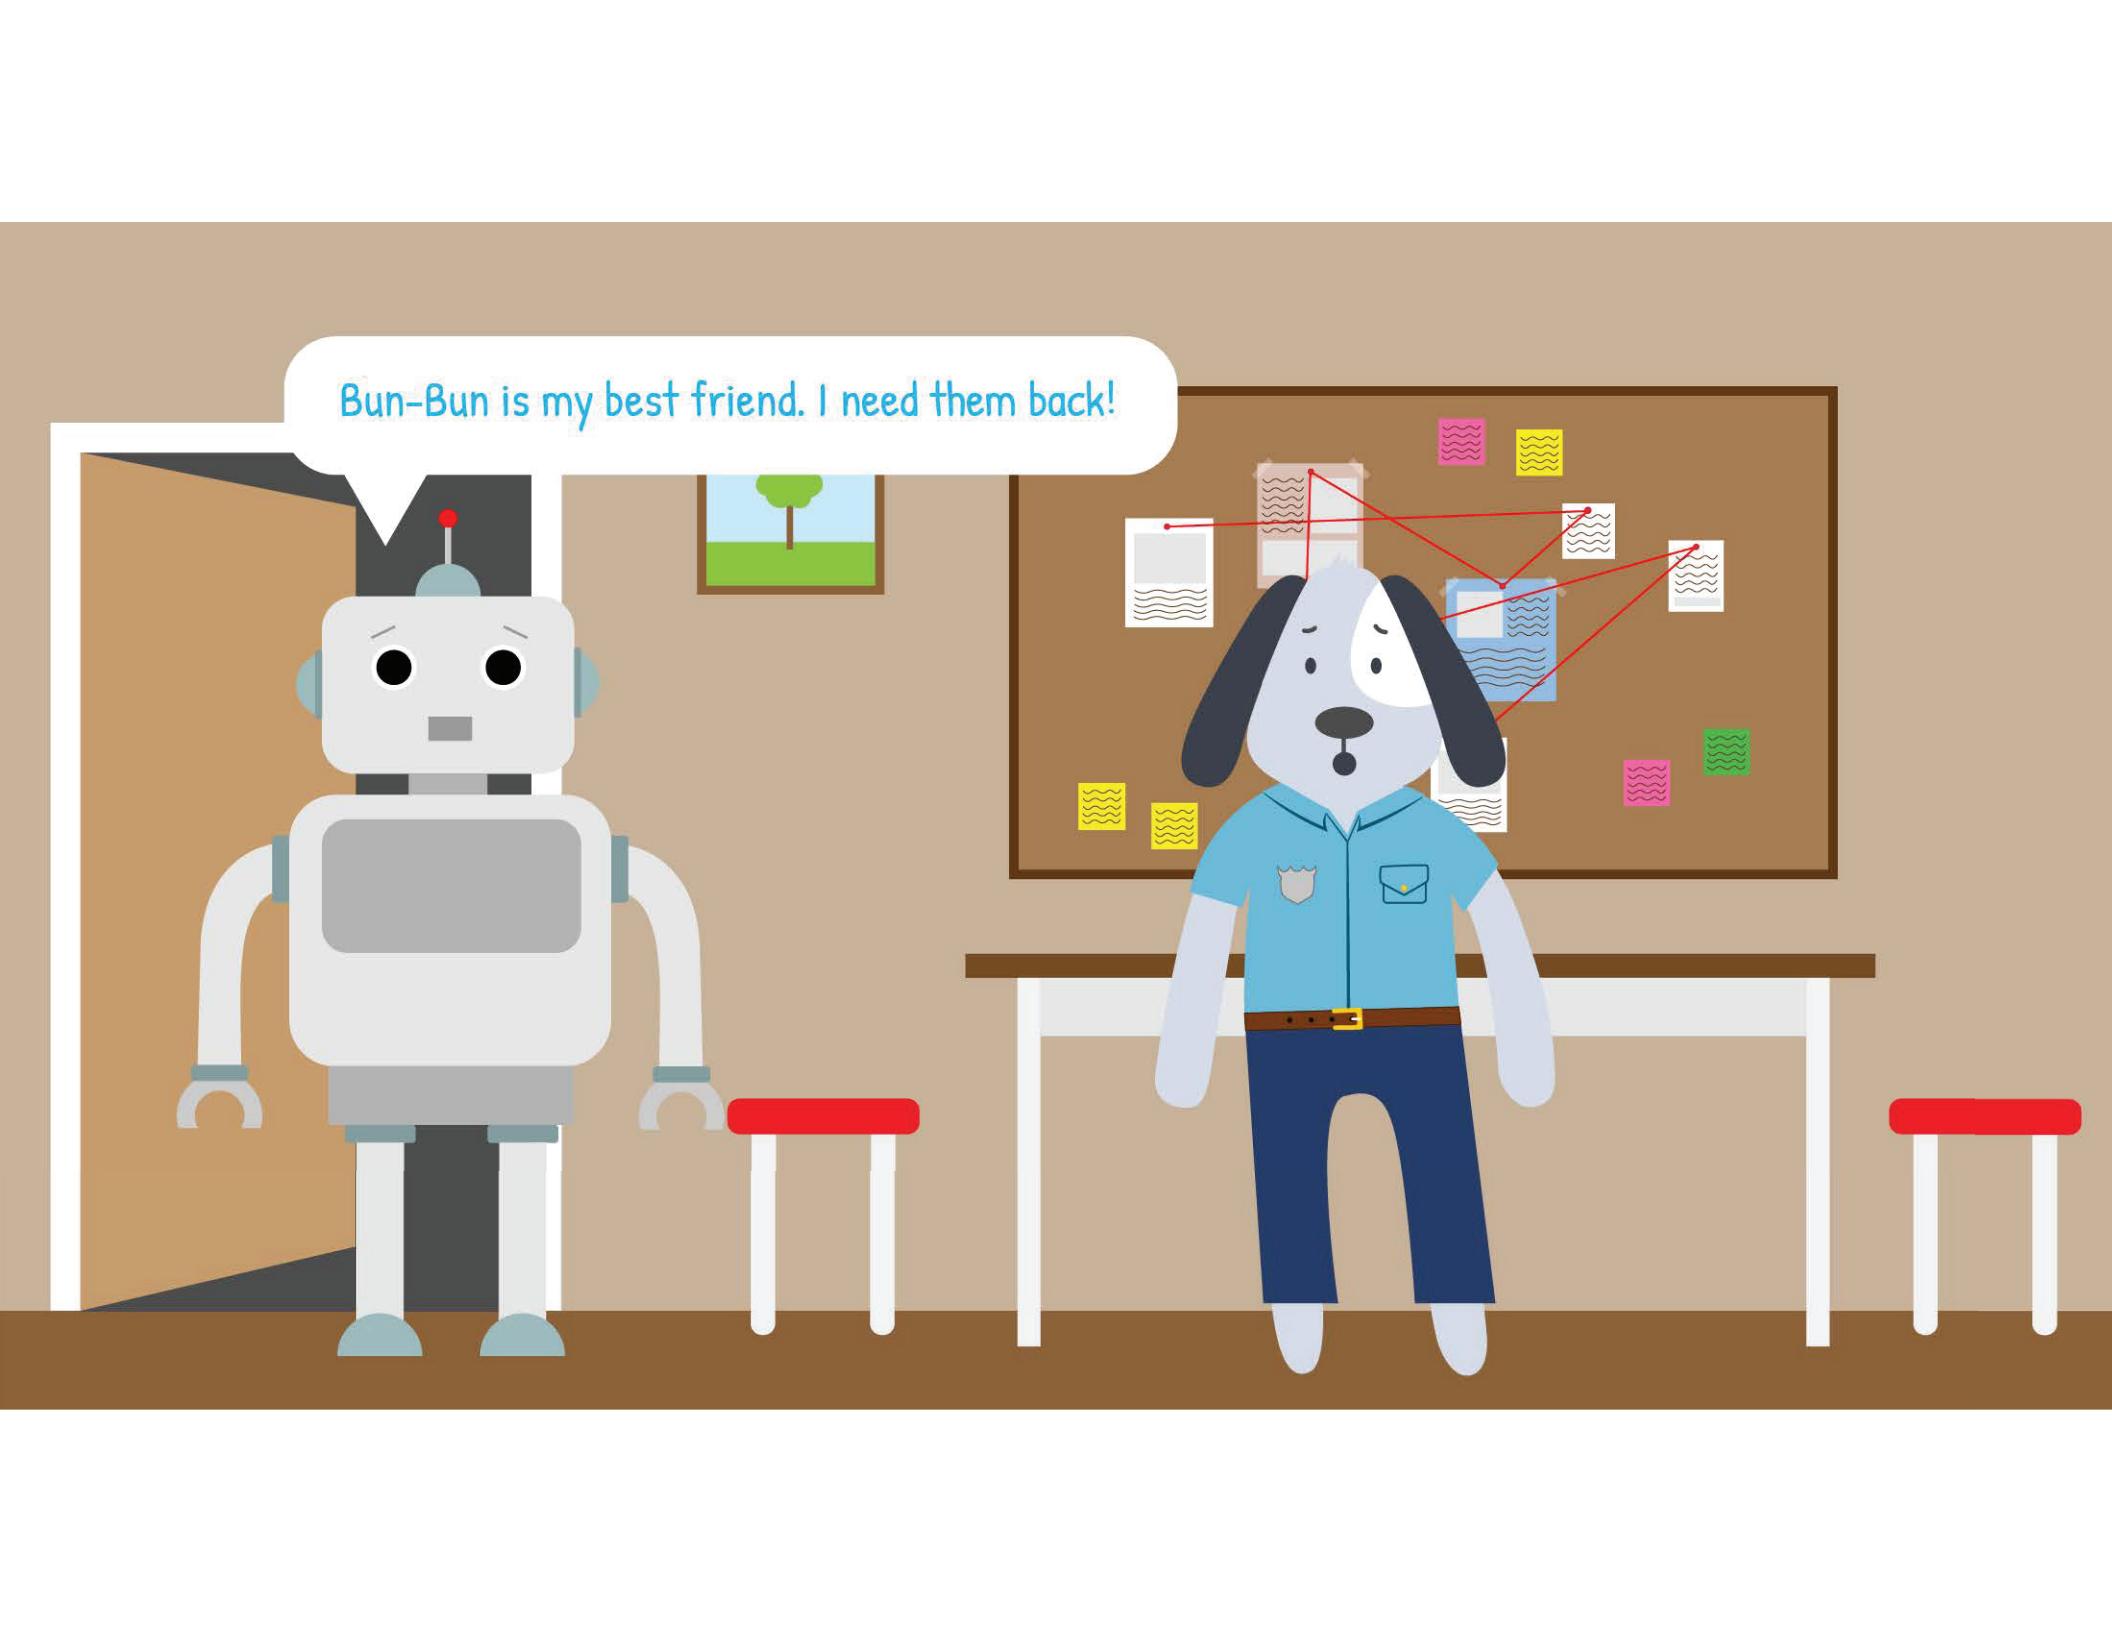

A white robot with a grey torso and teal joints stands on the left, facing a dog. The dog, wearing a blue shirt and dark blue pants, stands on the right, looking towards the robot. They are in a room with brown walls, a white floor, and a large window on the right showing a landscape. A speech bubble from the robot contains the text.

My bunny, Bun-Bun, was on my bed when I left to get groceries, and when I came back, Bun-Bun was gone!

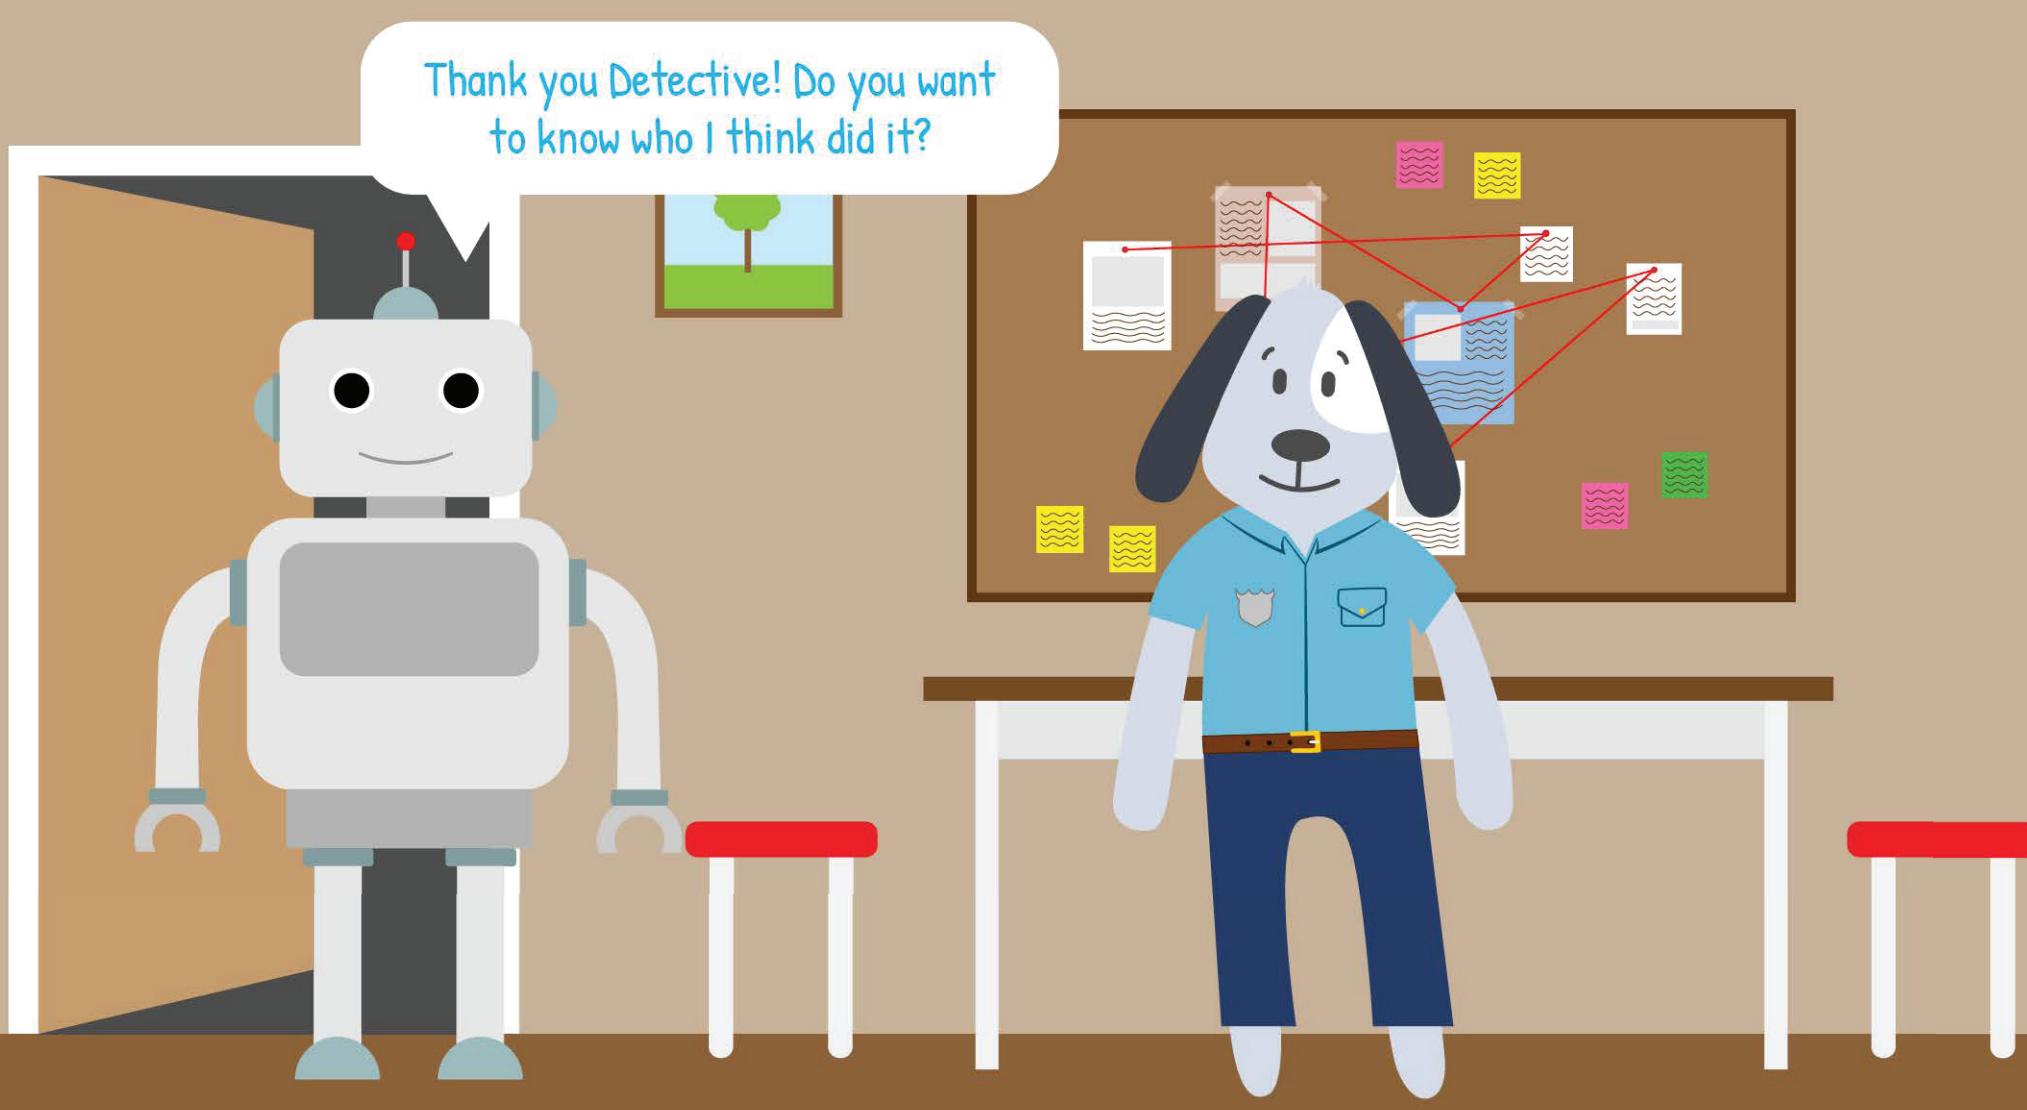

Bun-Bun is my best friend. I need them back!

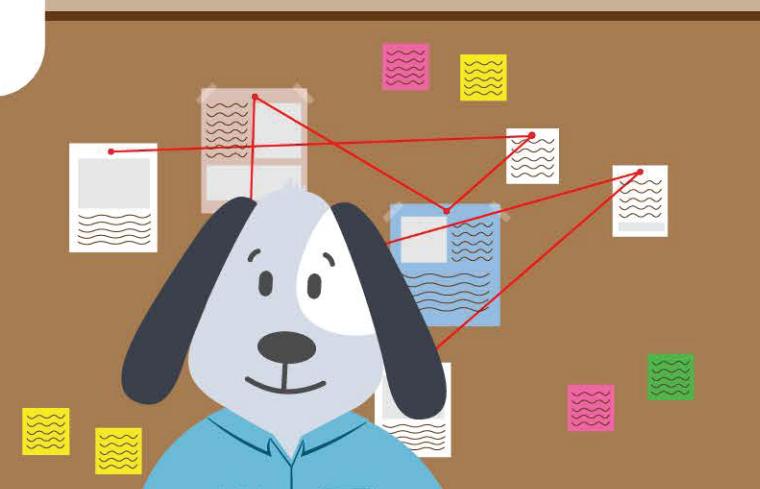

The illustration depicts a scene in a room with beige walls. On the left, a white and grey robot stands facing right. It has a rectangular torso with a grey panel, two blue cylindrical arms, and two grey legs. A speech bubble above it contains the text "Bun-Bun is my best friend. I need them back!". On the right, a white dog with black ears and a black nose stands facing left. The dog is wearing a light blue short-sleeved shirt with a small badge on the chest and dark blue pants. Red lines connect the dog's head to several small, colorful squares (pink, yellow, green) on the wall behind it. In the background, there is a brown chalkboard with a white frame, a small framed picture of a tree on the wall, and a red stool.

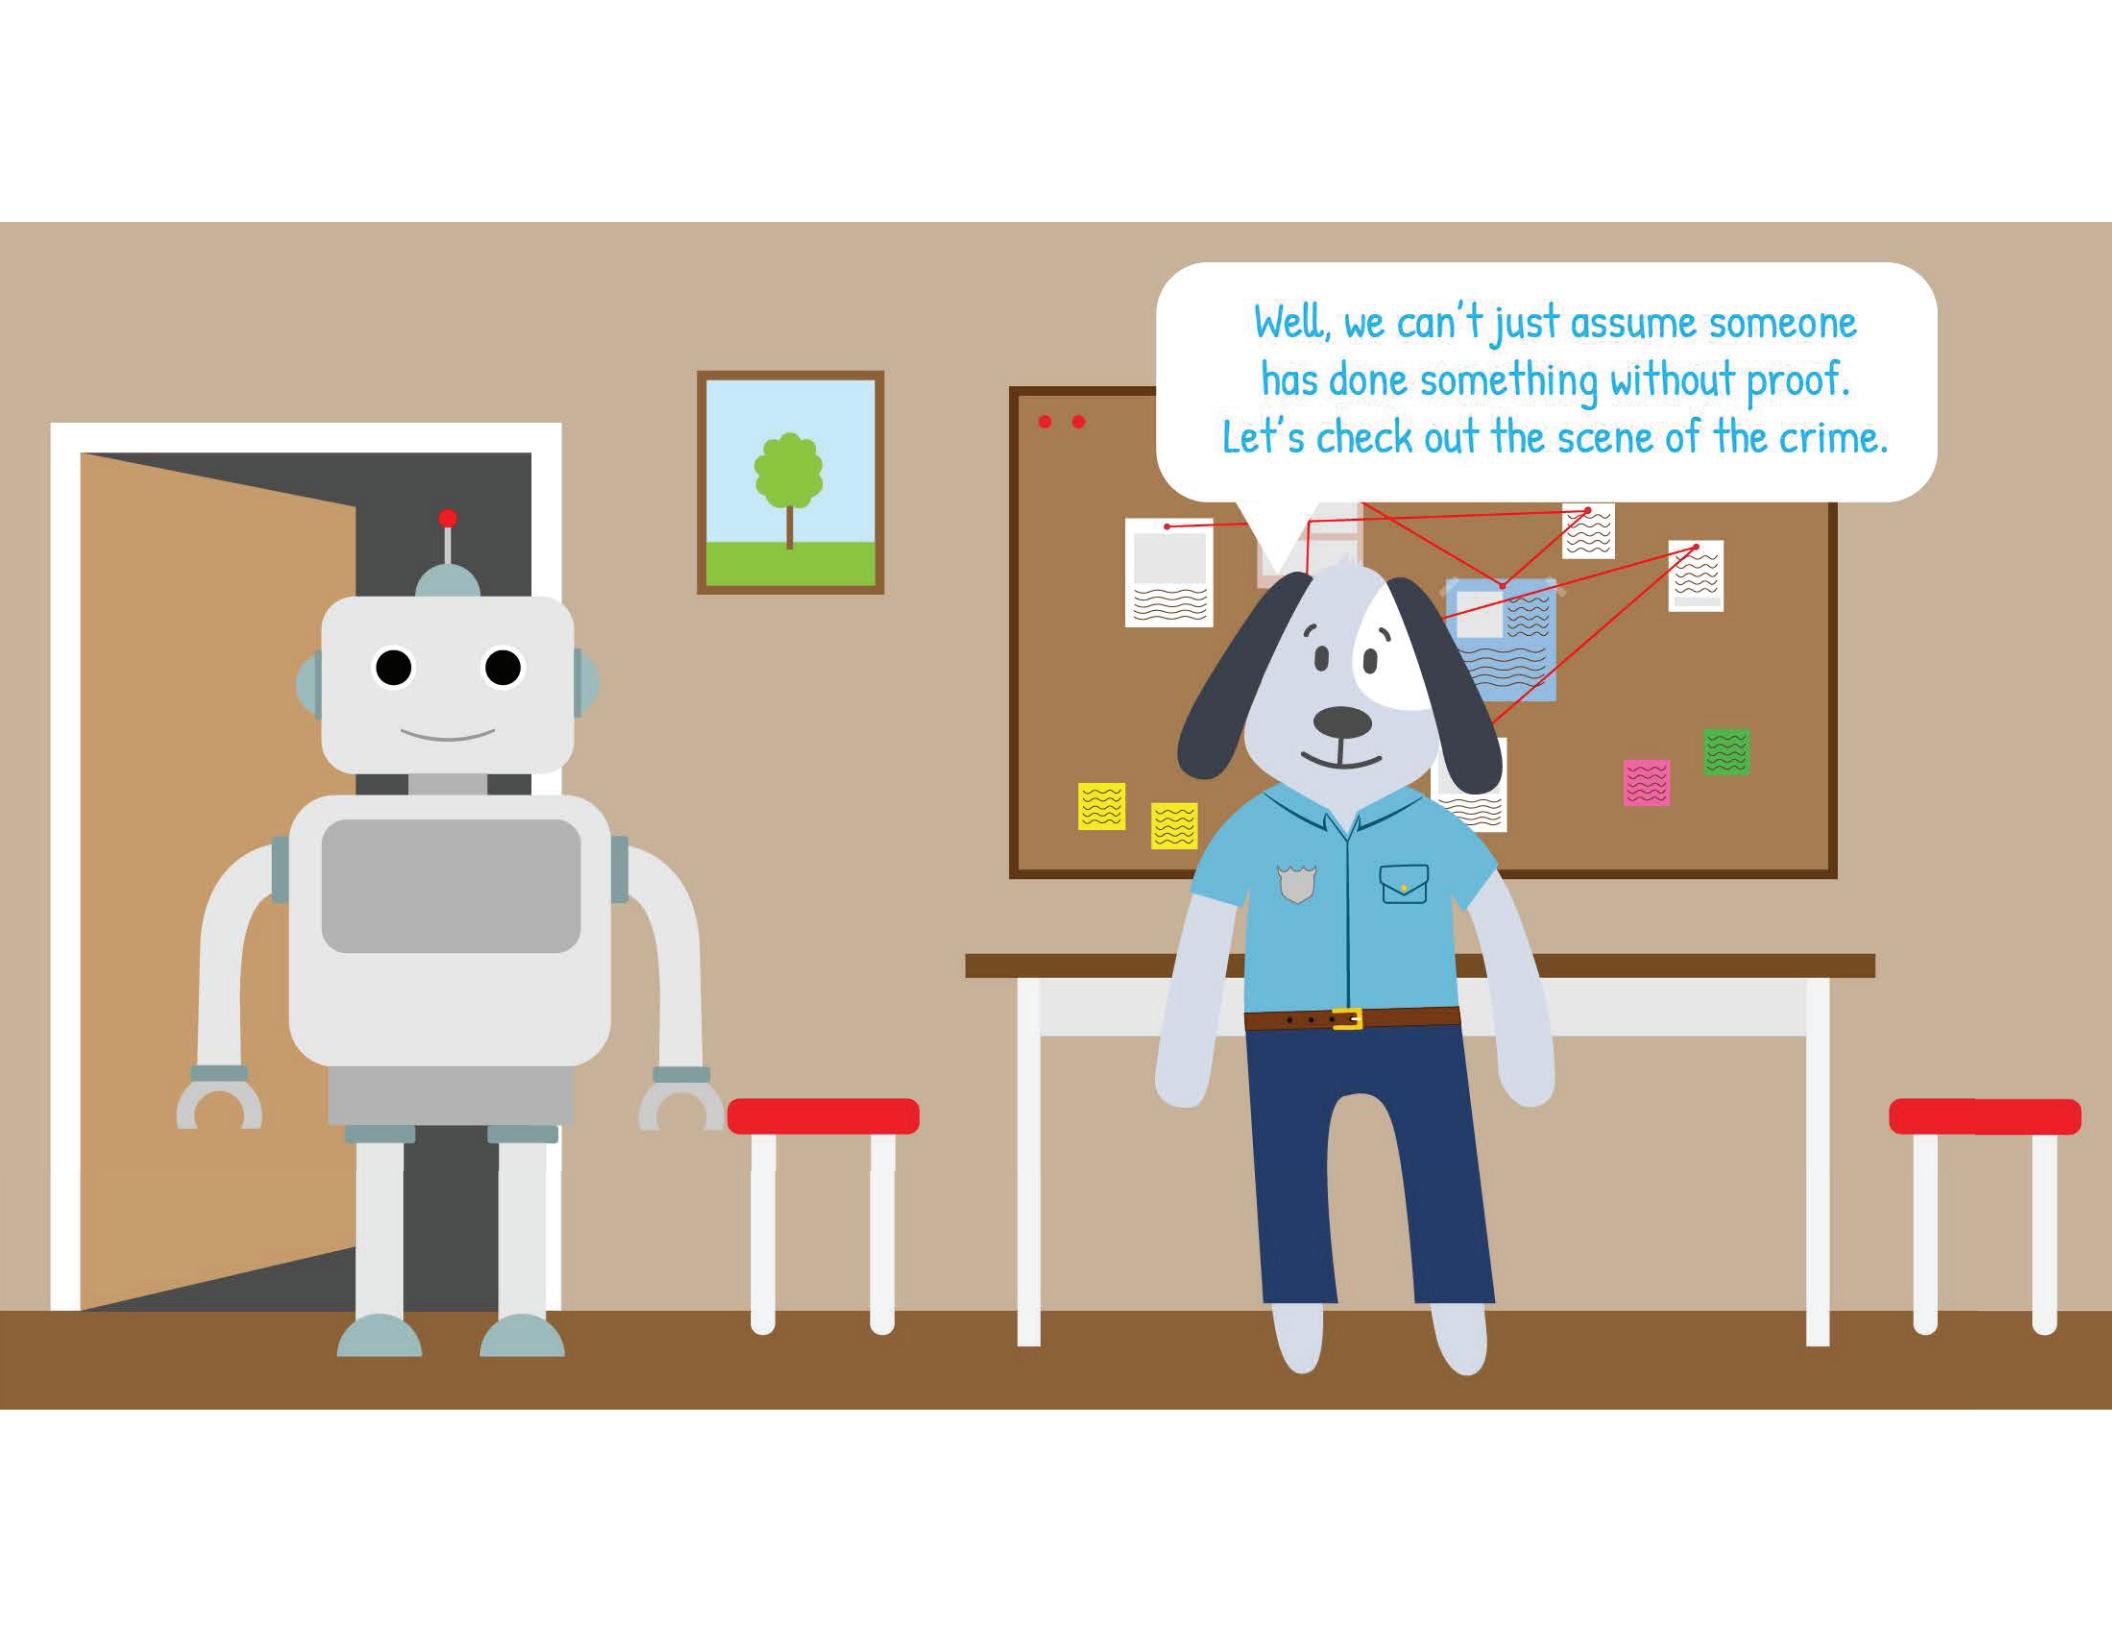

I will take the case!

