

BLAST OFF!

Robot was flying a spaceship, but then...

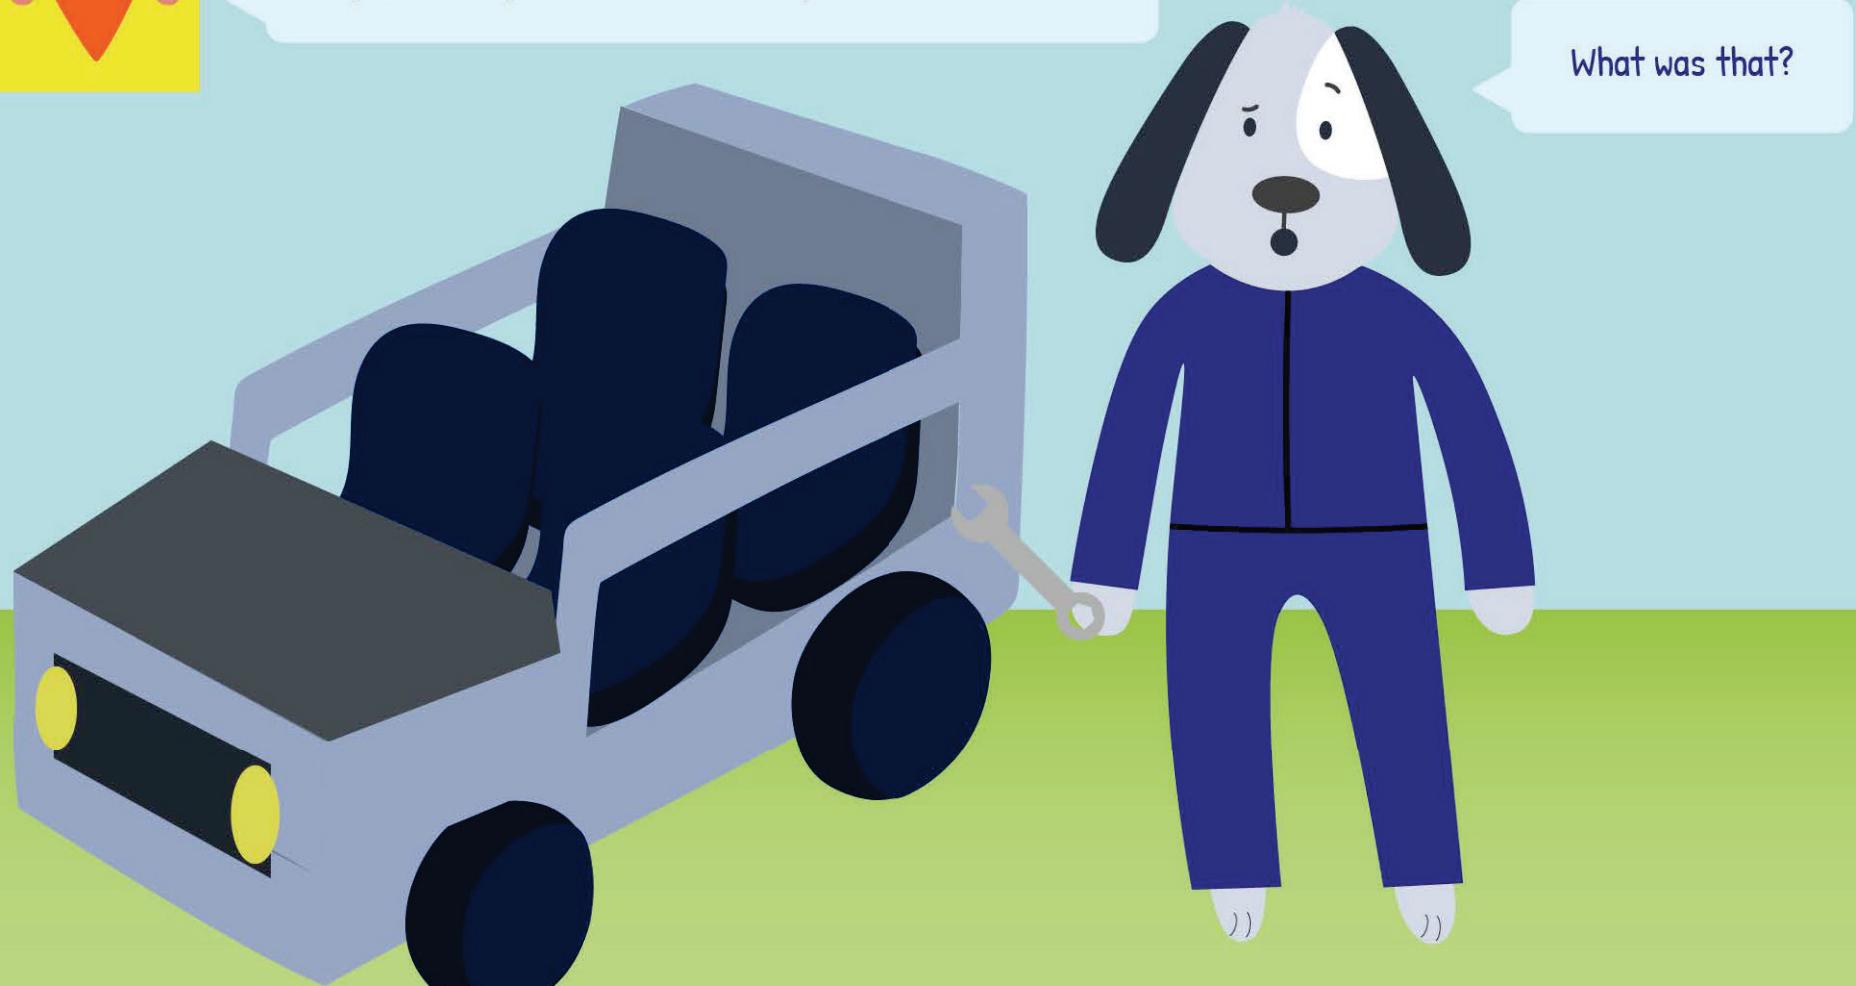

The spaceship crashed!

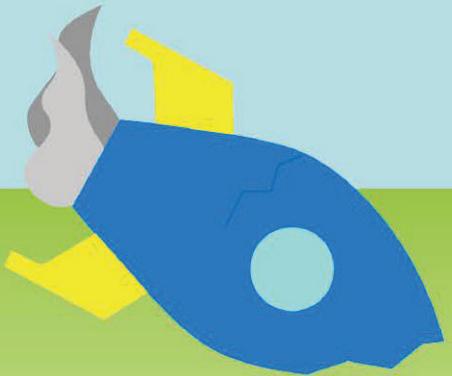

Dog was fixing their car when they heard the loud noise.

What was that?

Cat was flying their helicopter
when they saw the spaceship crash!

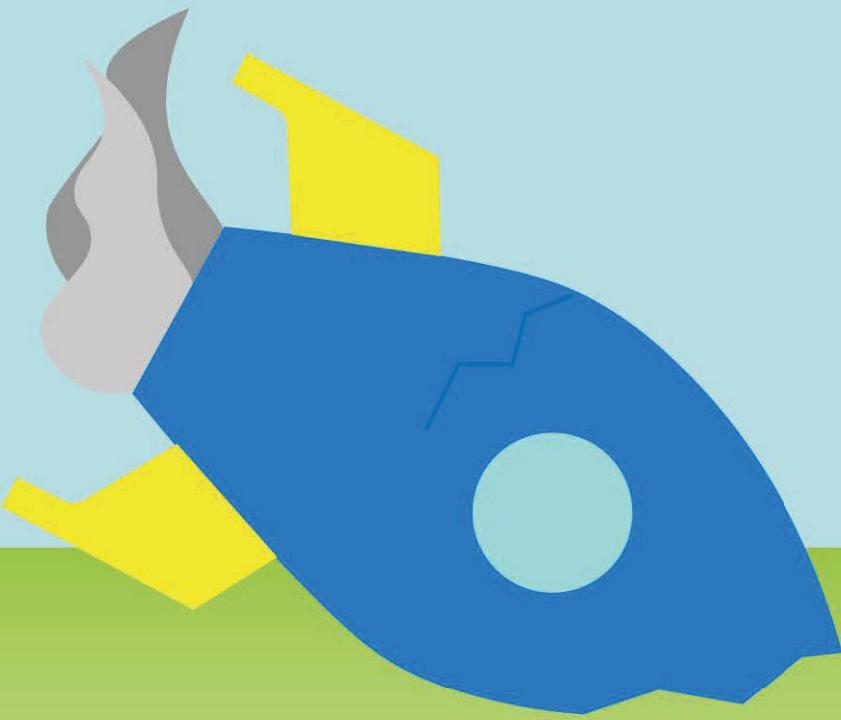

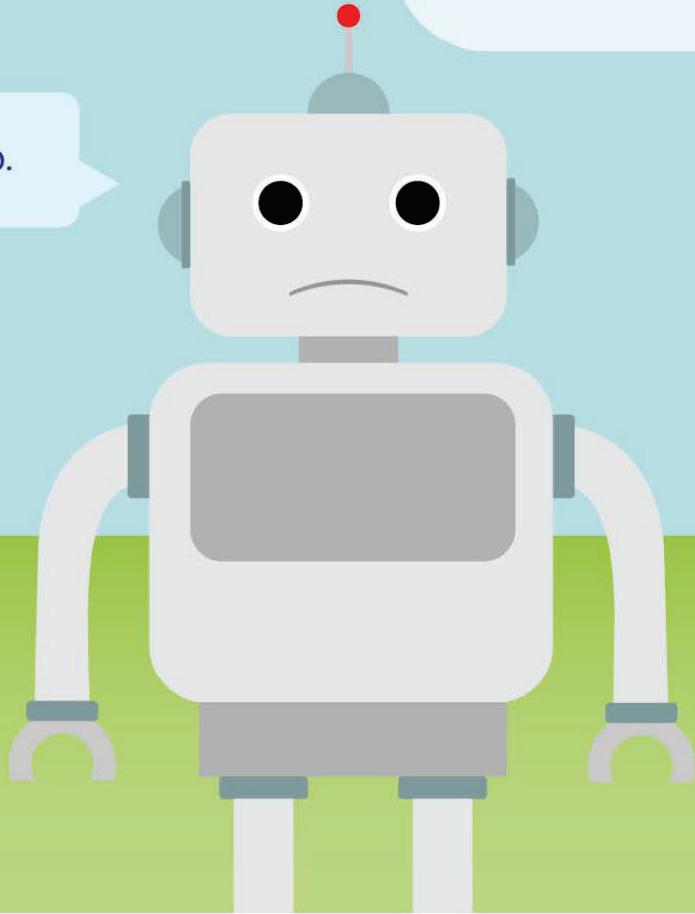

Horse was baking a cake when they
felt the ground shake.

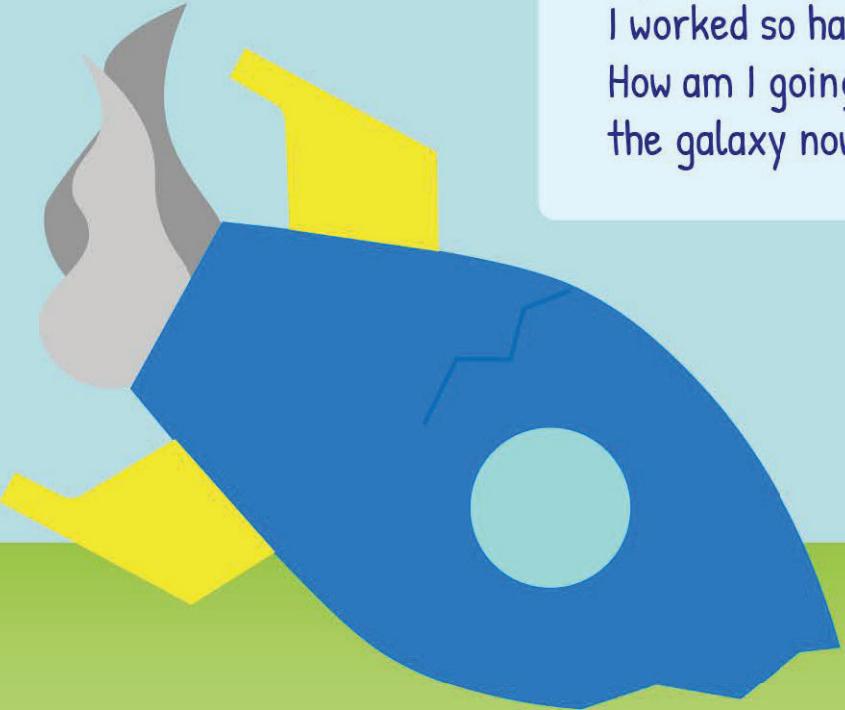

Was that a 'quake?

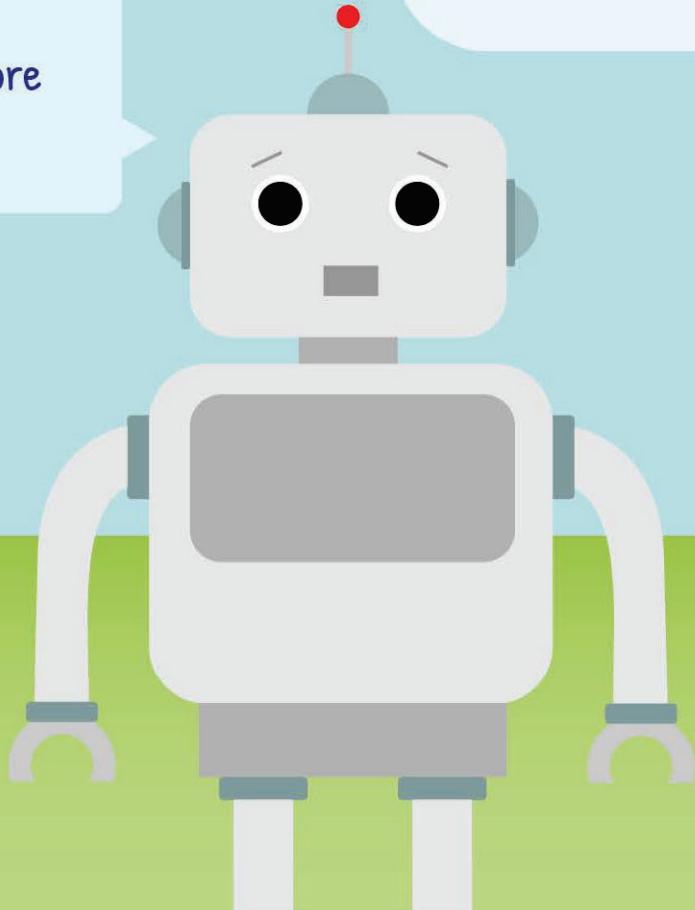

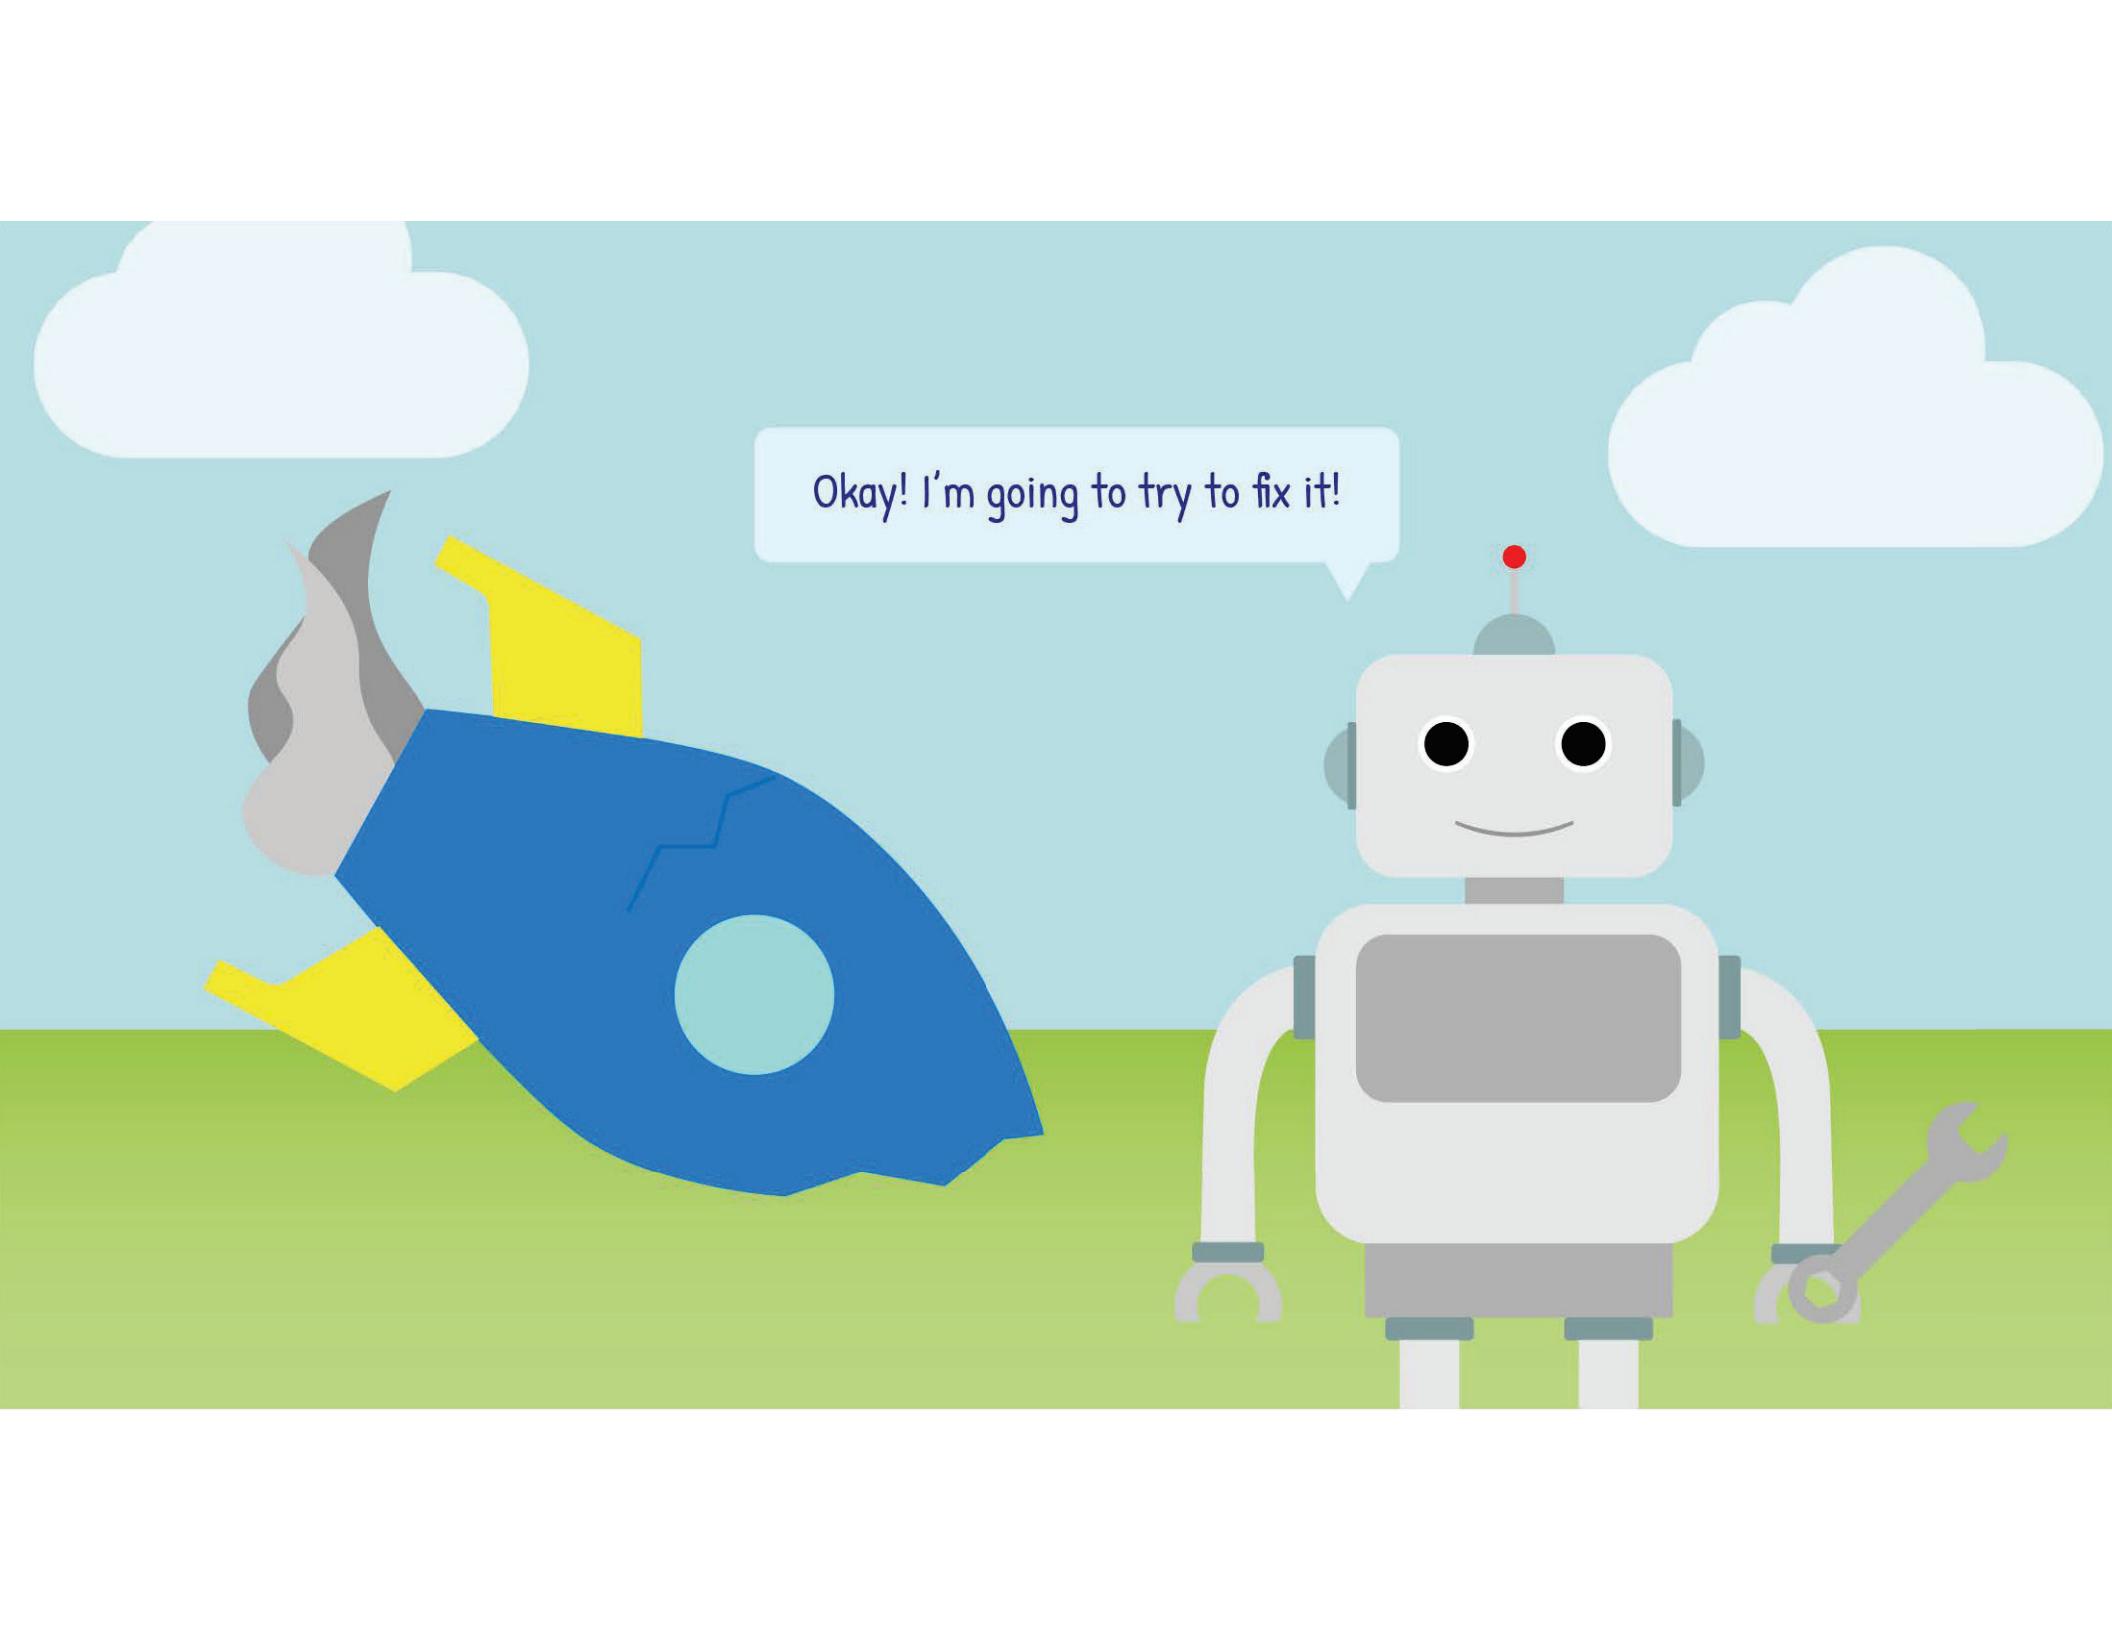

Oh no.

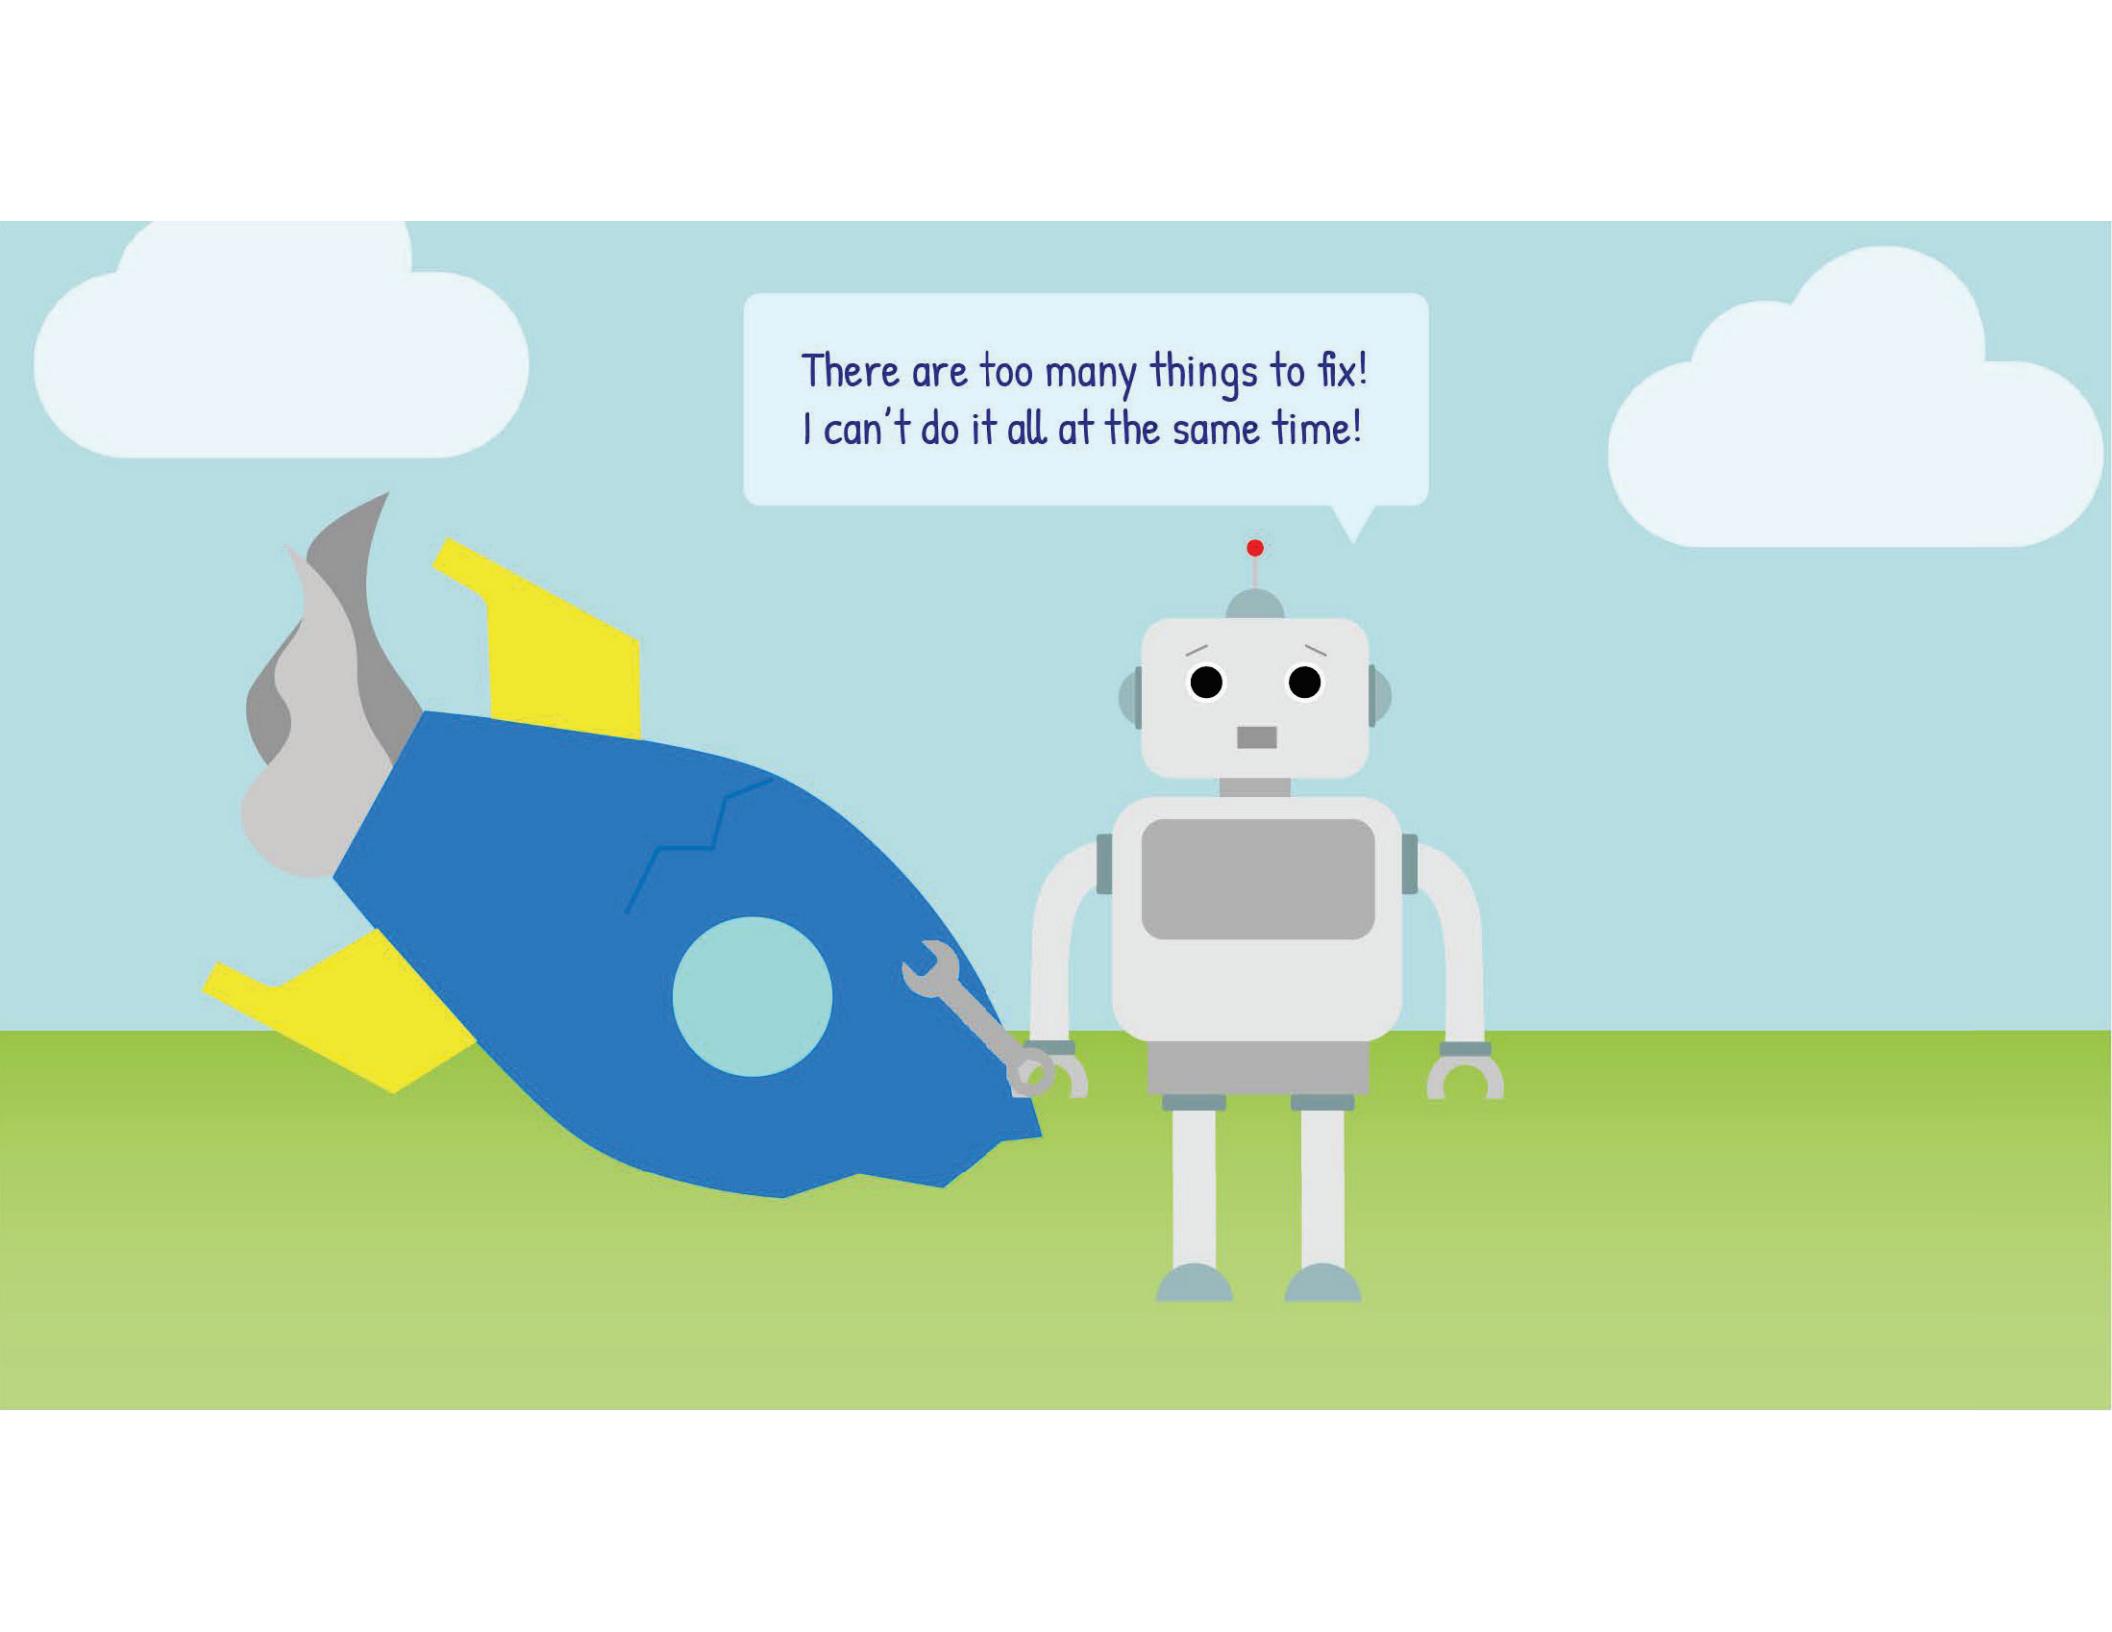

My spaceship is broken!
I worked so hard on it!
How am I going to explore
the galaxy now?