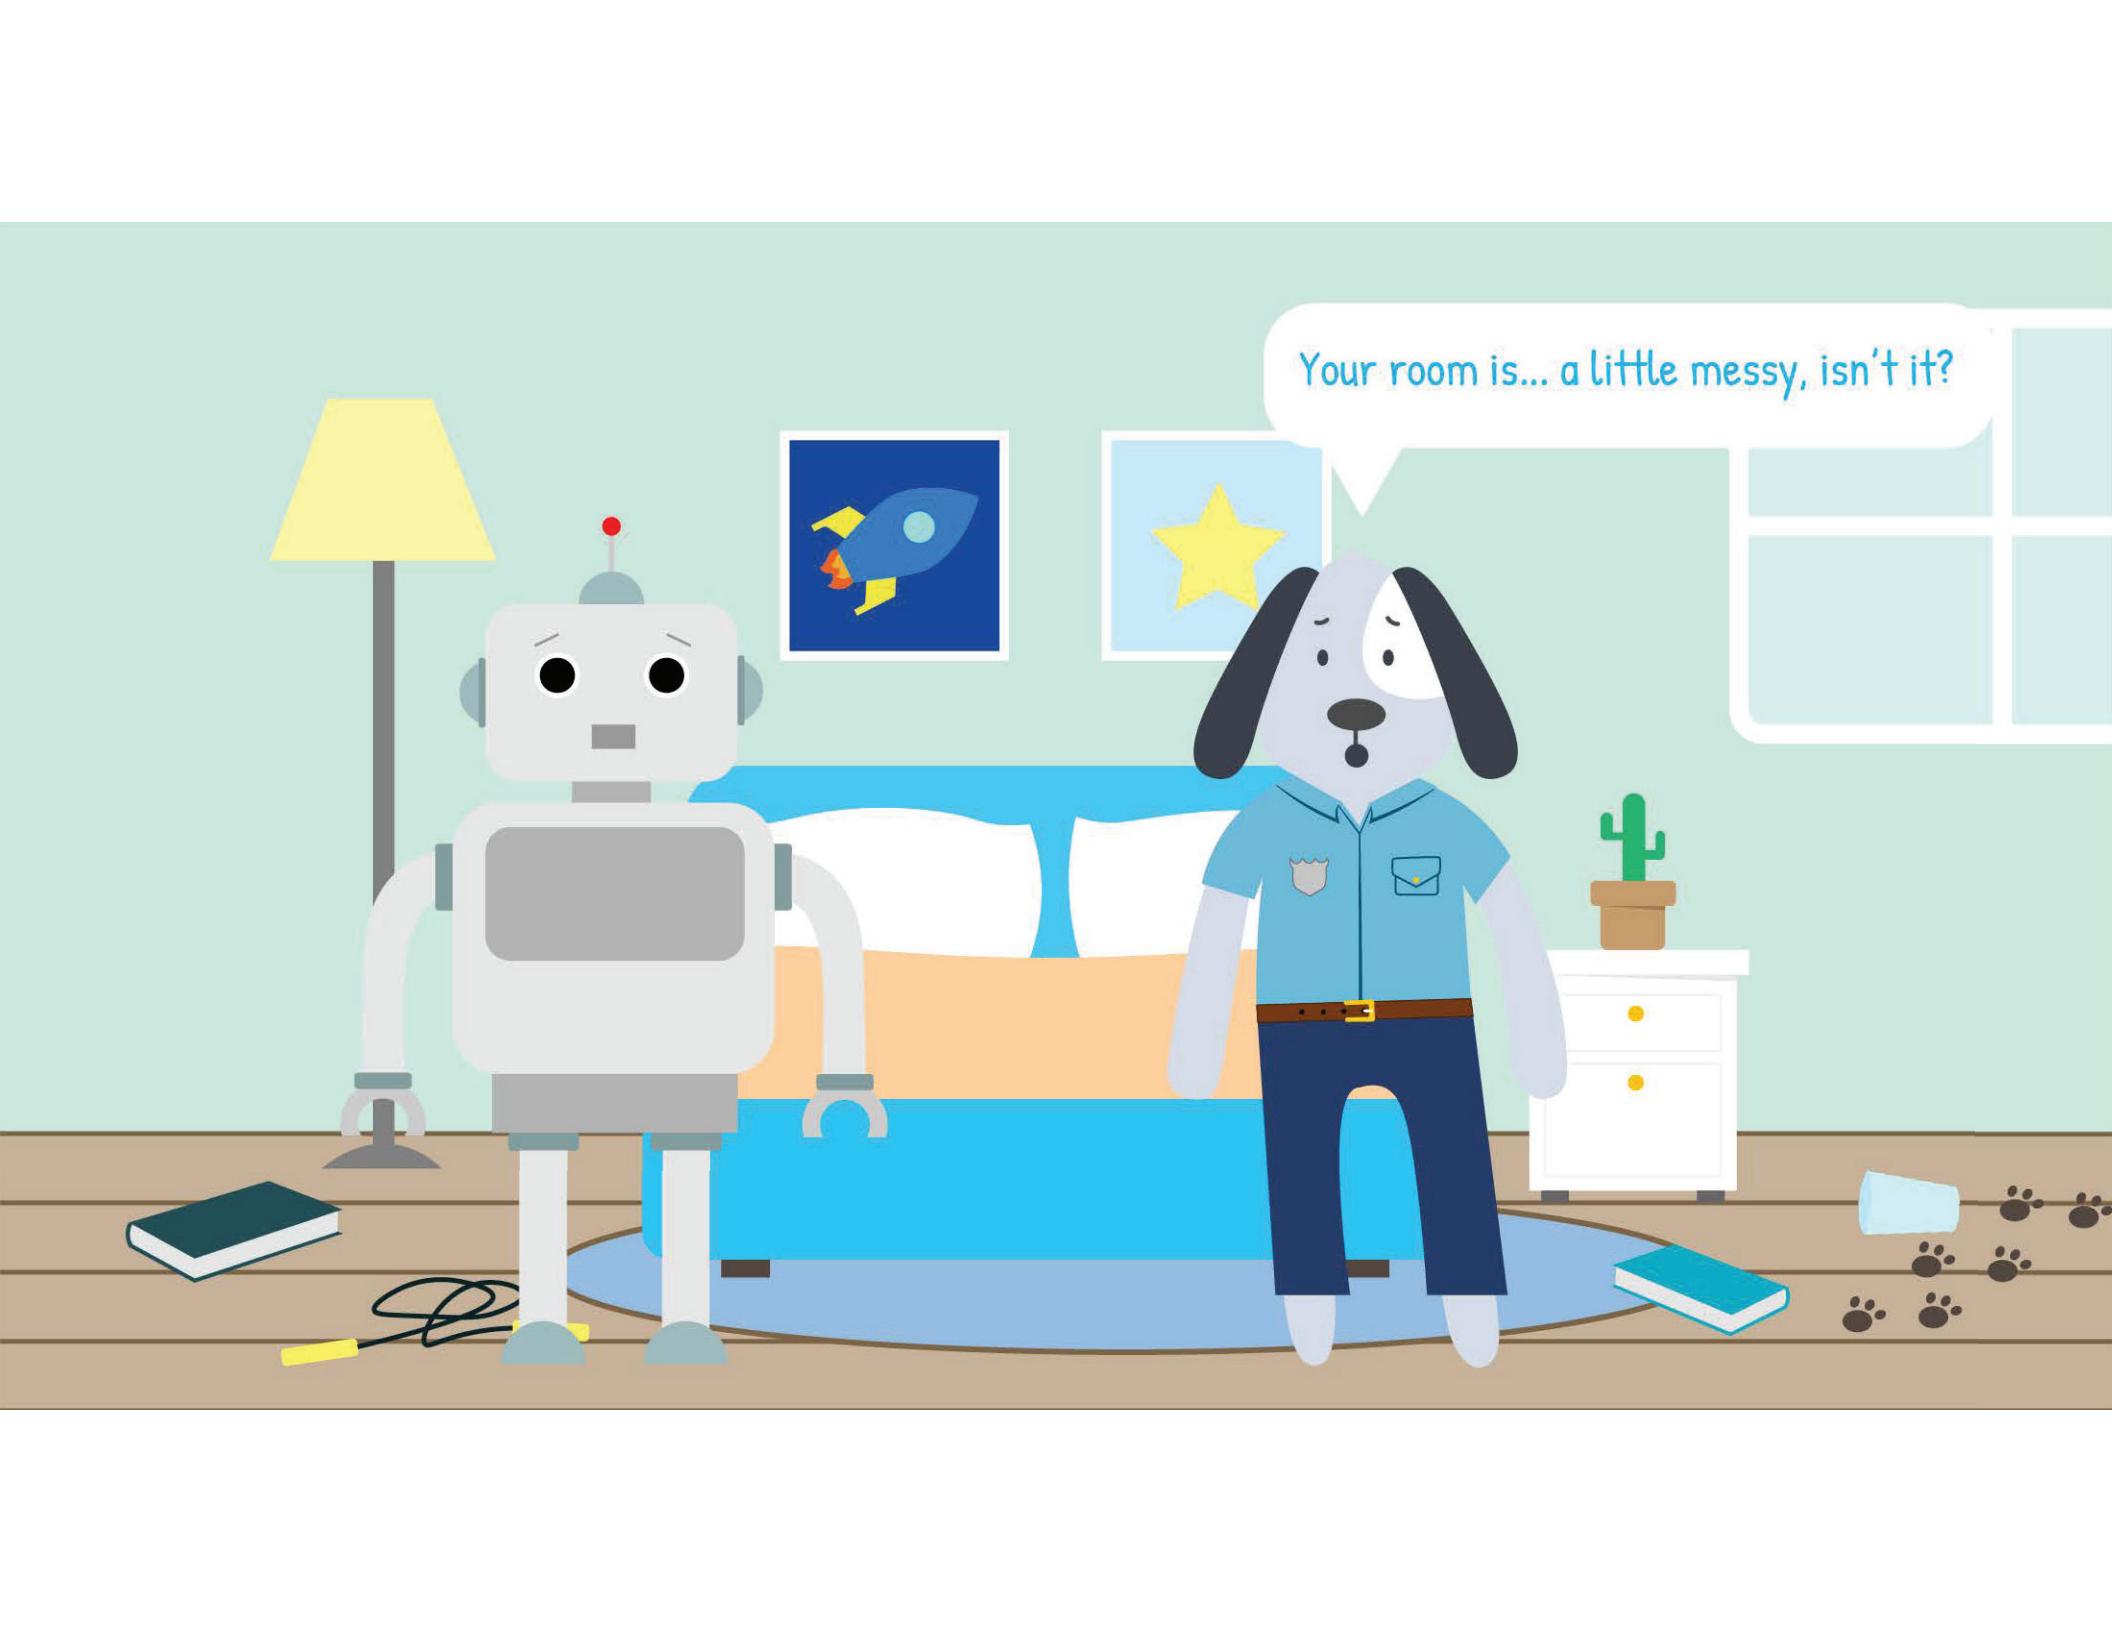

Thank you Detective! Do you want  
to know who I think did it?

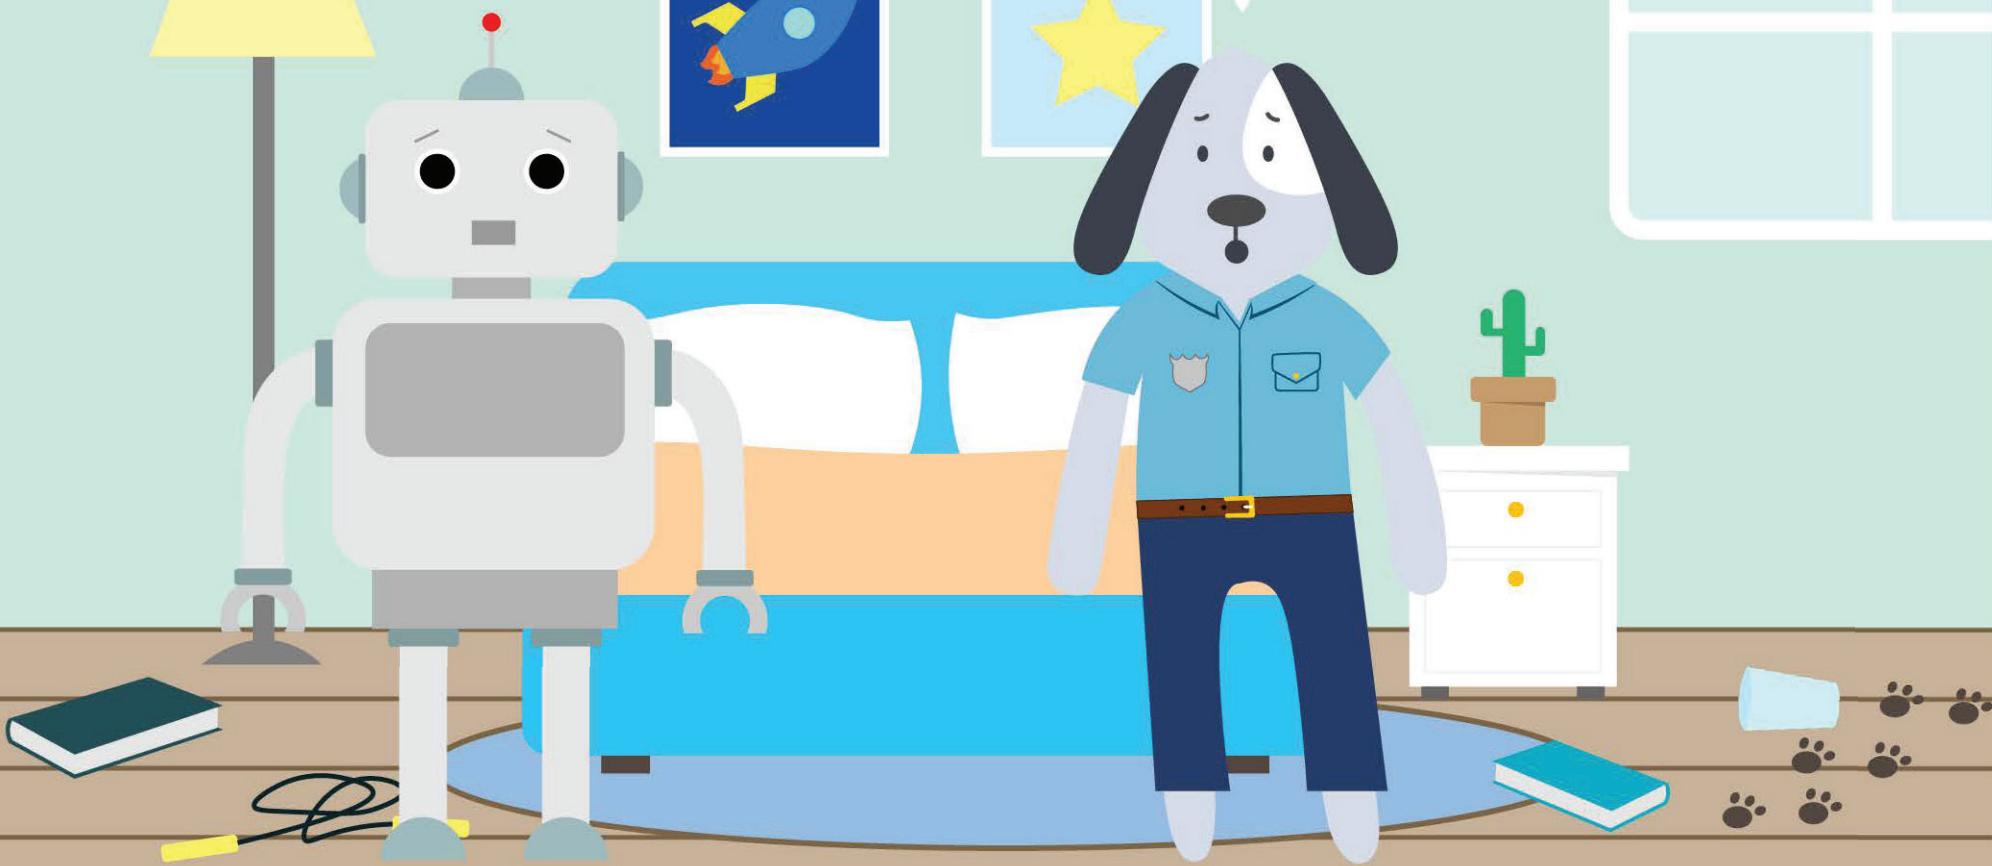

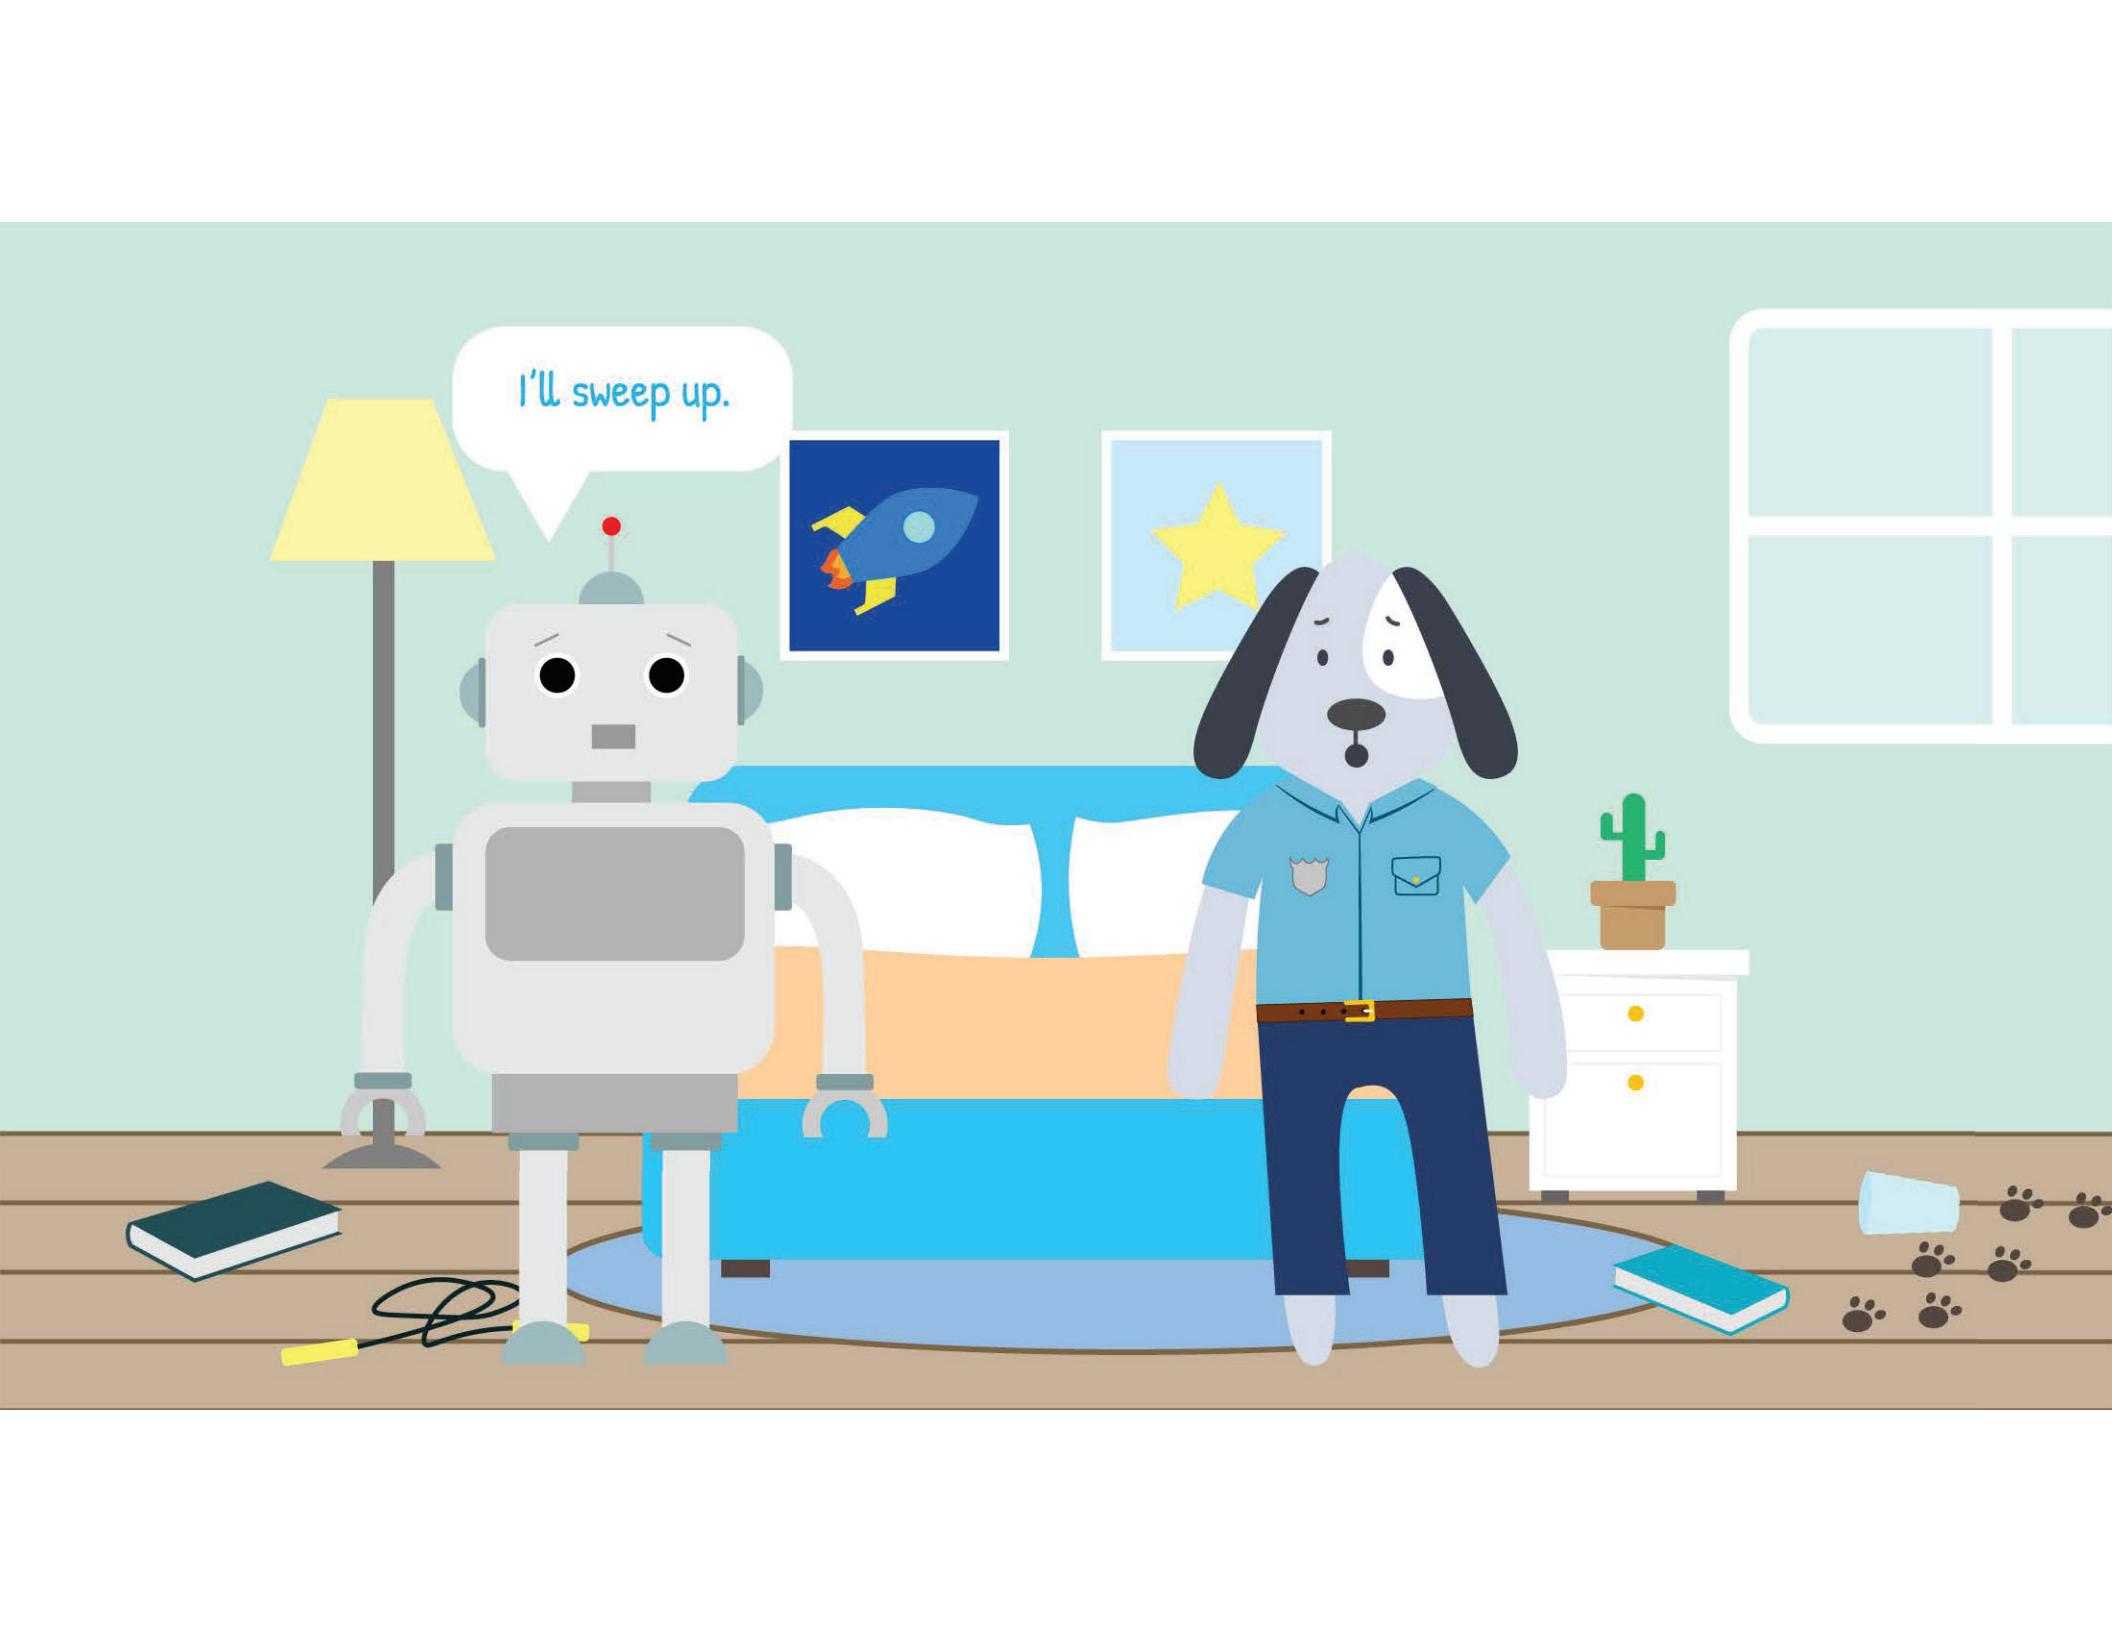

Well, we can't just assume someone has done something without proof. Let's check out the scene of the crime.

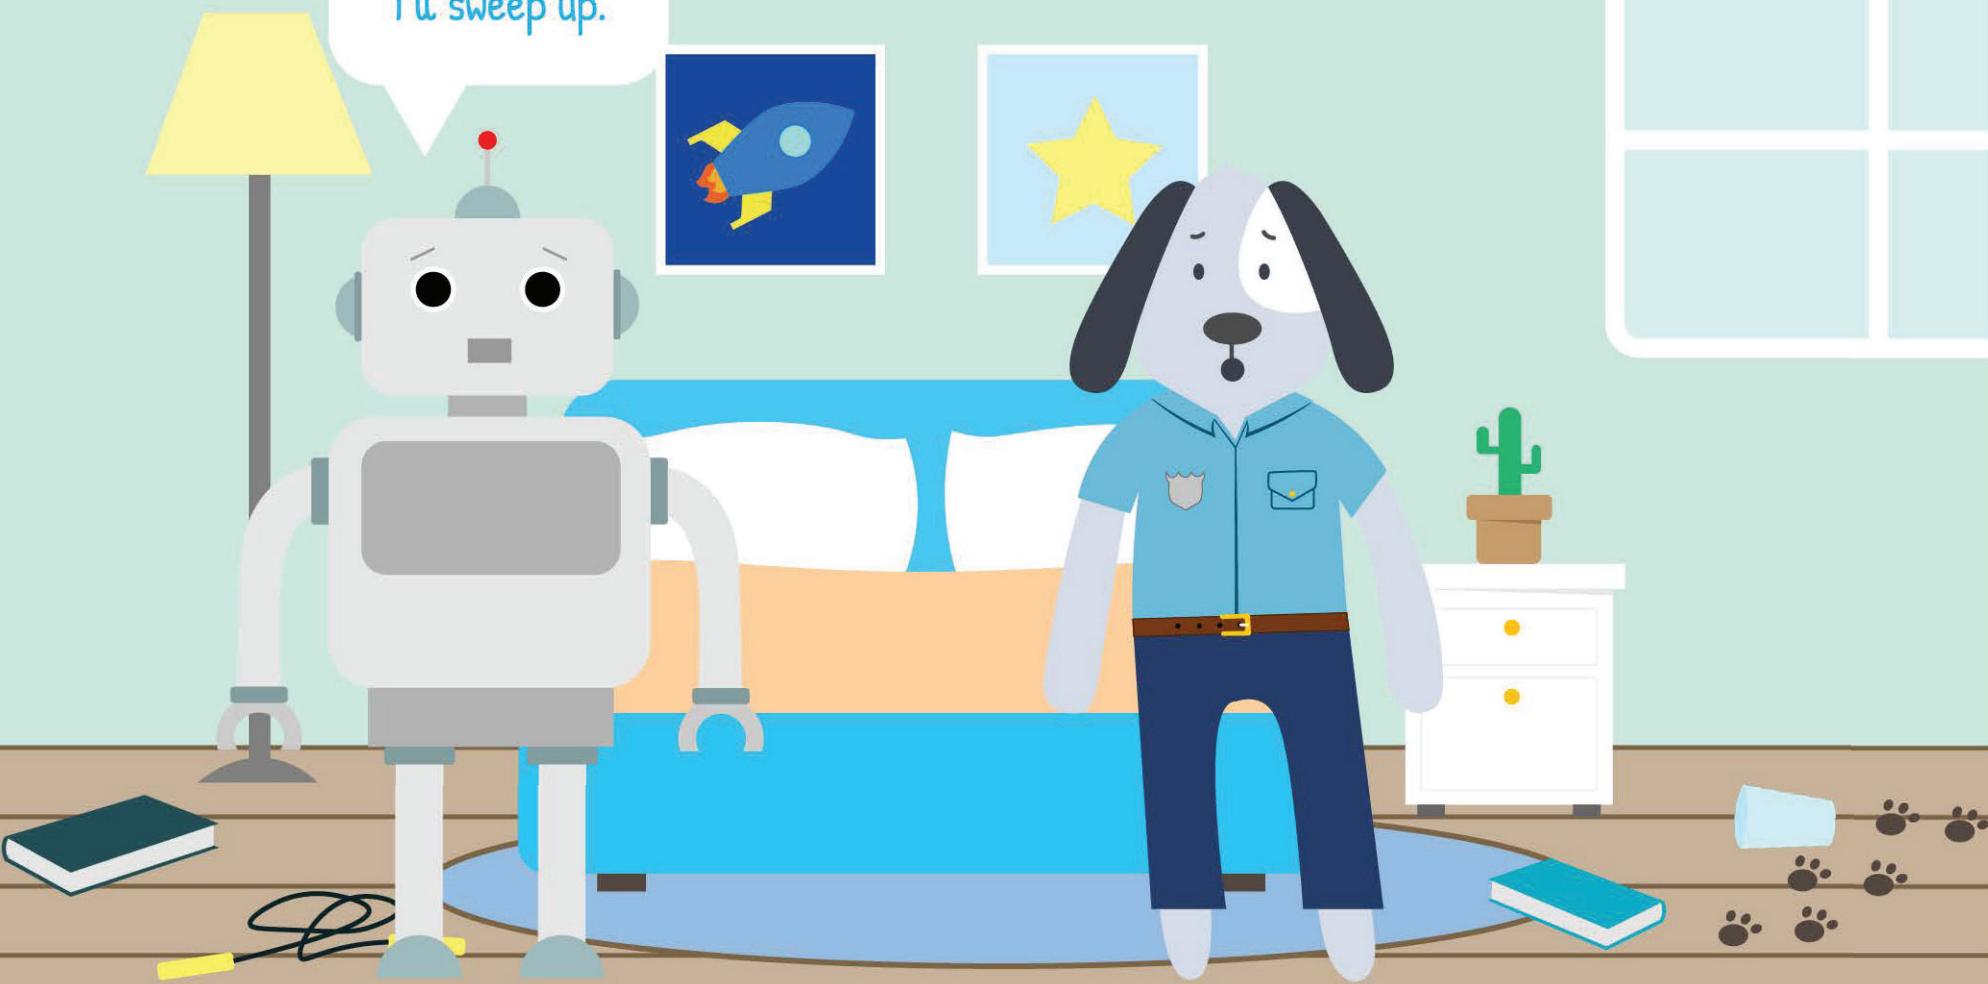

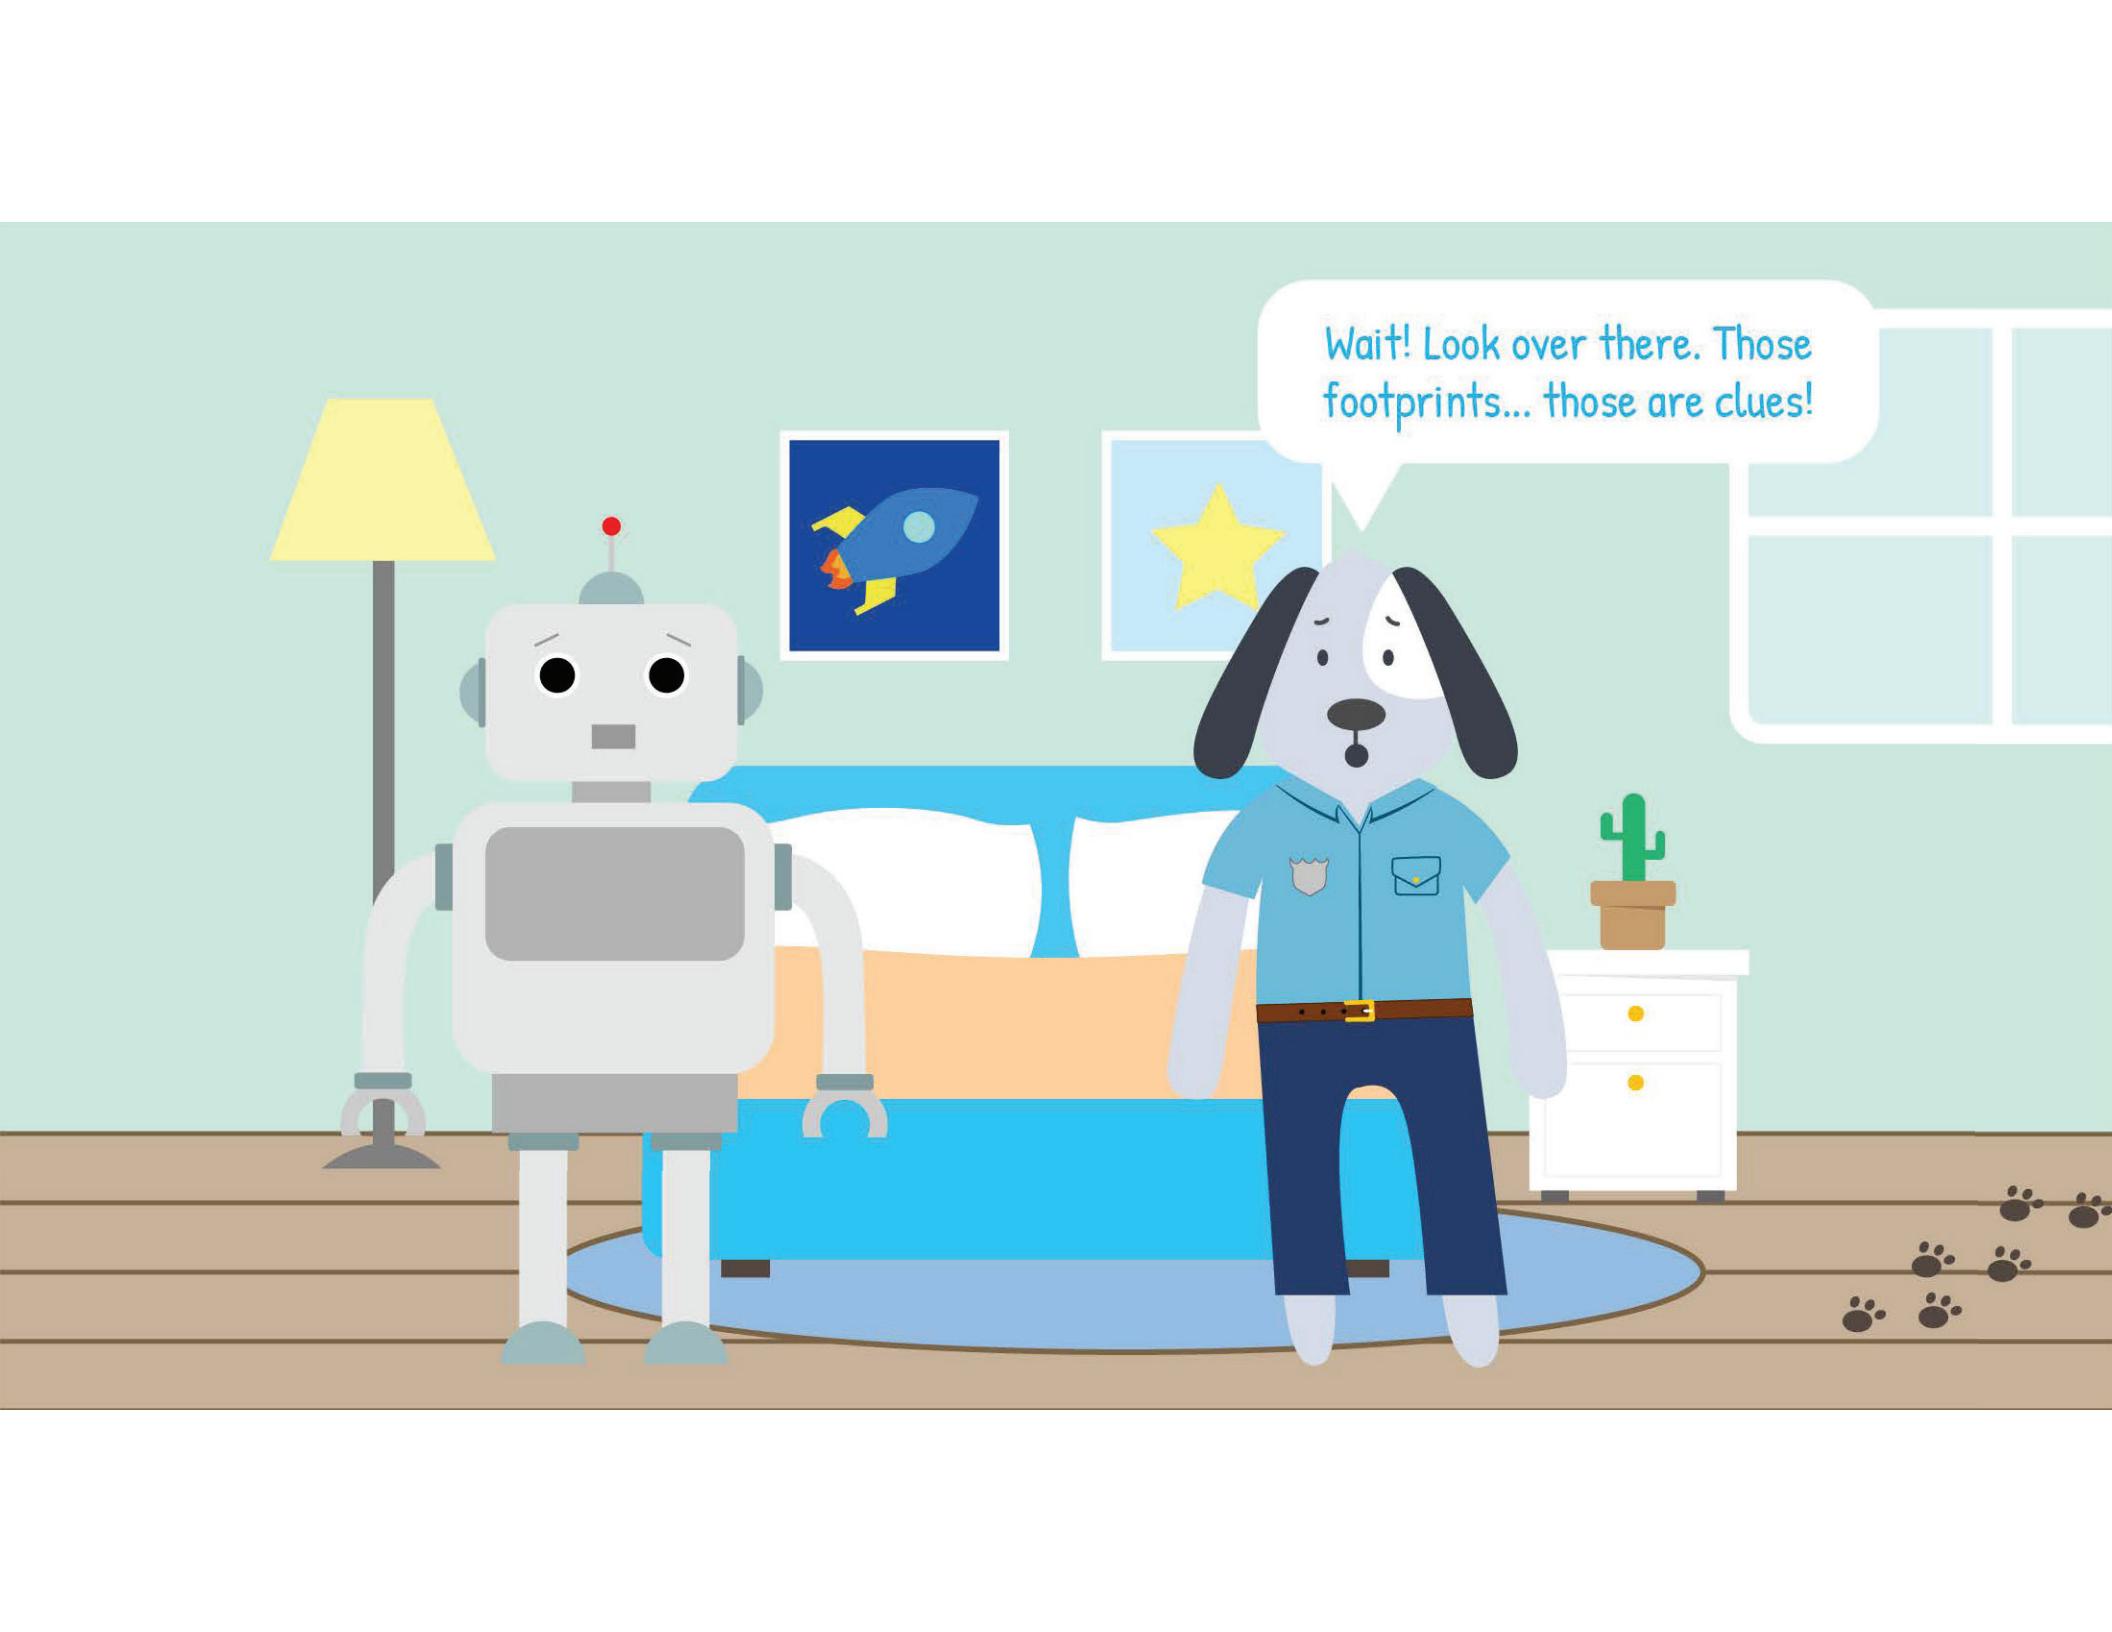

Your room is... a little messy, isn't it?

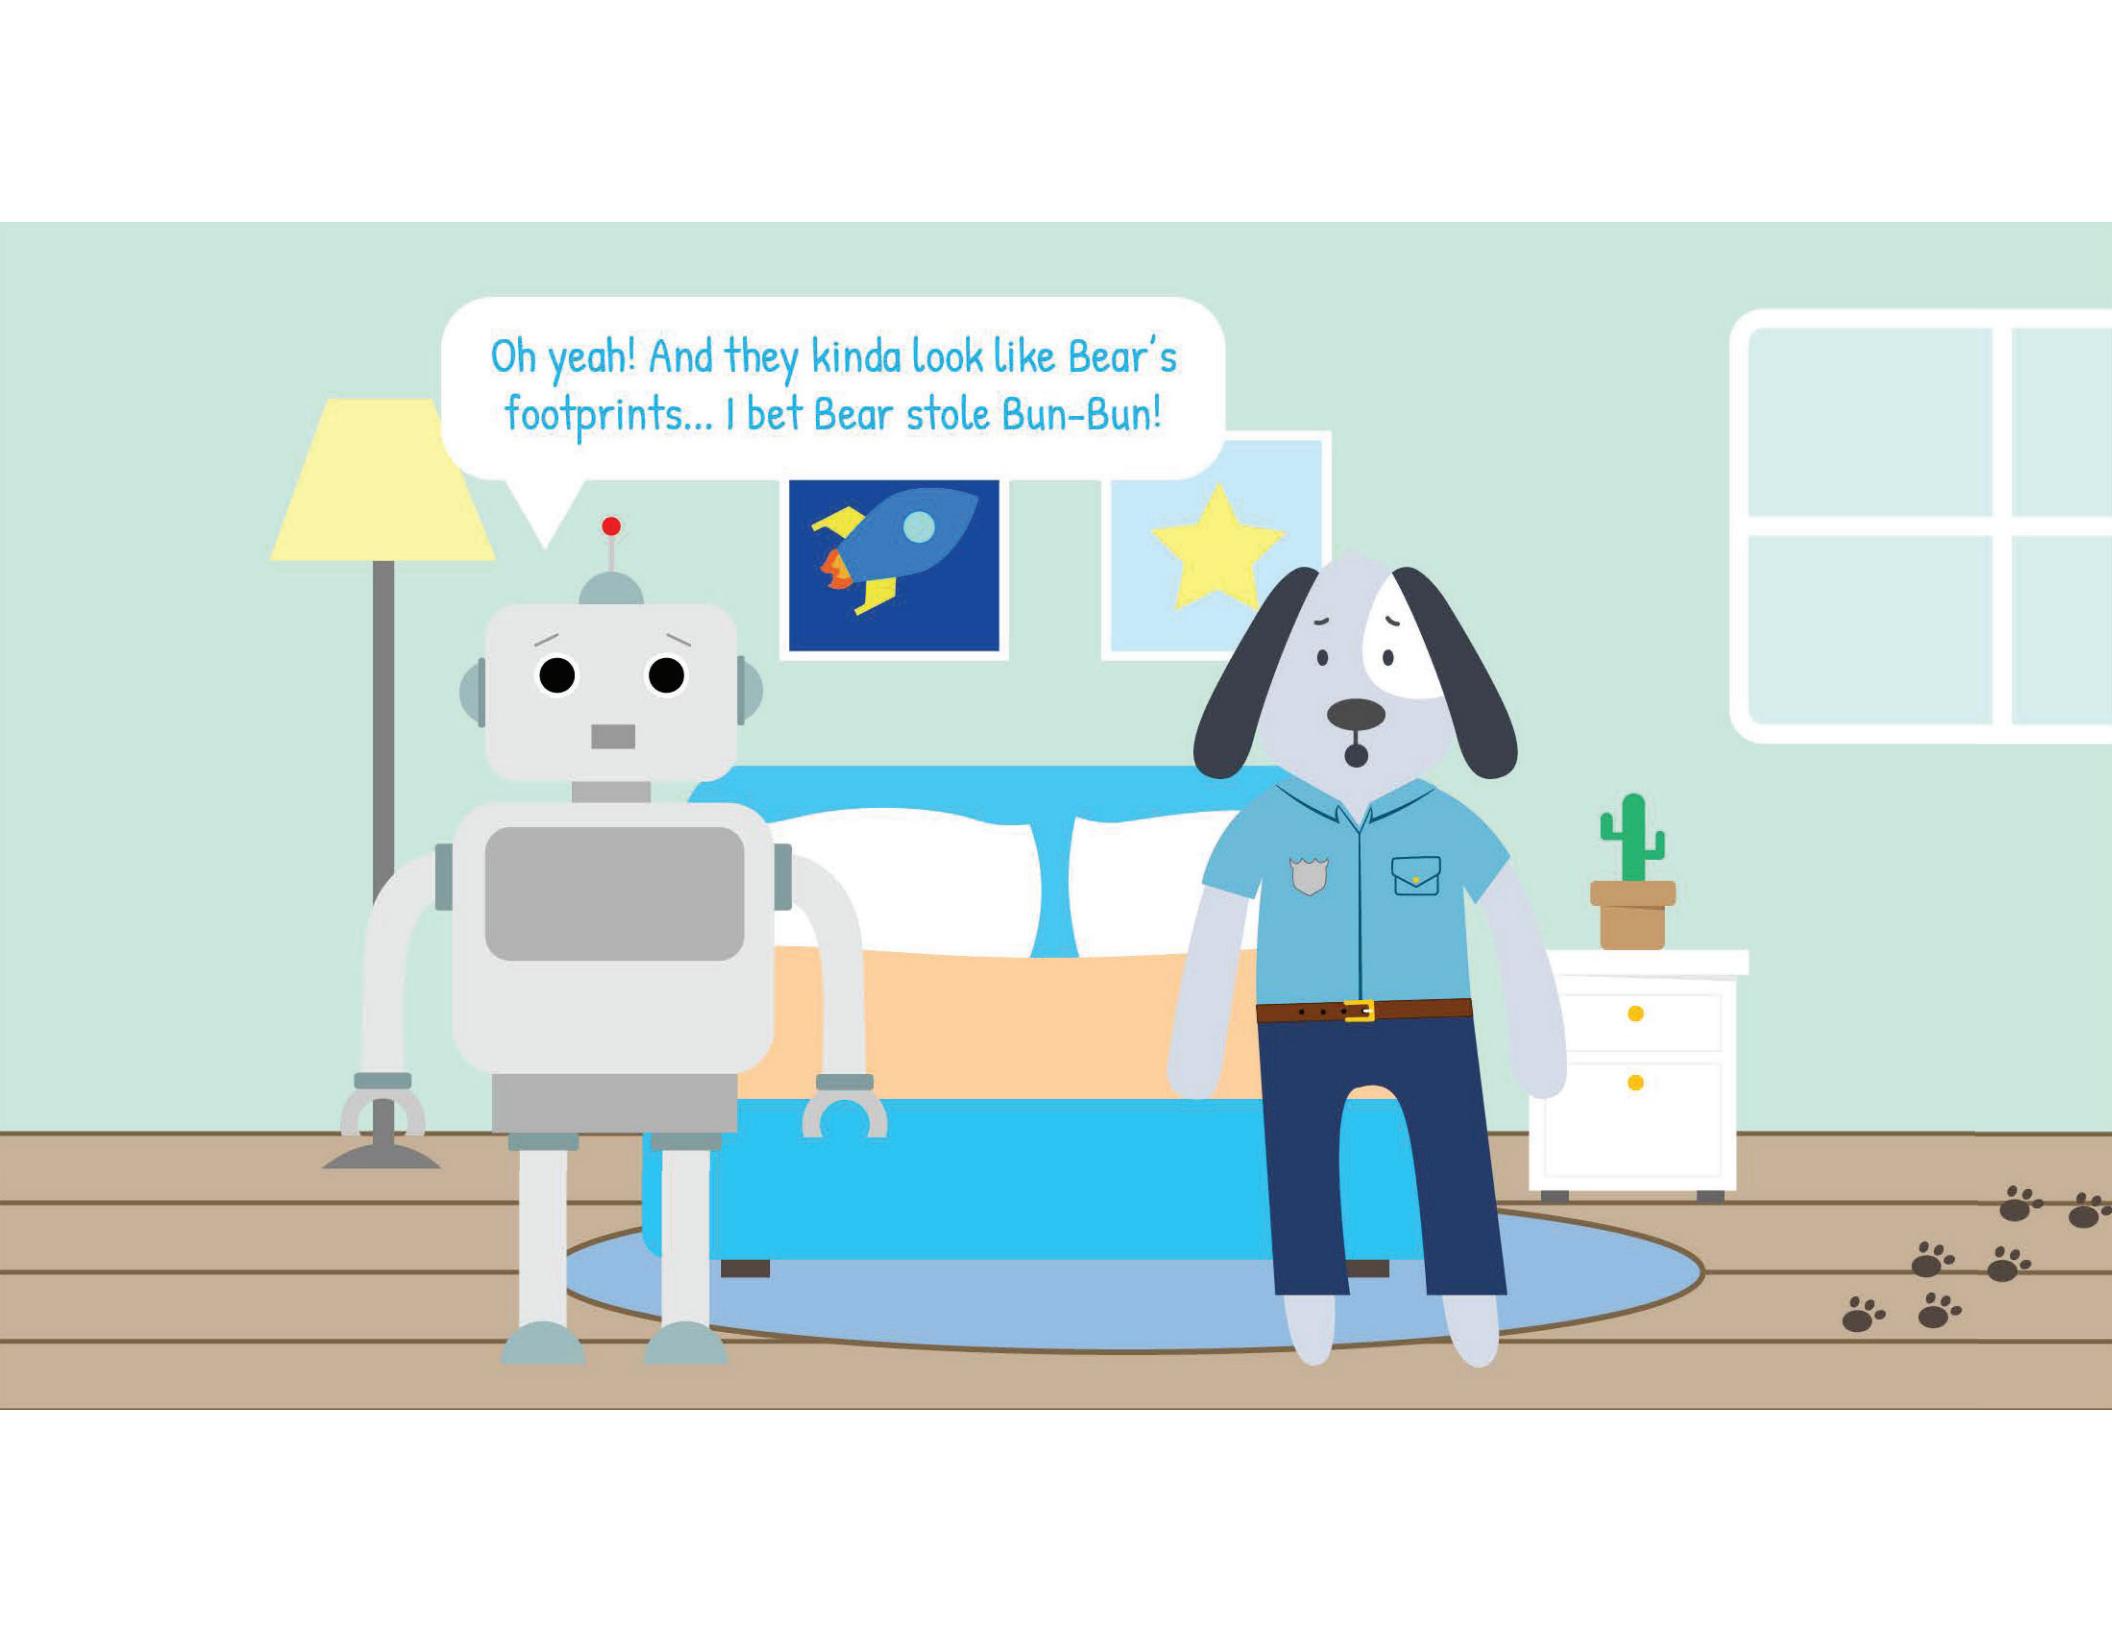

I'll sweep up.

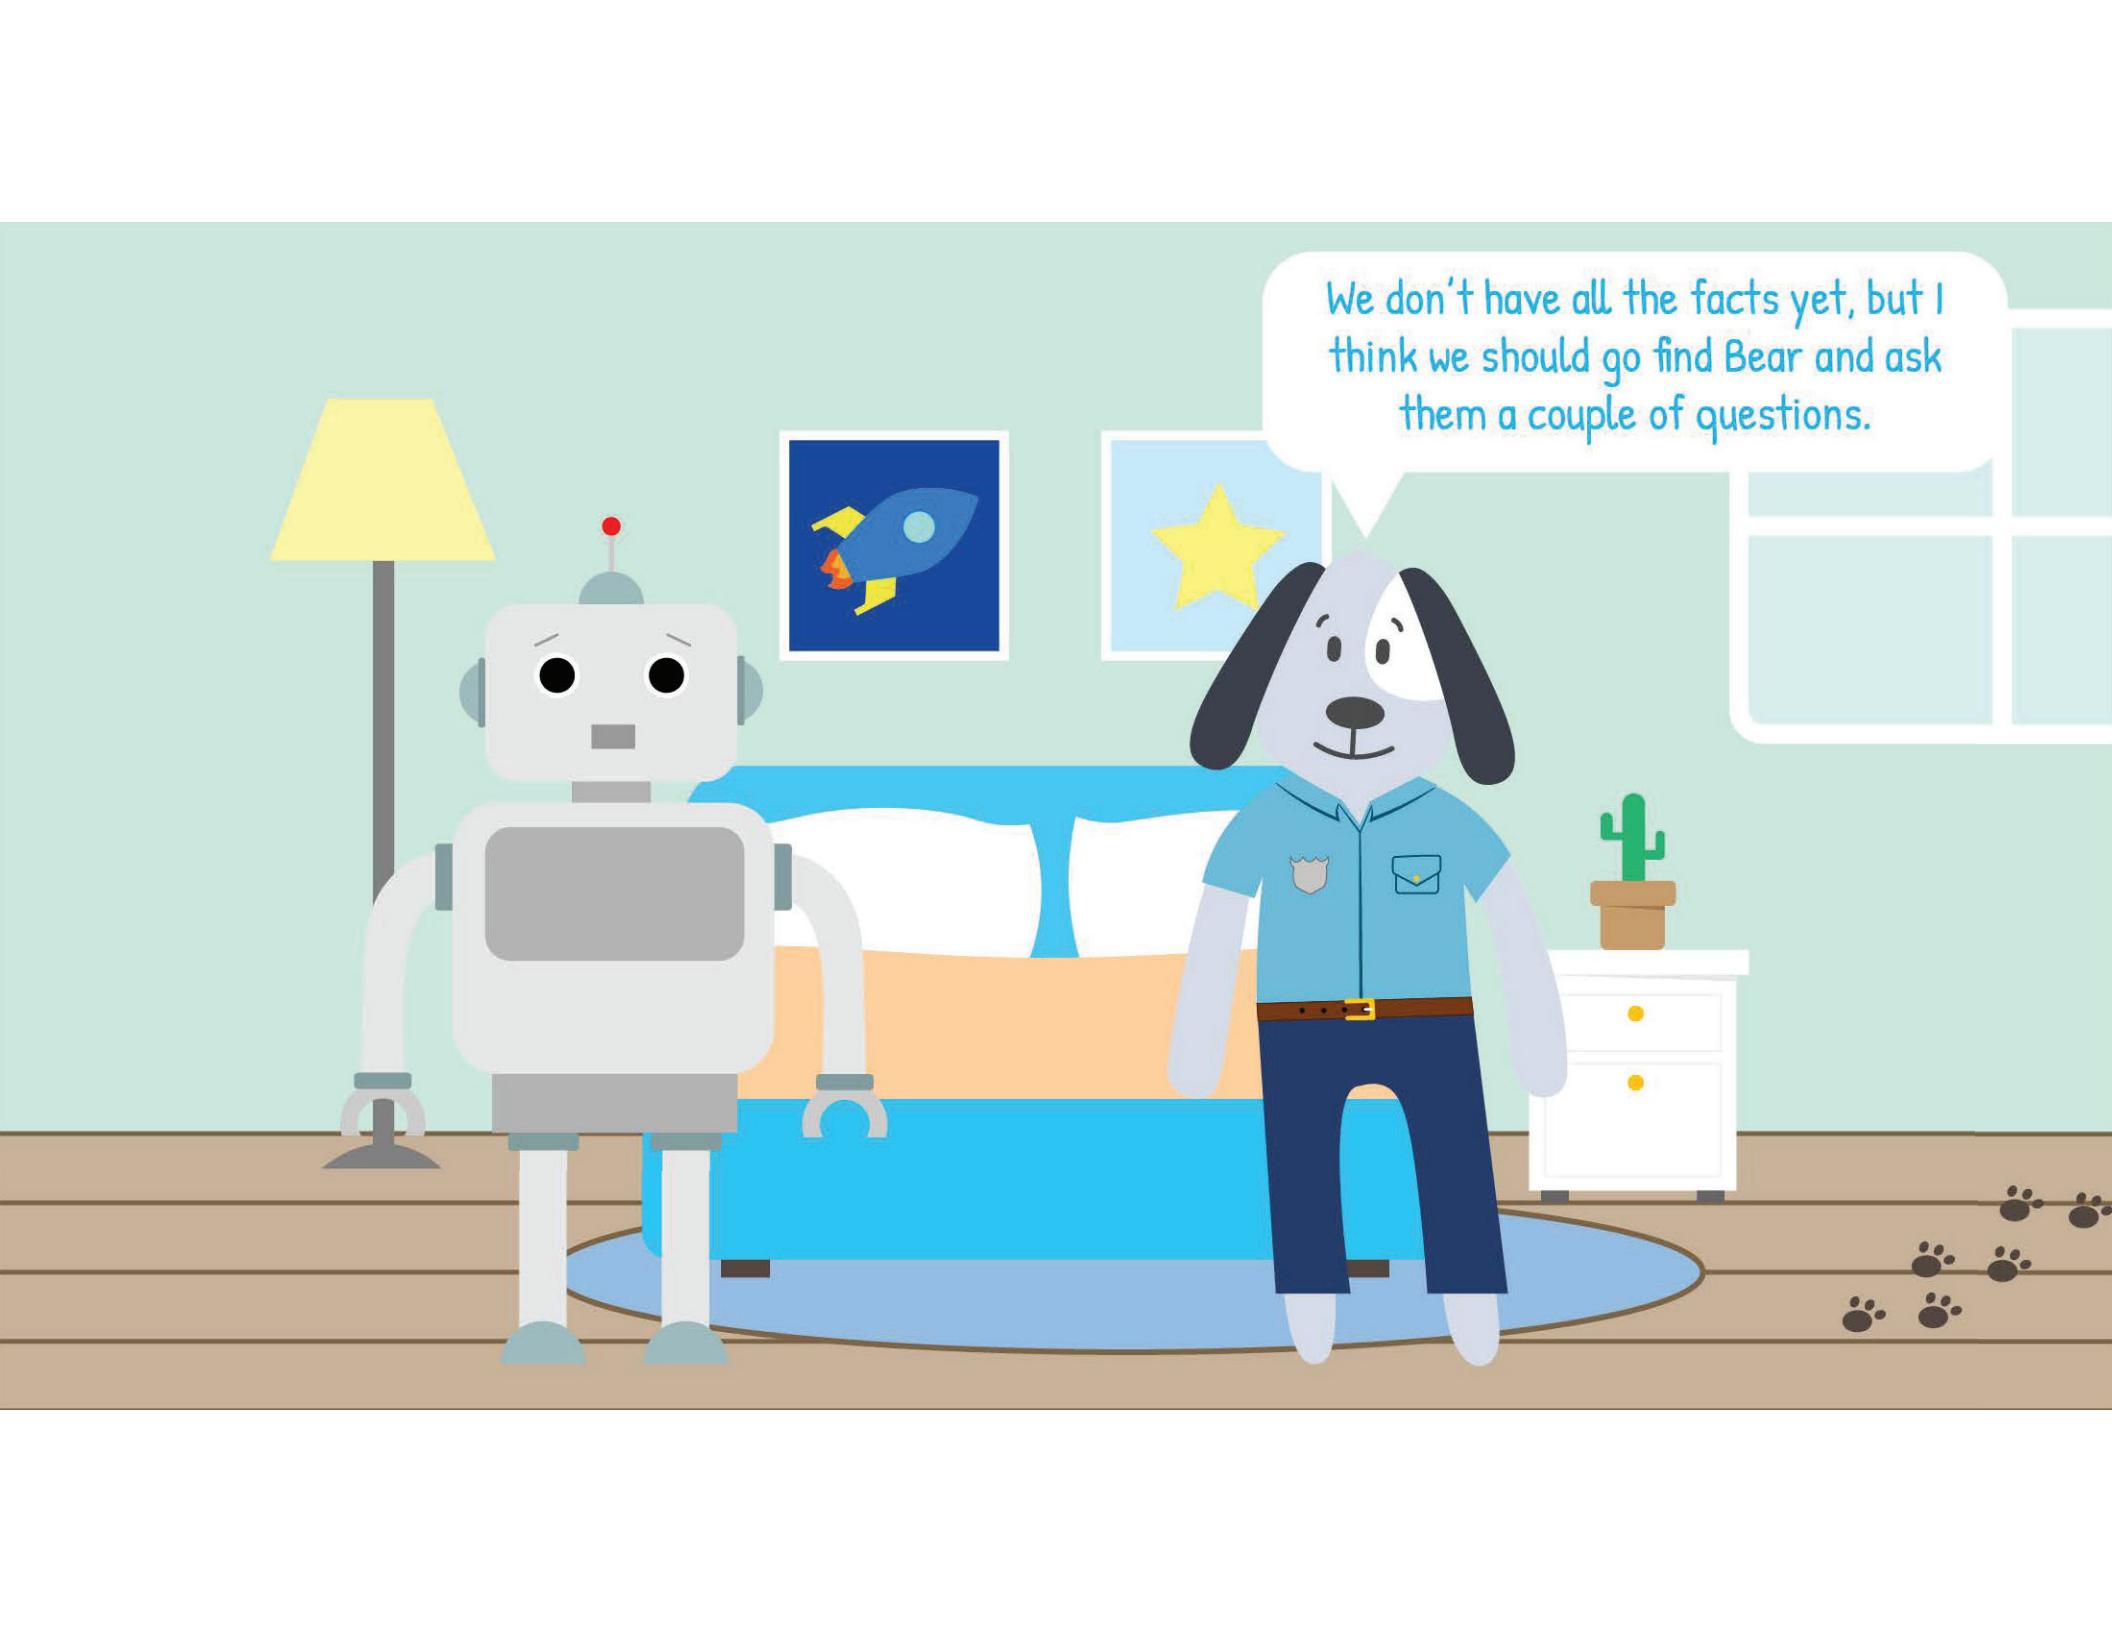

Wait! Look over there. Those footprints... those are clues!

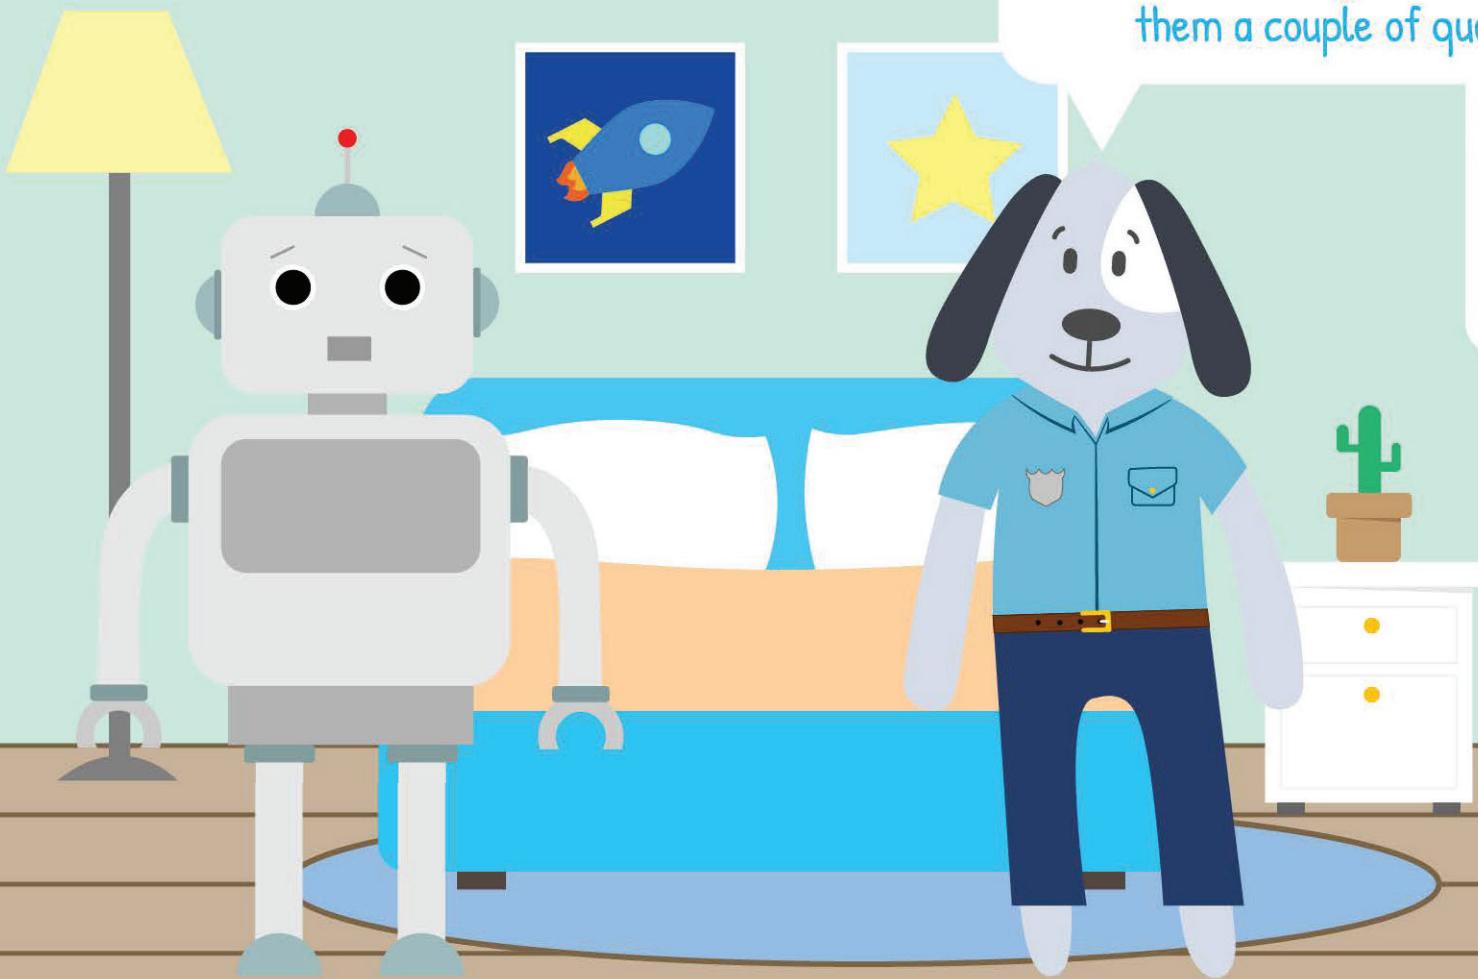

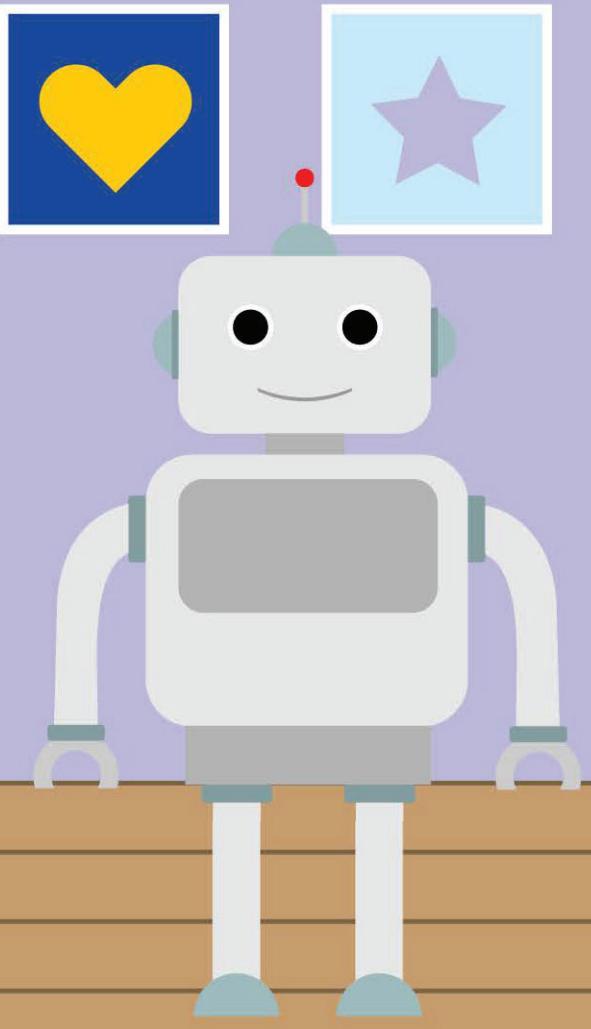

A cartoon illustration of a robot and a dog in a room. The robot, on the left, has a white rectangular head with large black eyes and a small red antenna. It stands next to a blue sofa. The dog, on the right, wears a light blue shirt with a pocket and dark blue pants, standing on a blue rug. In the background, there's a lamp with a yellow shade, a window with a grid pattern, and a small white dresser with a green cactus on top. A speech bubble from the robot contains the text.