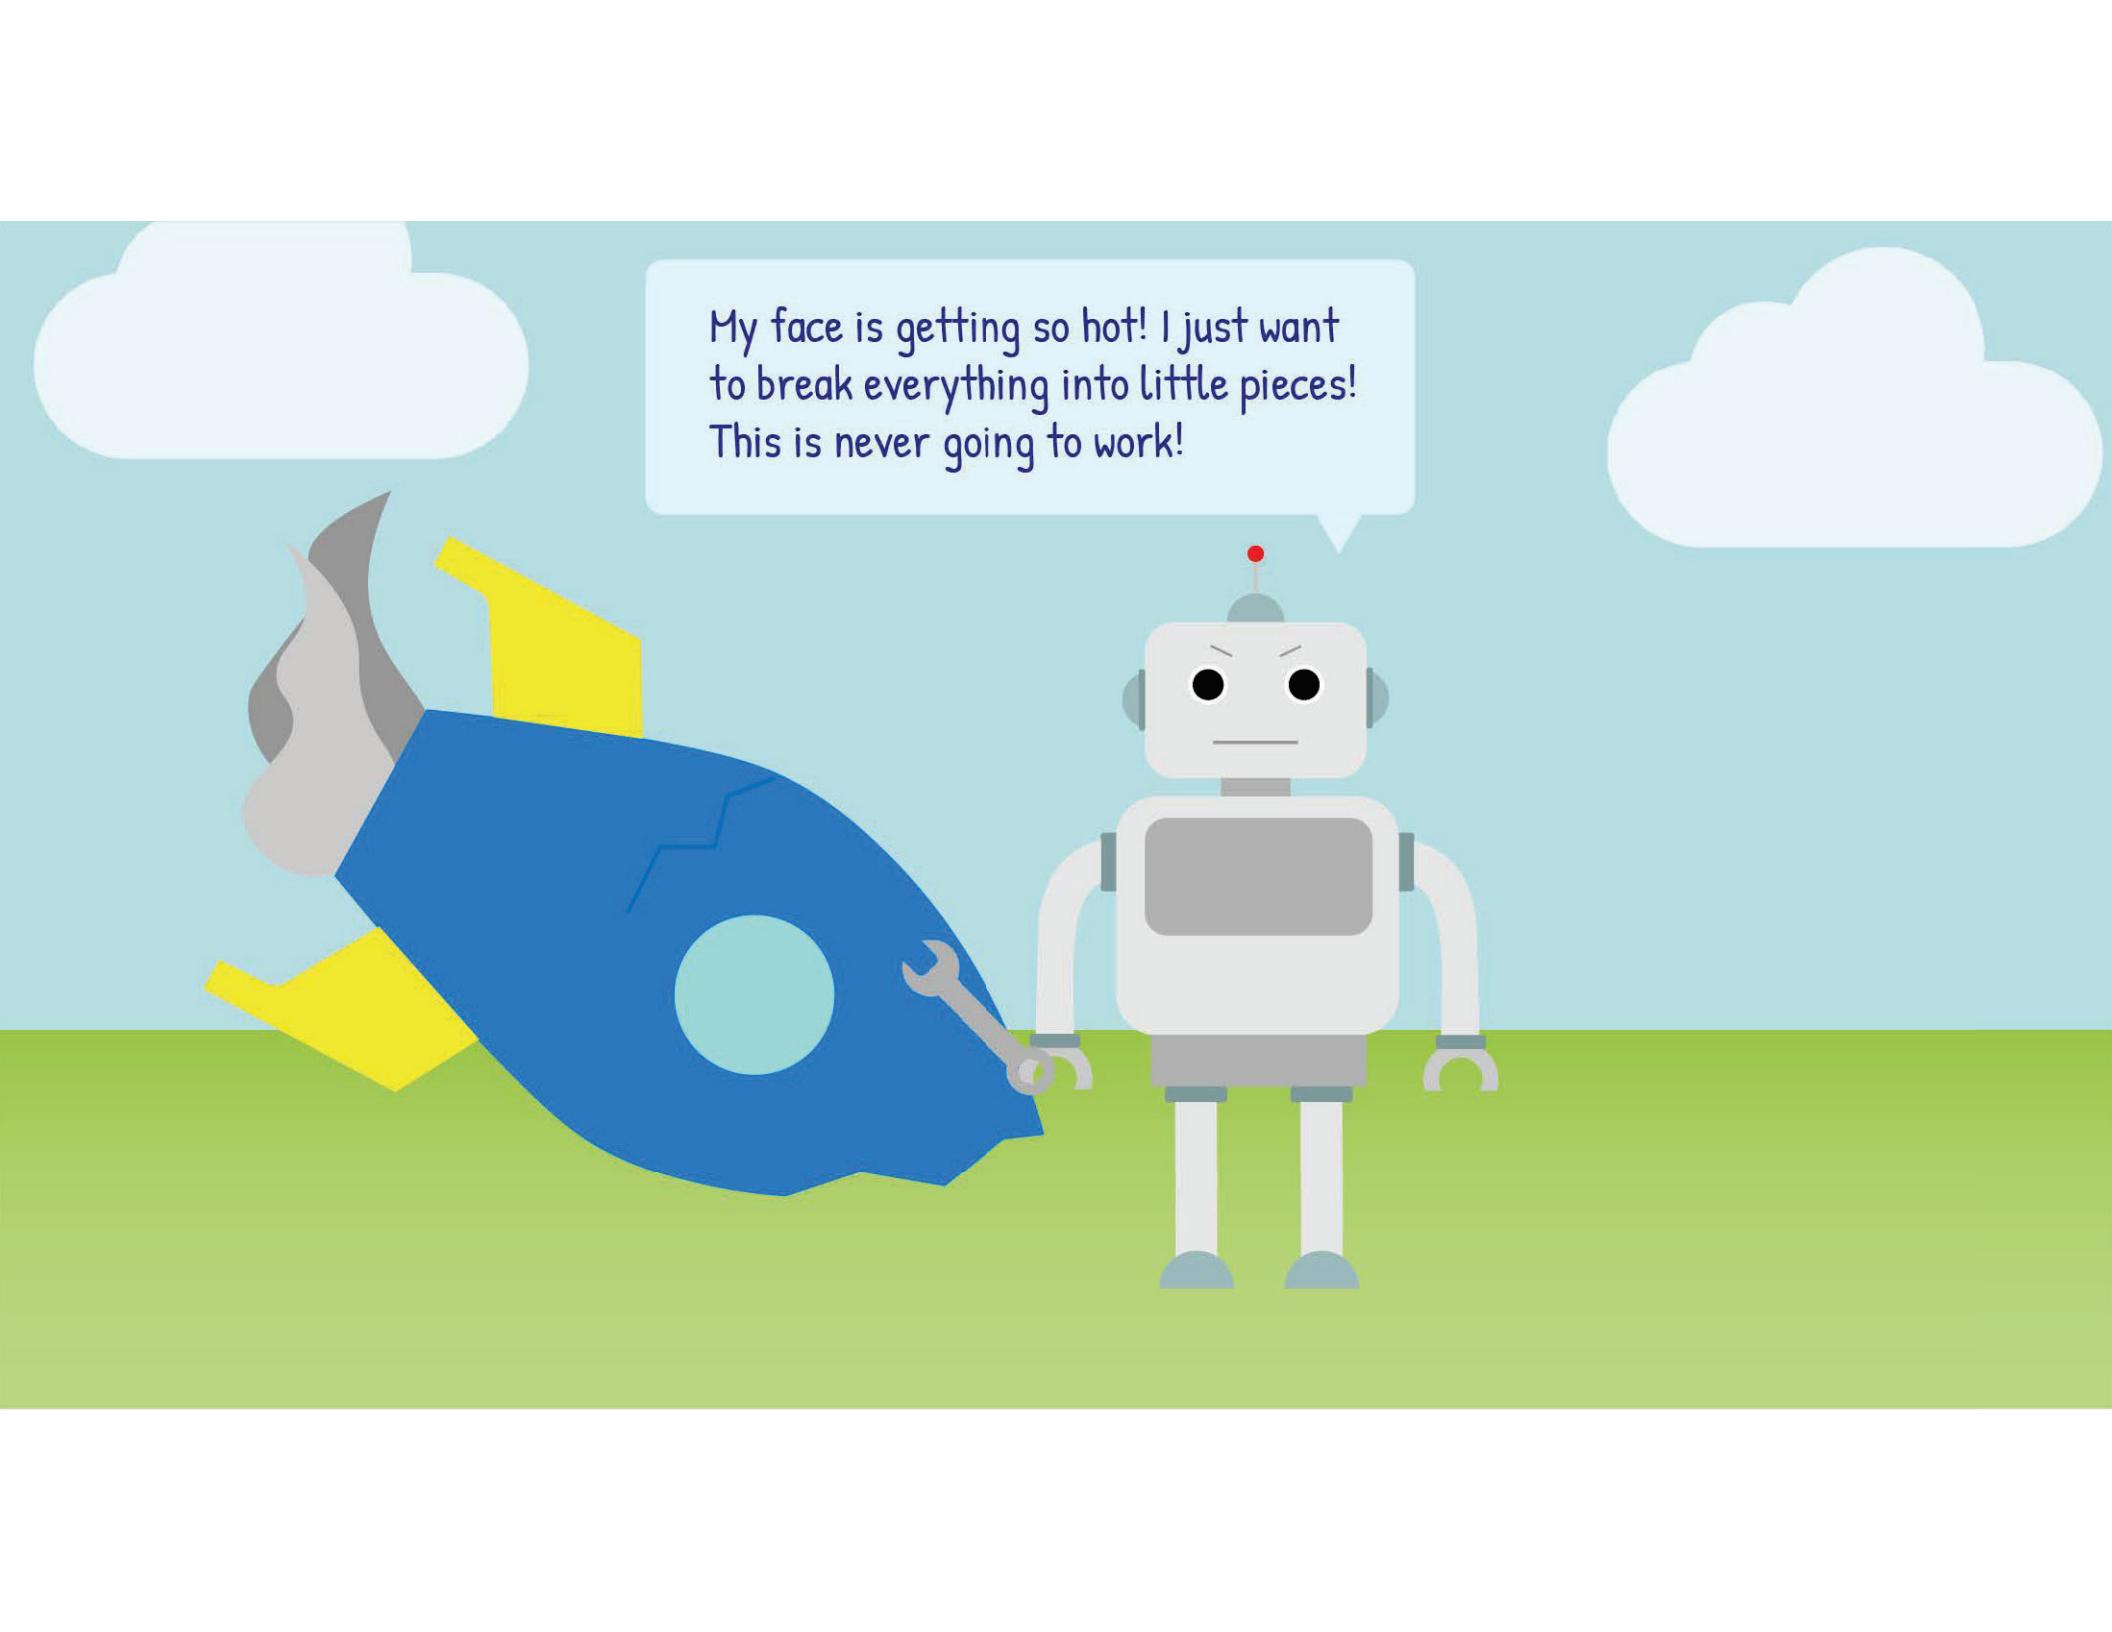

Okay! I'm going to try to fix it!

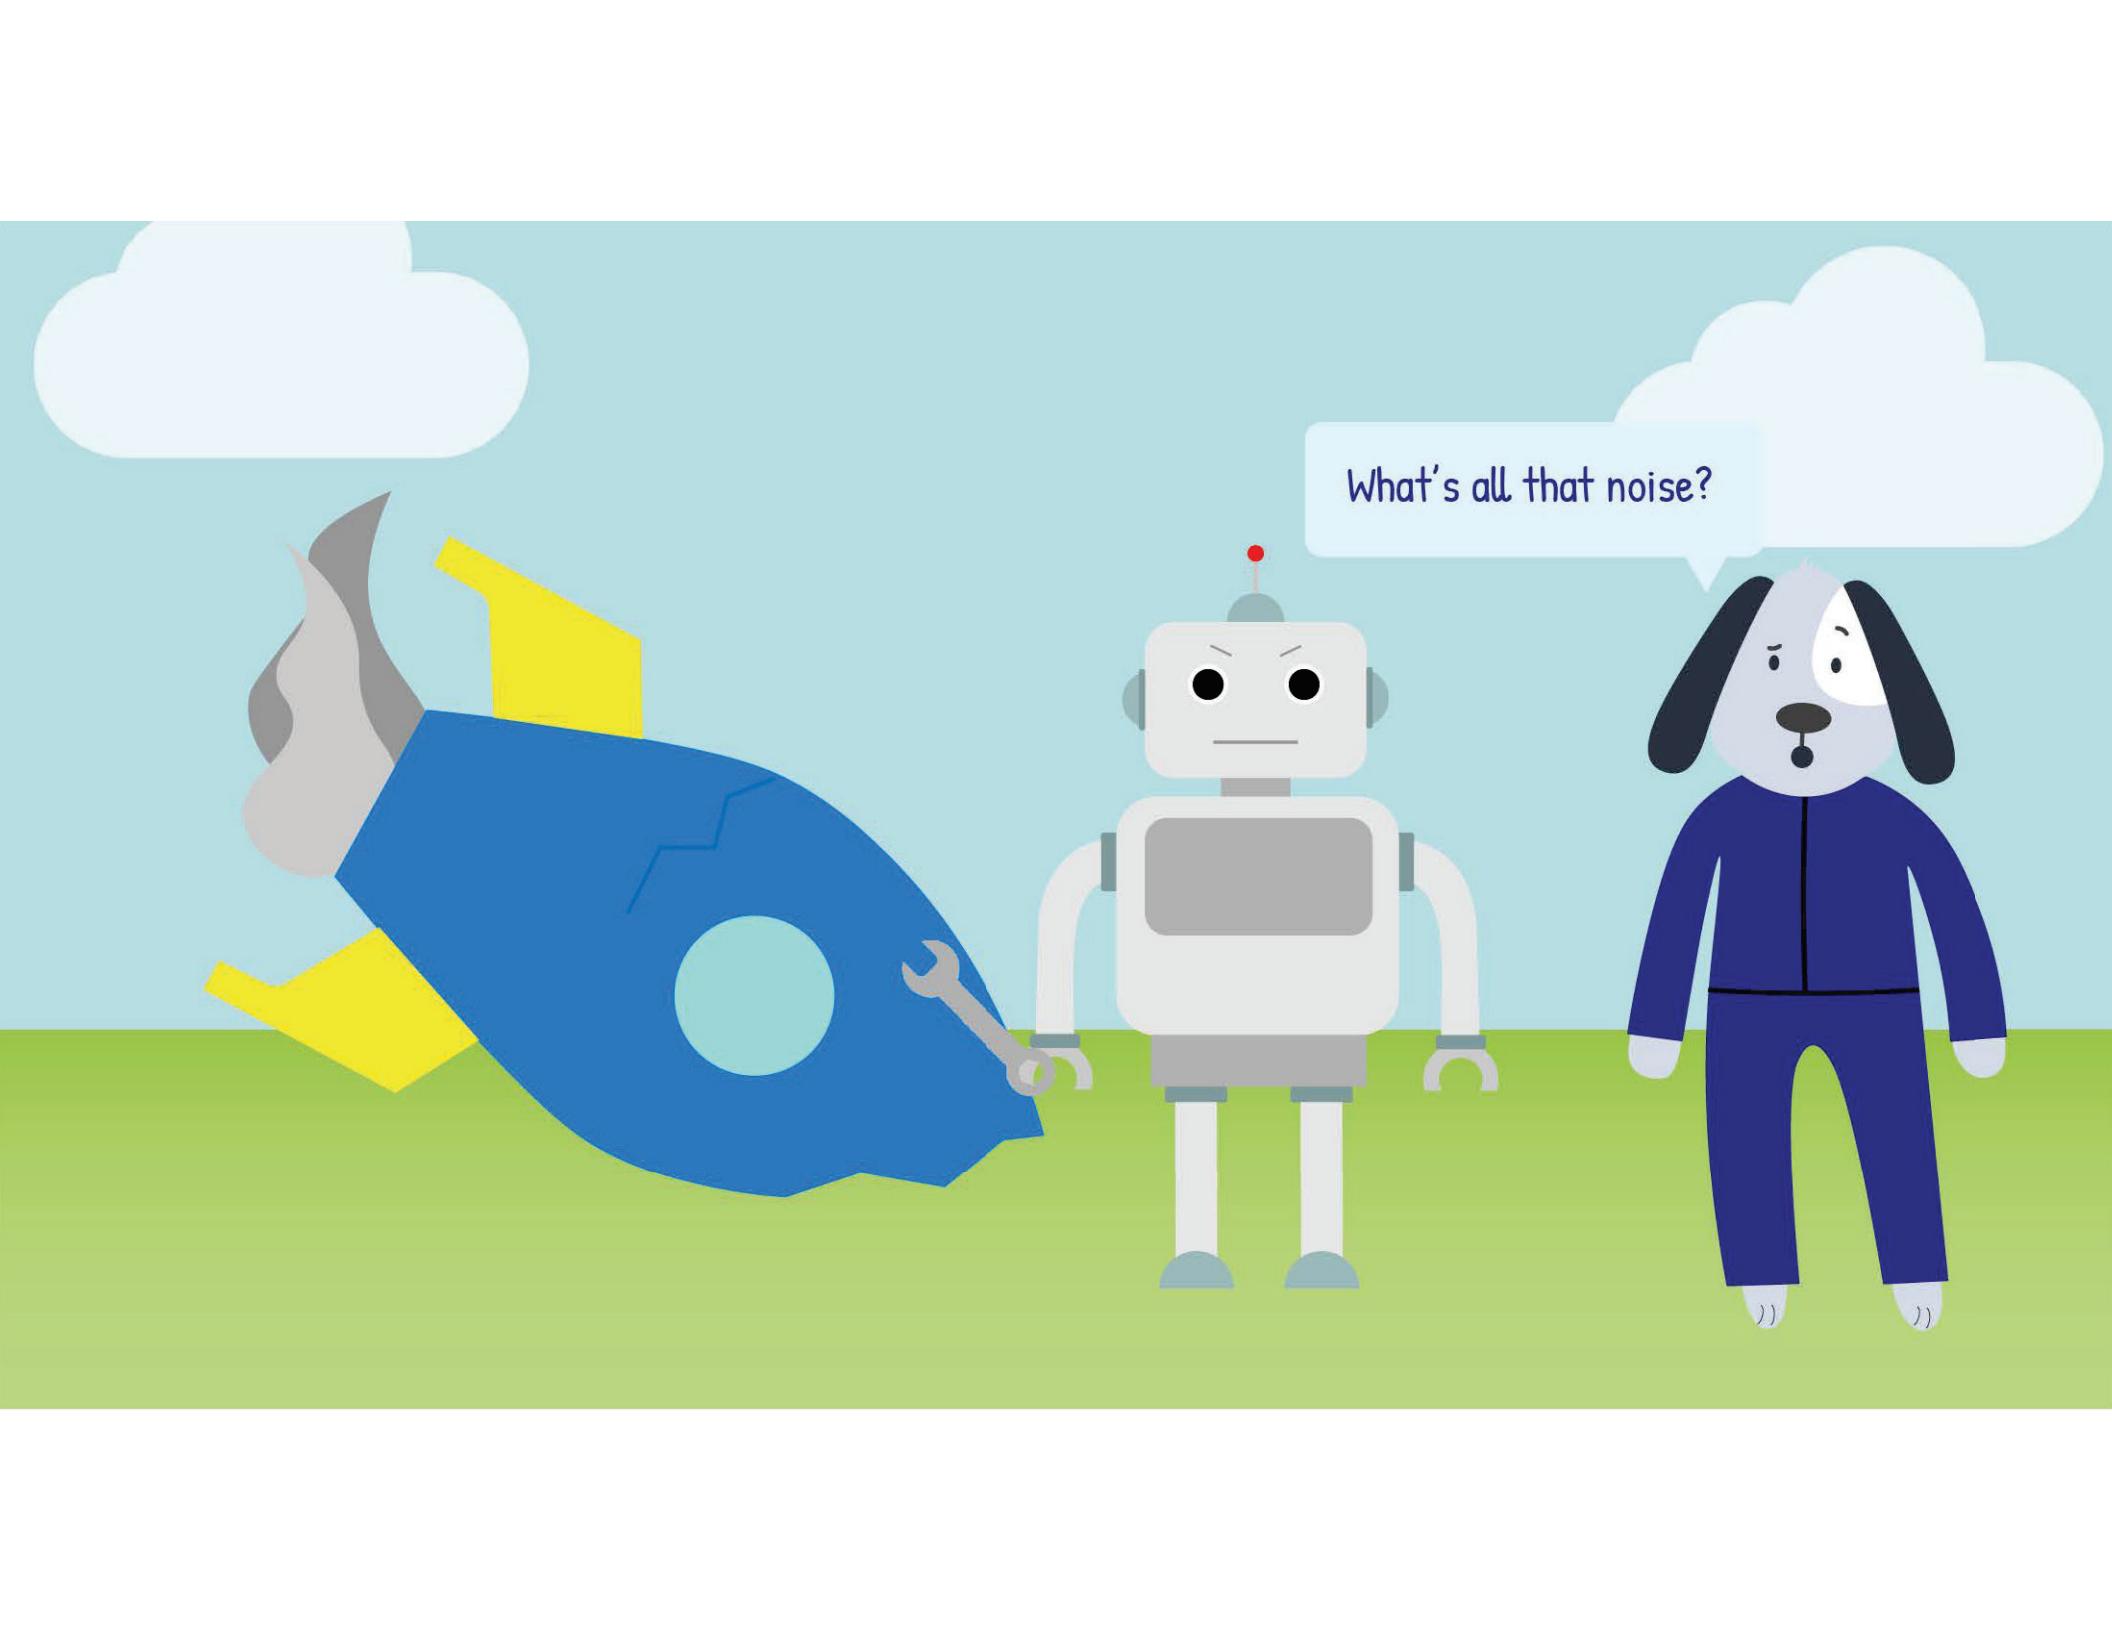

Robot tries to fix it.

There are too many things to fix!
I can't do it all at the same time!

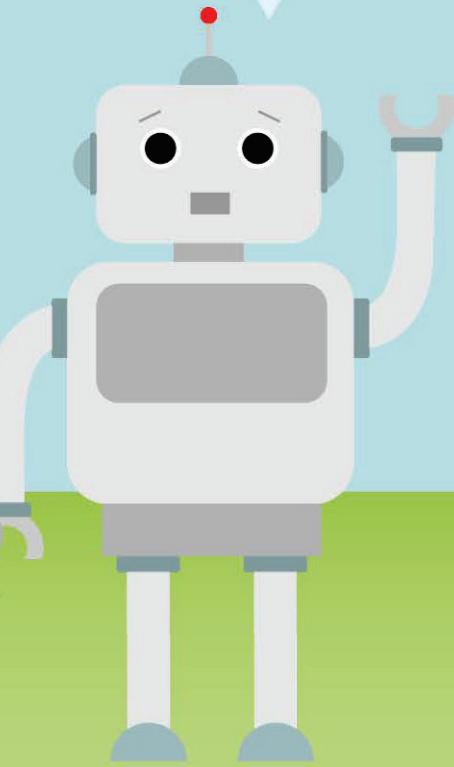

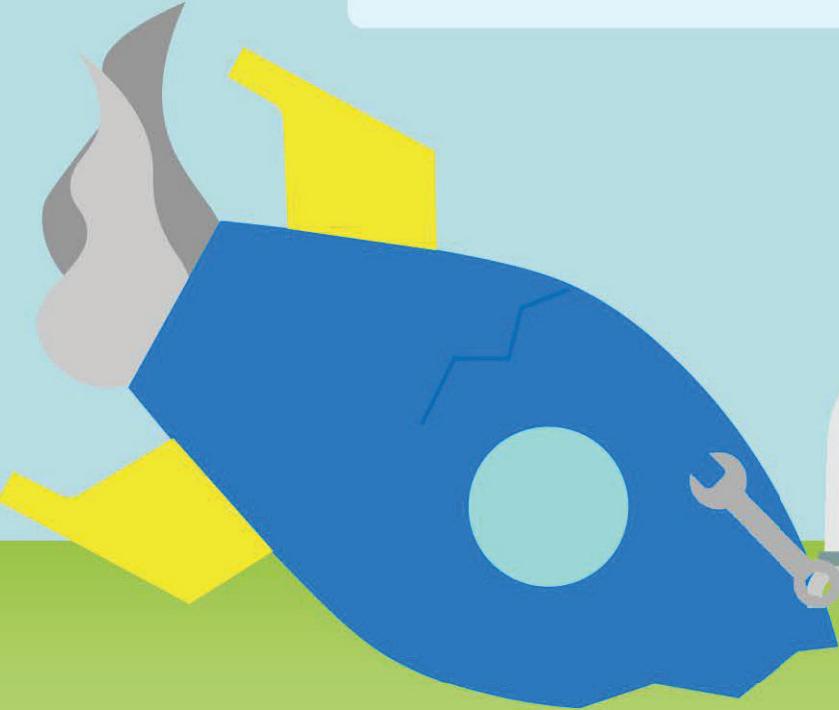

My face is getting so hot! I just want
to break everything into little pieces!
This is never going to work!

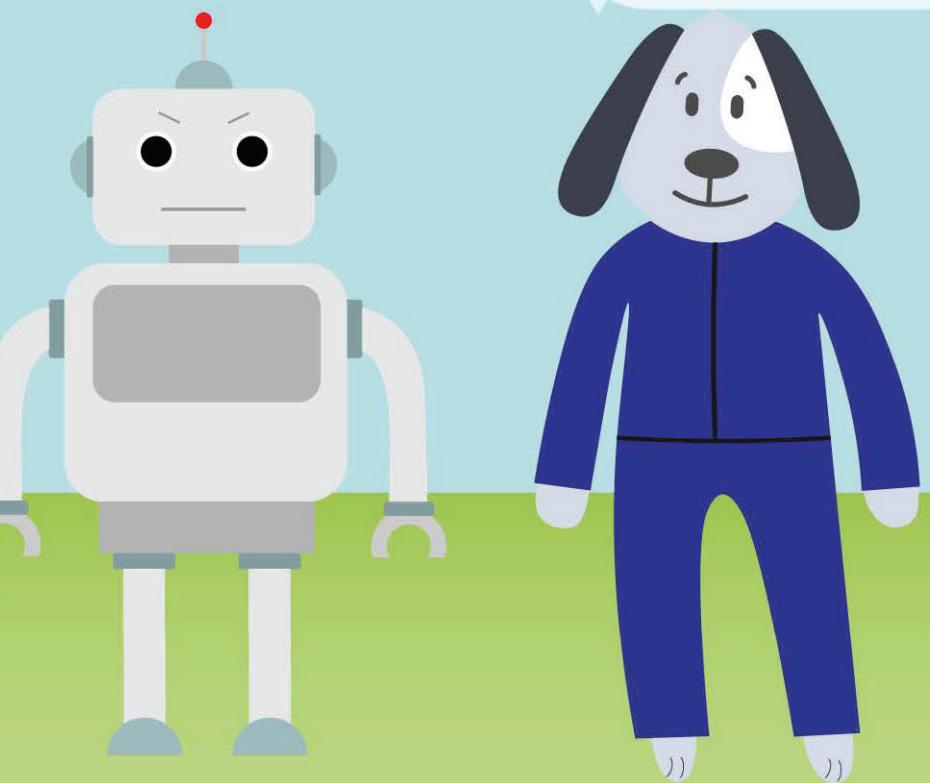

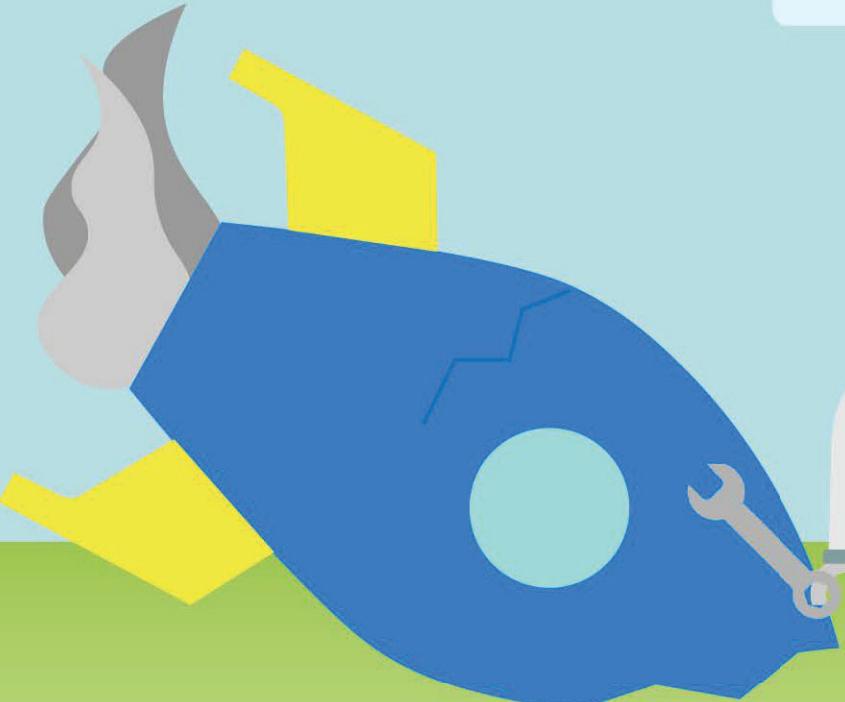

A cartoon illustration set in a green field under a light blue sky with white clouds. On the left, a blue car with yellow bumpers is smoking grey smoke from its rear. In the center, a white robot with a grey rectangular torso, two grey cylindrical arms, and two grey legs stands holding a silver wrench. On the right, a dog wearing a dark blue tracksuit and white sneakers stands looking towards the robot. A speech bubble above the dog contains the text "What's all that noise?"

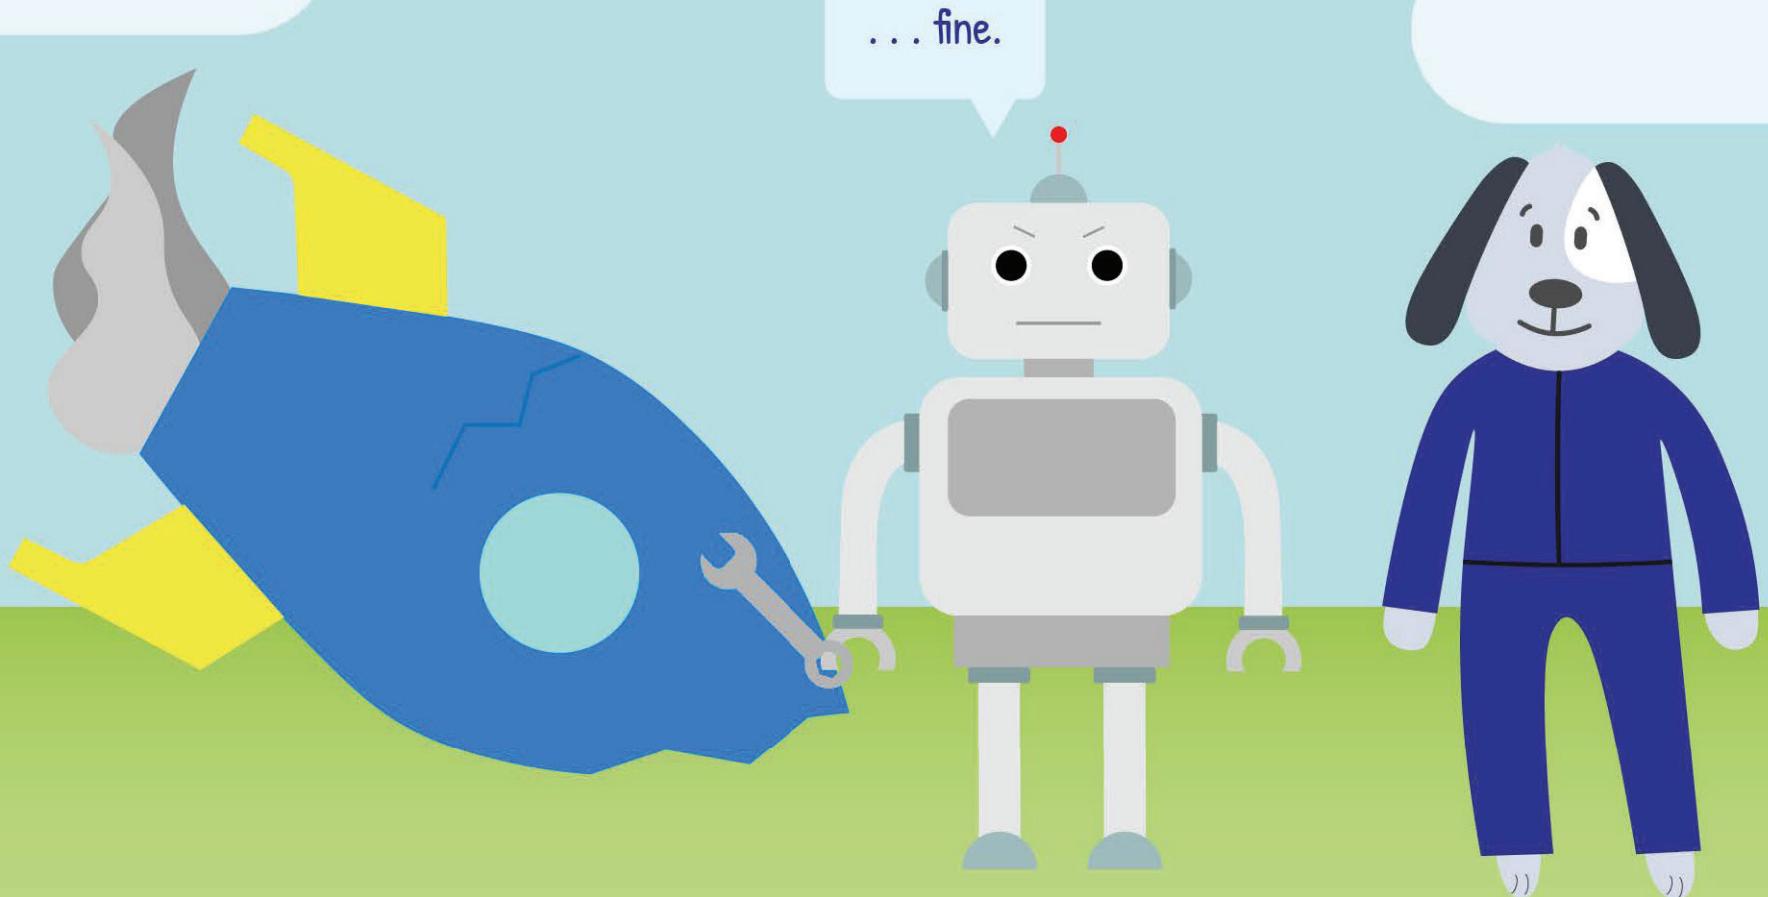

What's all that noise?

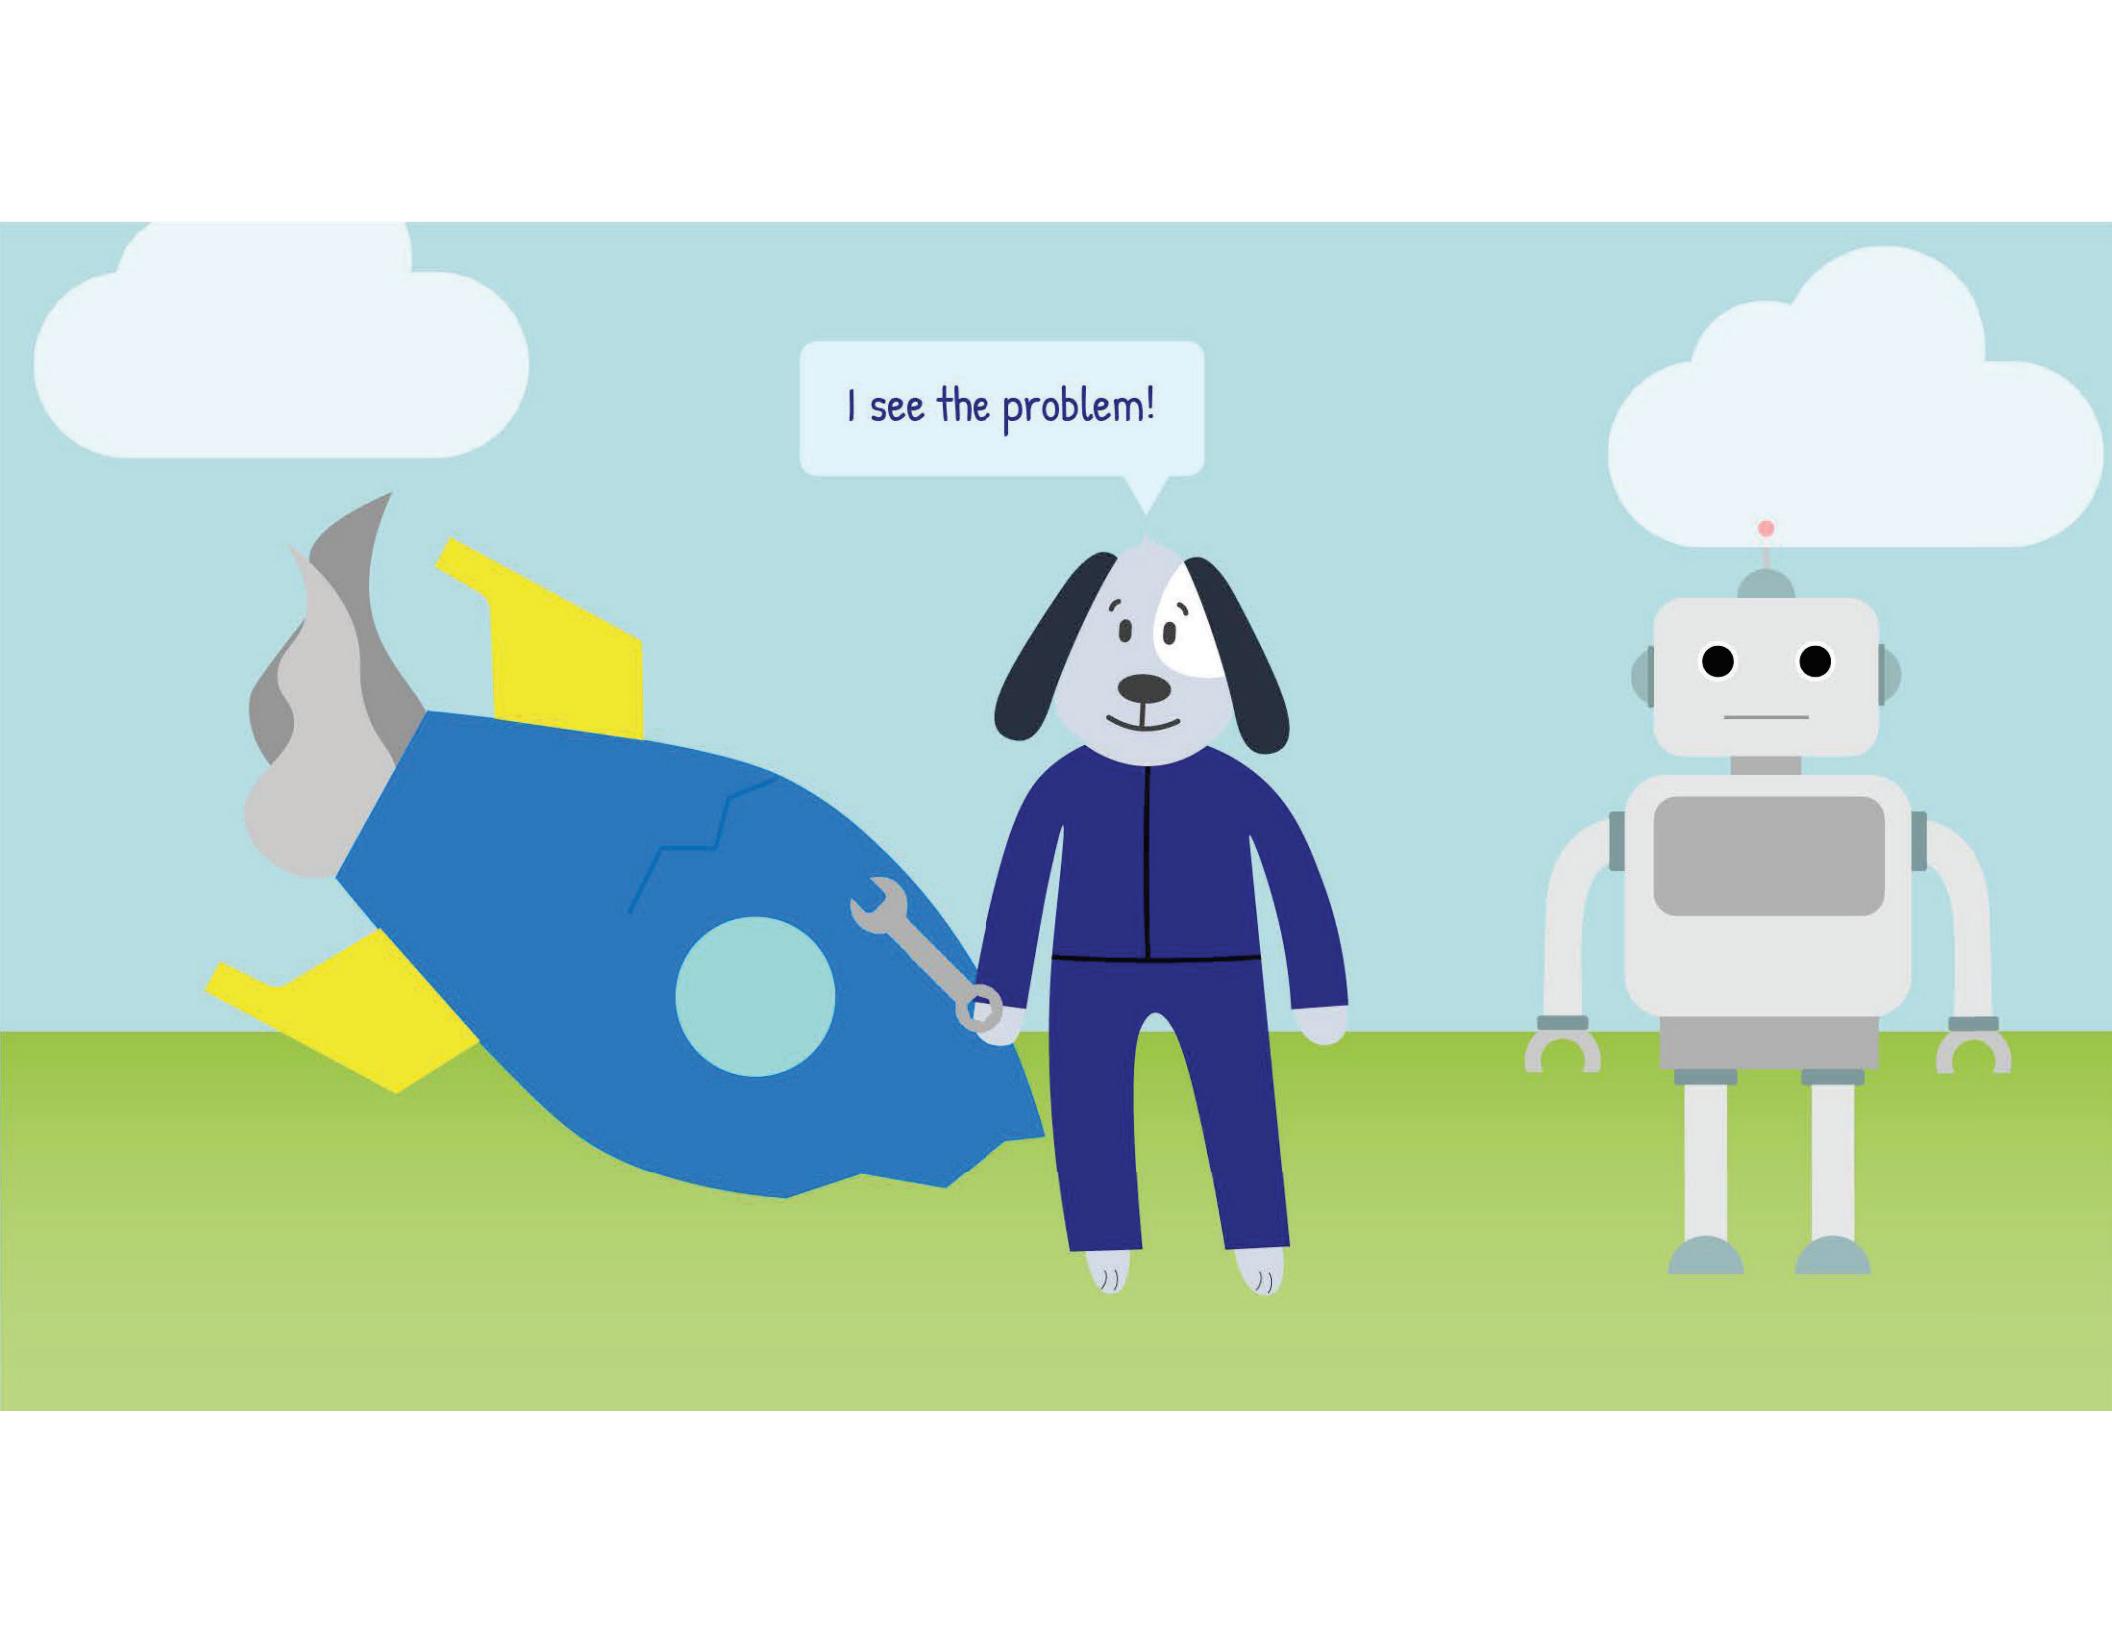

Hi, Dog. I'm trying to fix my spaceship, but
I'm not getting anywhere!