Oh yeah! And they kinda look like Bear's footprints... I bet Bear stole Bun-Bun!

We don't have all the facts yet, but I think we should go find Bear and ask them a couple of questions.

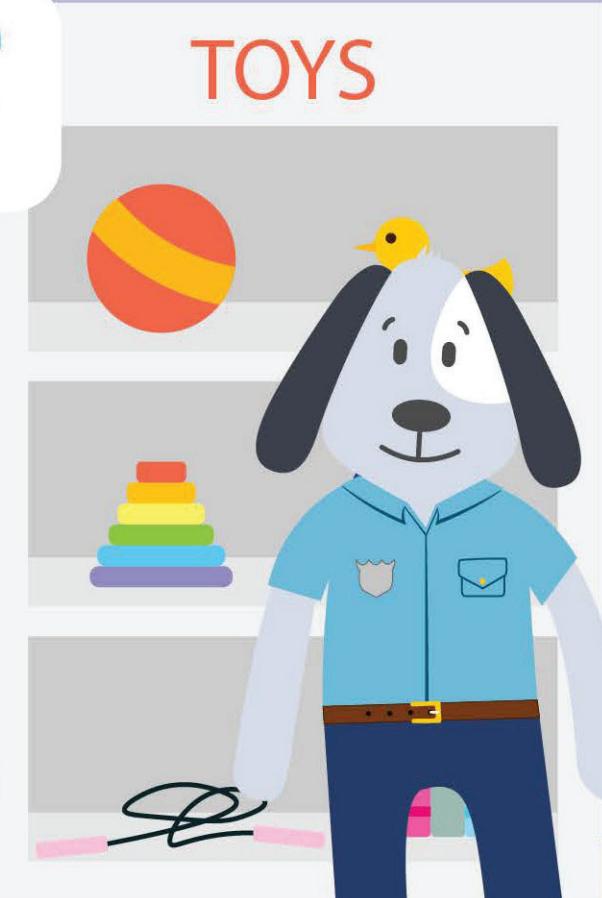

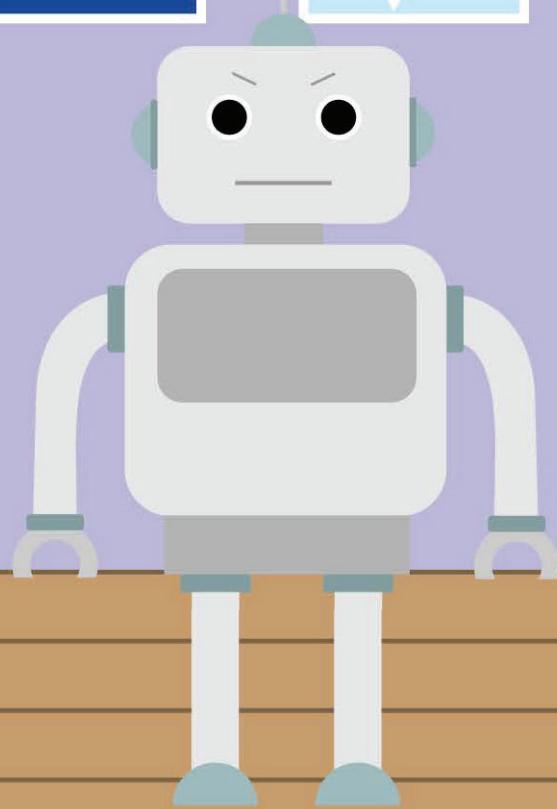

Hello! What can I find for you today? Oh, it's  
you, Robot! Have you come to play again?

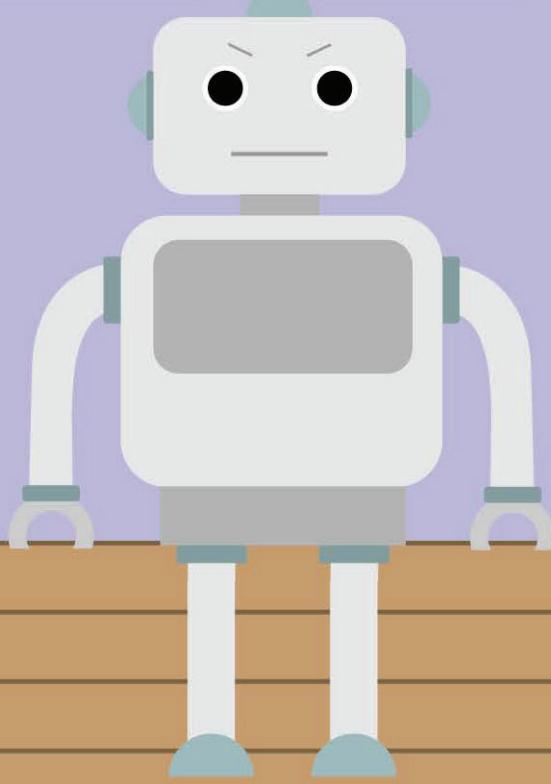

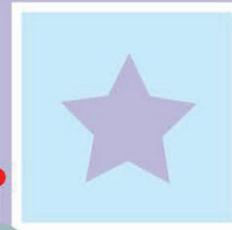

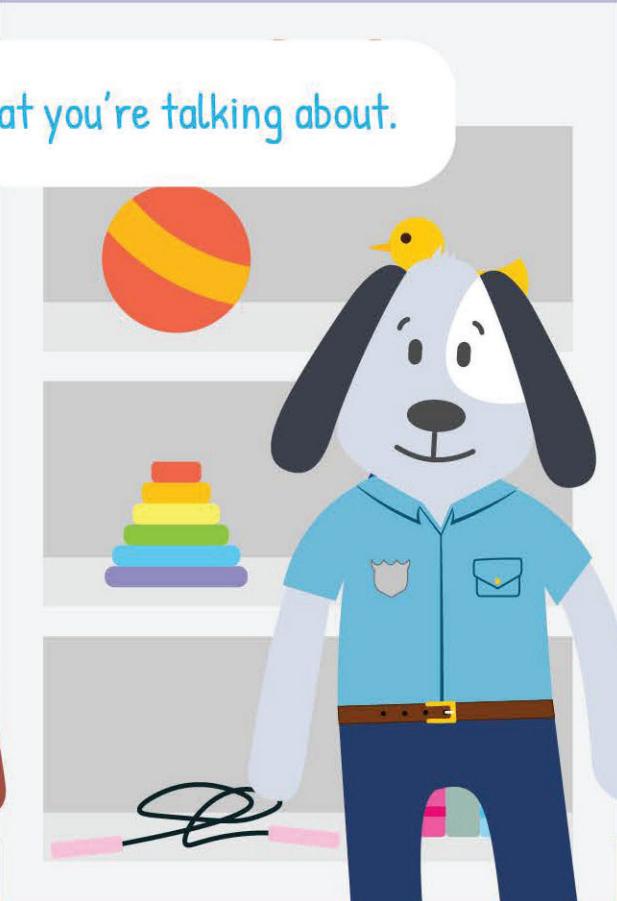

I don't want to play with you. I want Bun-Bun back! I know you took them! You like unique toys, and Bun-Bun is the most unique.

TOYS

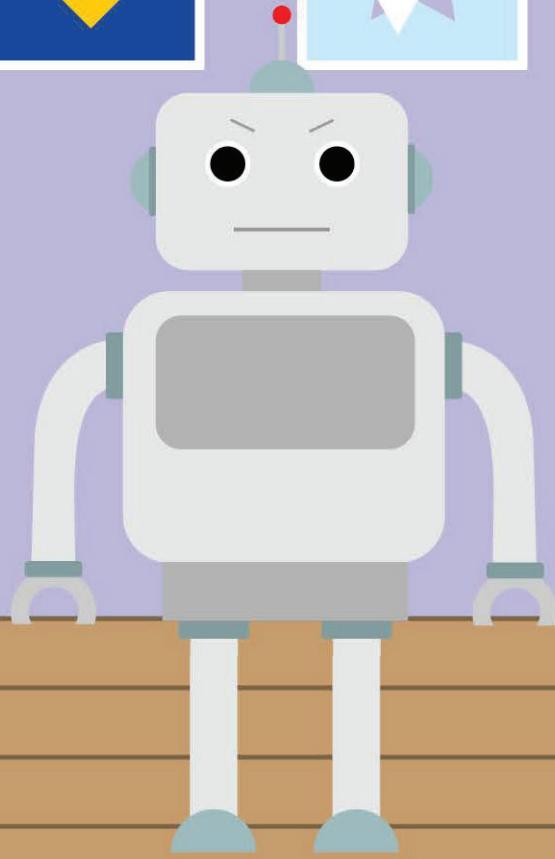

I don't know what you're talking about.

Robot, it seems like you're a little upset.  
Do you want to take three deep breaths  
while I explain to Bear what happened?

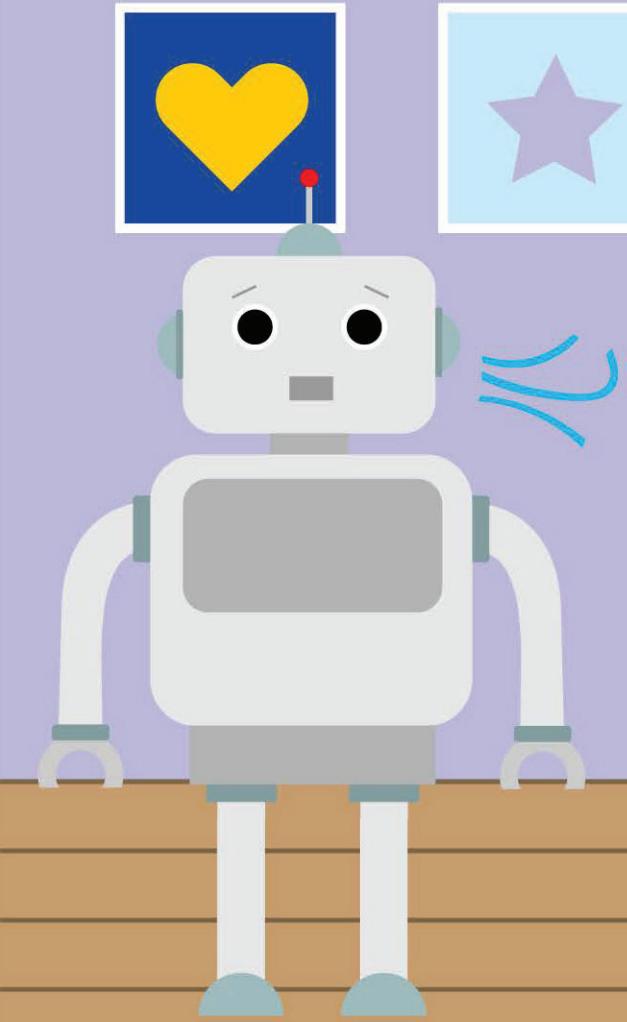

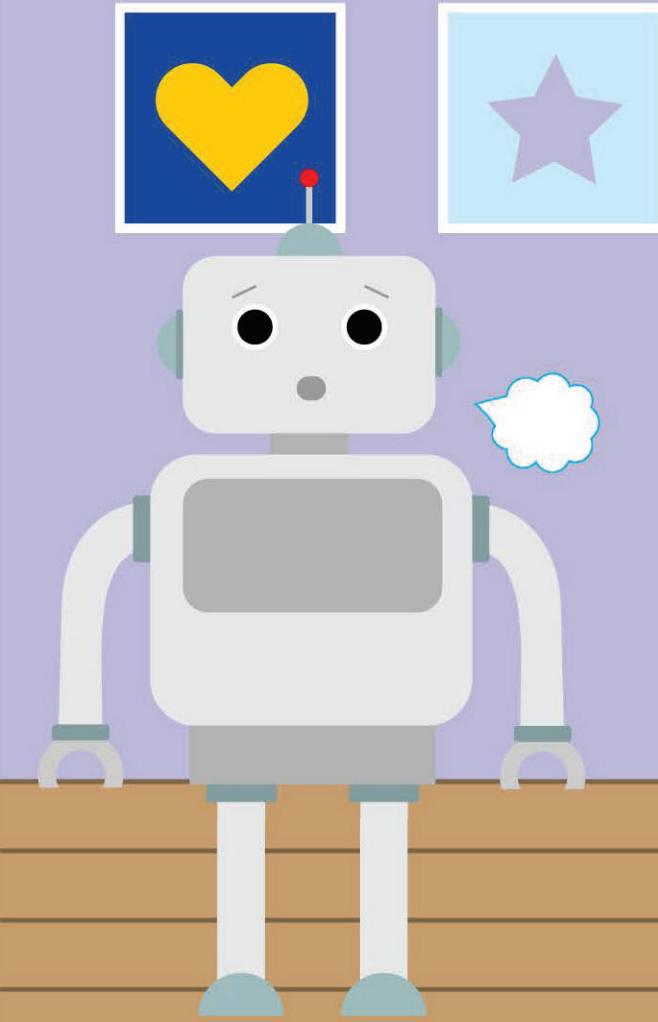

Fine.