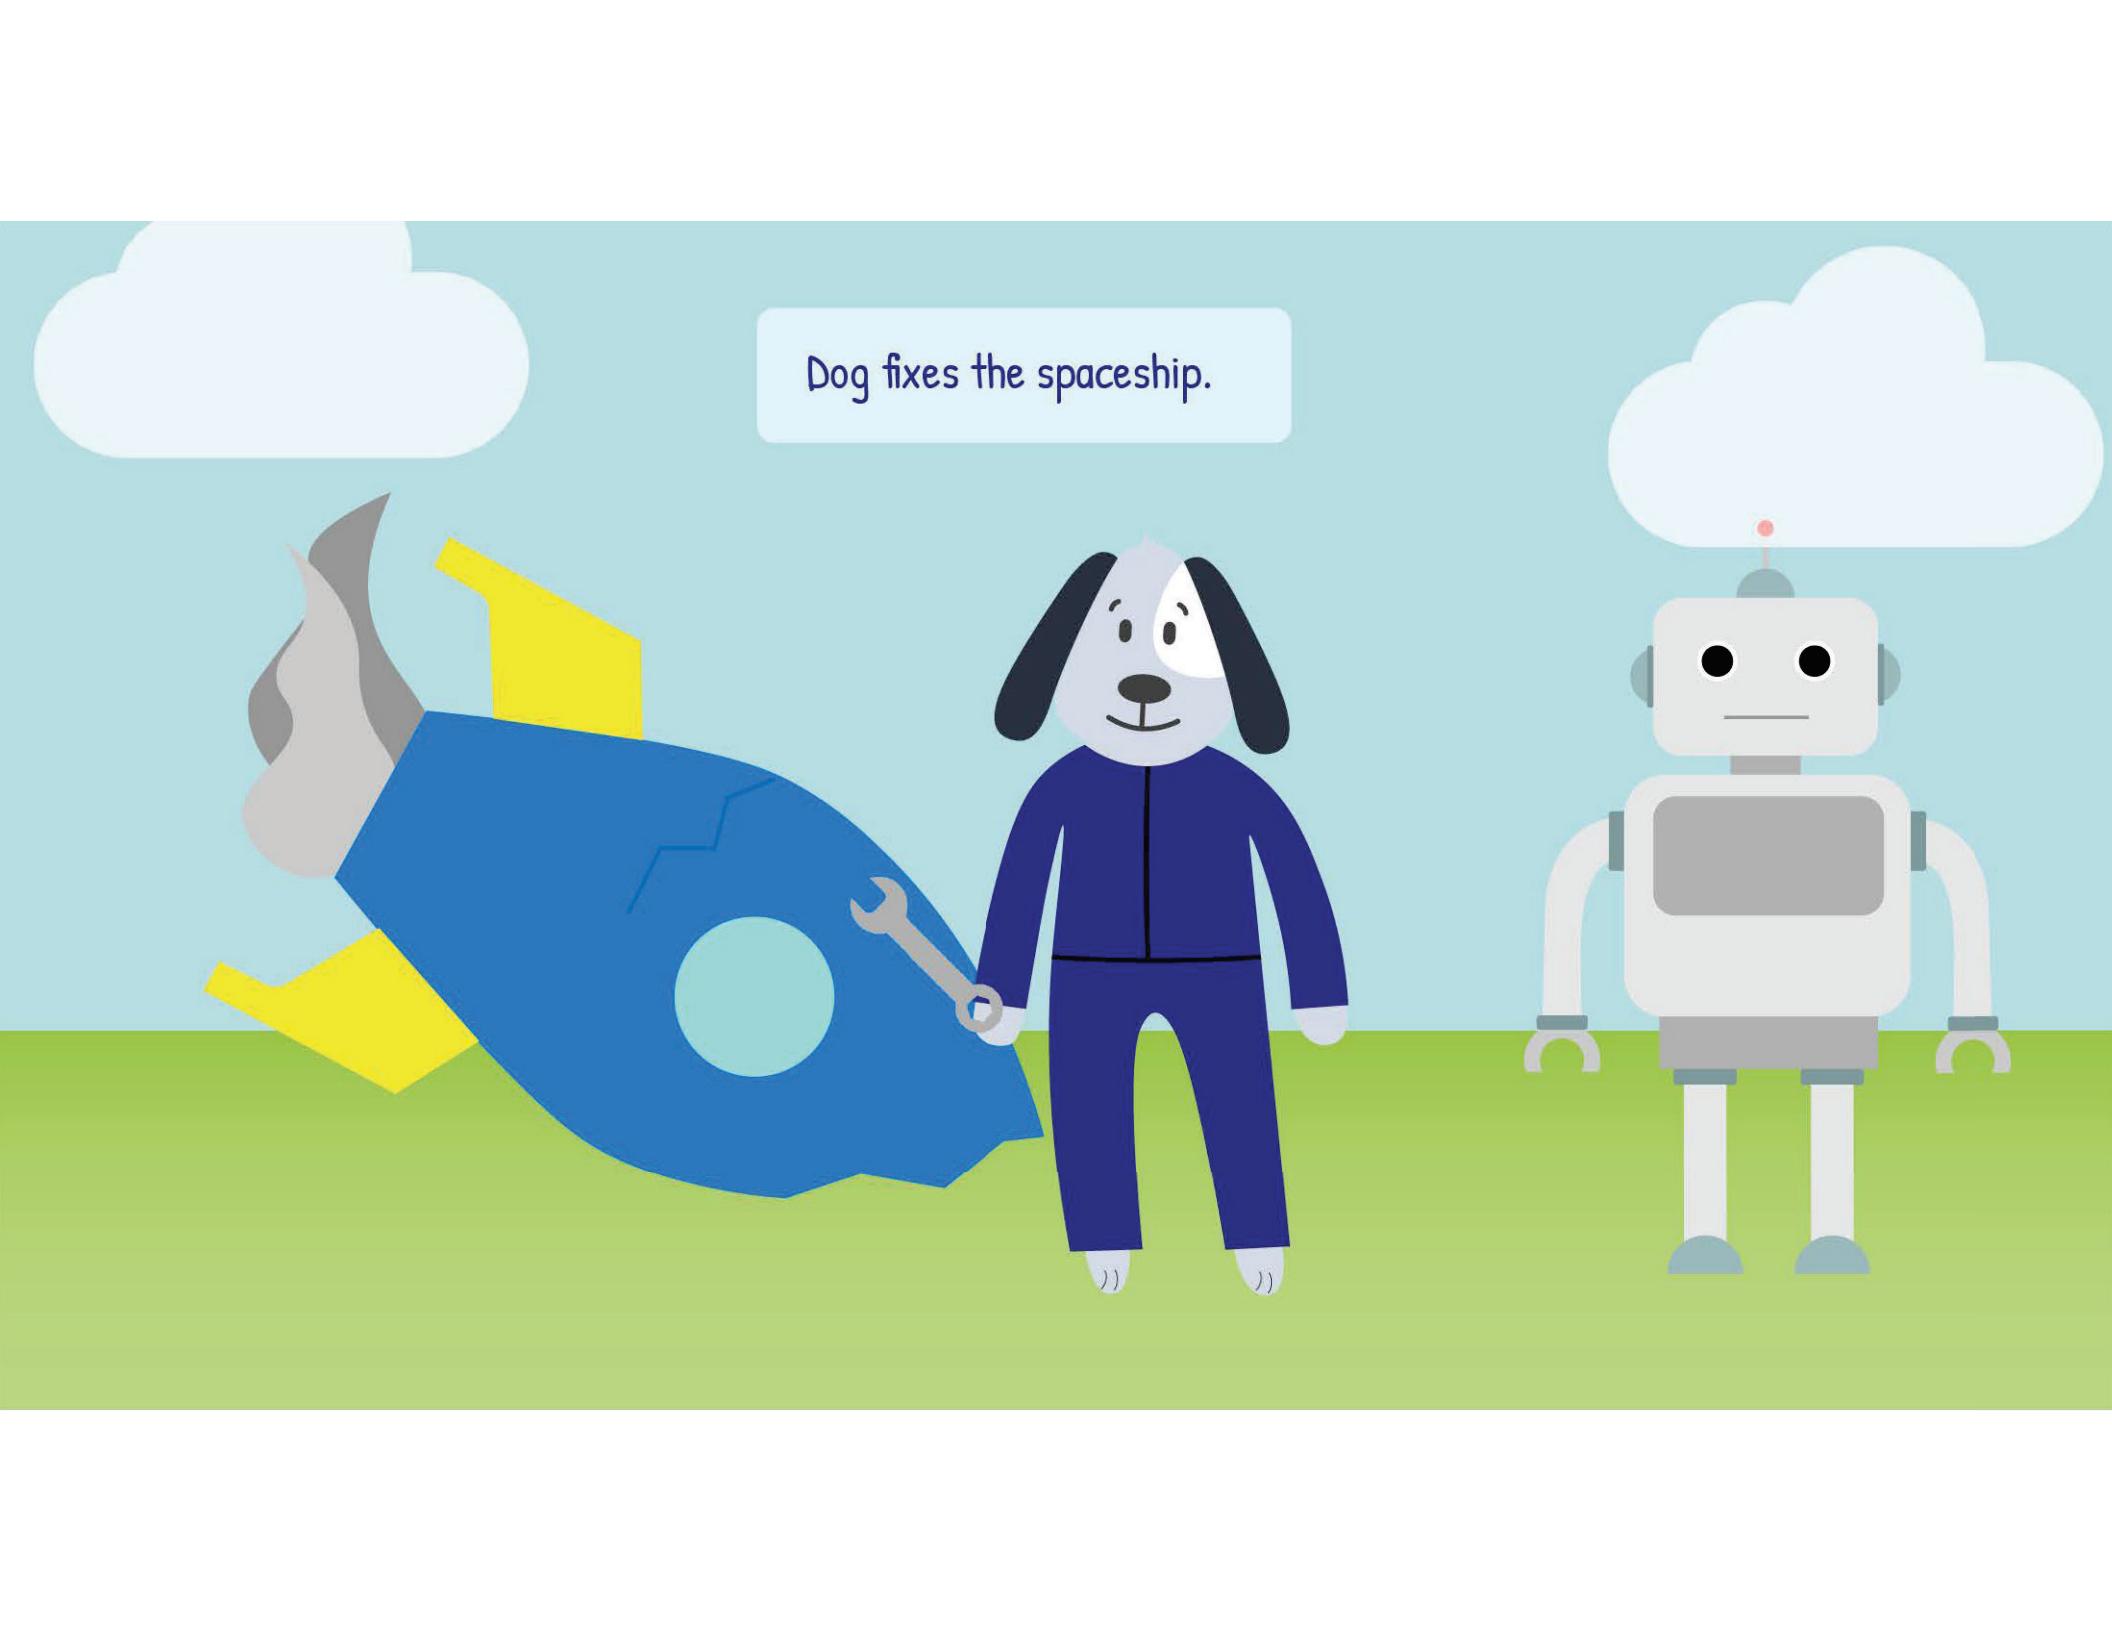

Oh! Do you want some help with that?
I'm good at fixing things.

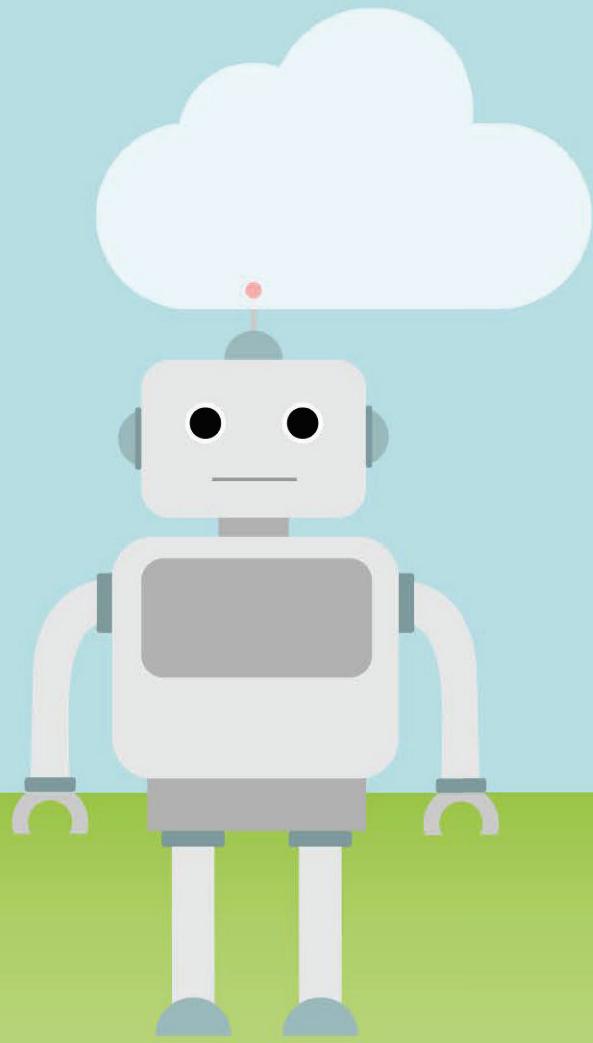

... fine.

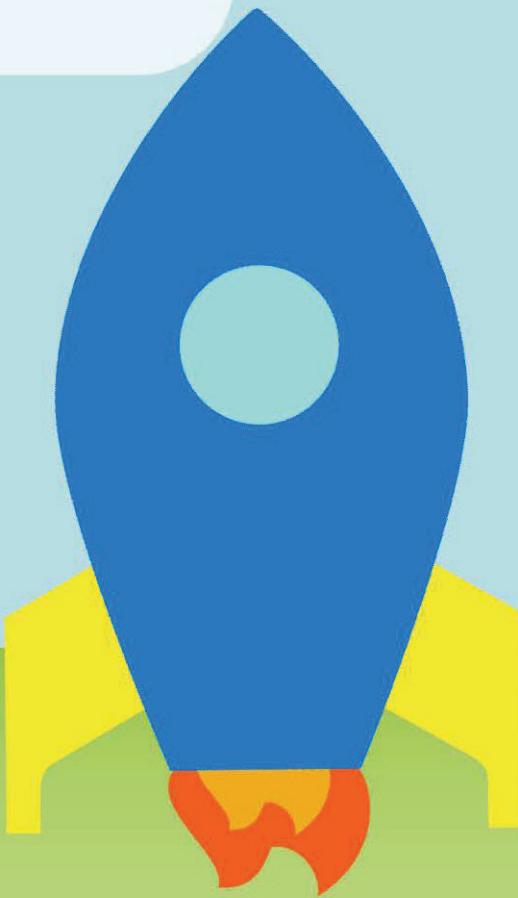

I see the problem!

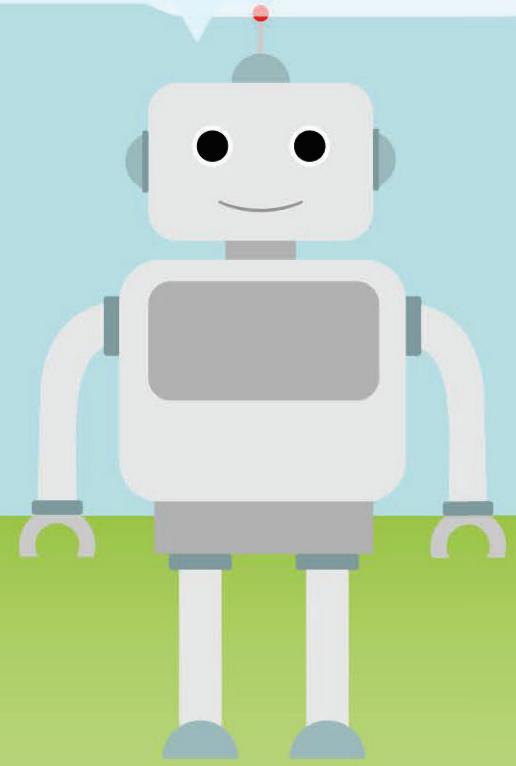

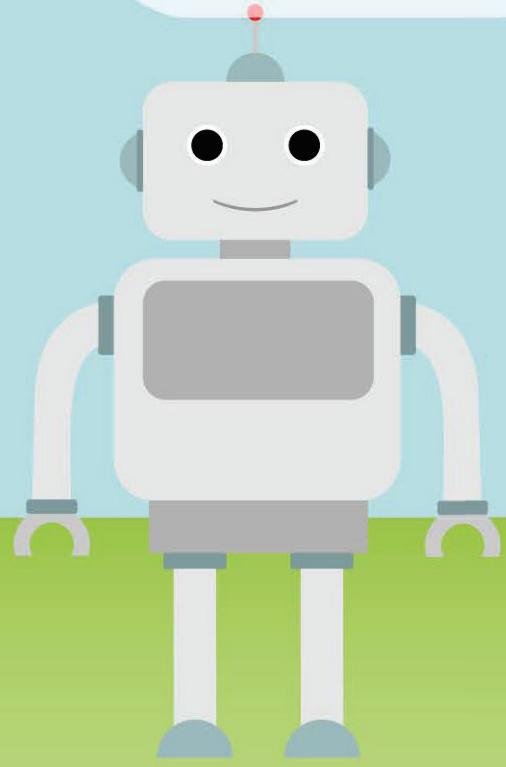

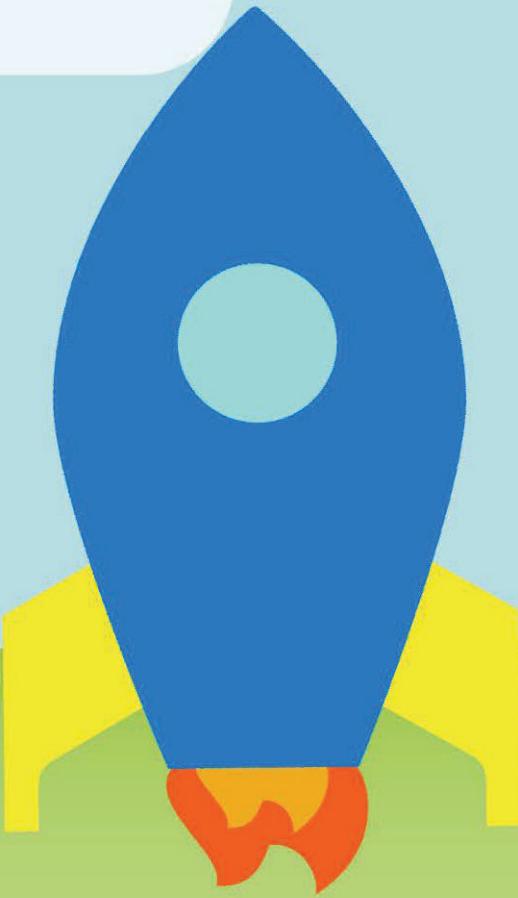

Dog fixes the spaceship.