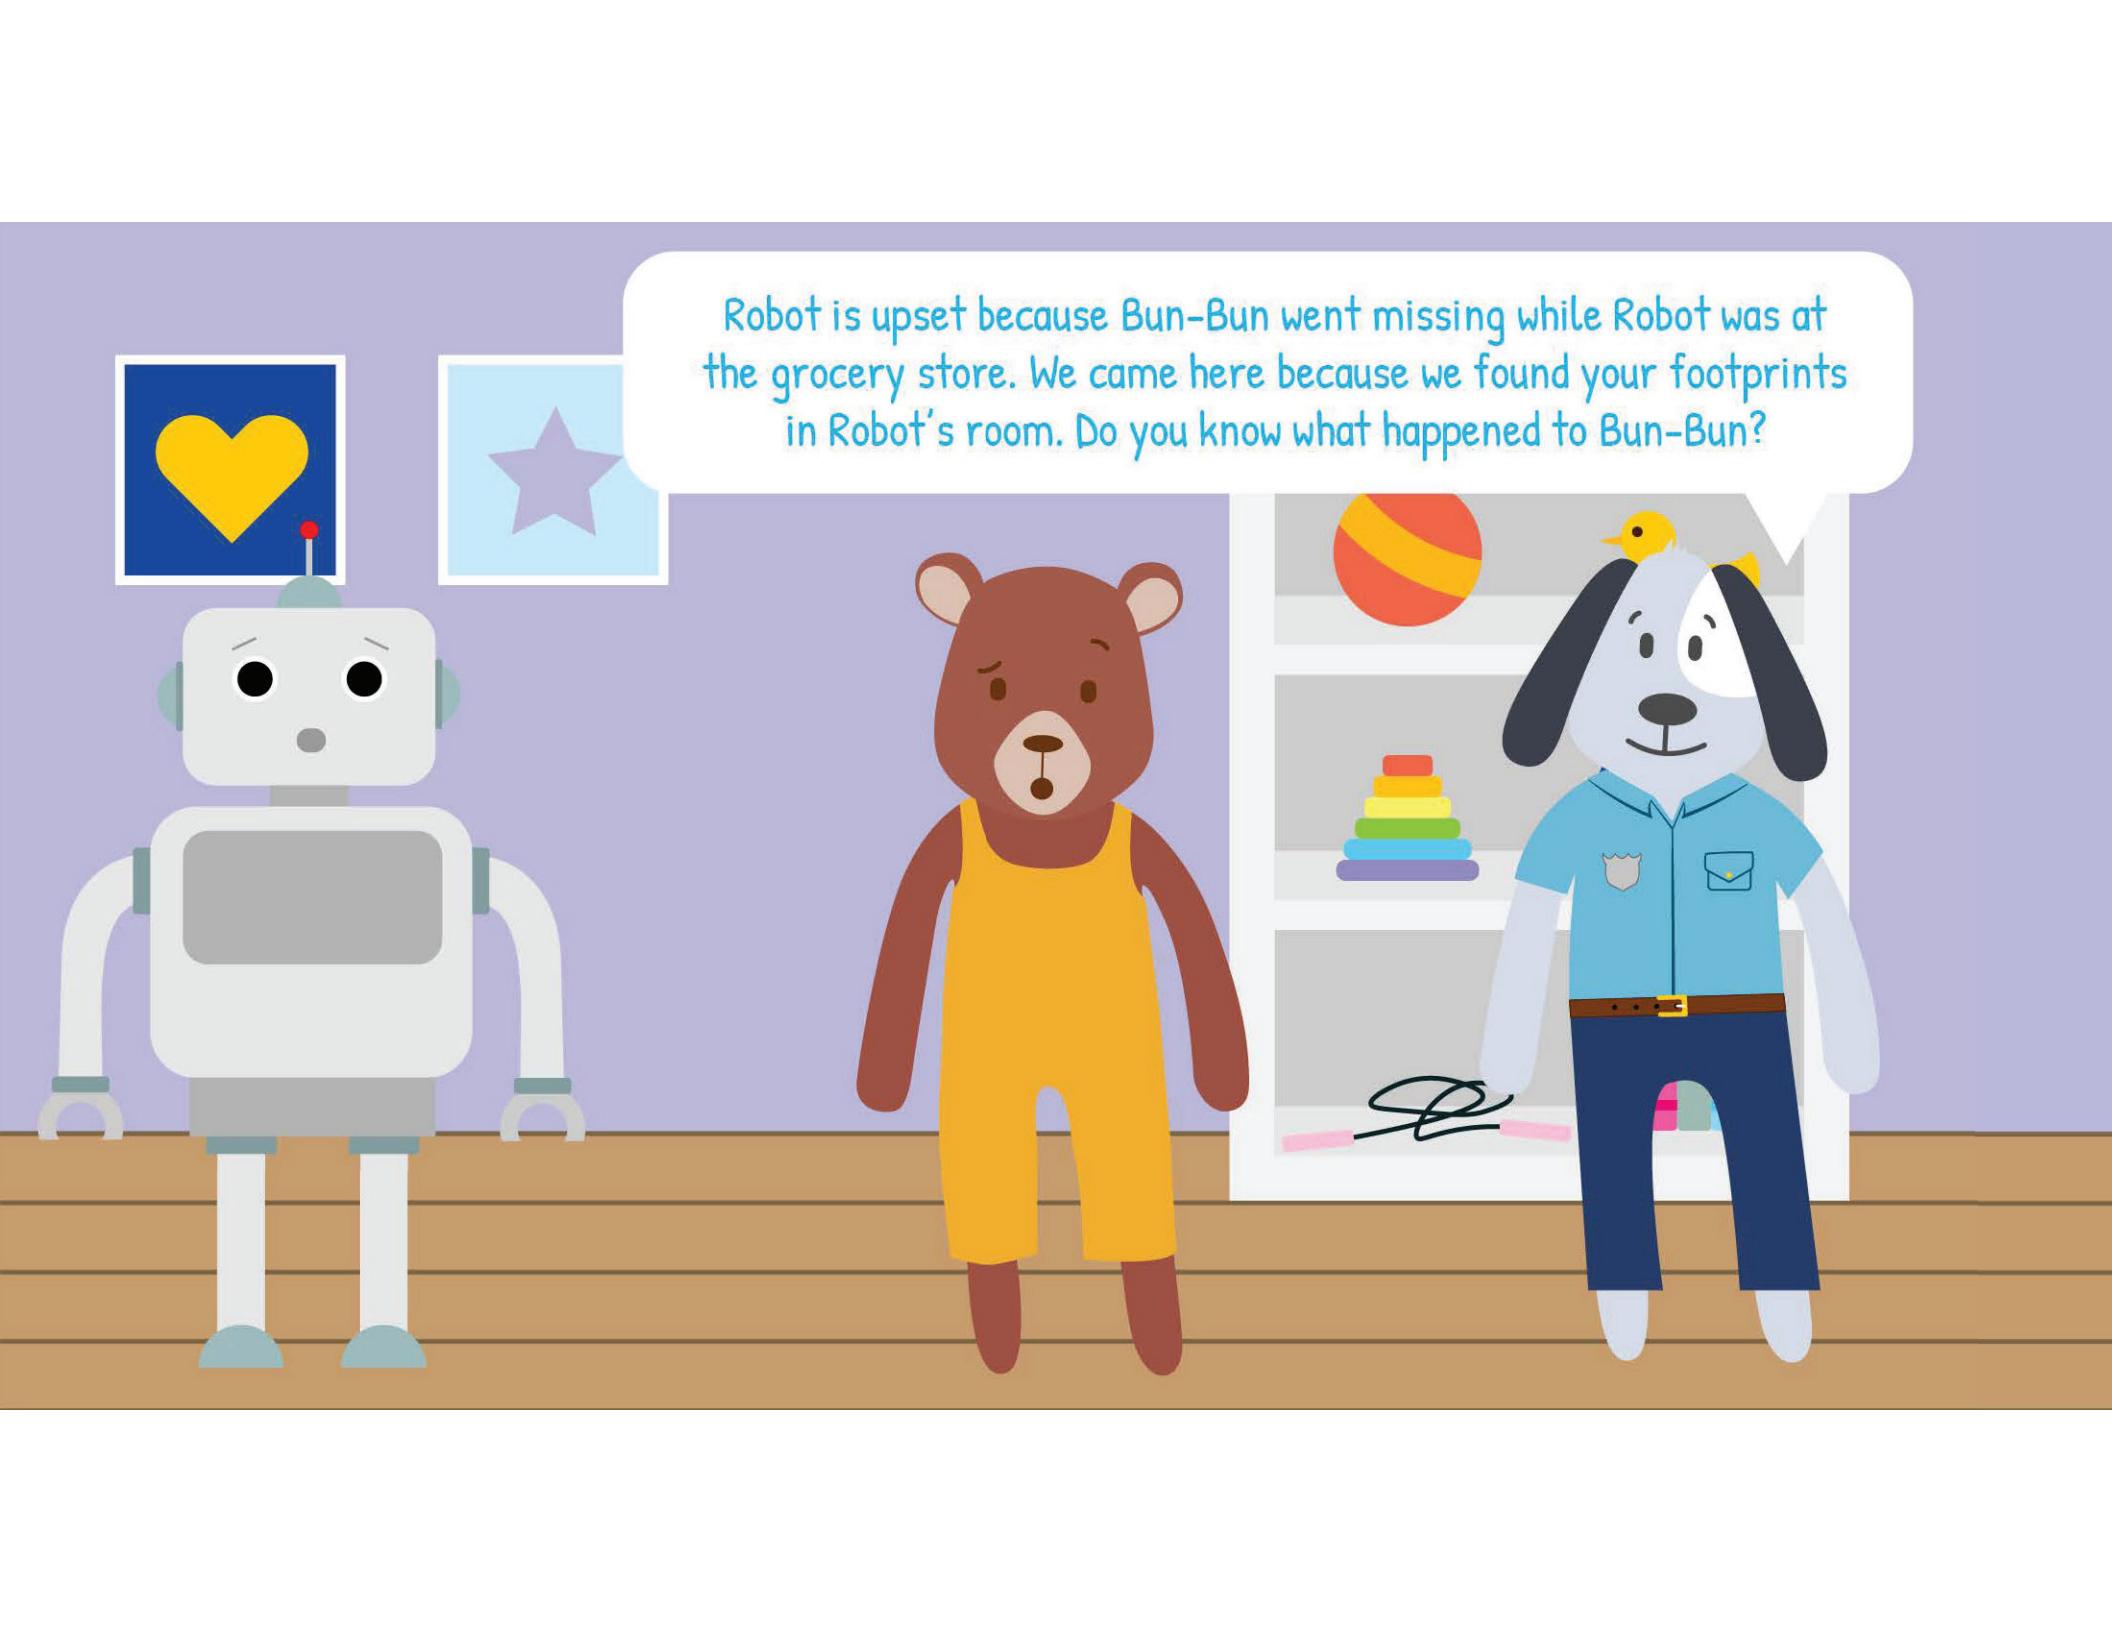

TOYS

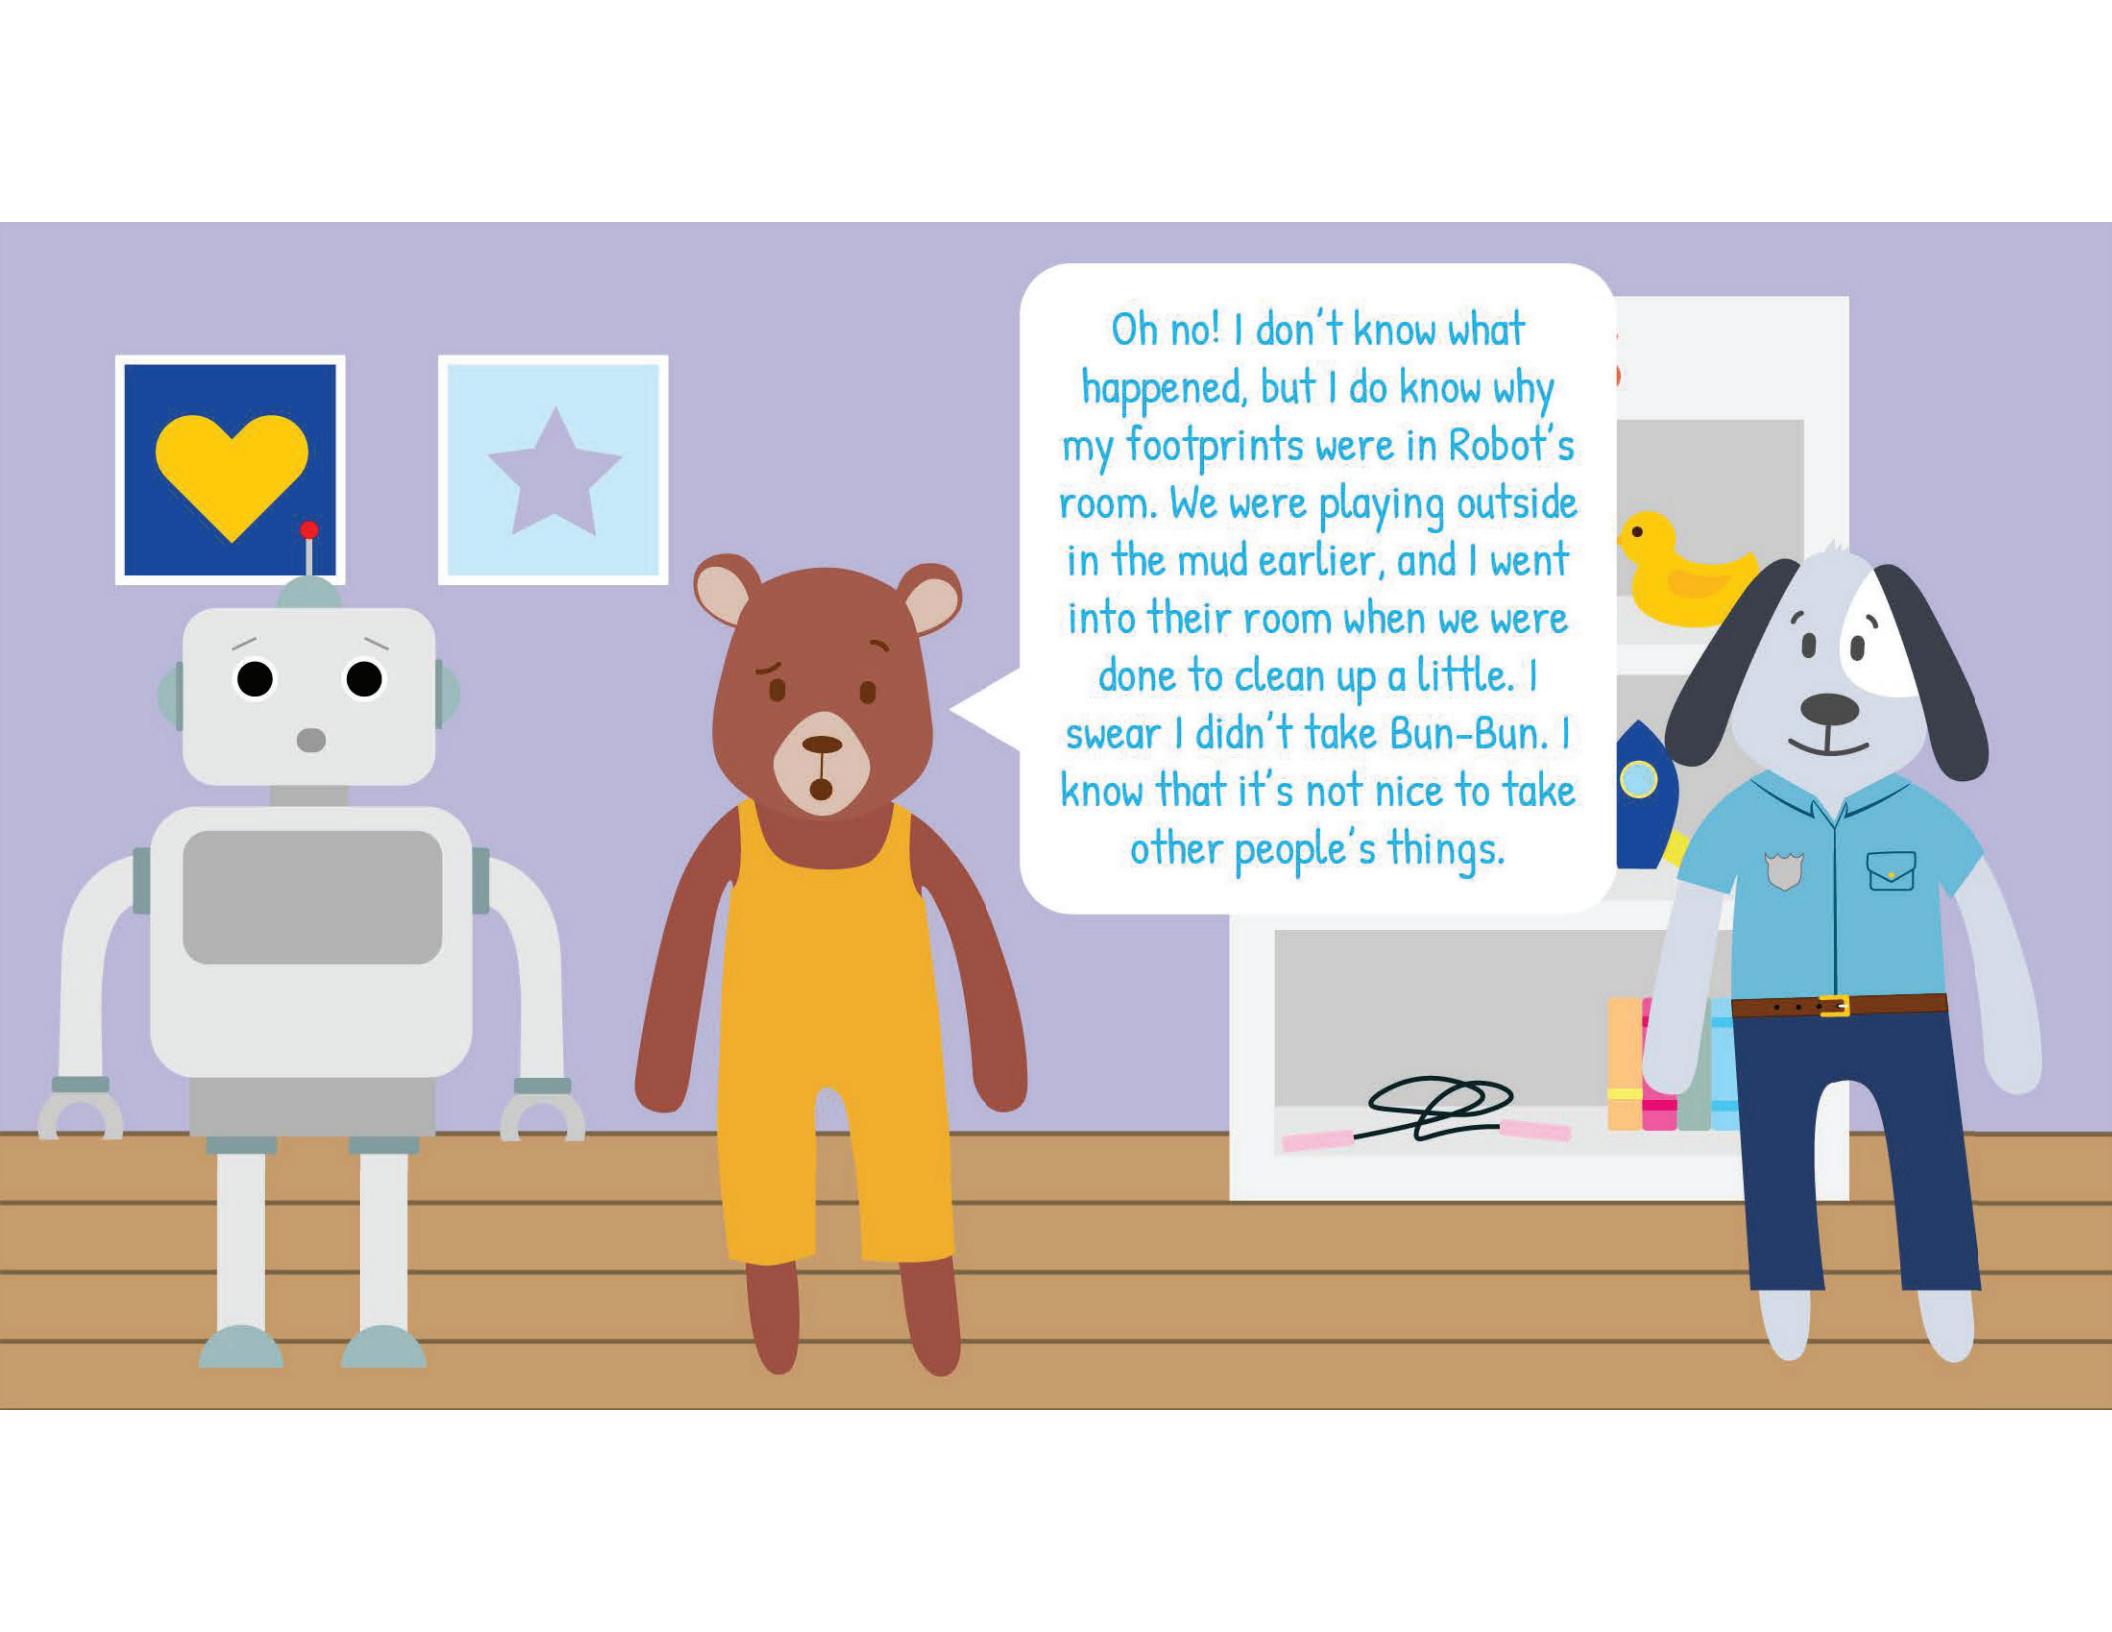

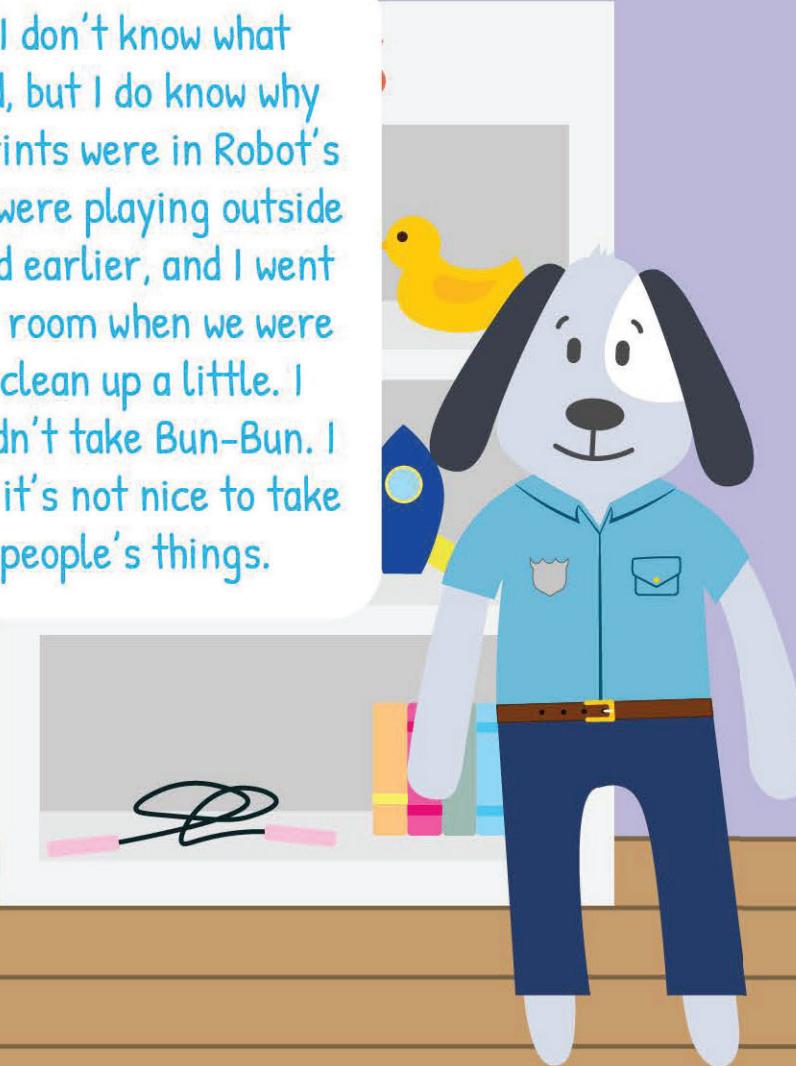

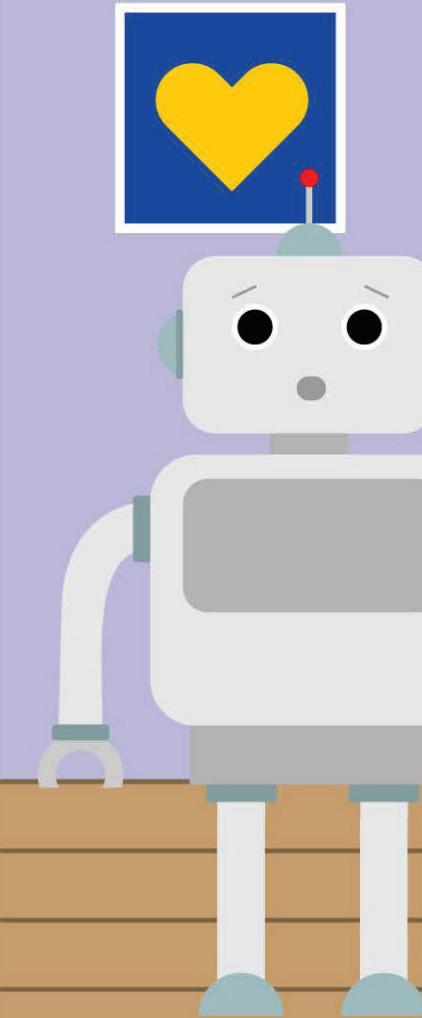

Robot is upset because Bun-Bun went missing while Robot was at the grocery store. We came here because we found your footprints in Robot's room. Do you know what happened to Bun-Bun?

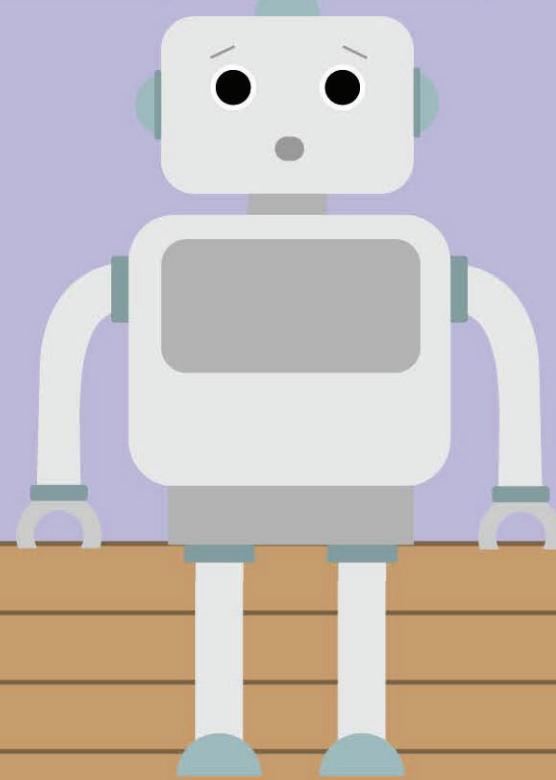

Oh no! I don't know what happened, but I do know why my footprints were in Robot's room. We were playing outside in the mud earlier, and I went into their room when we were done to clean up a little. I swear I didn't take Bun-Bun. I know that it's not nice to take other people's things.

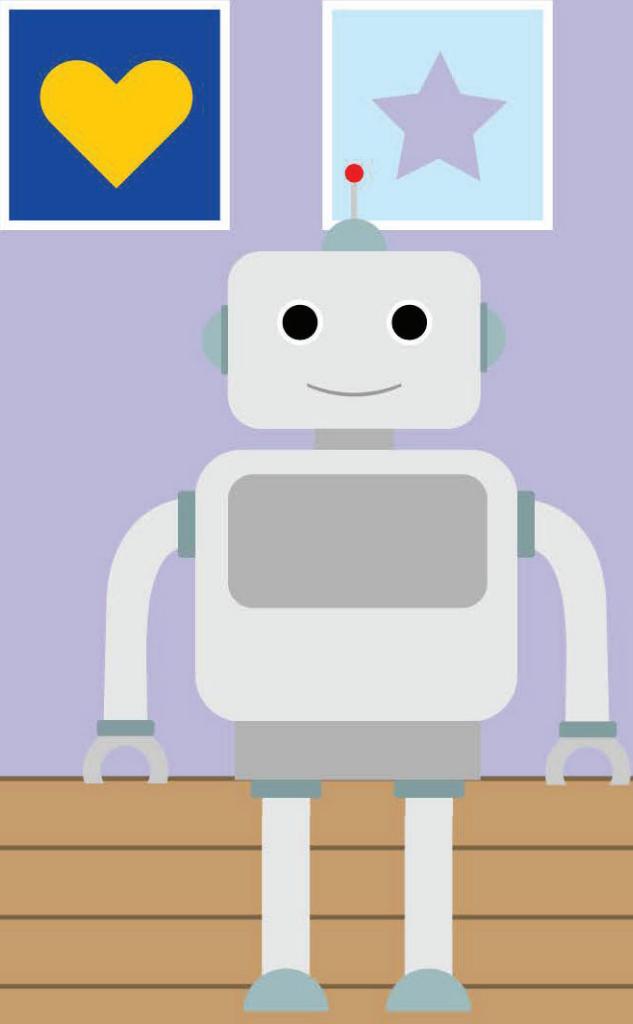

I forgot that you came into my room to clean up. I believe that you didn't take Bun-Bun. I'm sorry for accusing you.

## TOYS

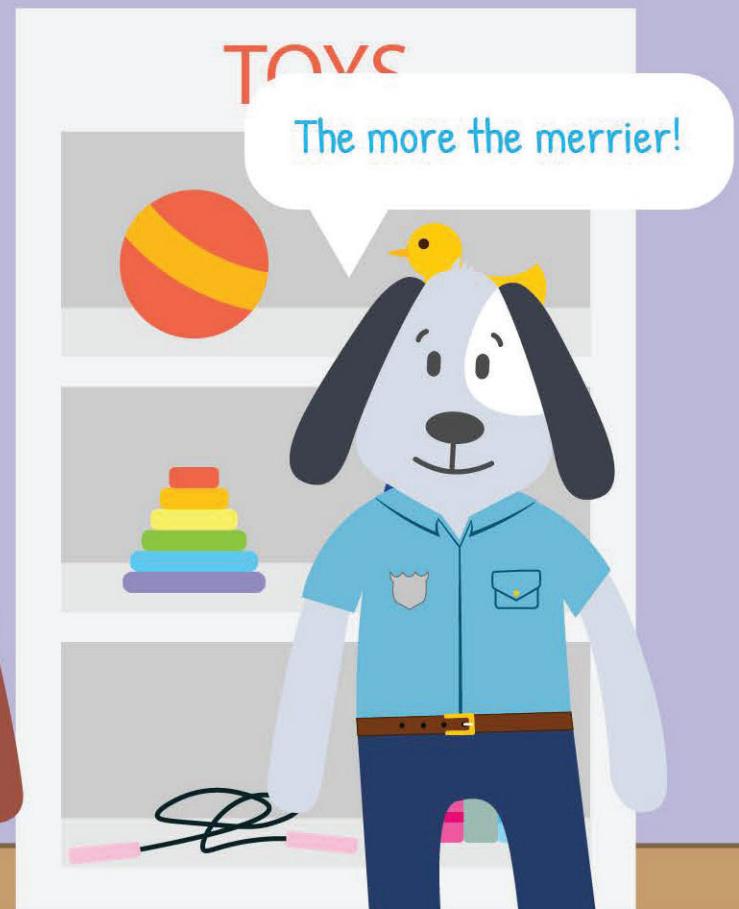

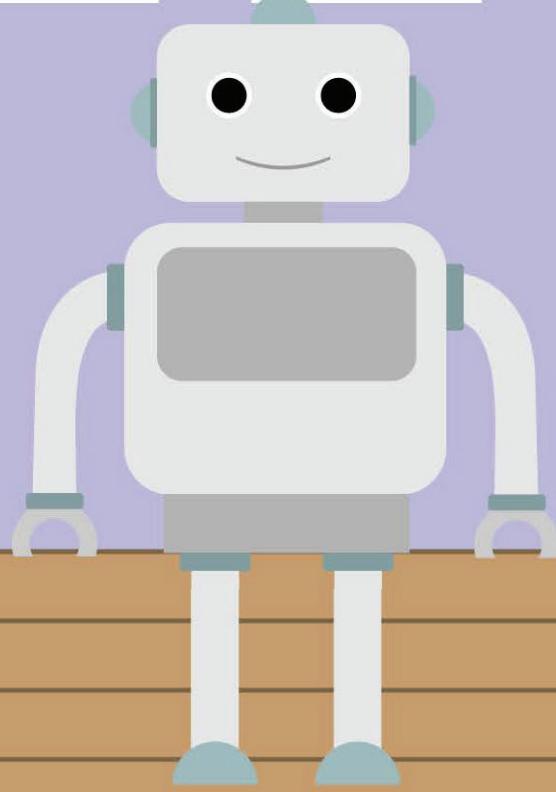

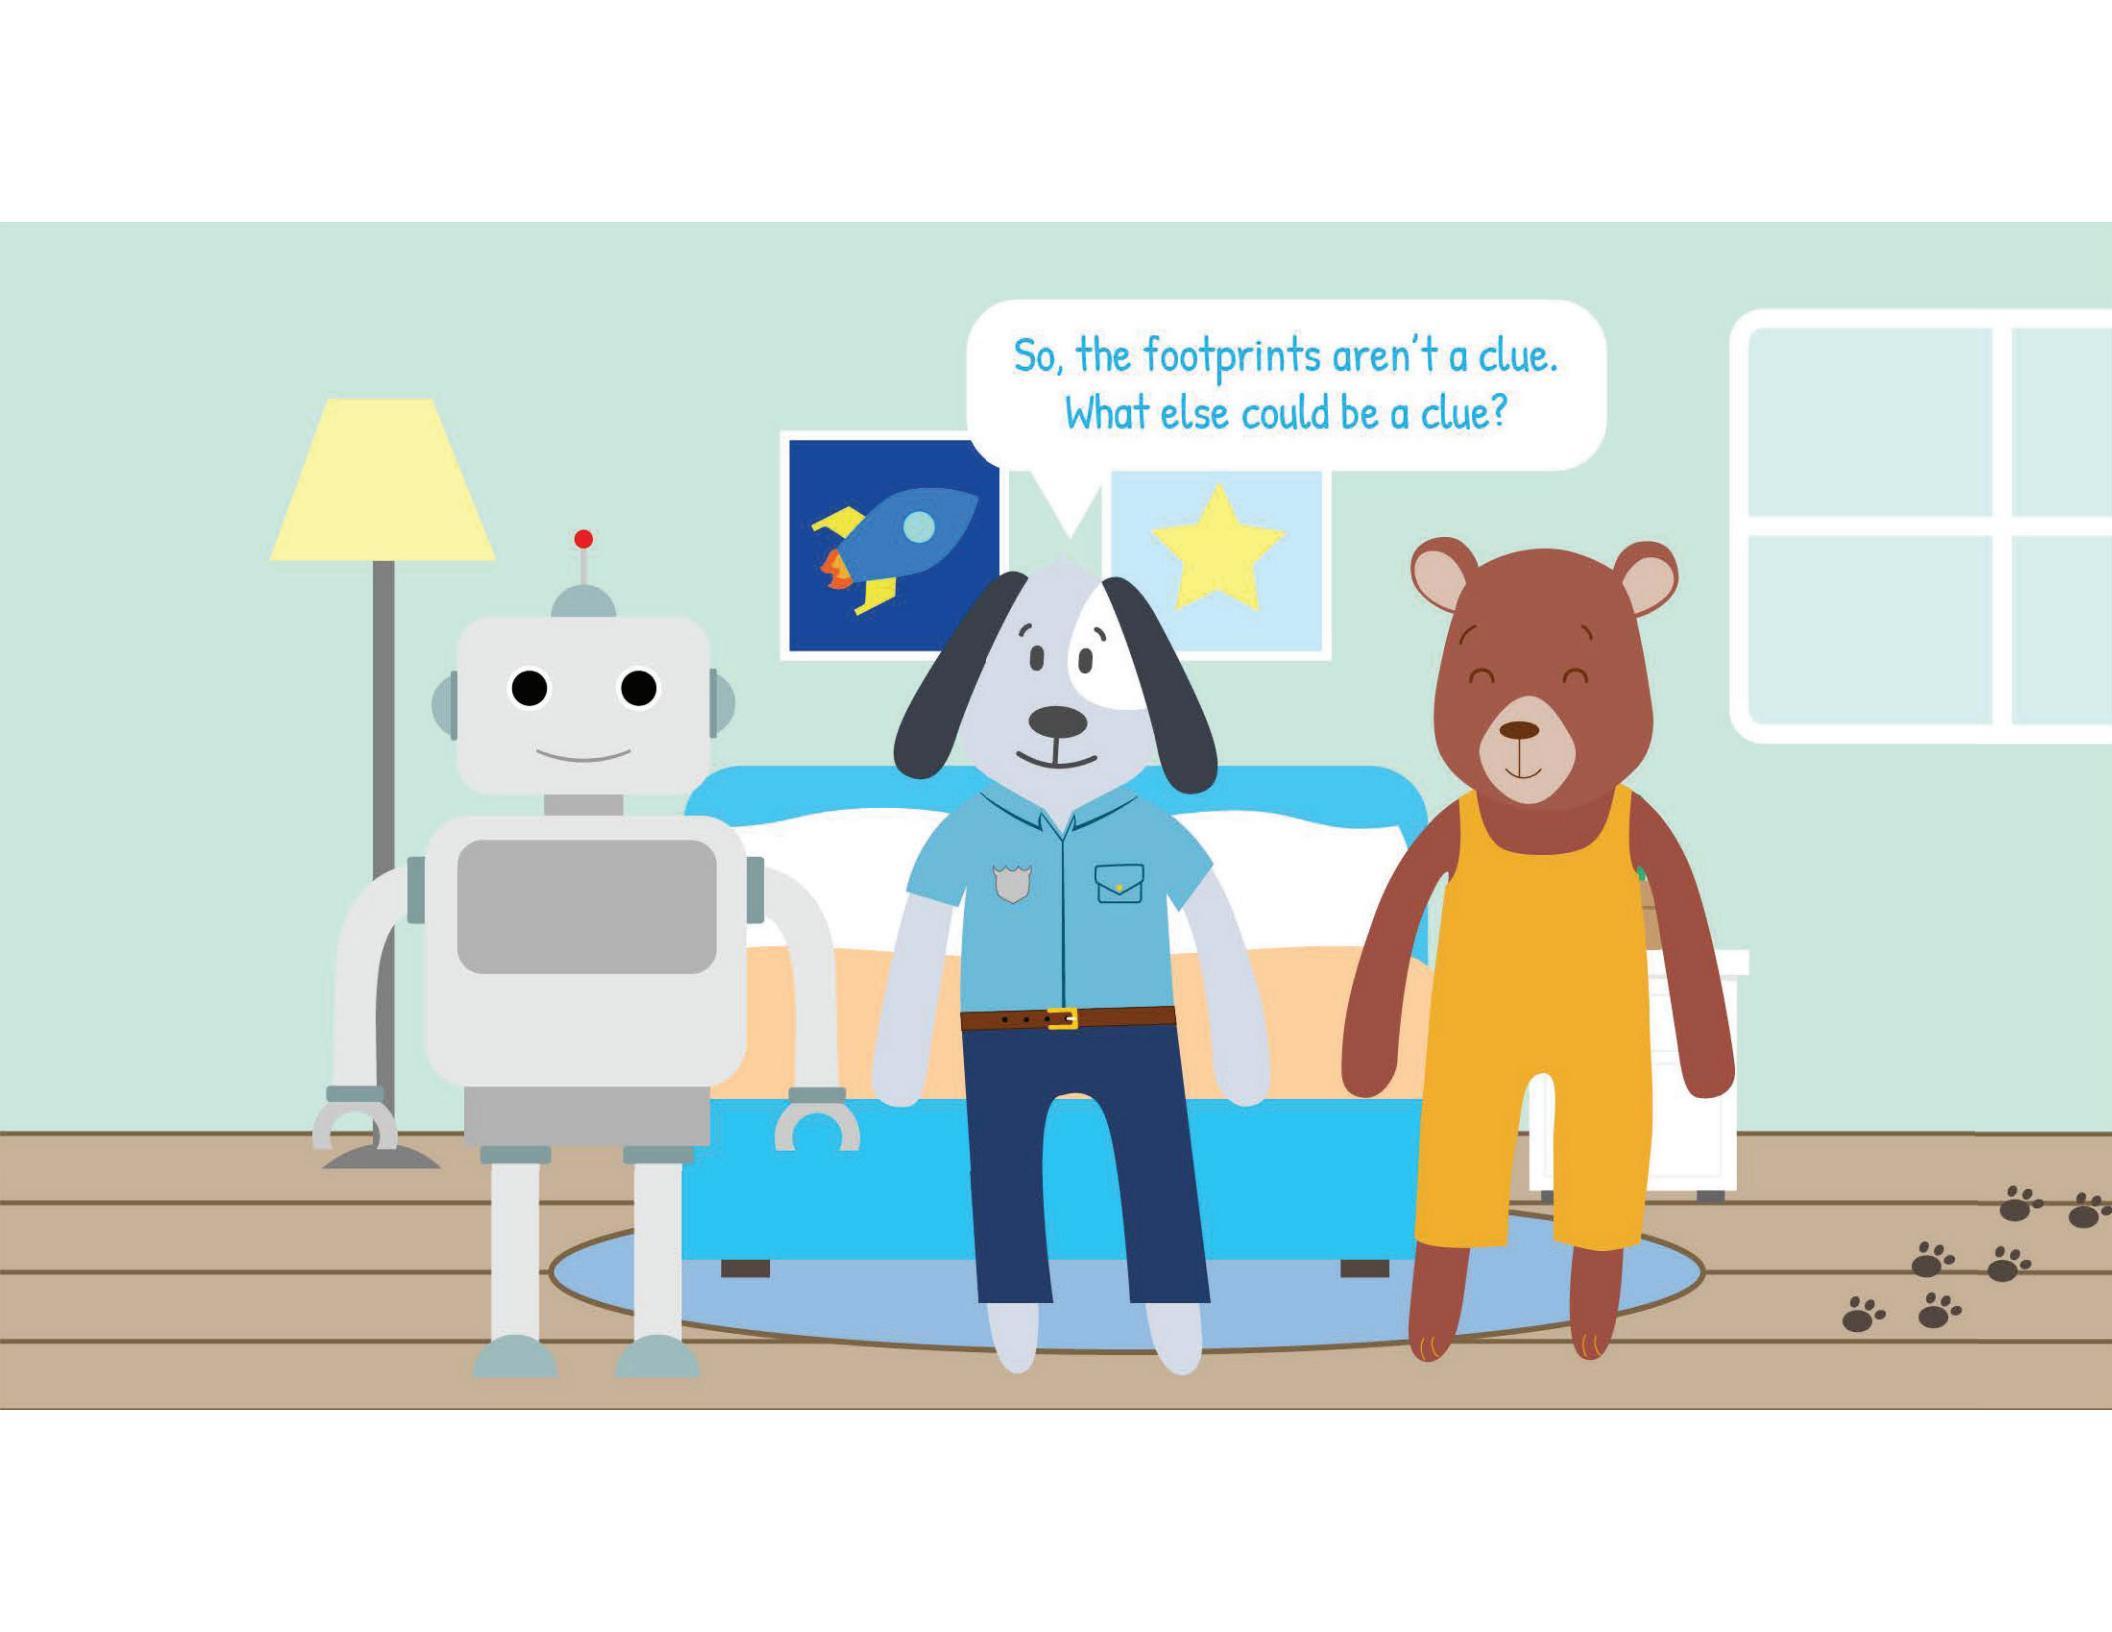

It's okay Robot. I know Bun-Bun means a lot to you. Do you want me to help you look?

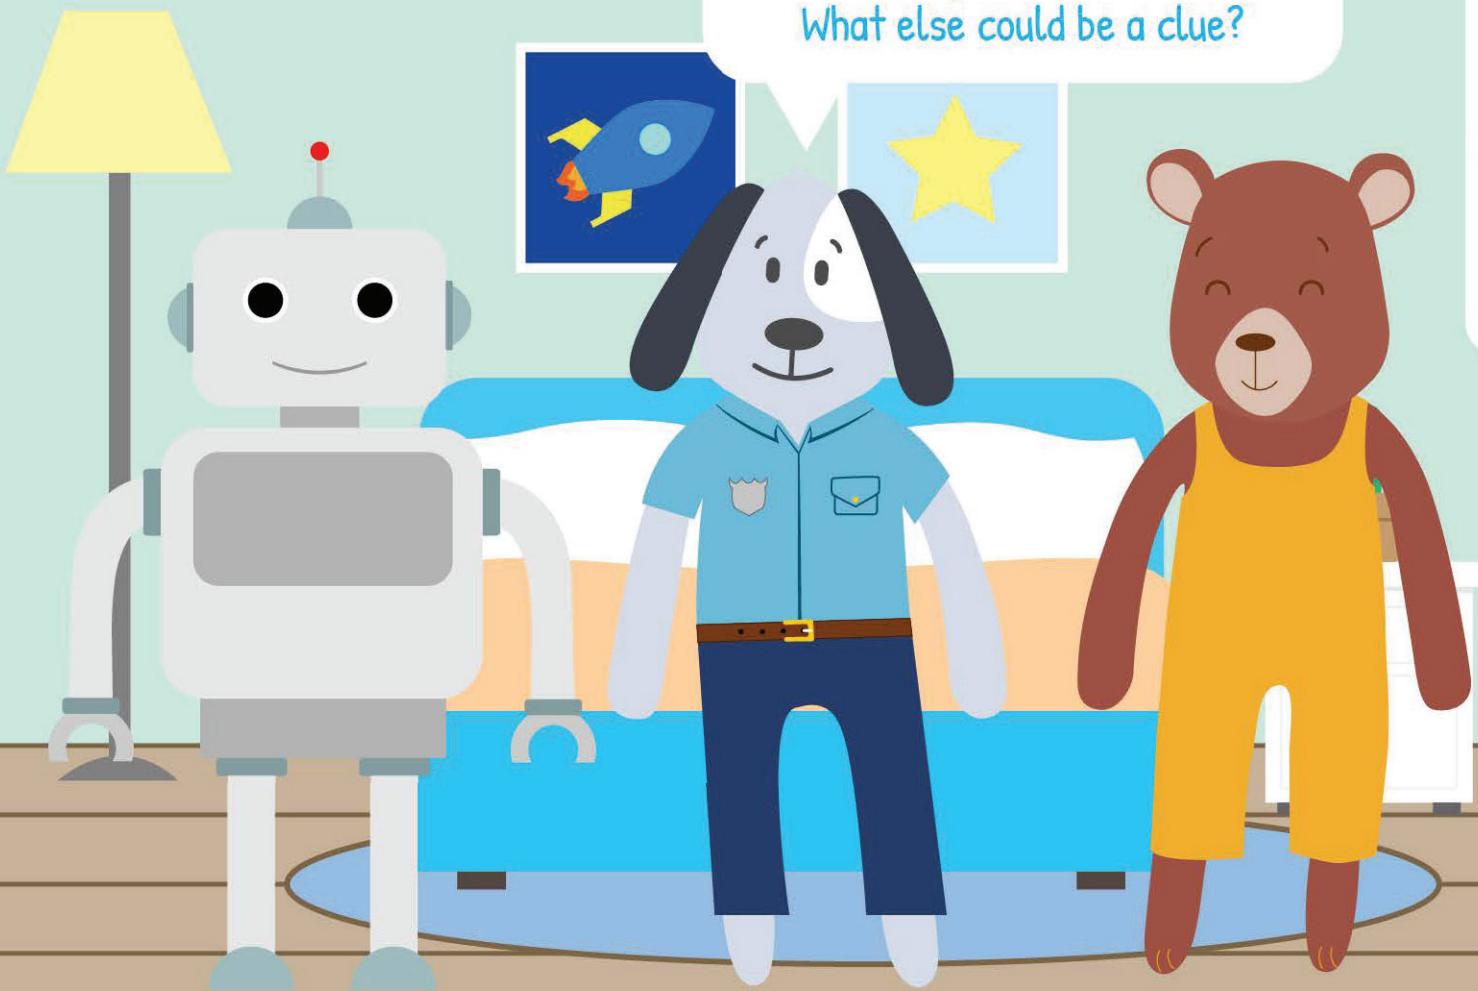

S

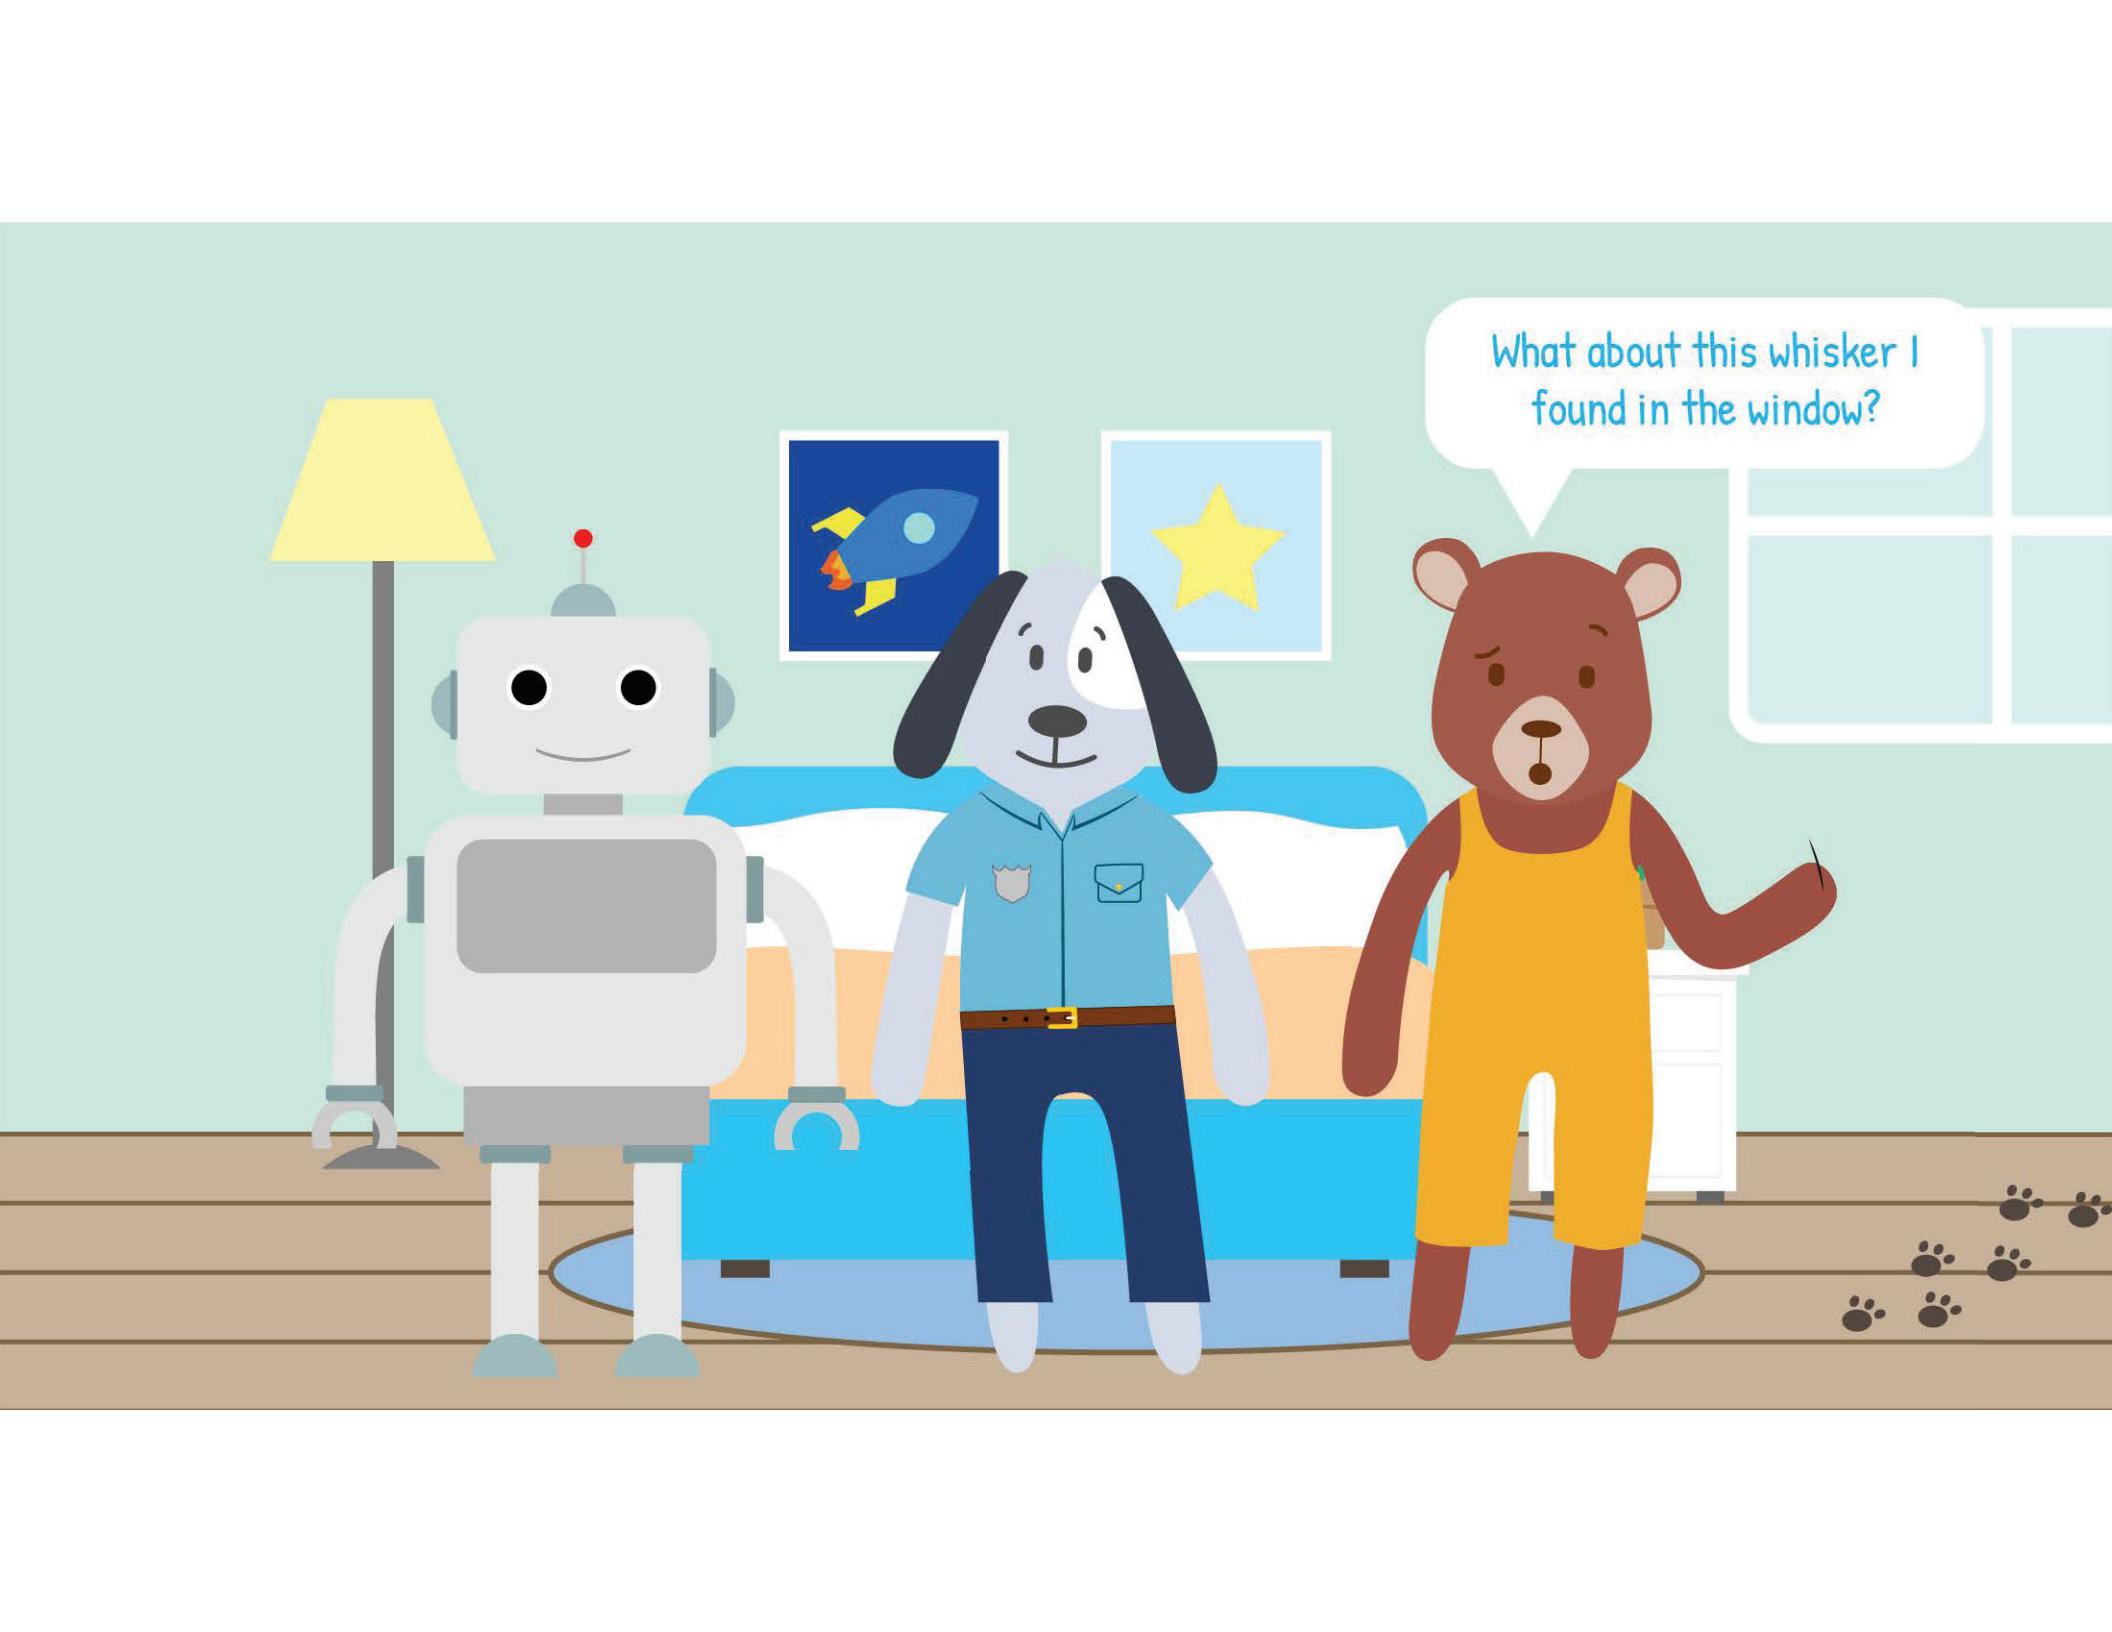

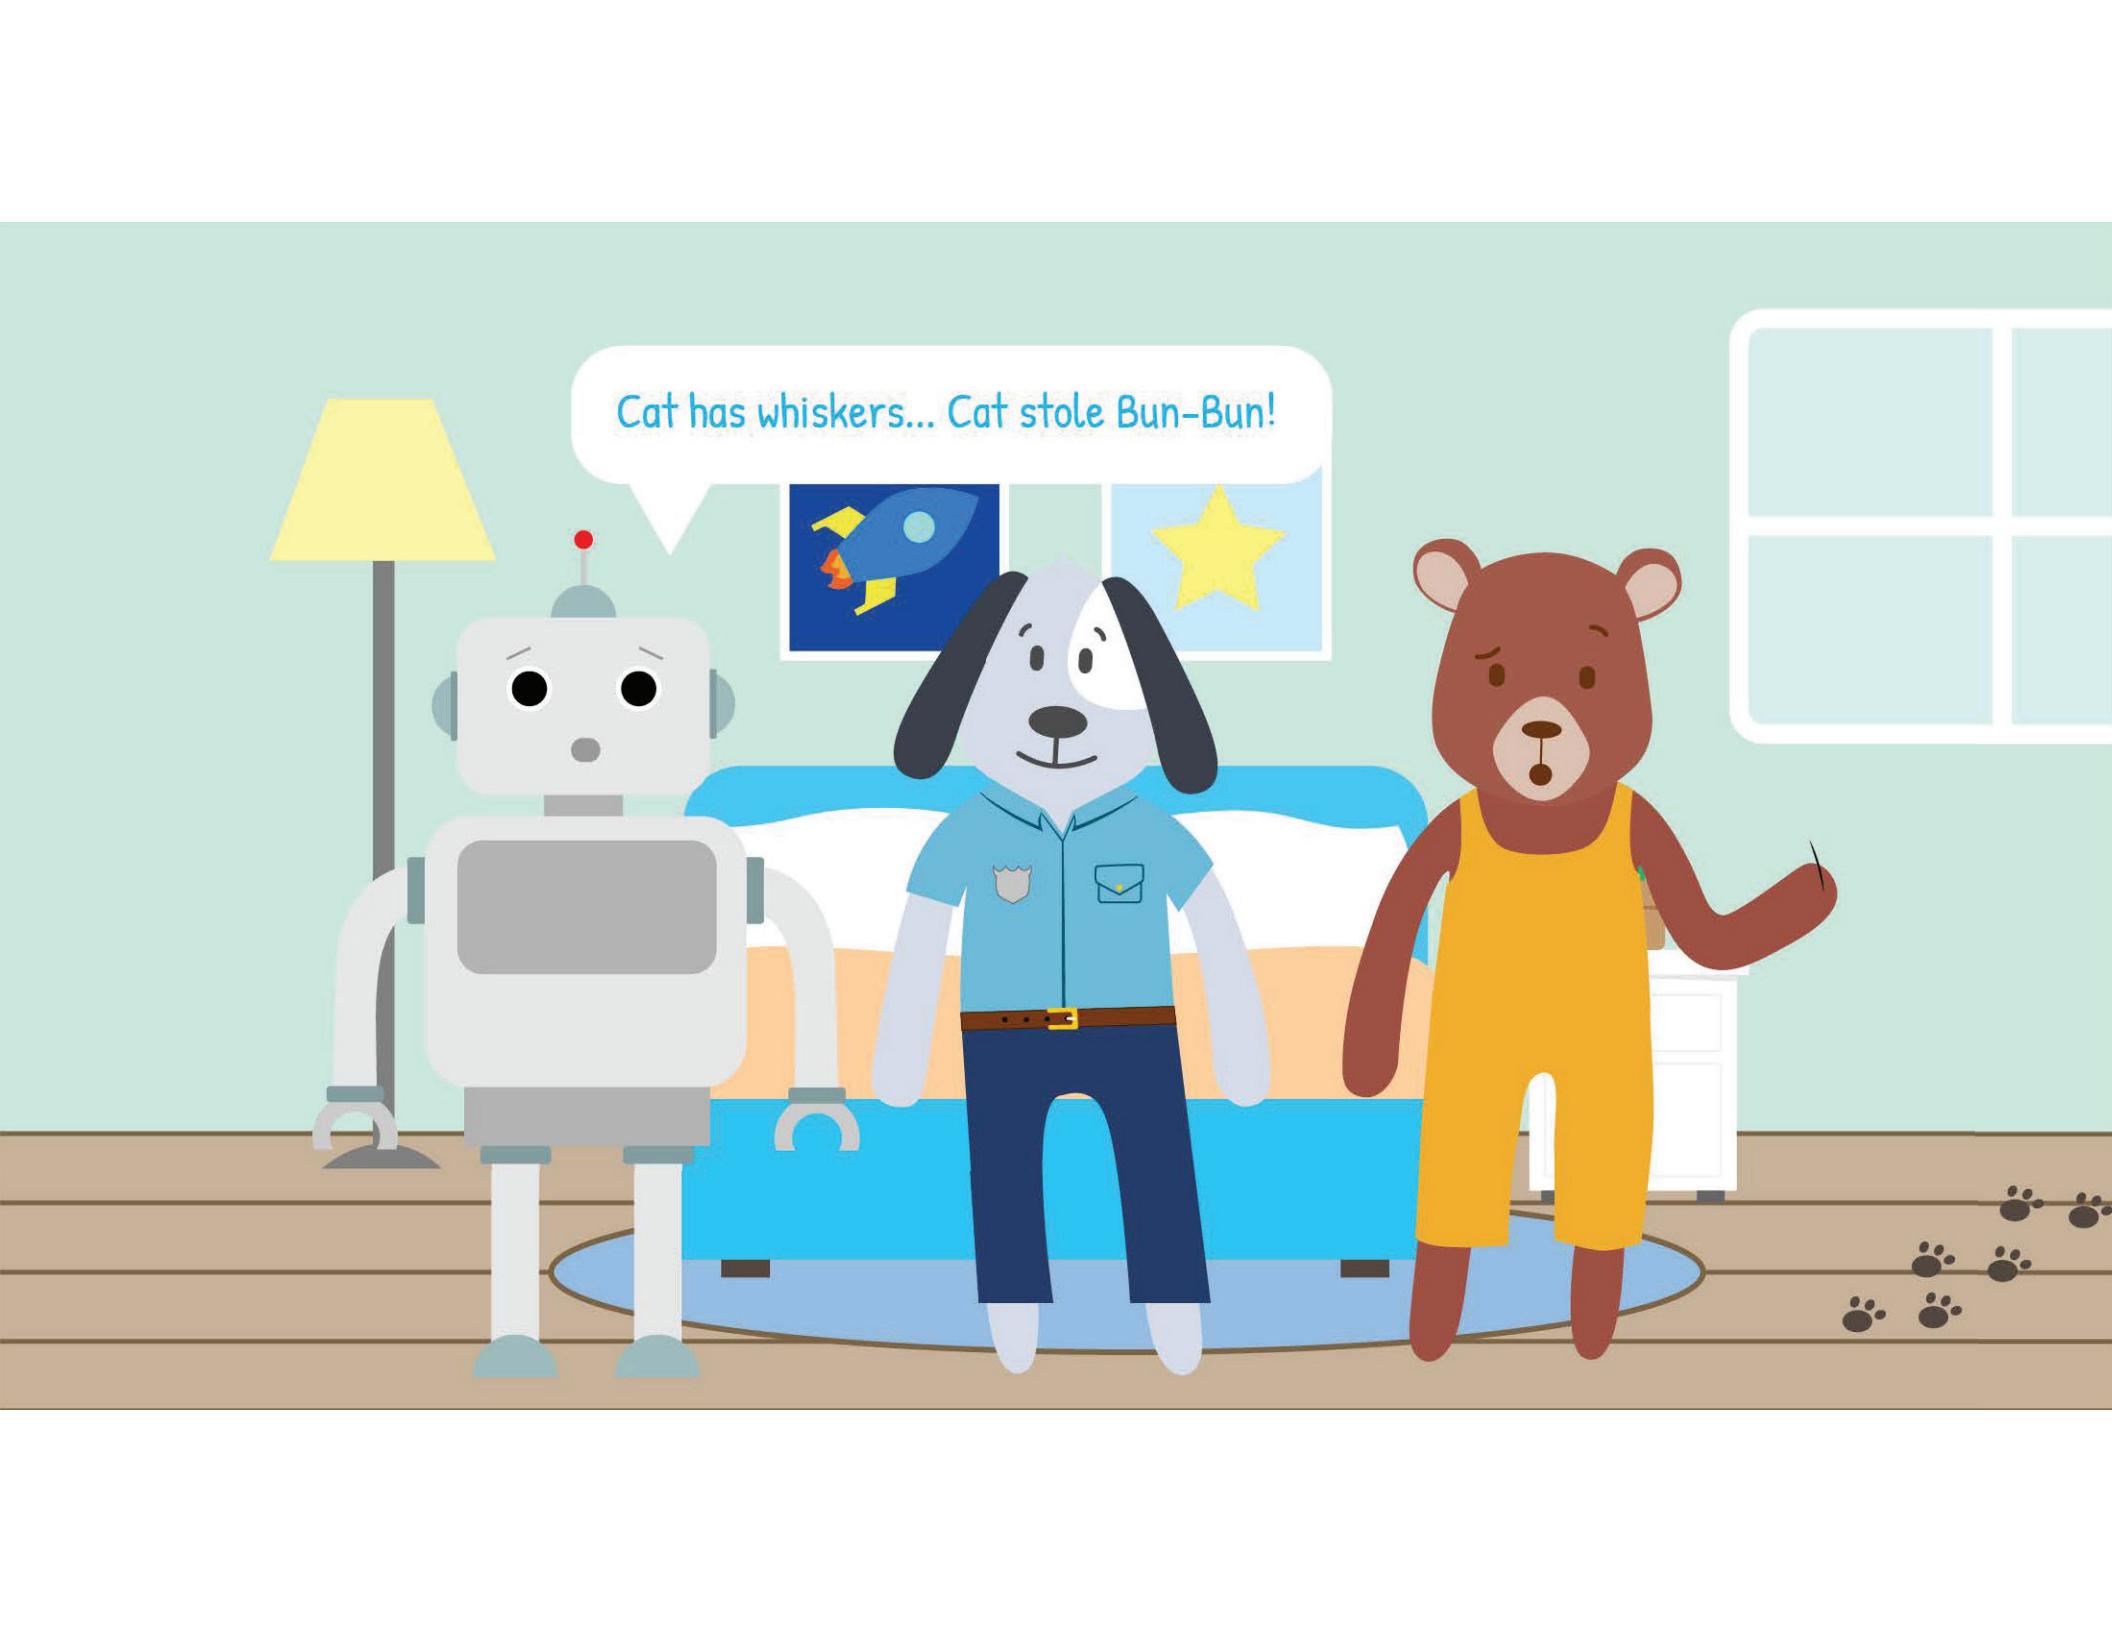

So, the footprints aren't a clue.  
What else could be a clue?

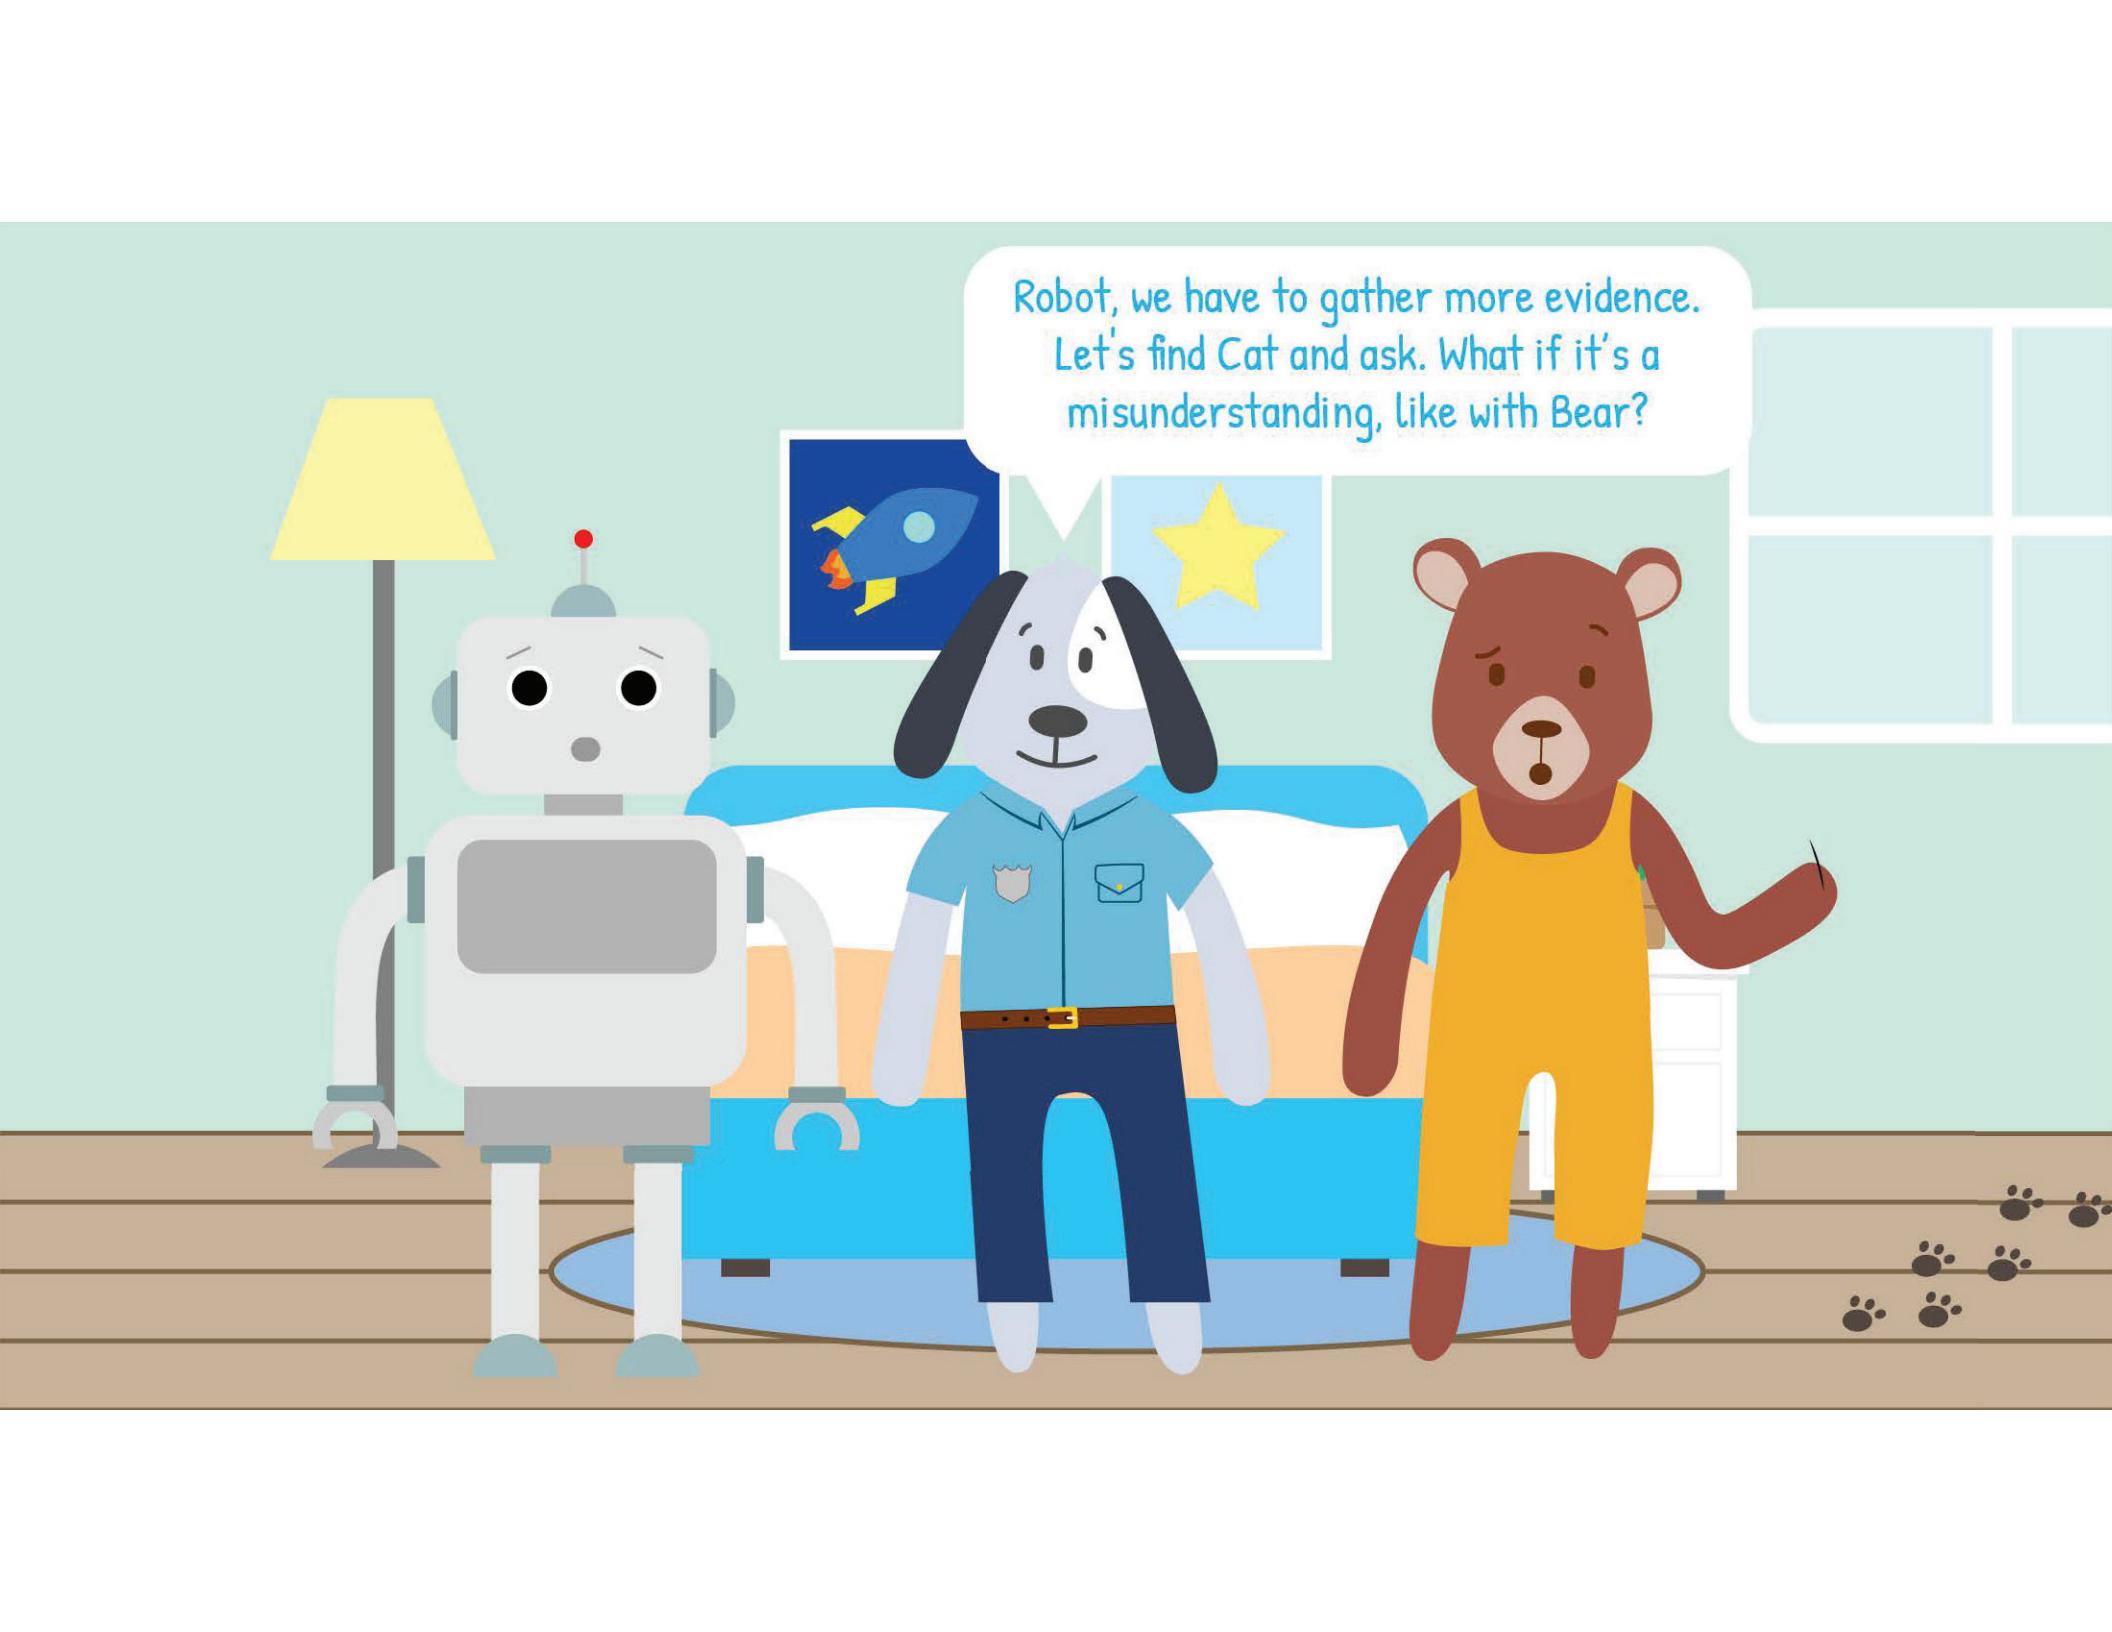

What about this whisker I  
found in the window?