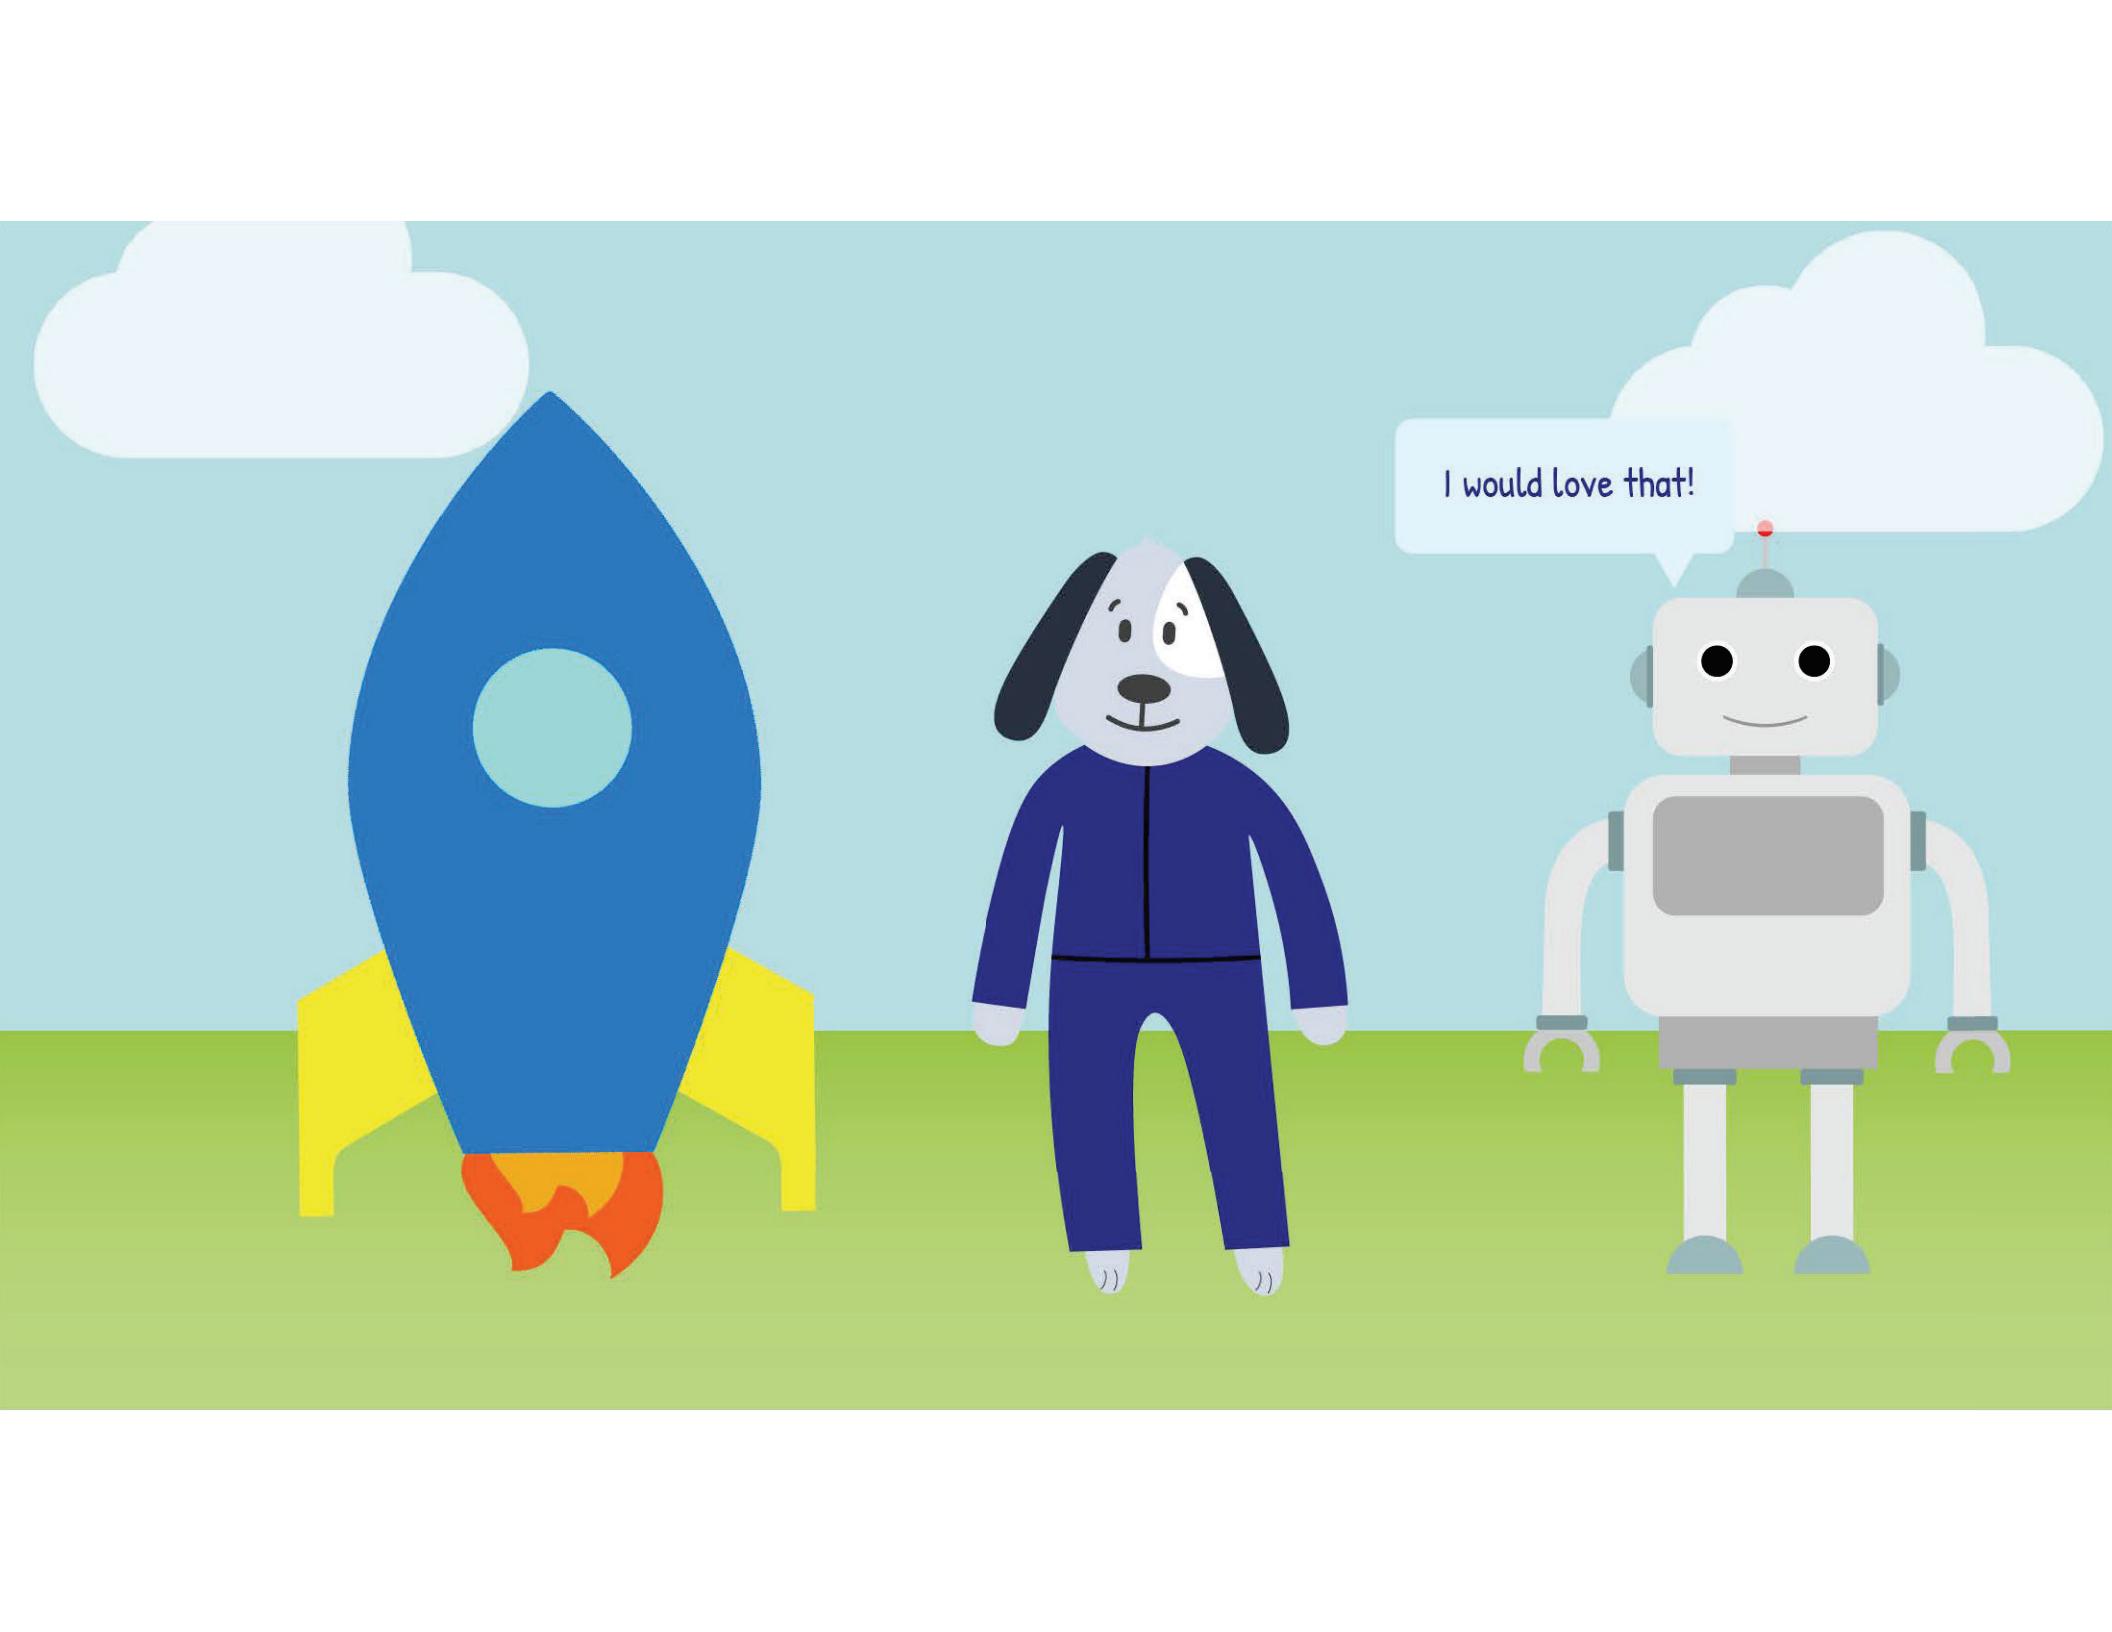

Hey, it works! I thought it was impossible!
Thank you so much for your help! I'm sorry I
was mean earlier. I was just frustrated!

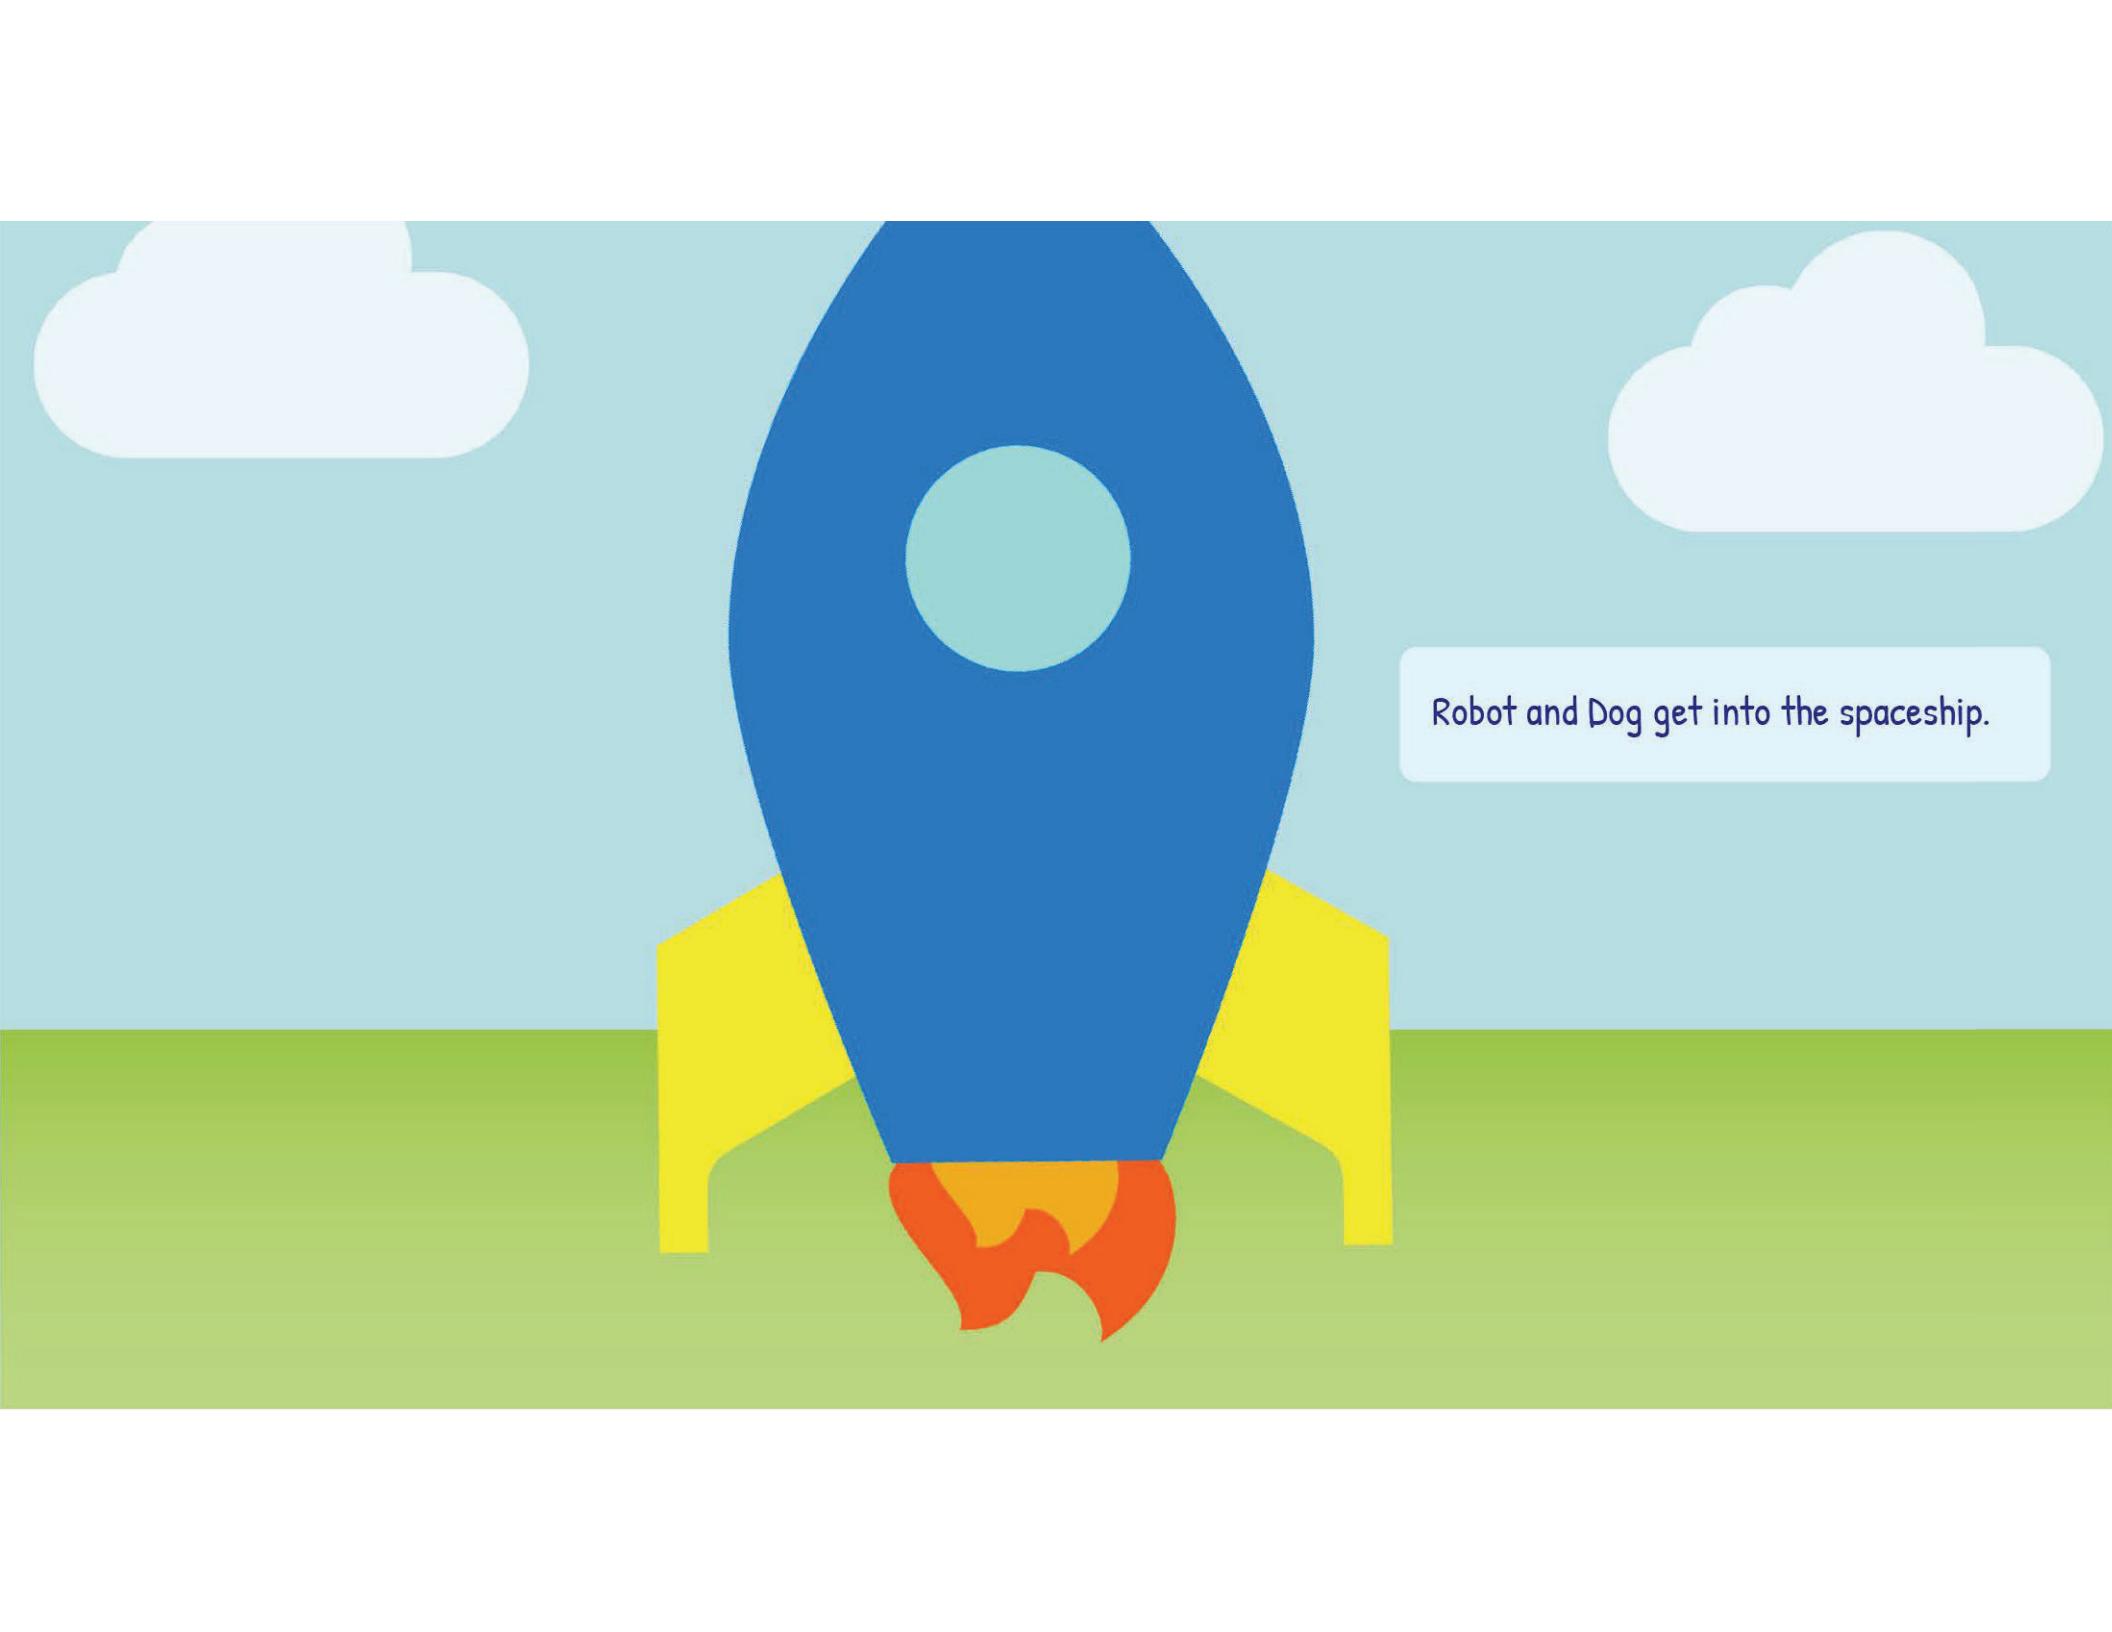

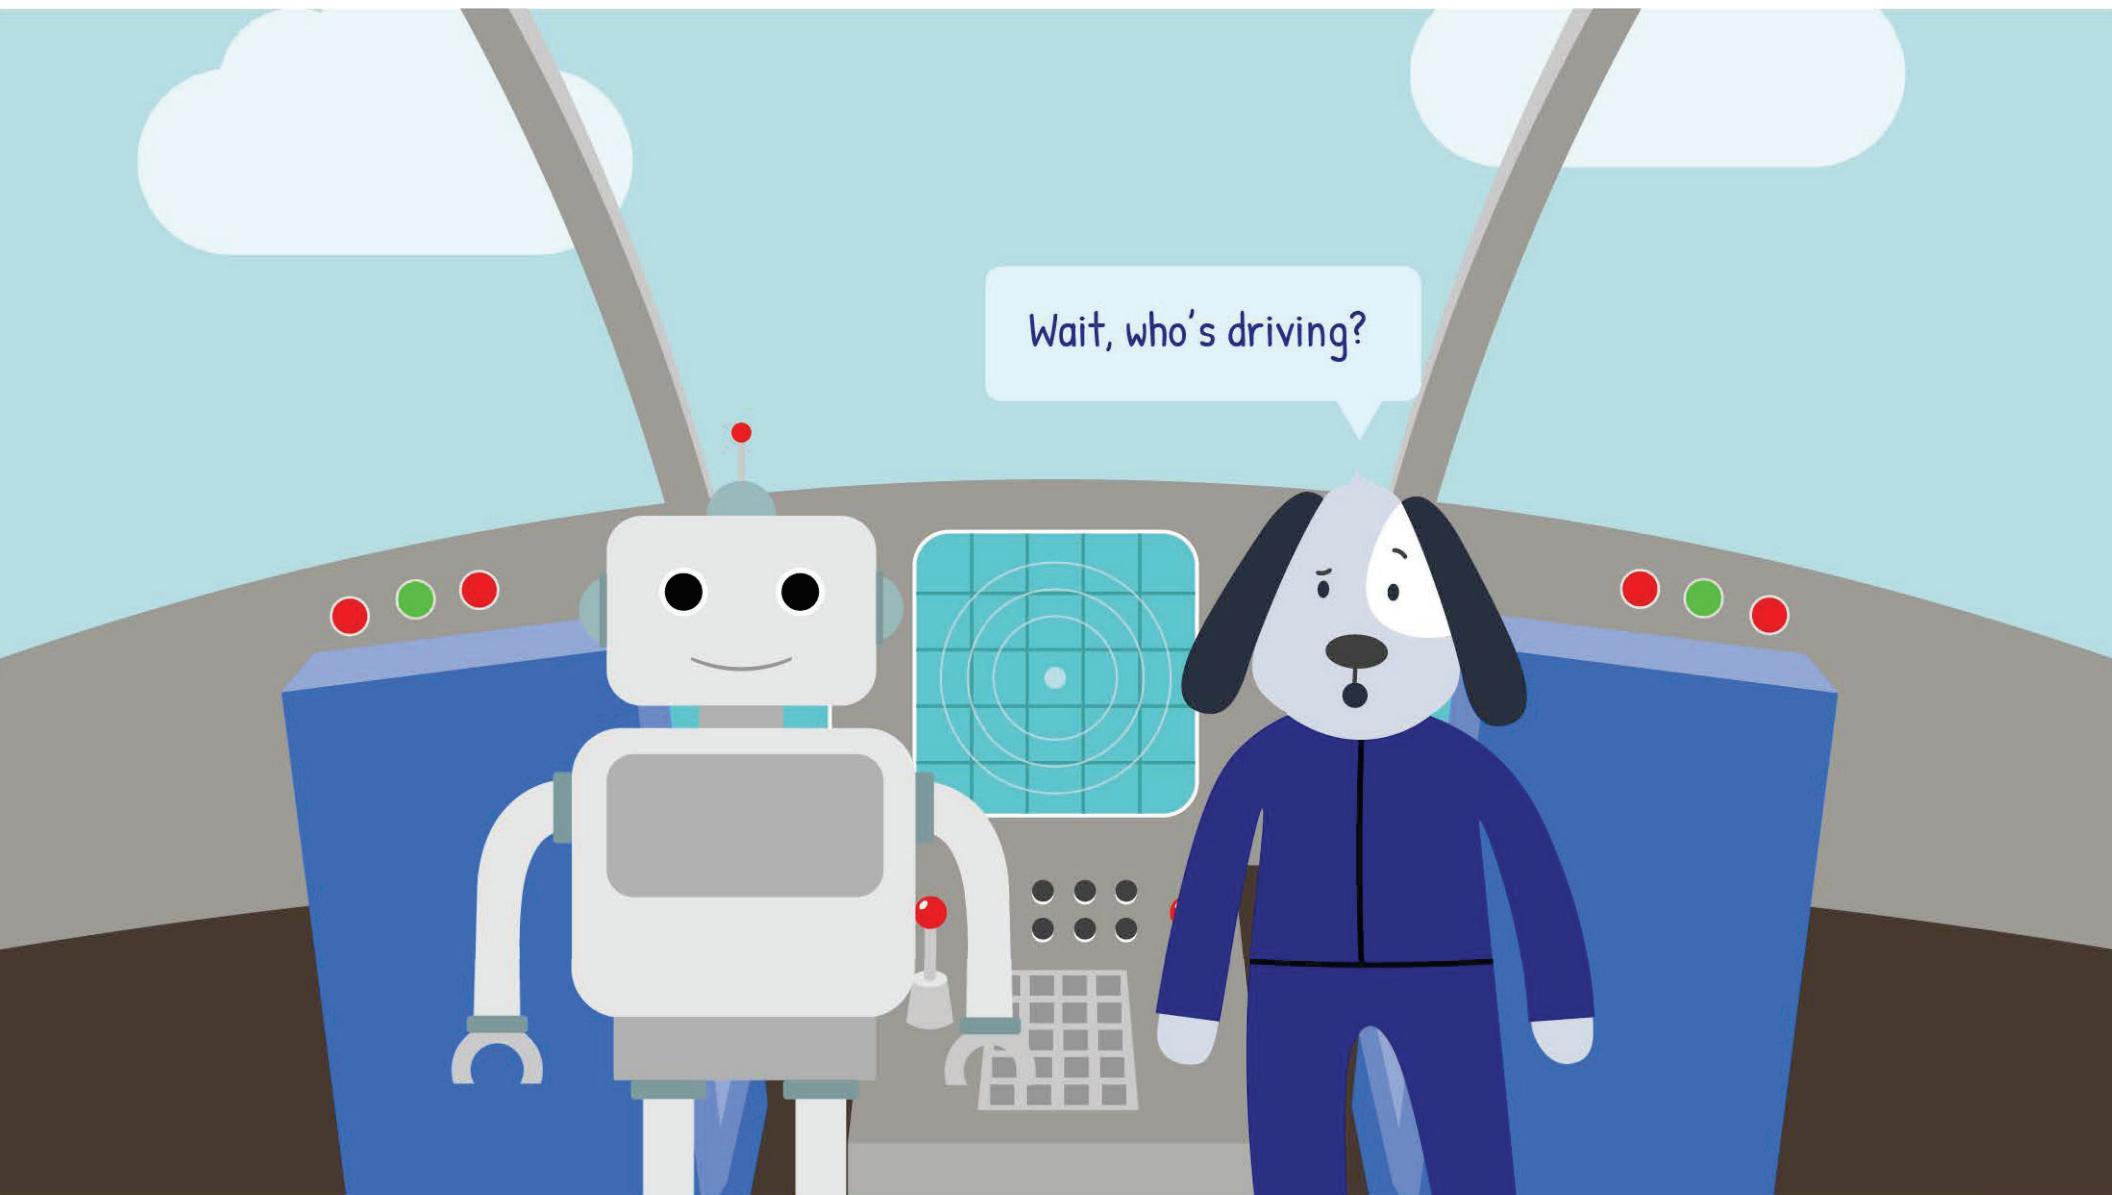

That's alright! I'm glad I could help.
Say, can I come with you to space?