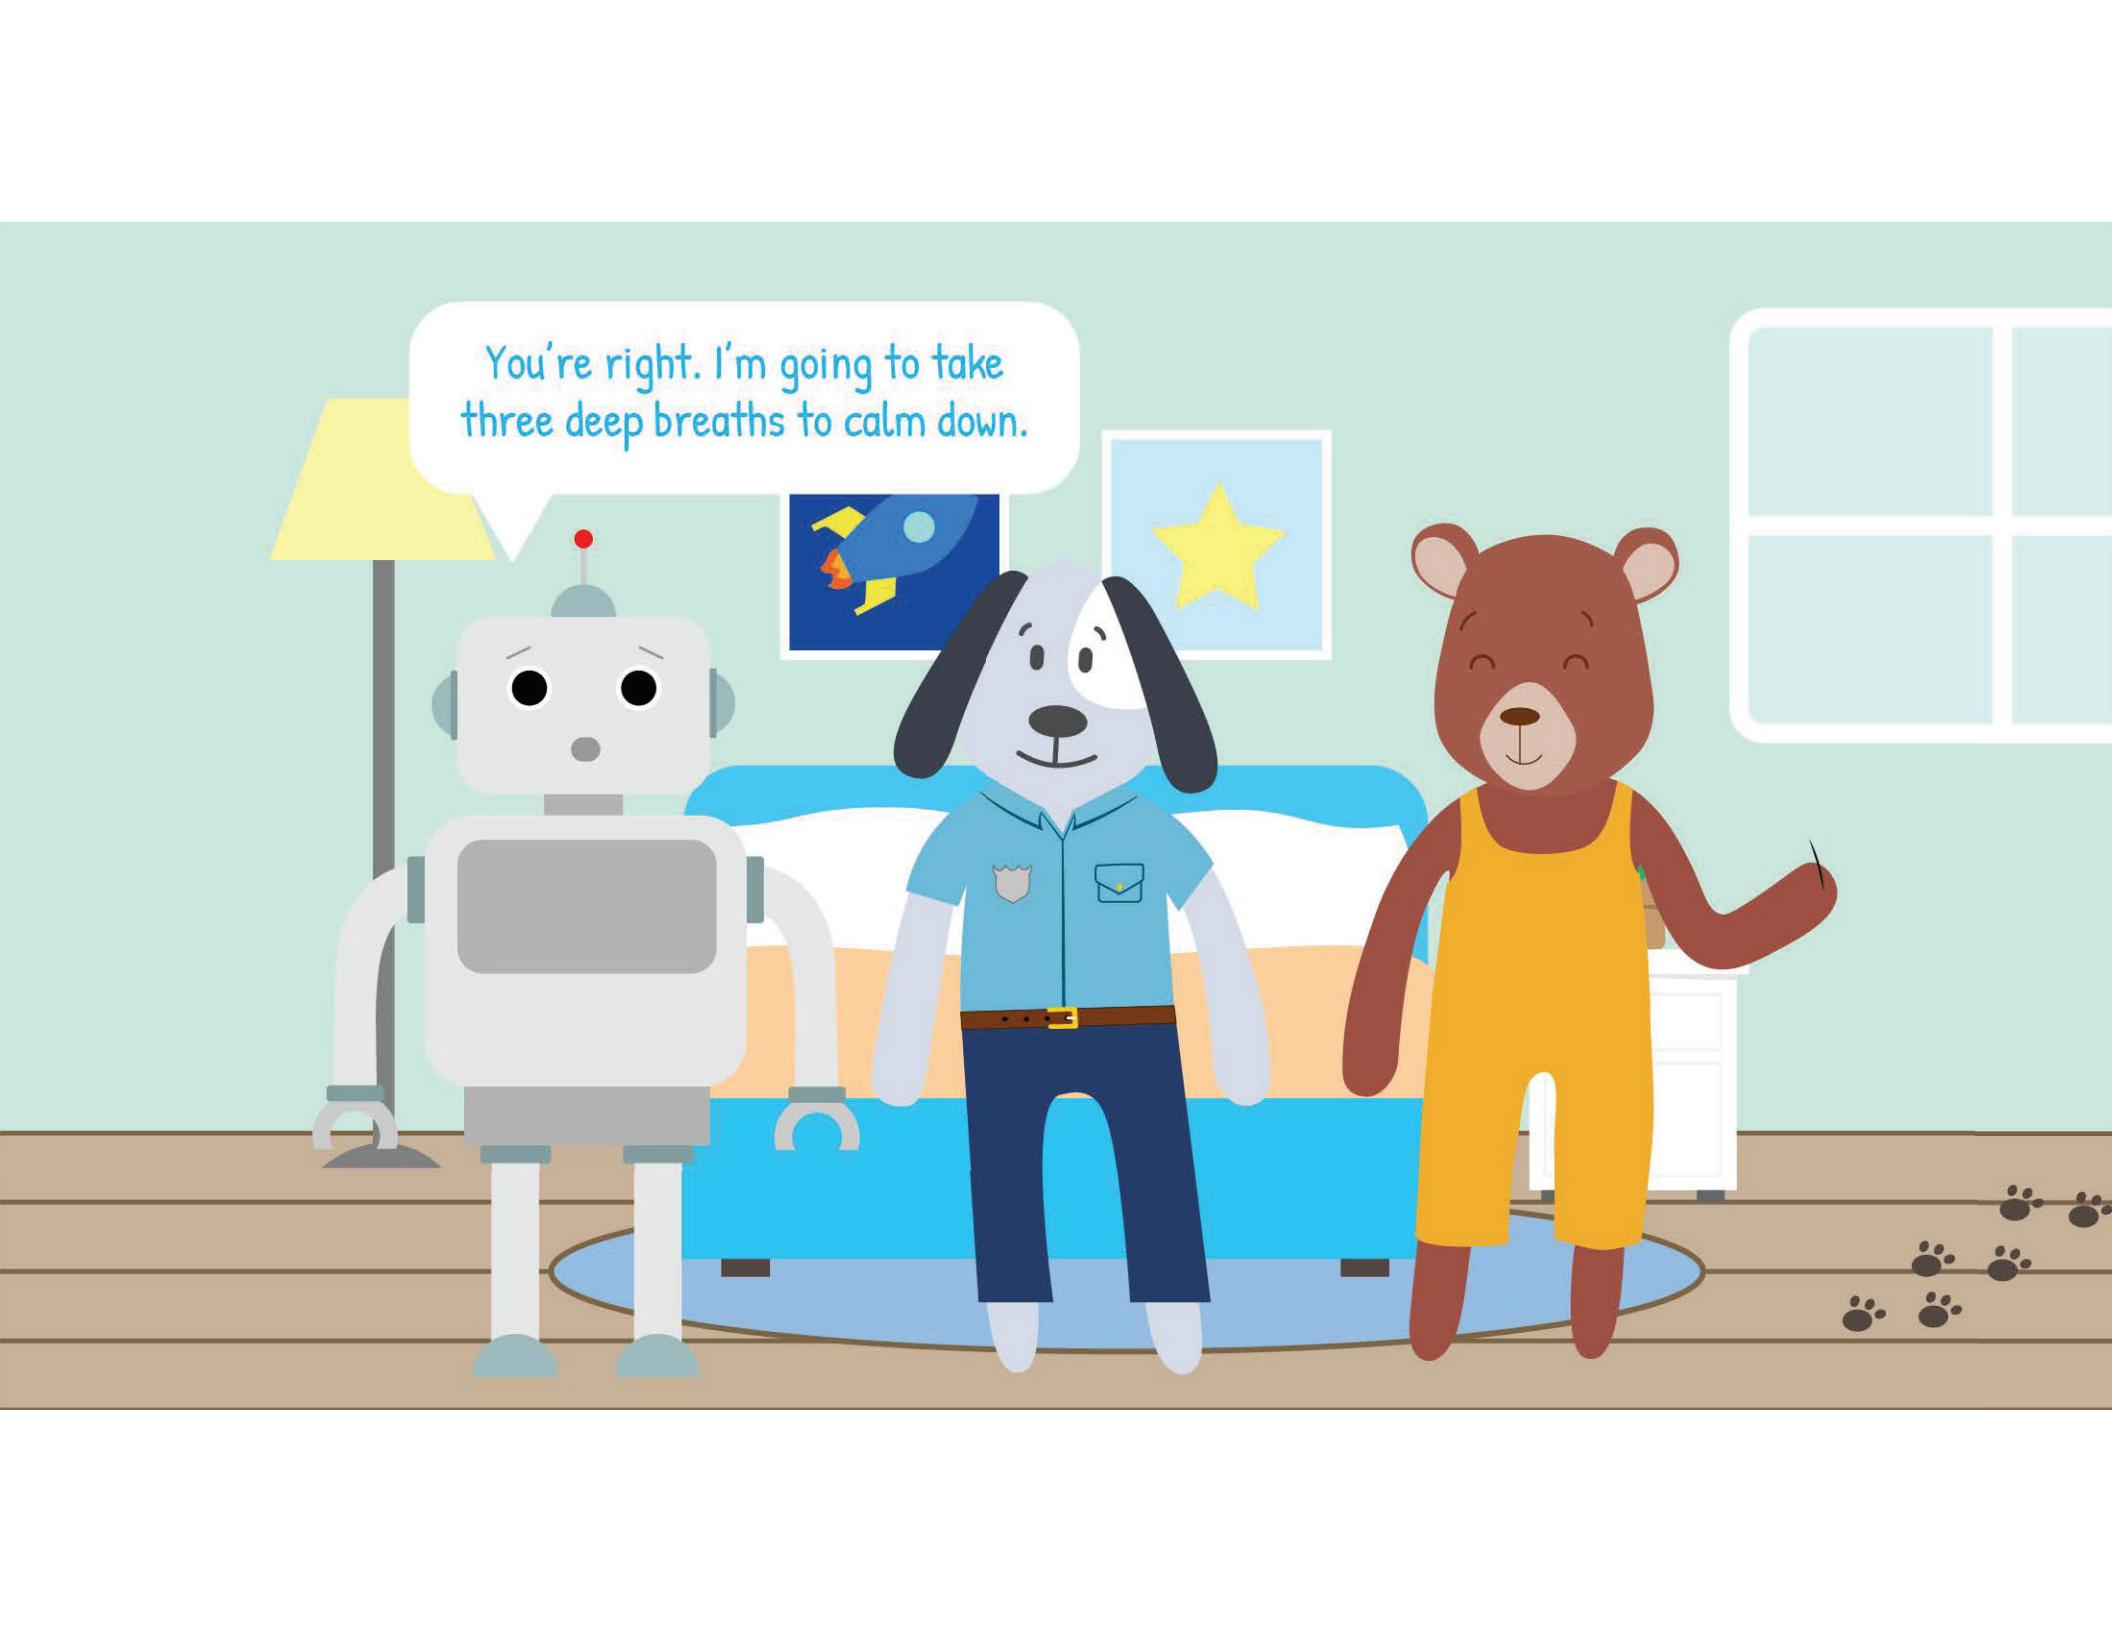

Cat has whiskers... Cat stole Bun-Bun!

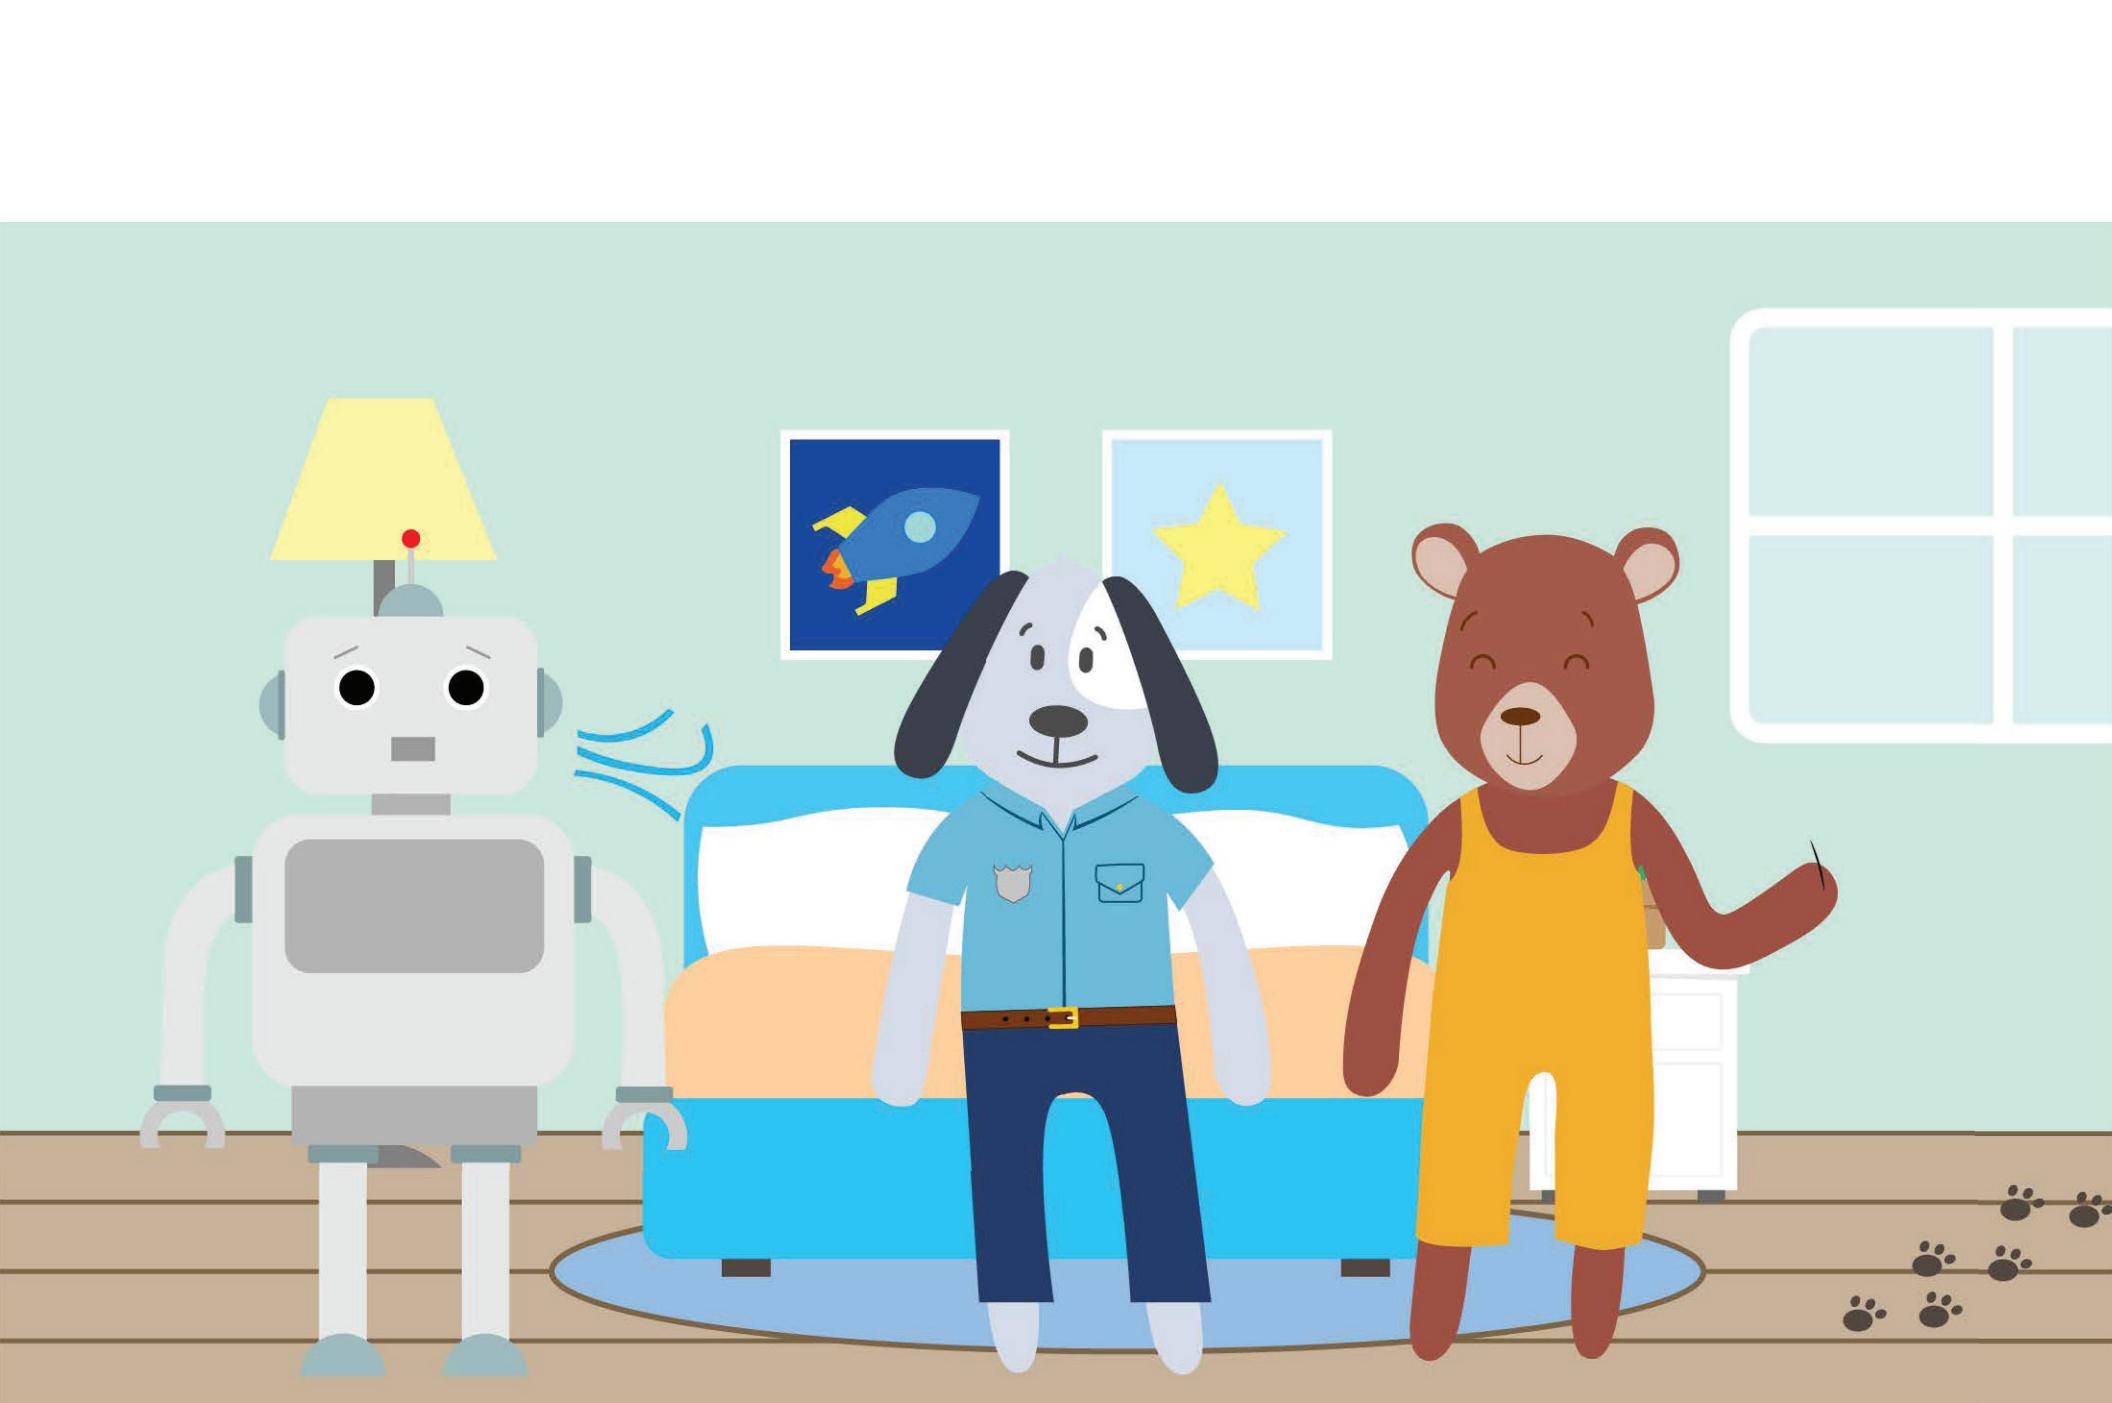

Robot, we have to gather more evidence.  
Let's find Cat and ask. What if it's a  
misunderstanding, like with Bear?

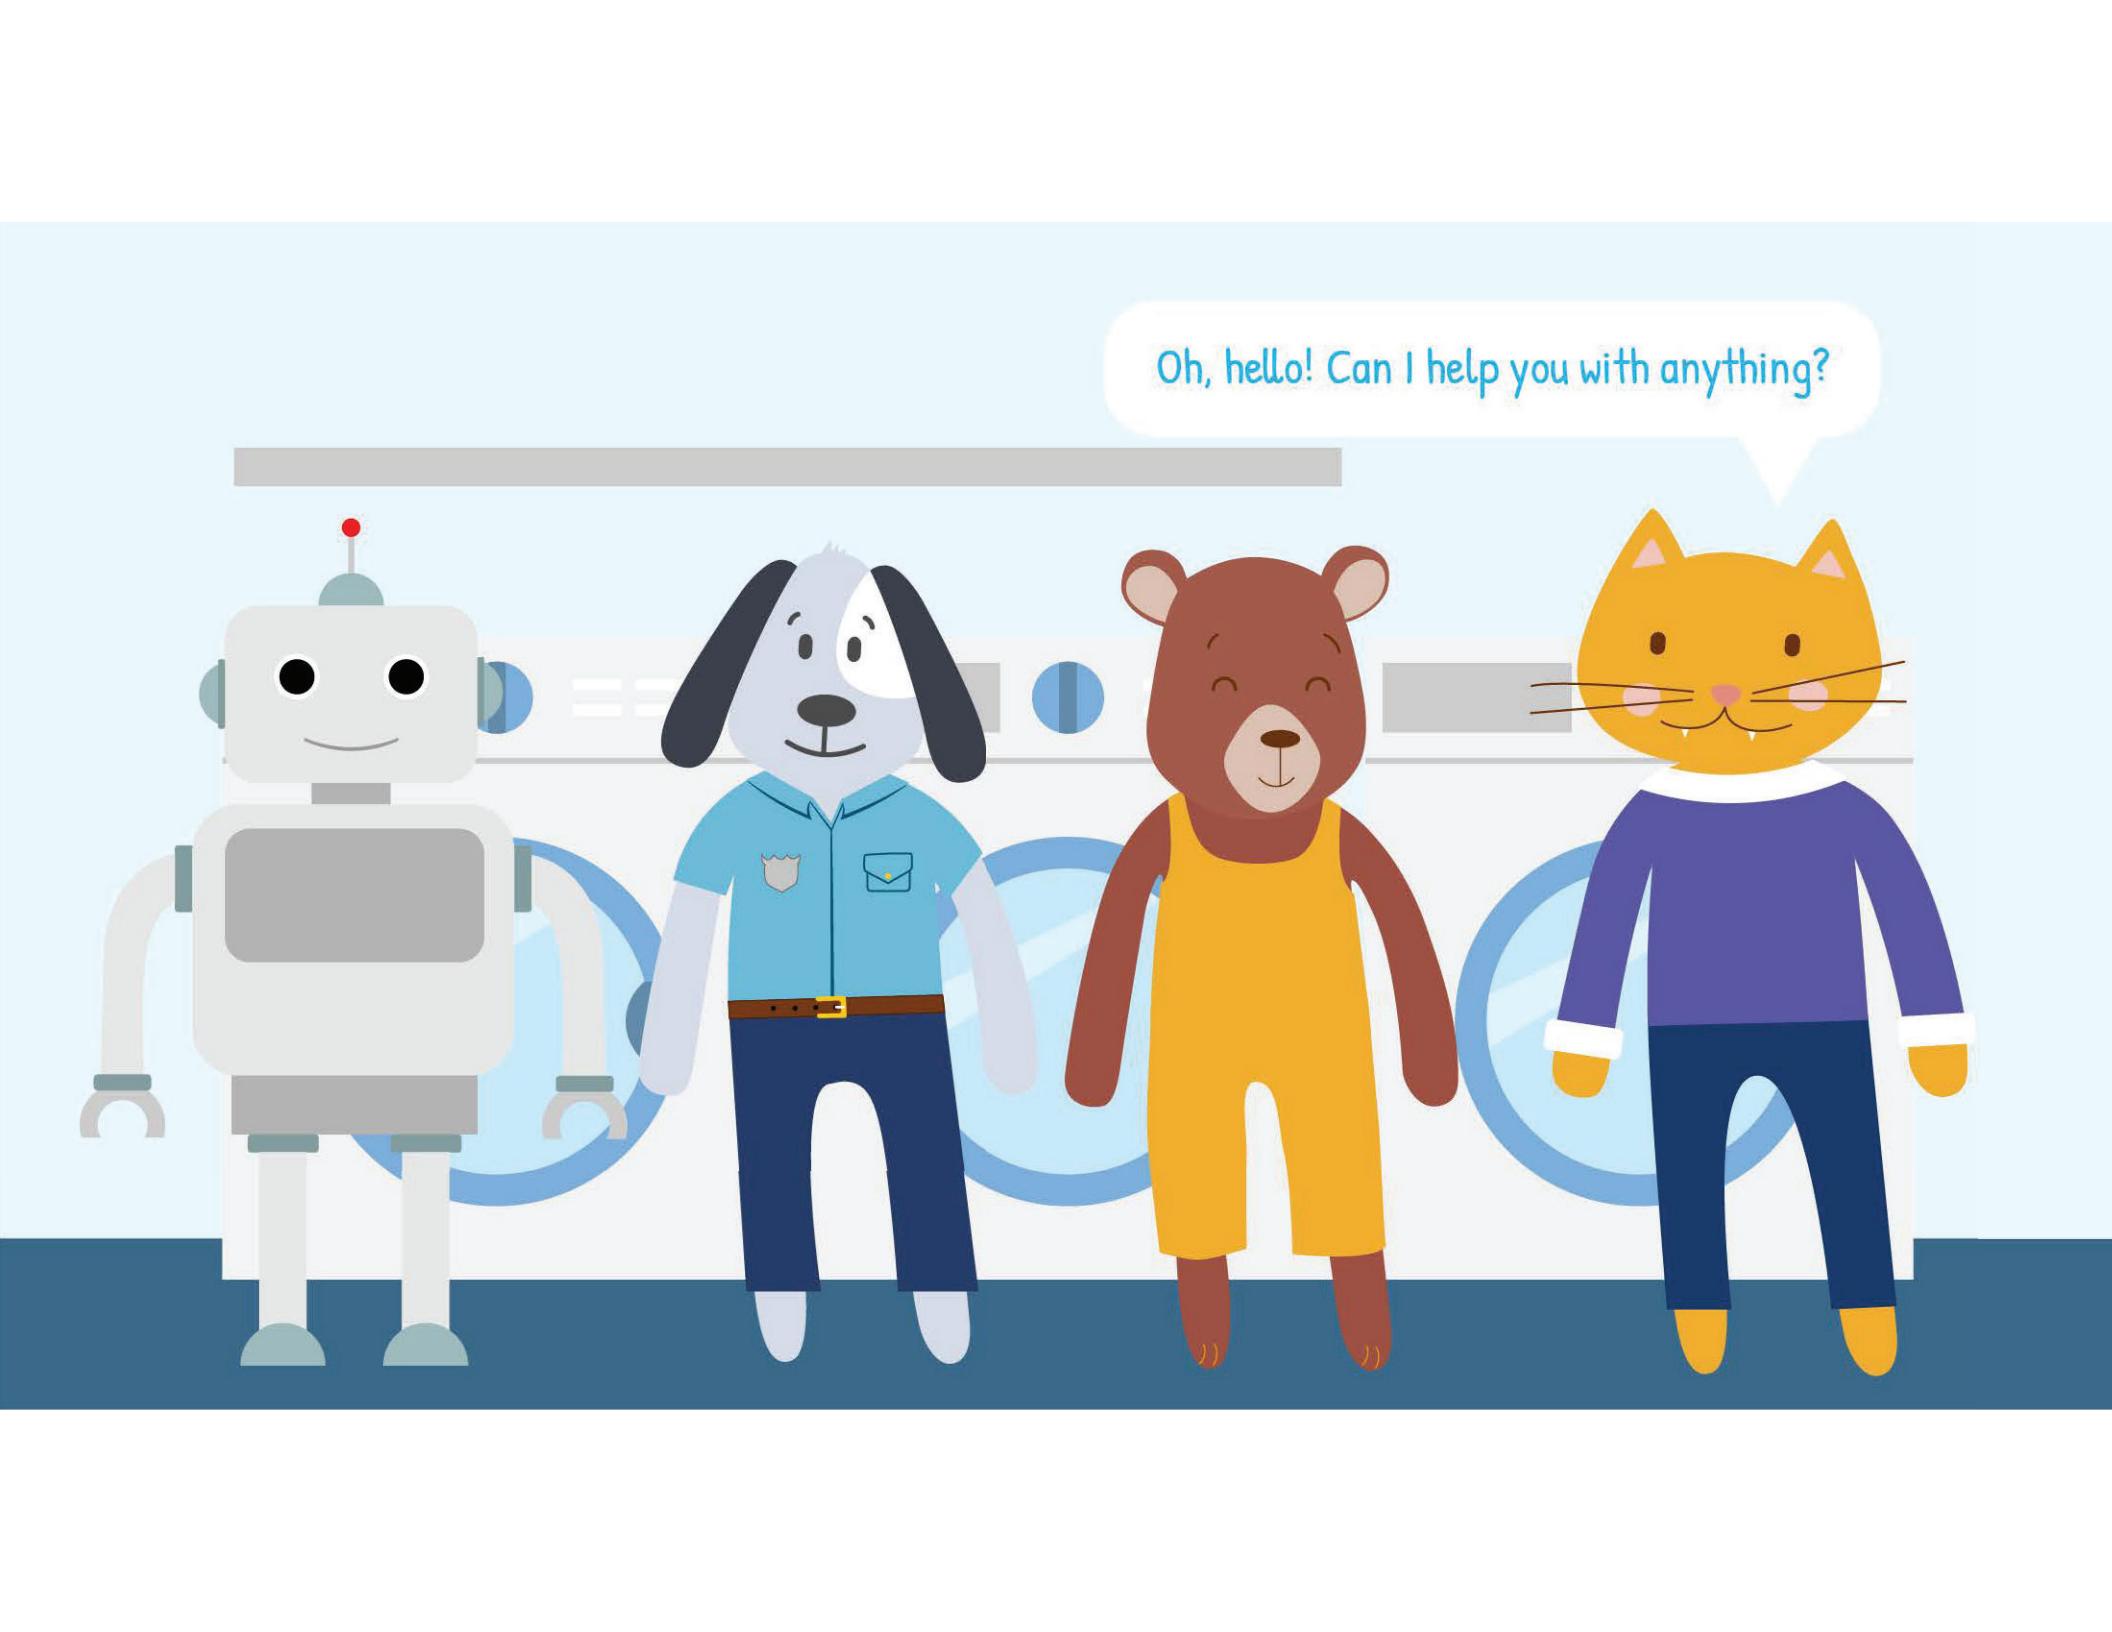

You're right. I'm going to take  
three deep breaths to calm down.

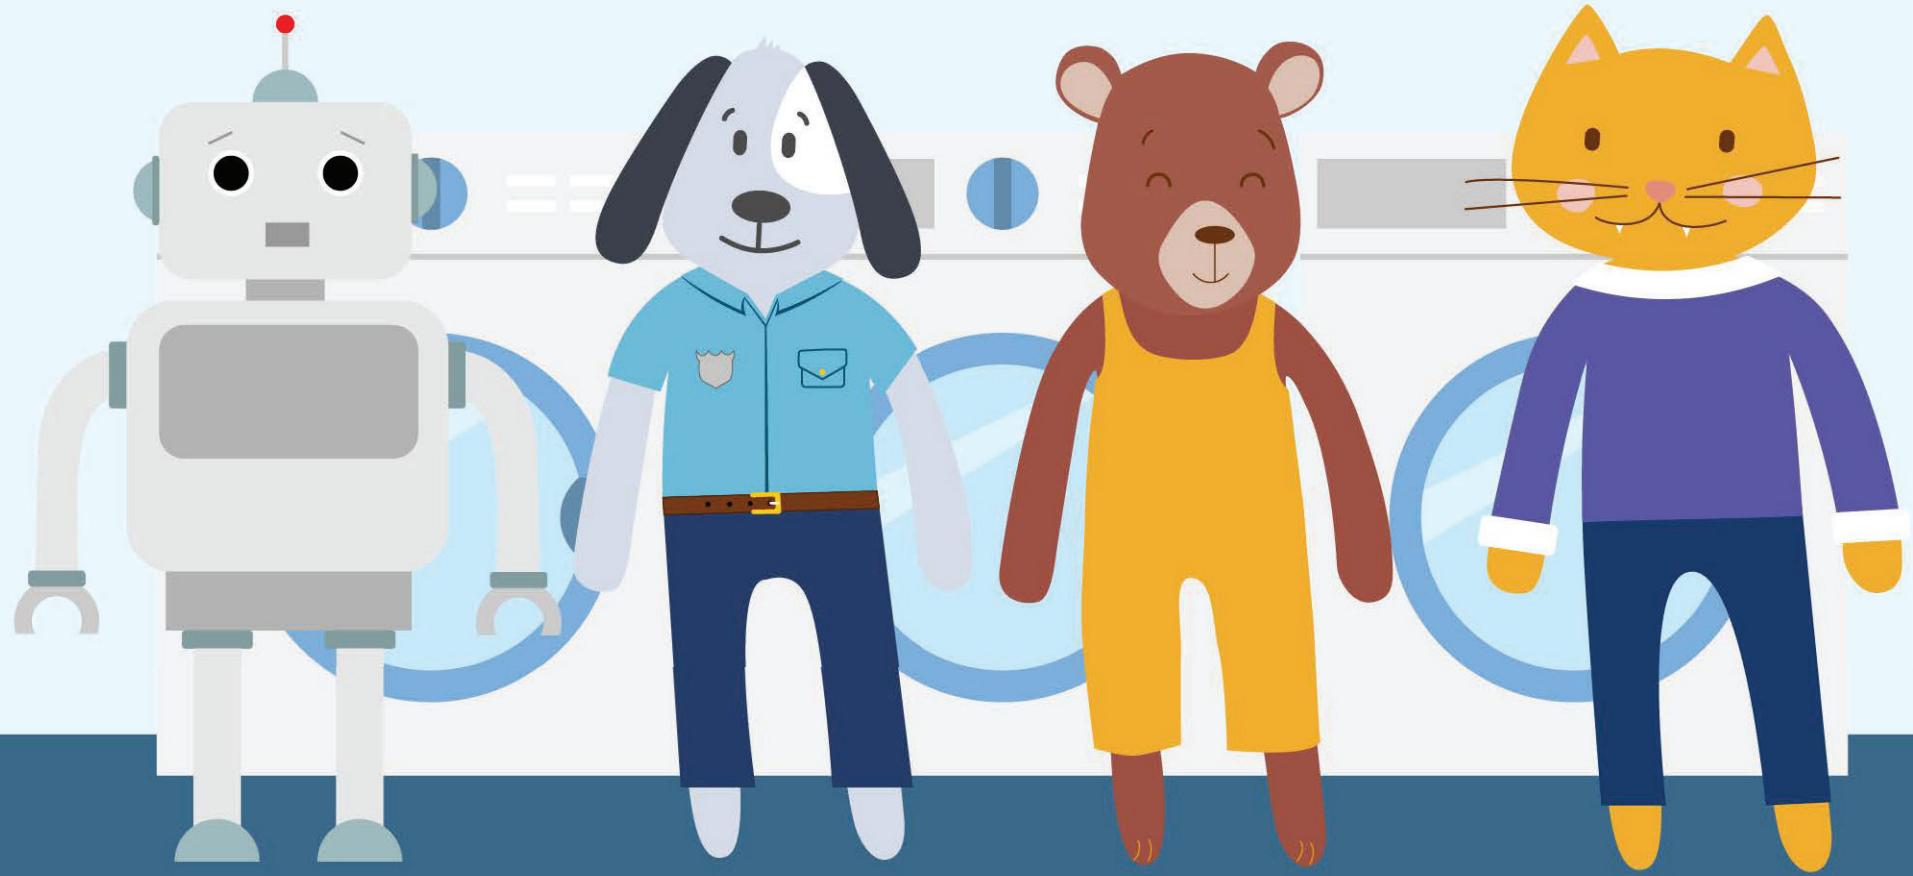

Oh, hello! Can I help you with anything?