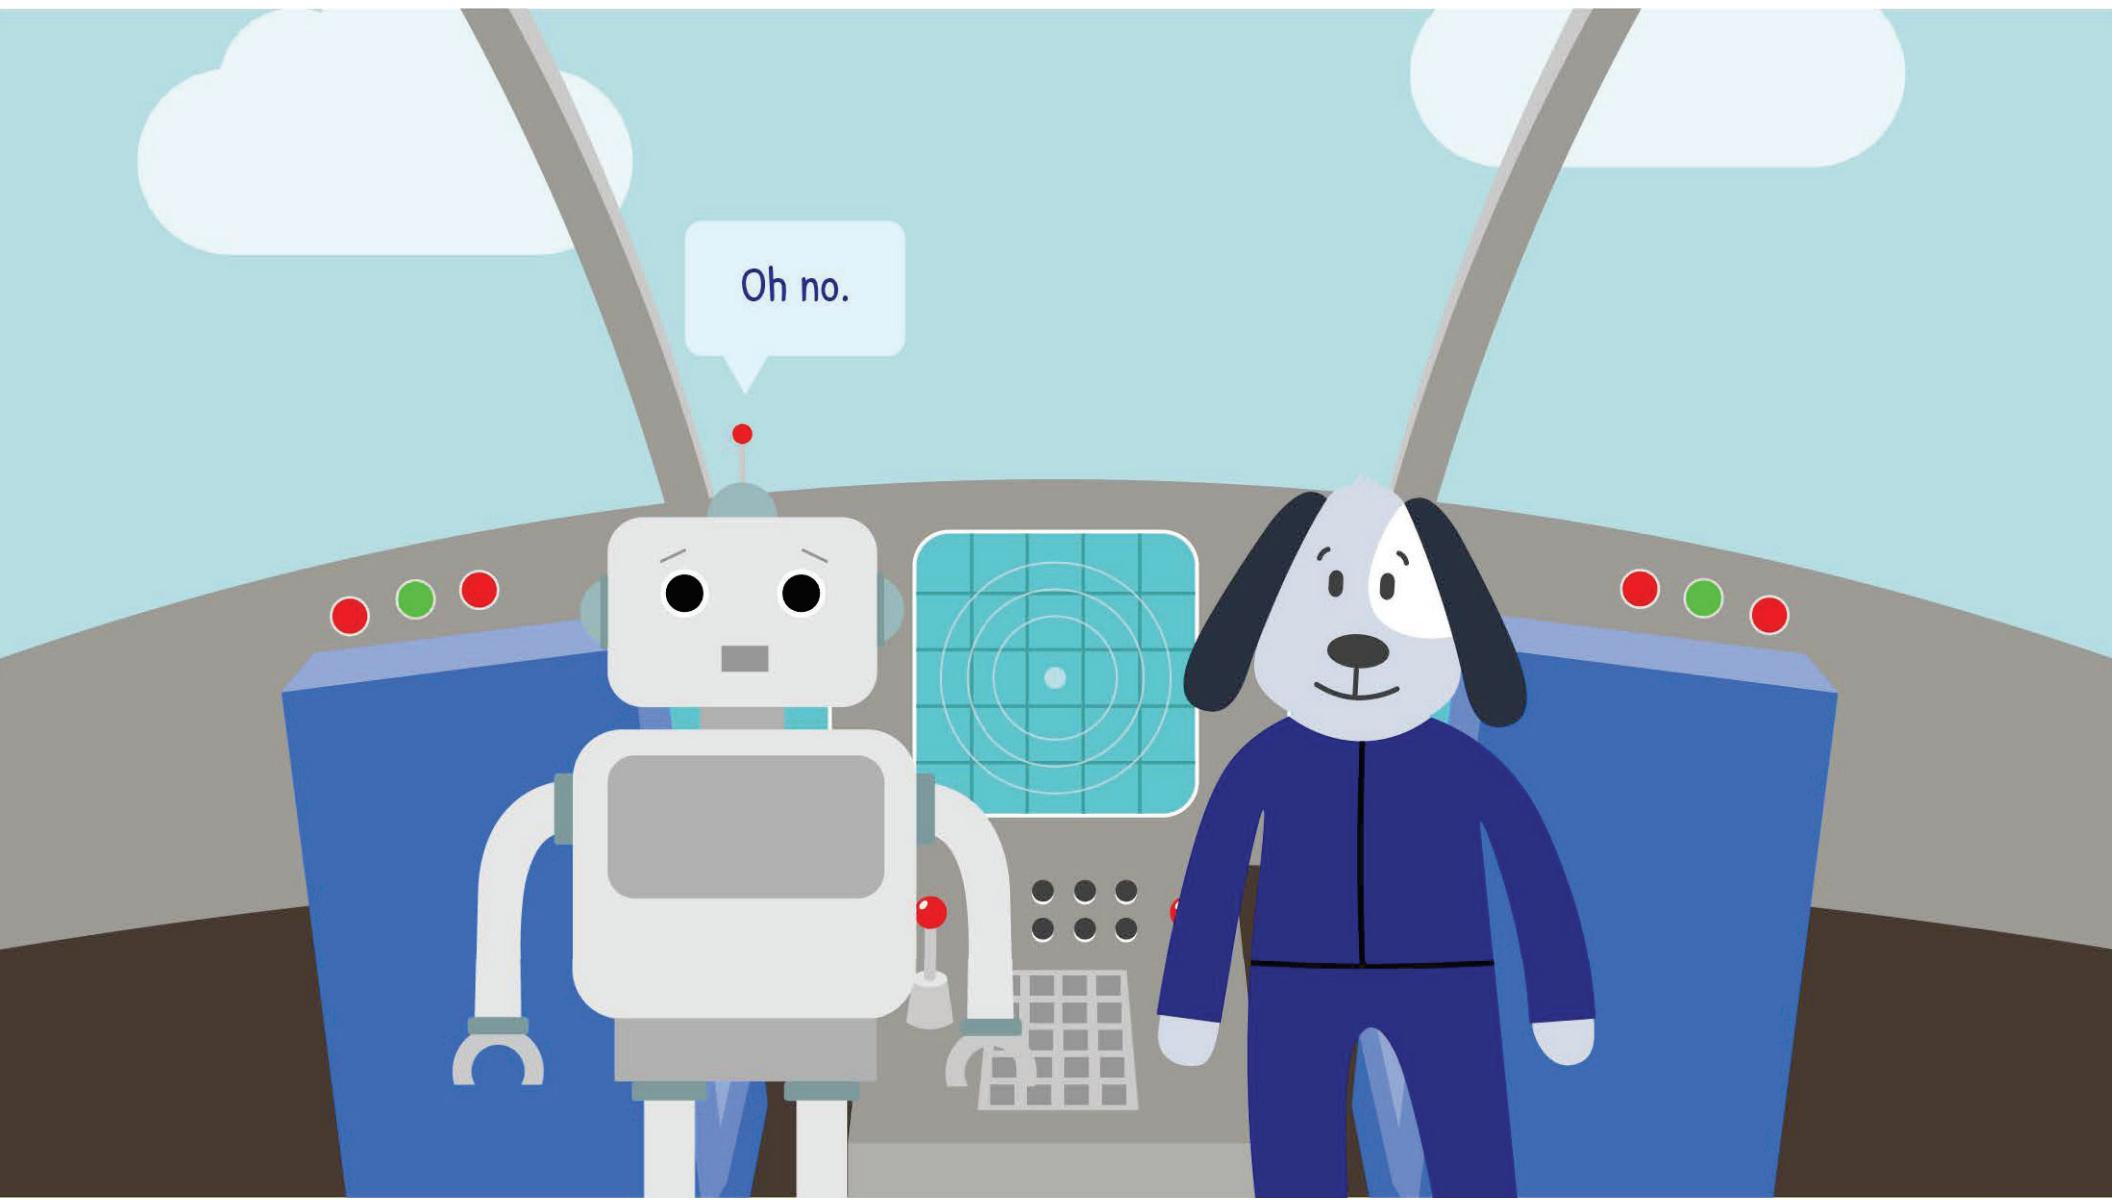

I would love that!

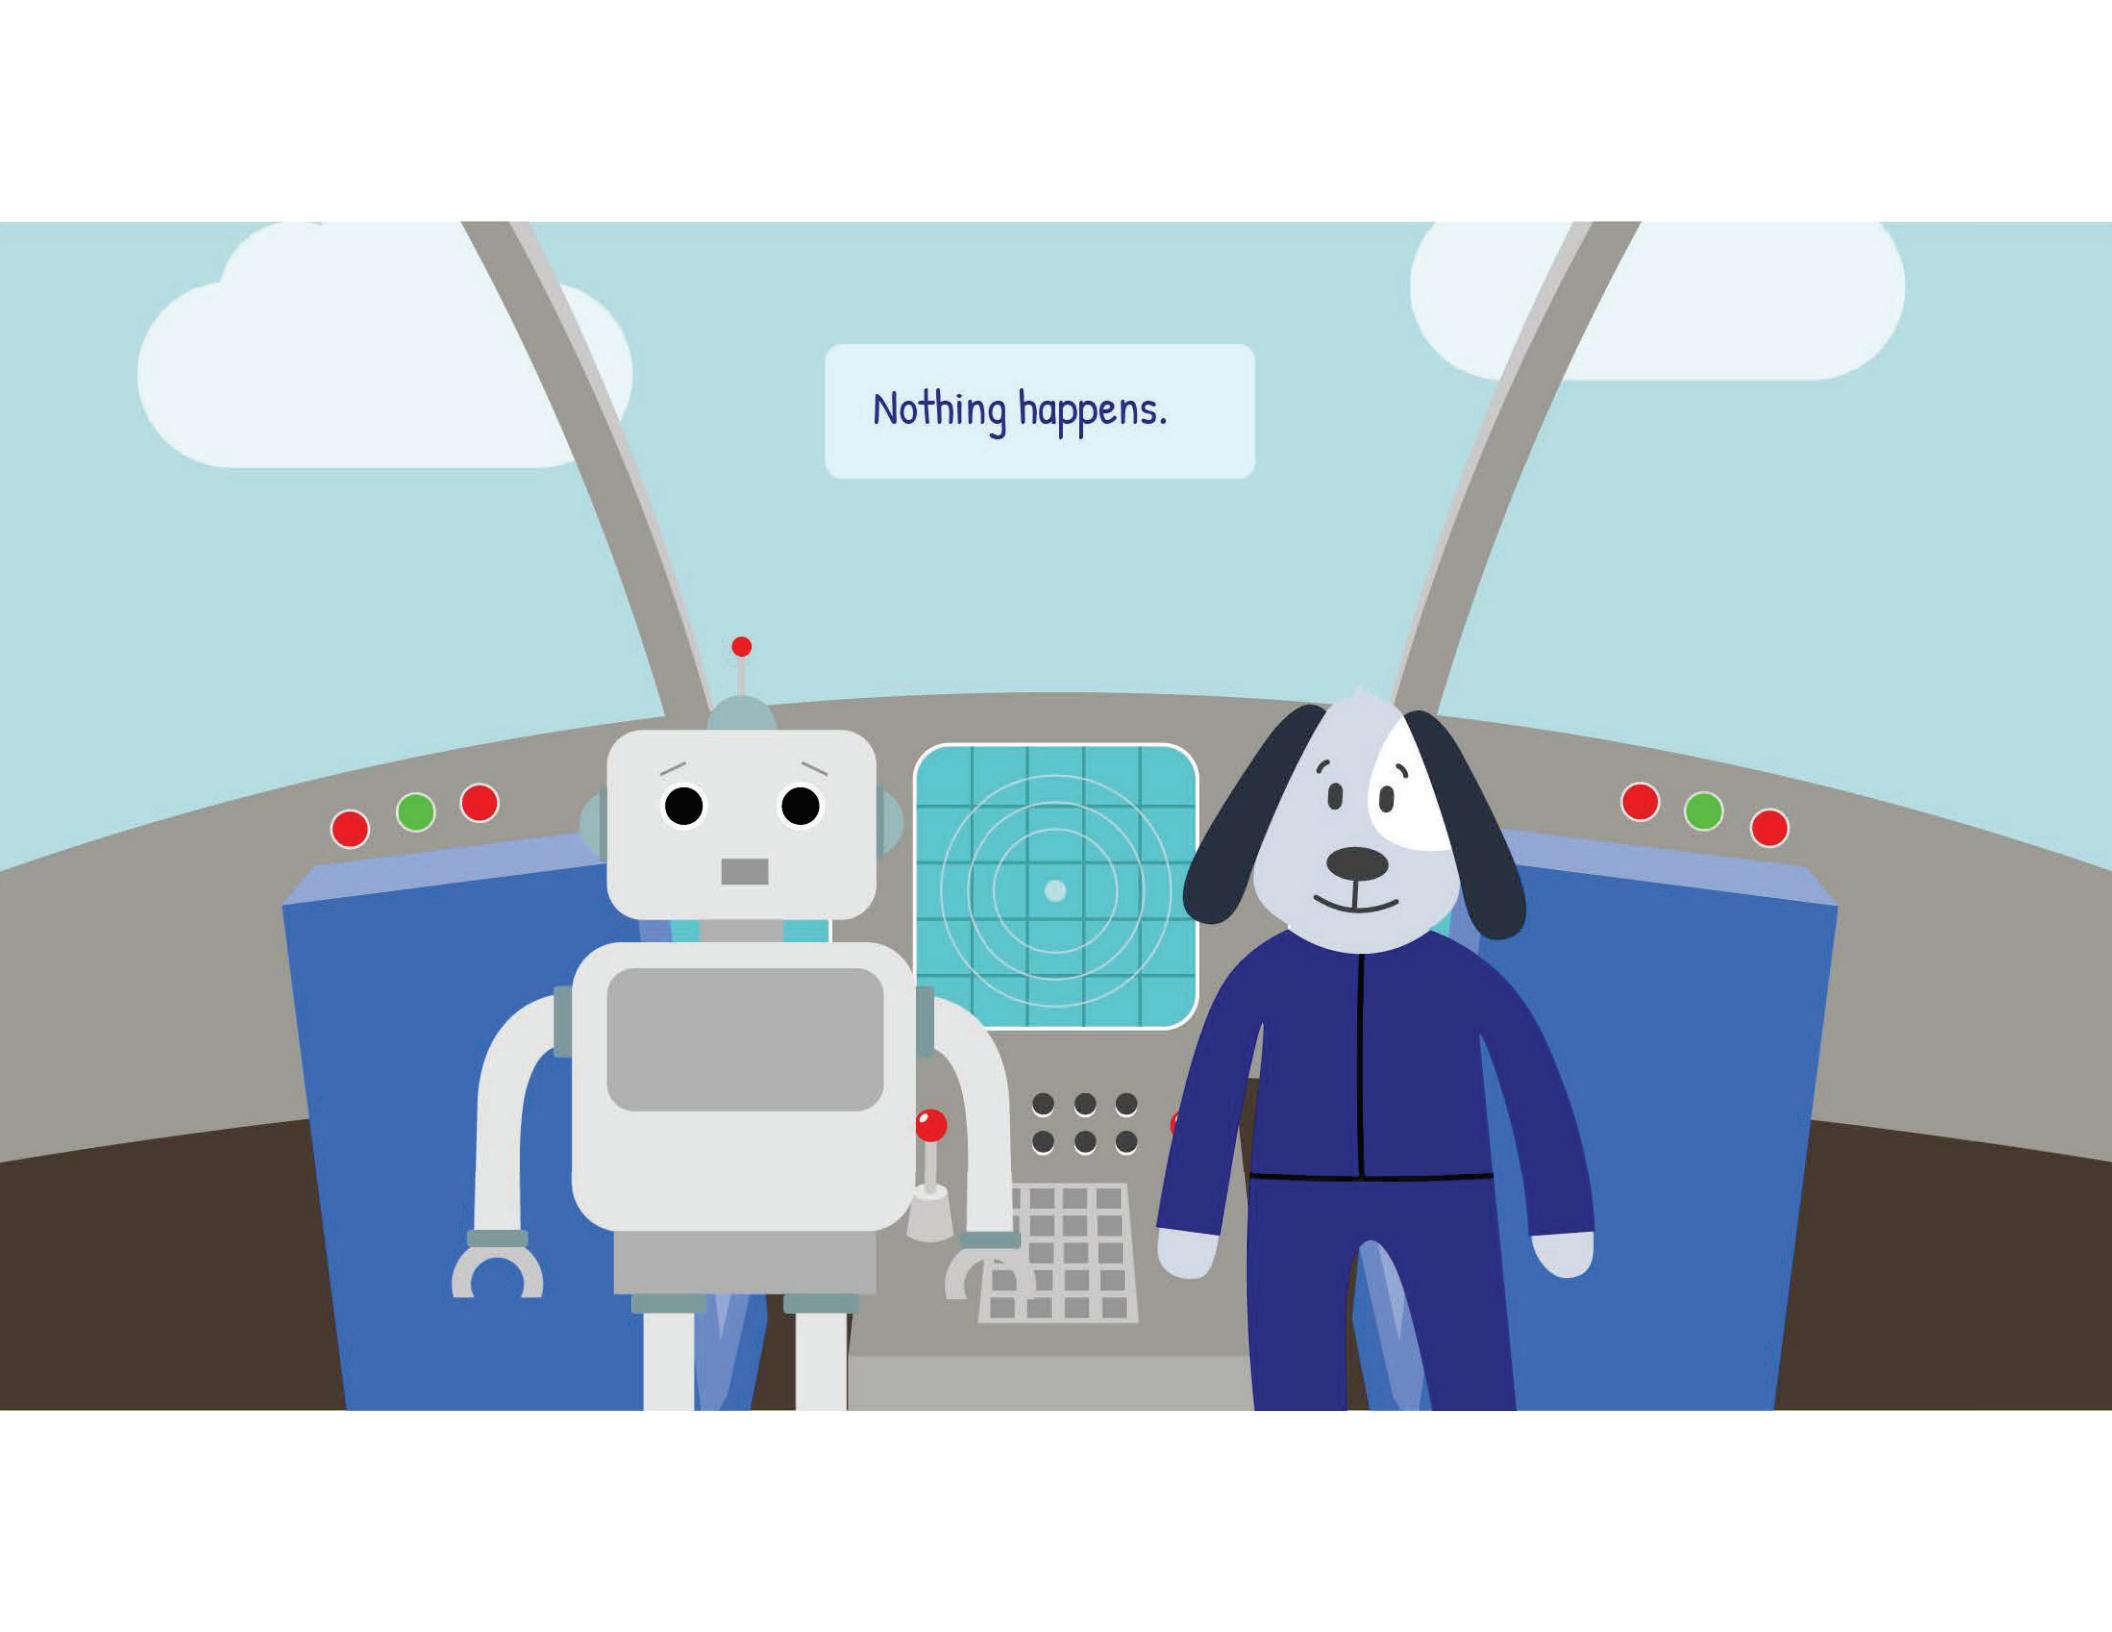

Robot and Dog get into the spaceship.