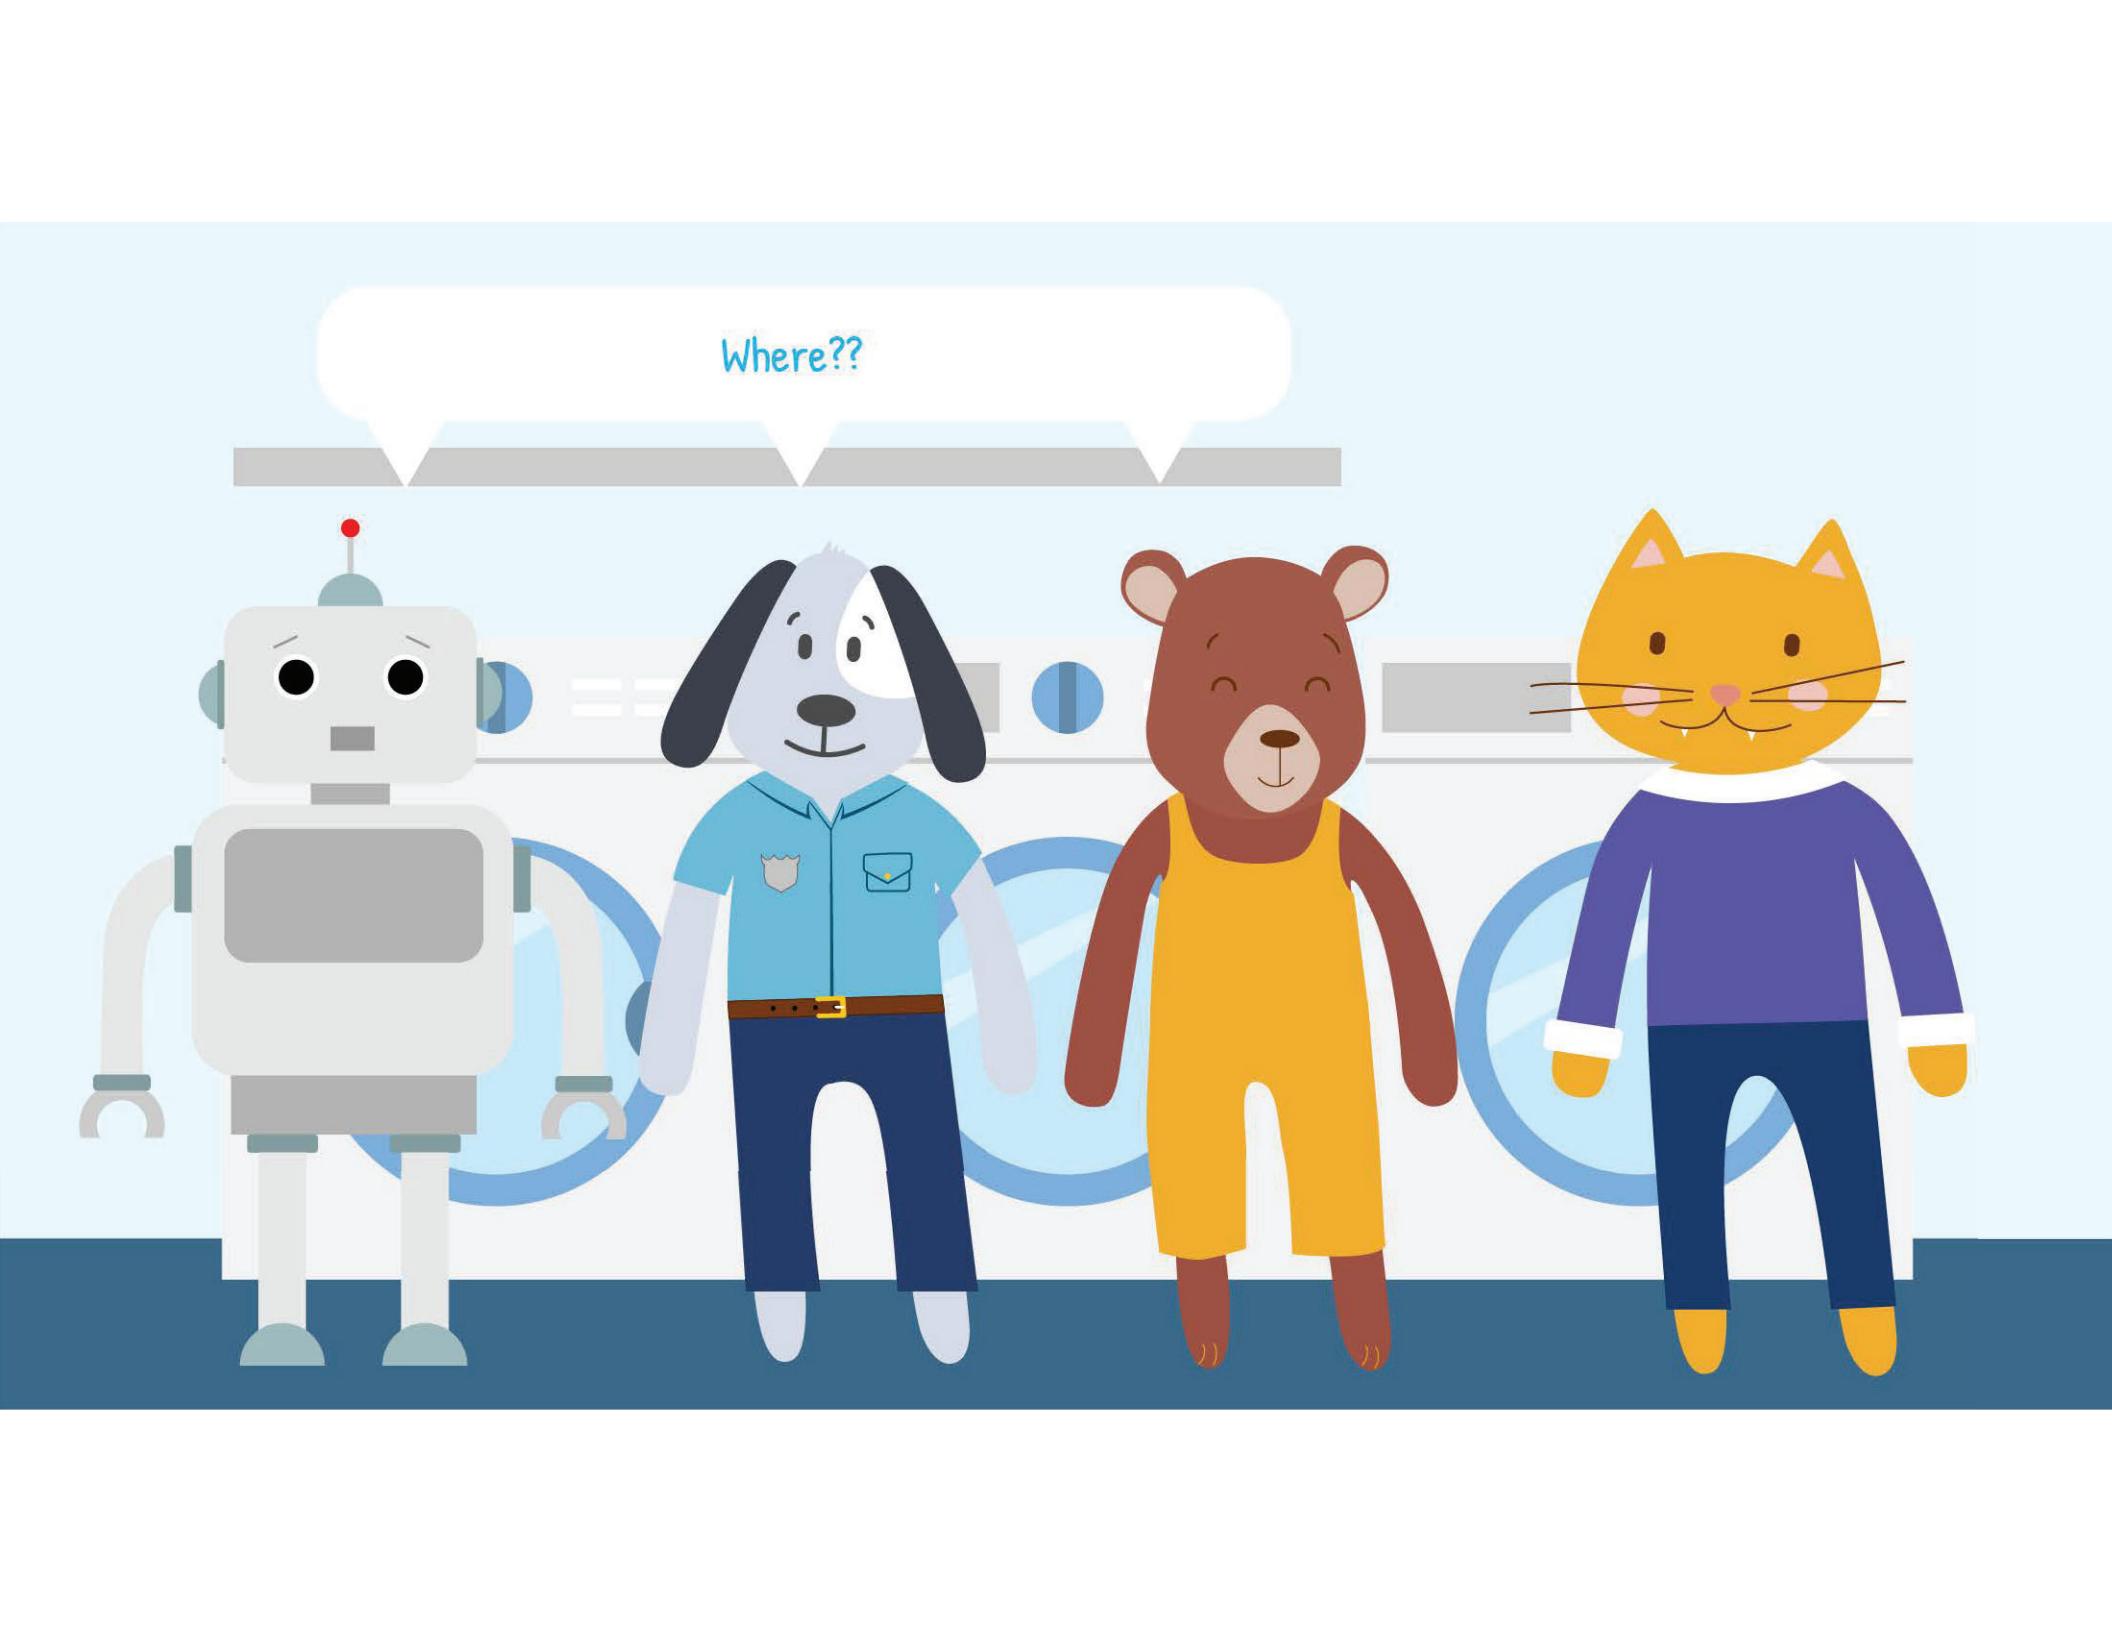

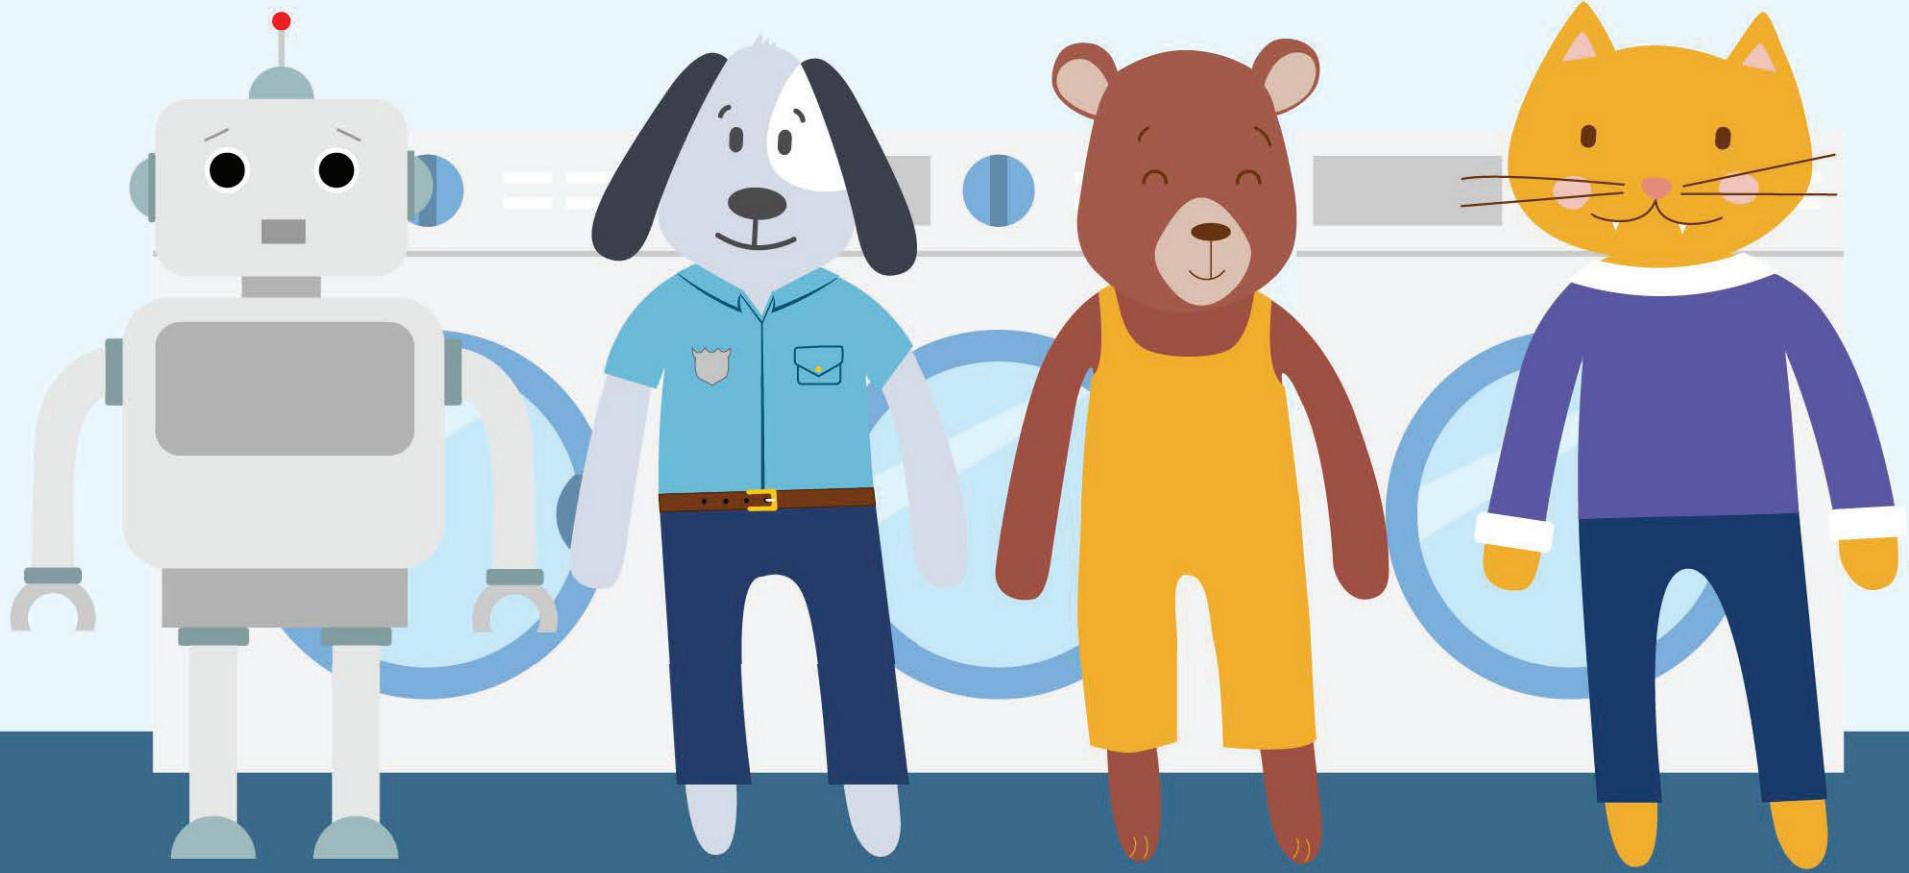

My Bun-Bun is missing, and we found your whiskers  
in my room, so I think you stole Bun-Bun!

I didn't steal Bun-Bun! But I know where they are.

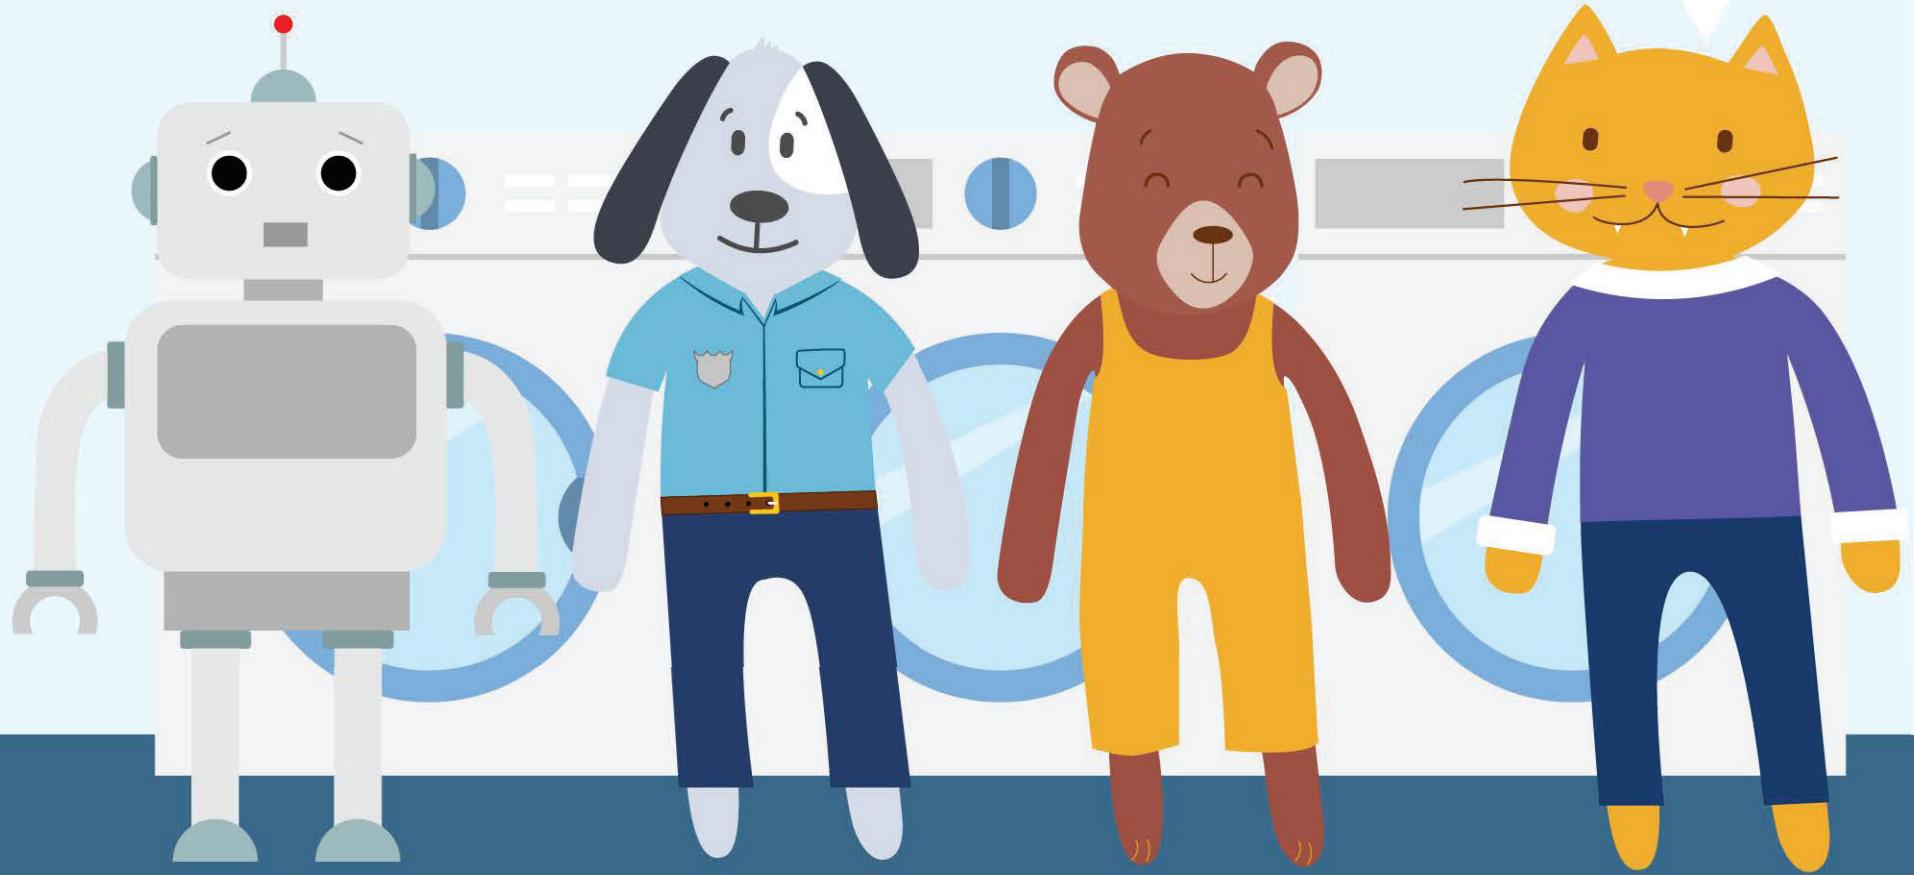

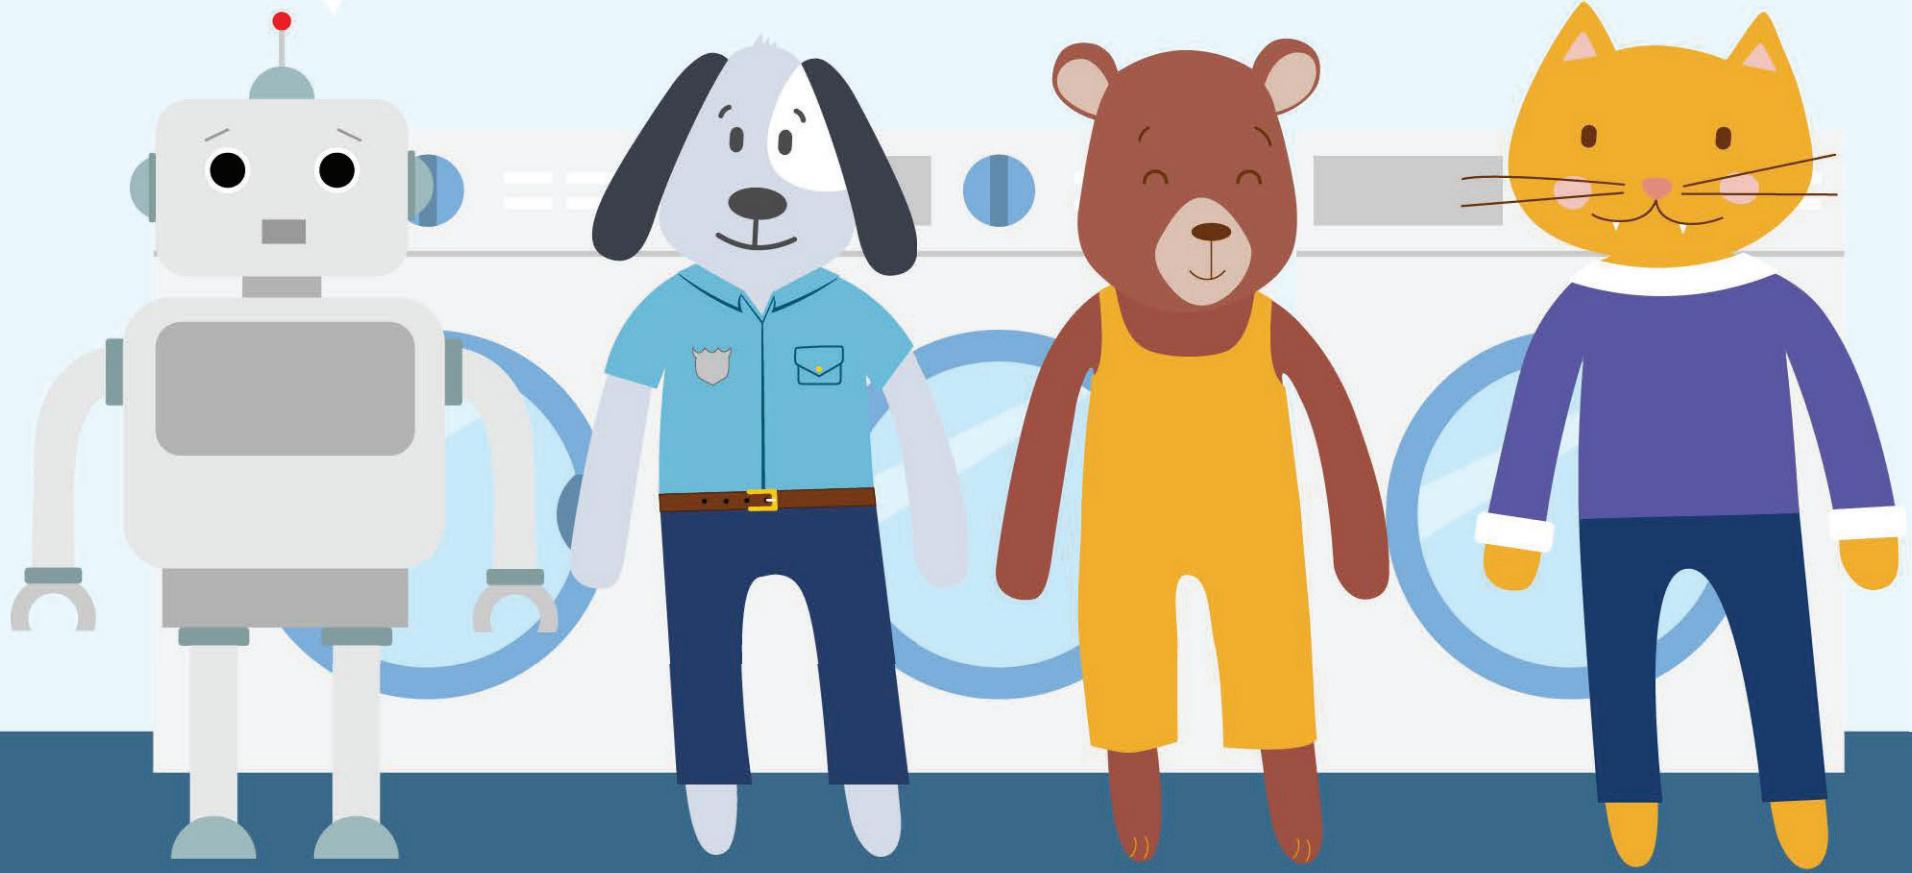

Where??

After you came back from playing in the mud, you put Bun-Bun on your bed. I saw them as I was cleaning the windows, and they were really dirty. I didn't want Bun-Bun to make everything dirty, so I took them and put them in the washing machine.

Oh. That makes sense.

So, if we want to find Bun-Bun, we  
should look in the washing machine.

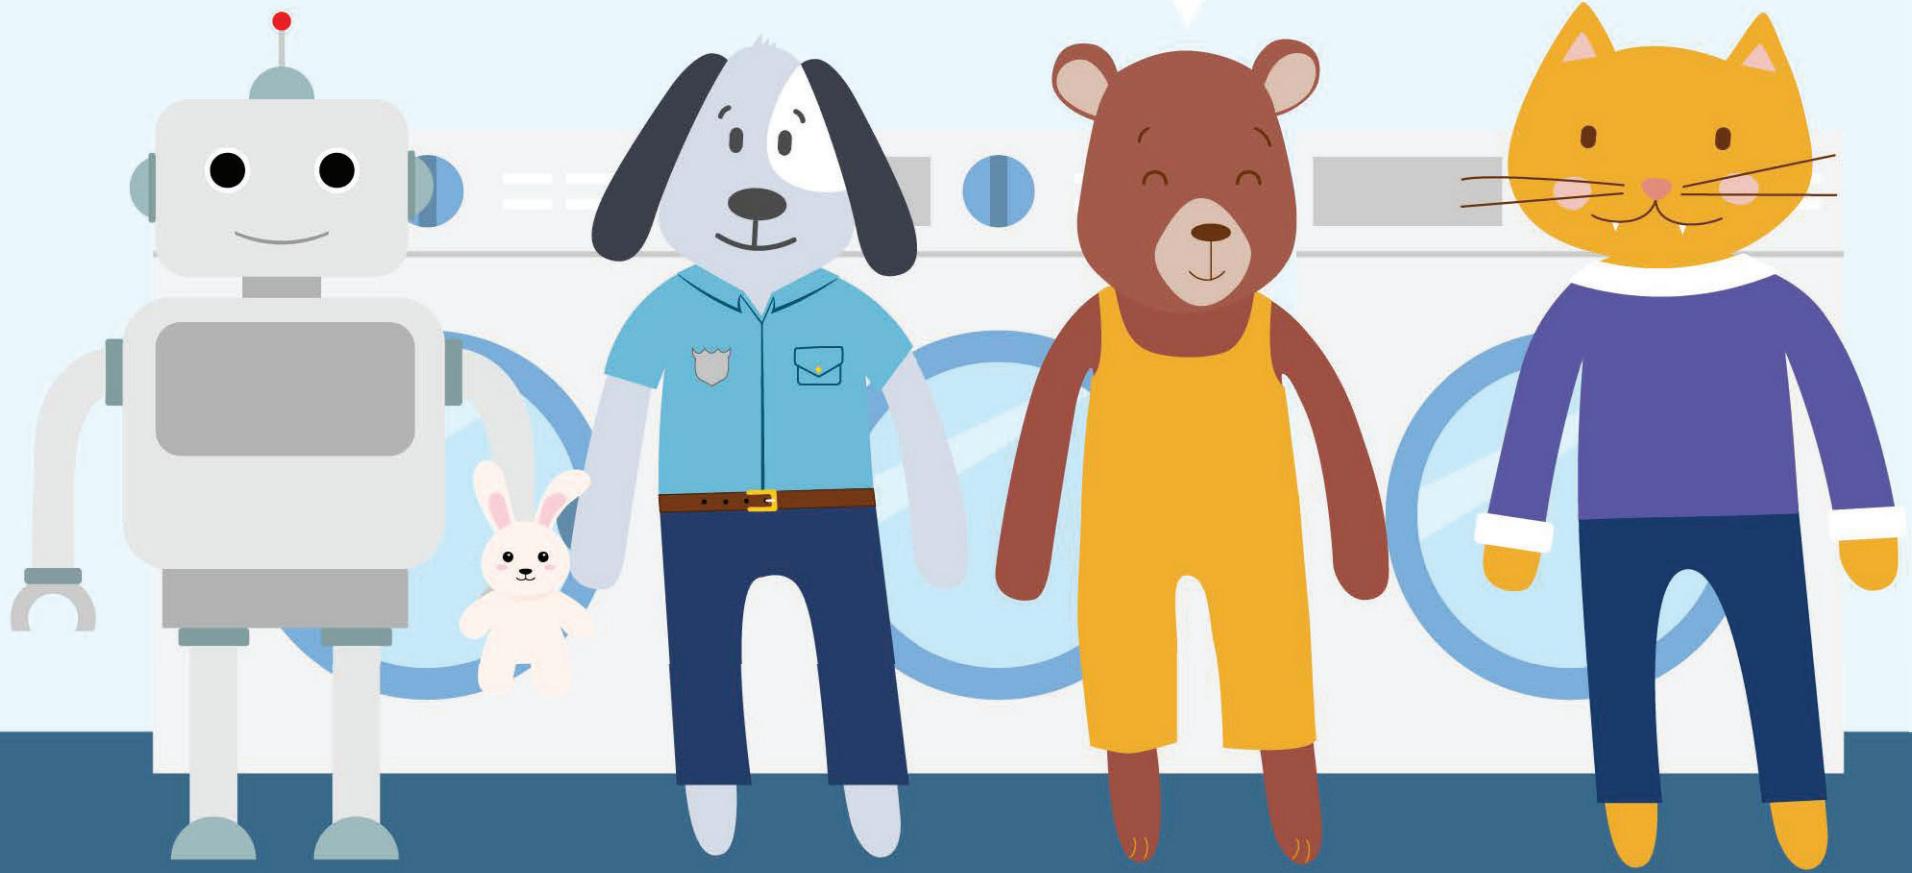

BUN-BUN!

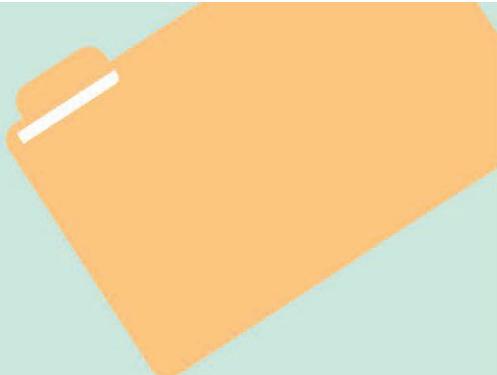

Thank you all for helping me close this case! We made a pretty good team.

Uh, speaking of that, has anyone seen my jacket?

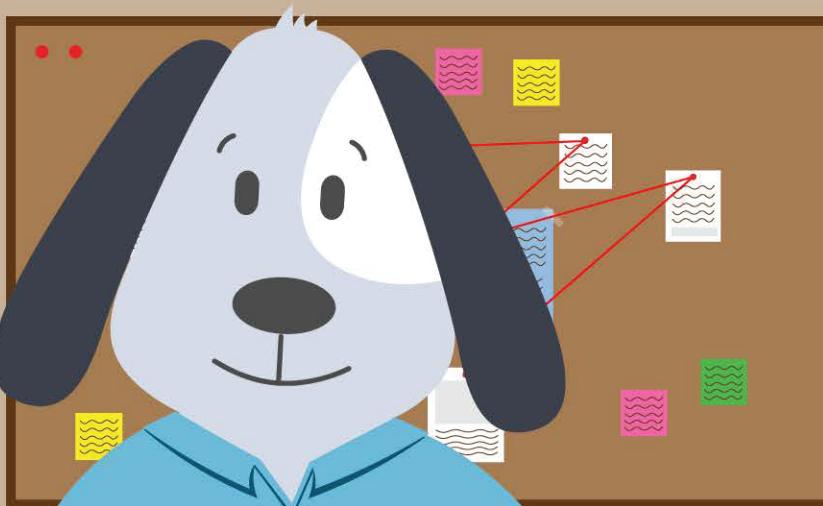

# THE END