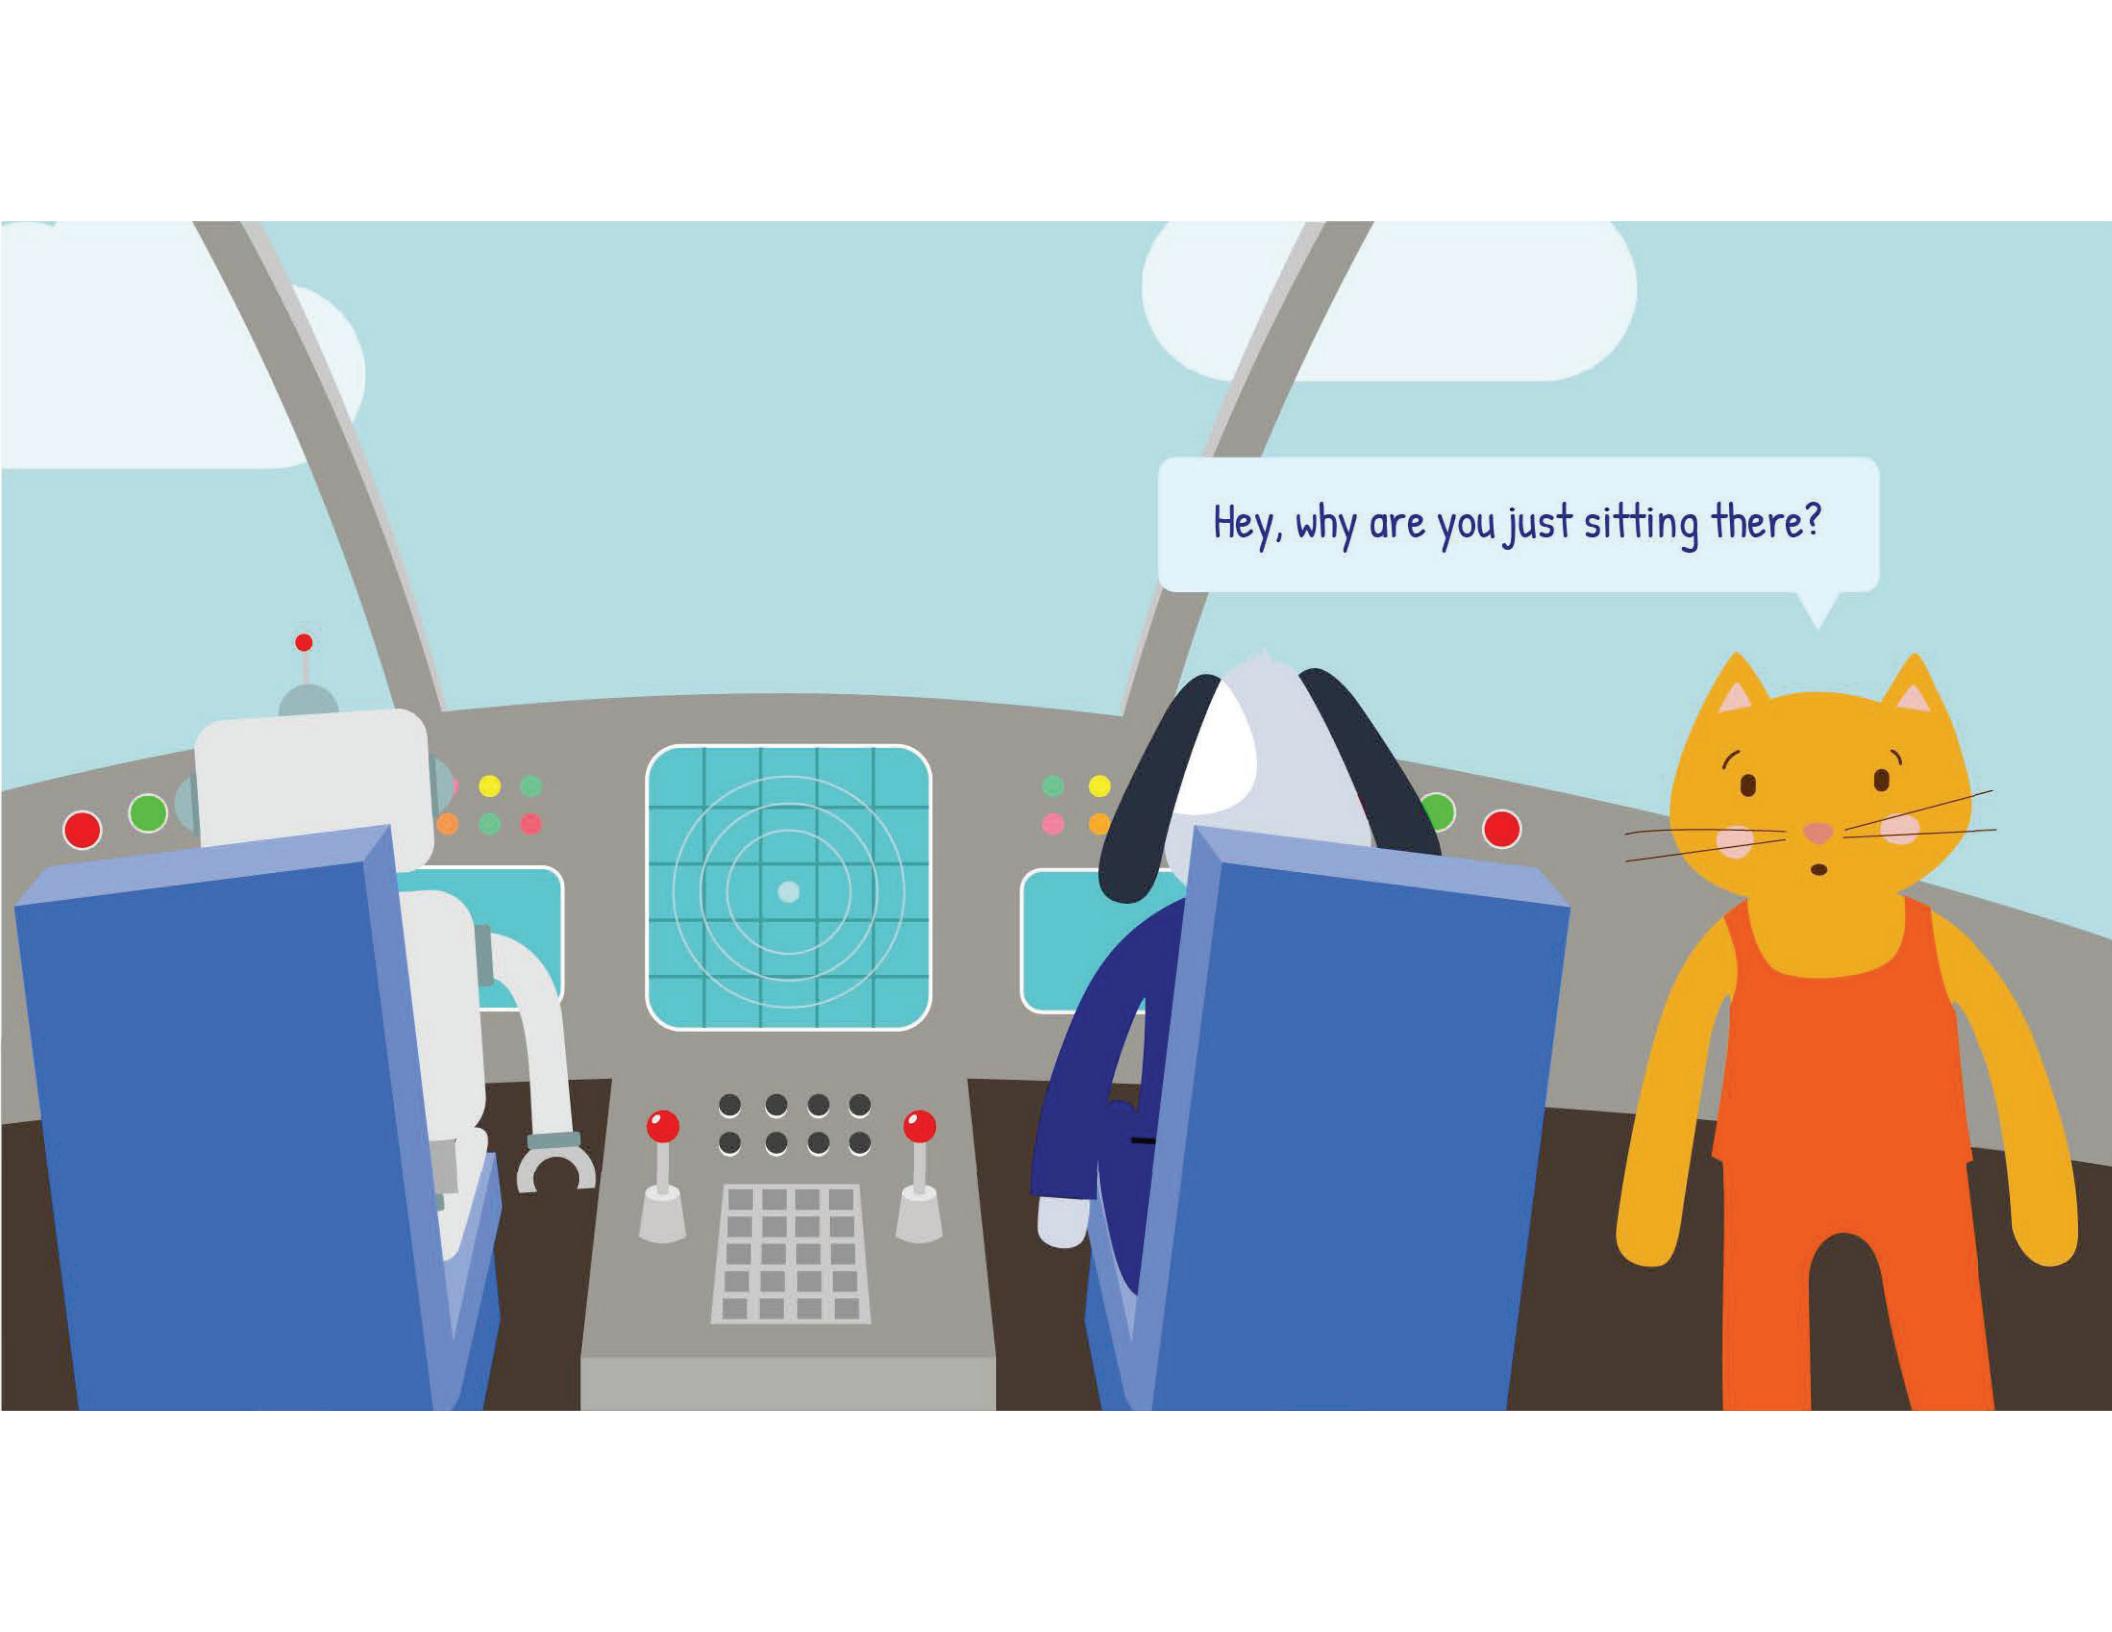

Wait, who's driving?

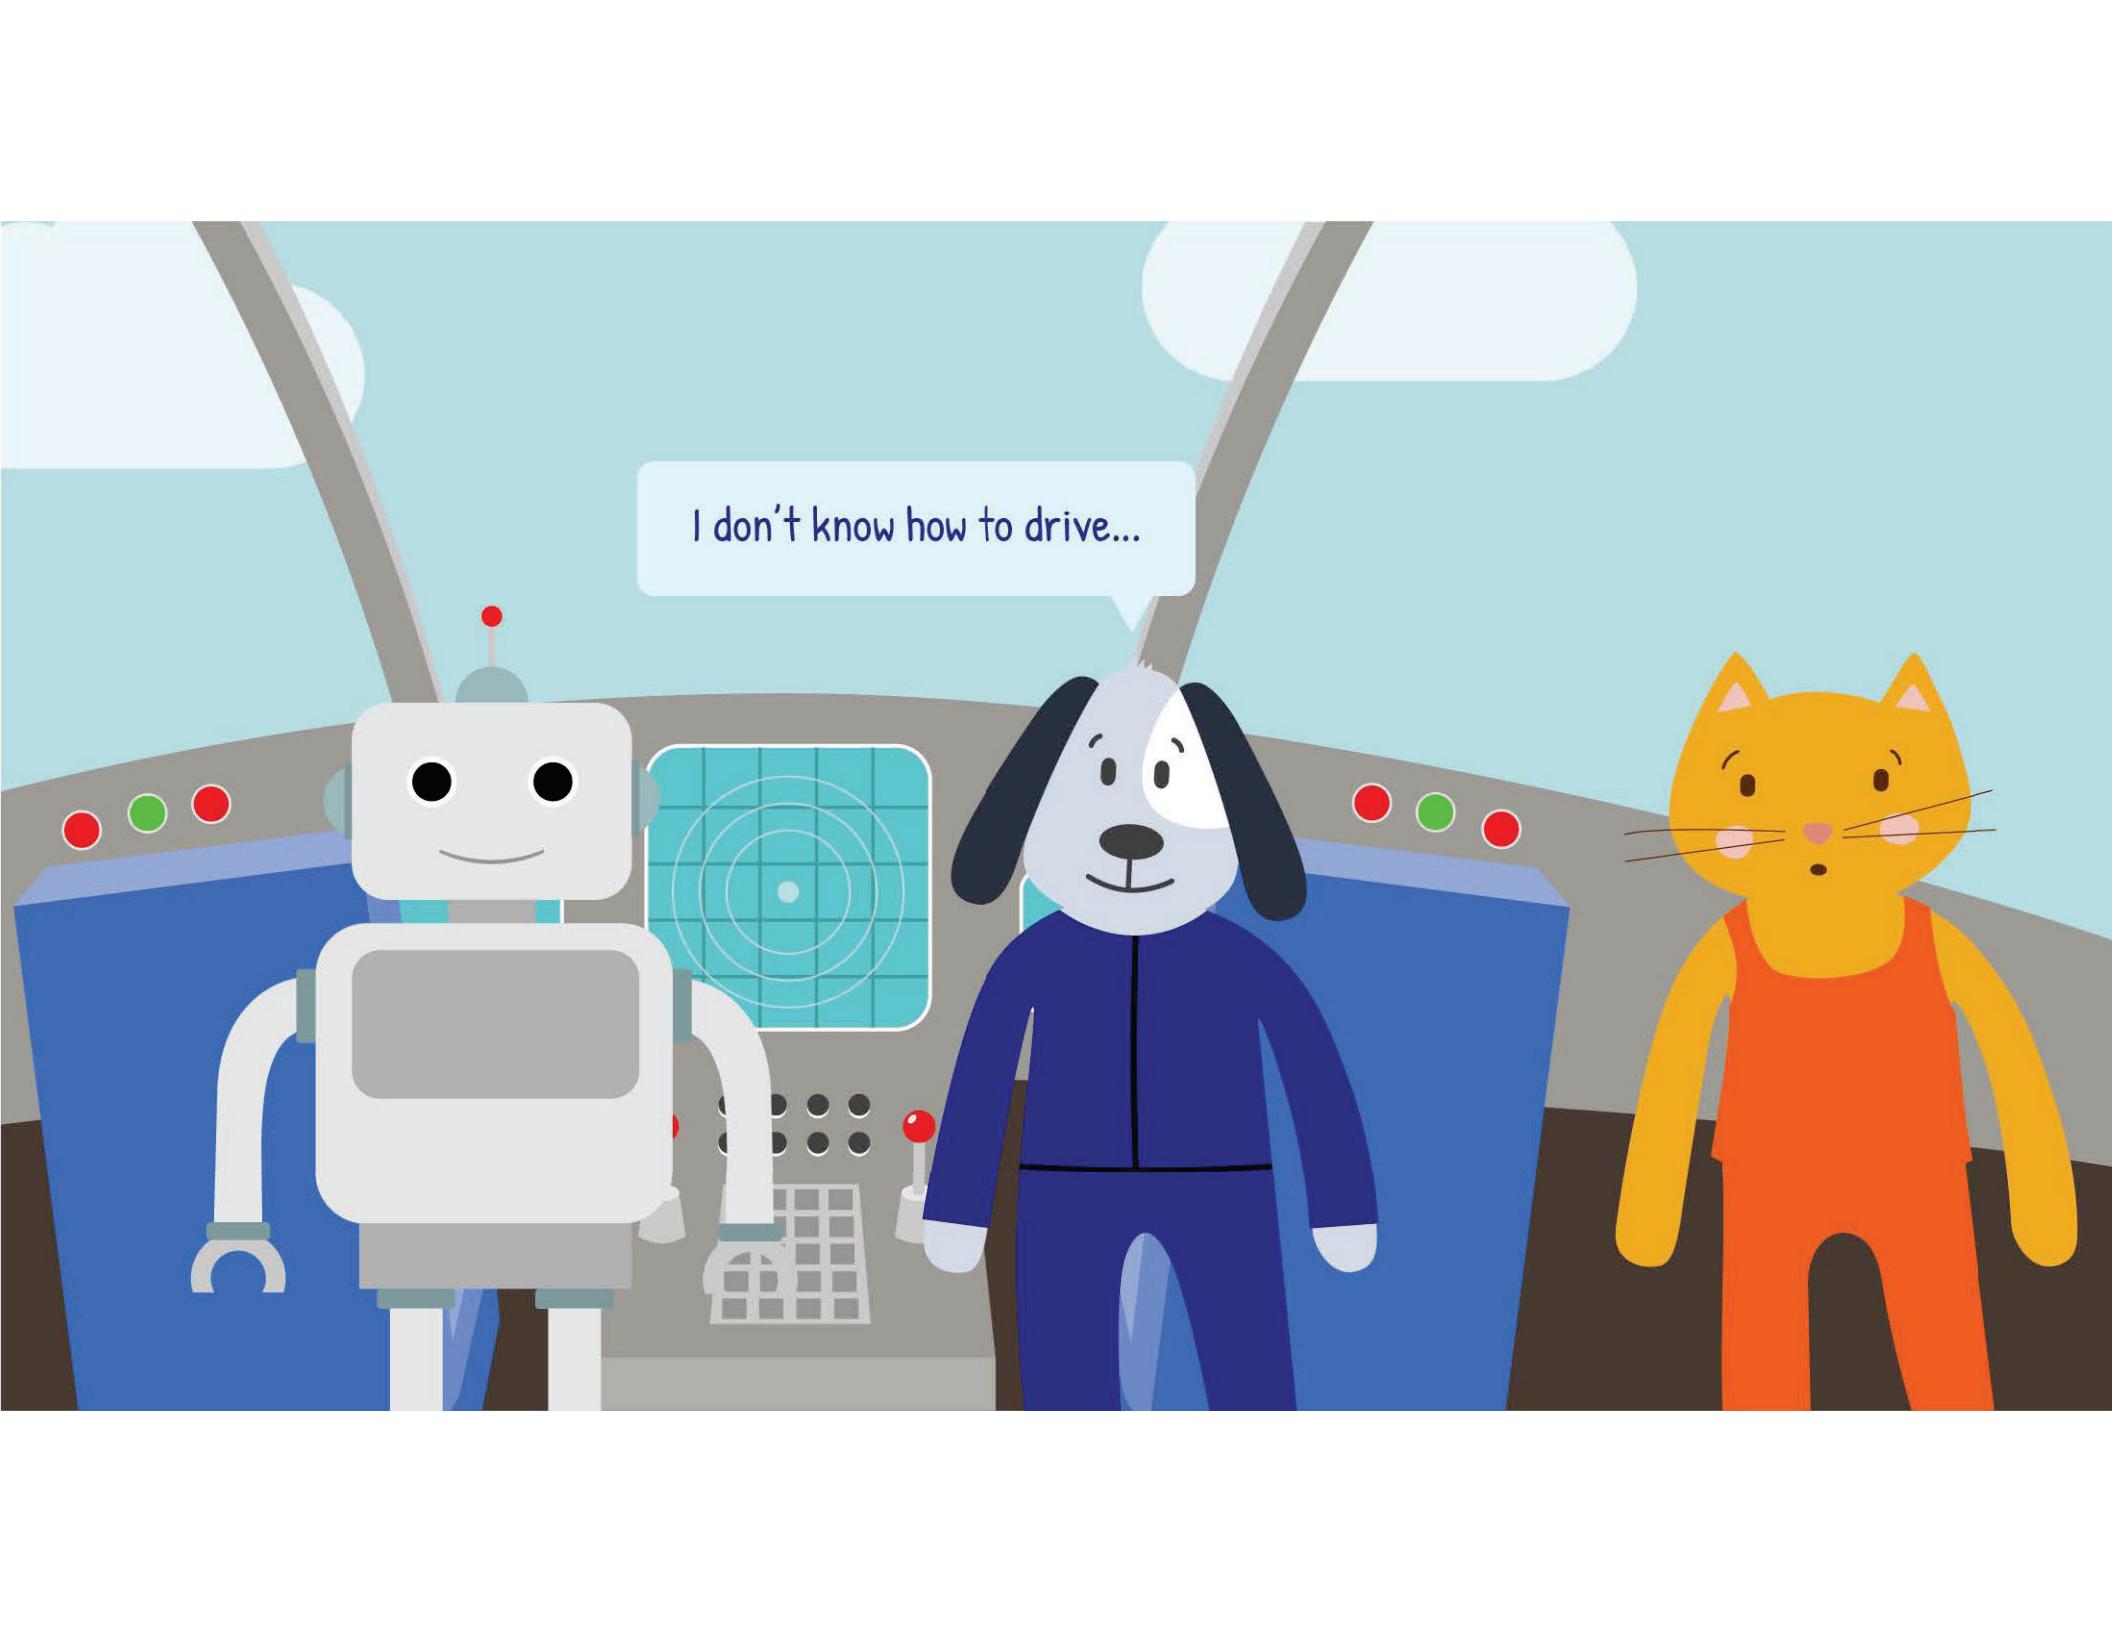

Oh no.

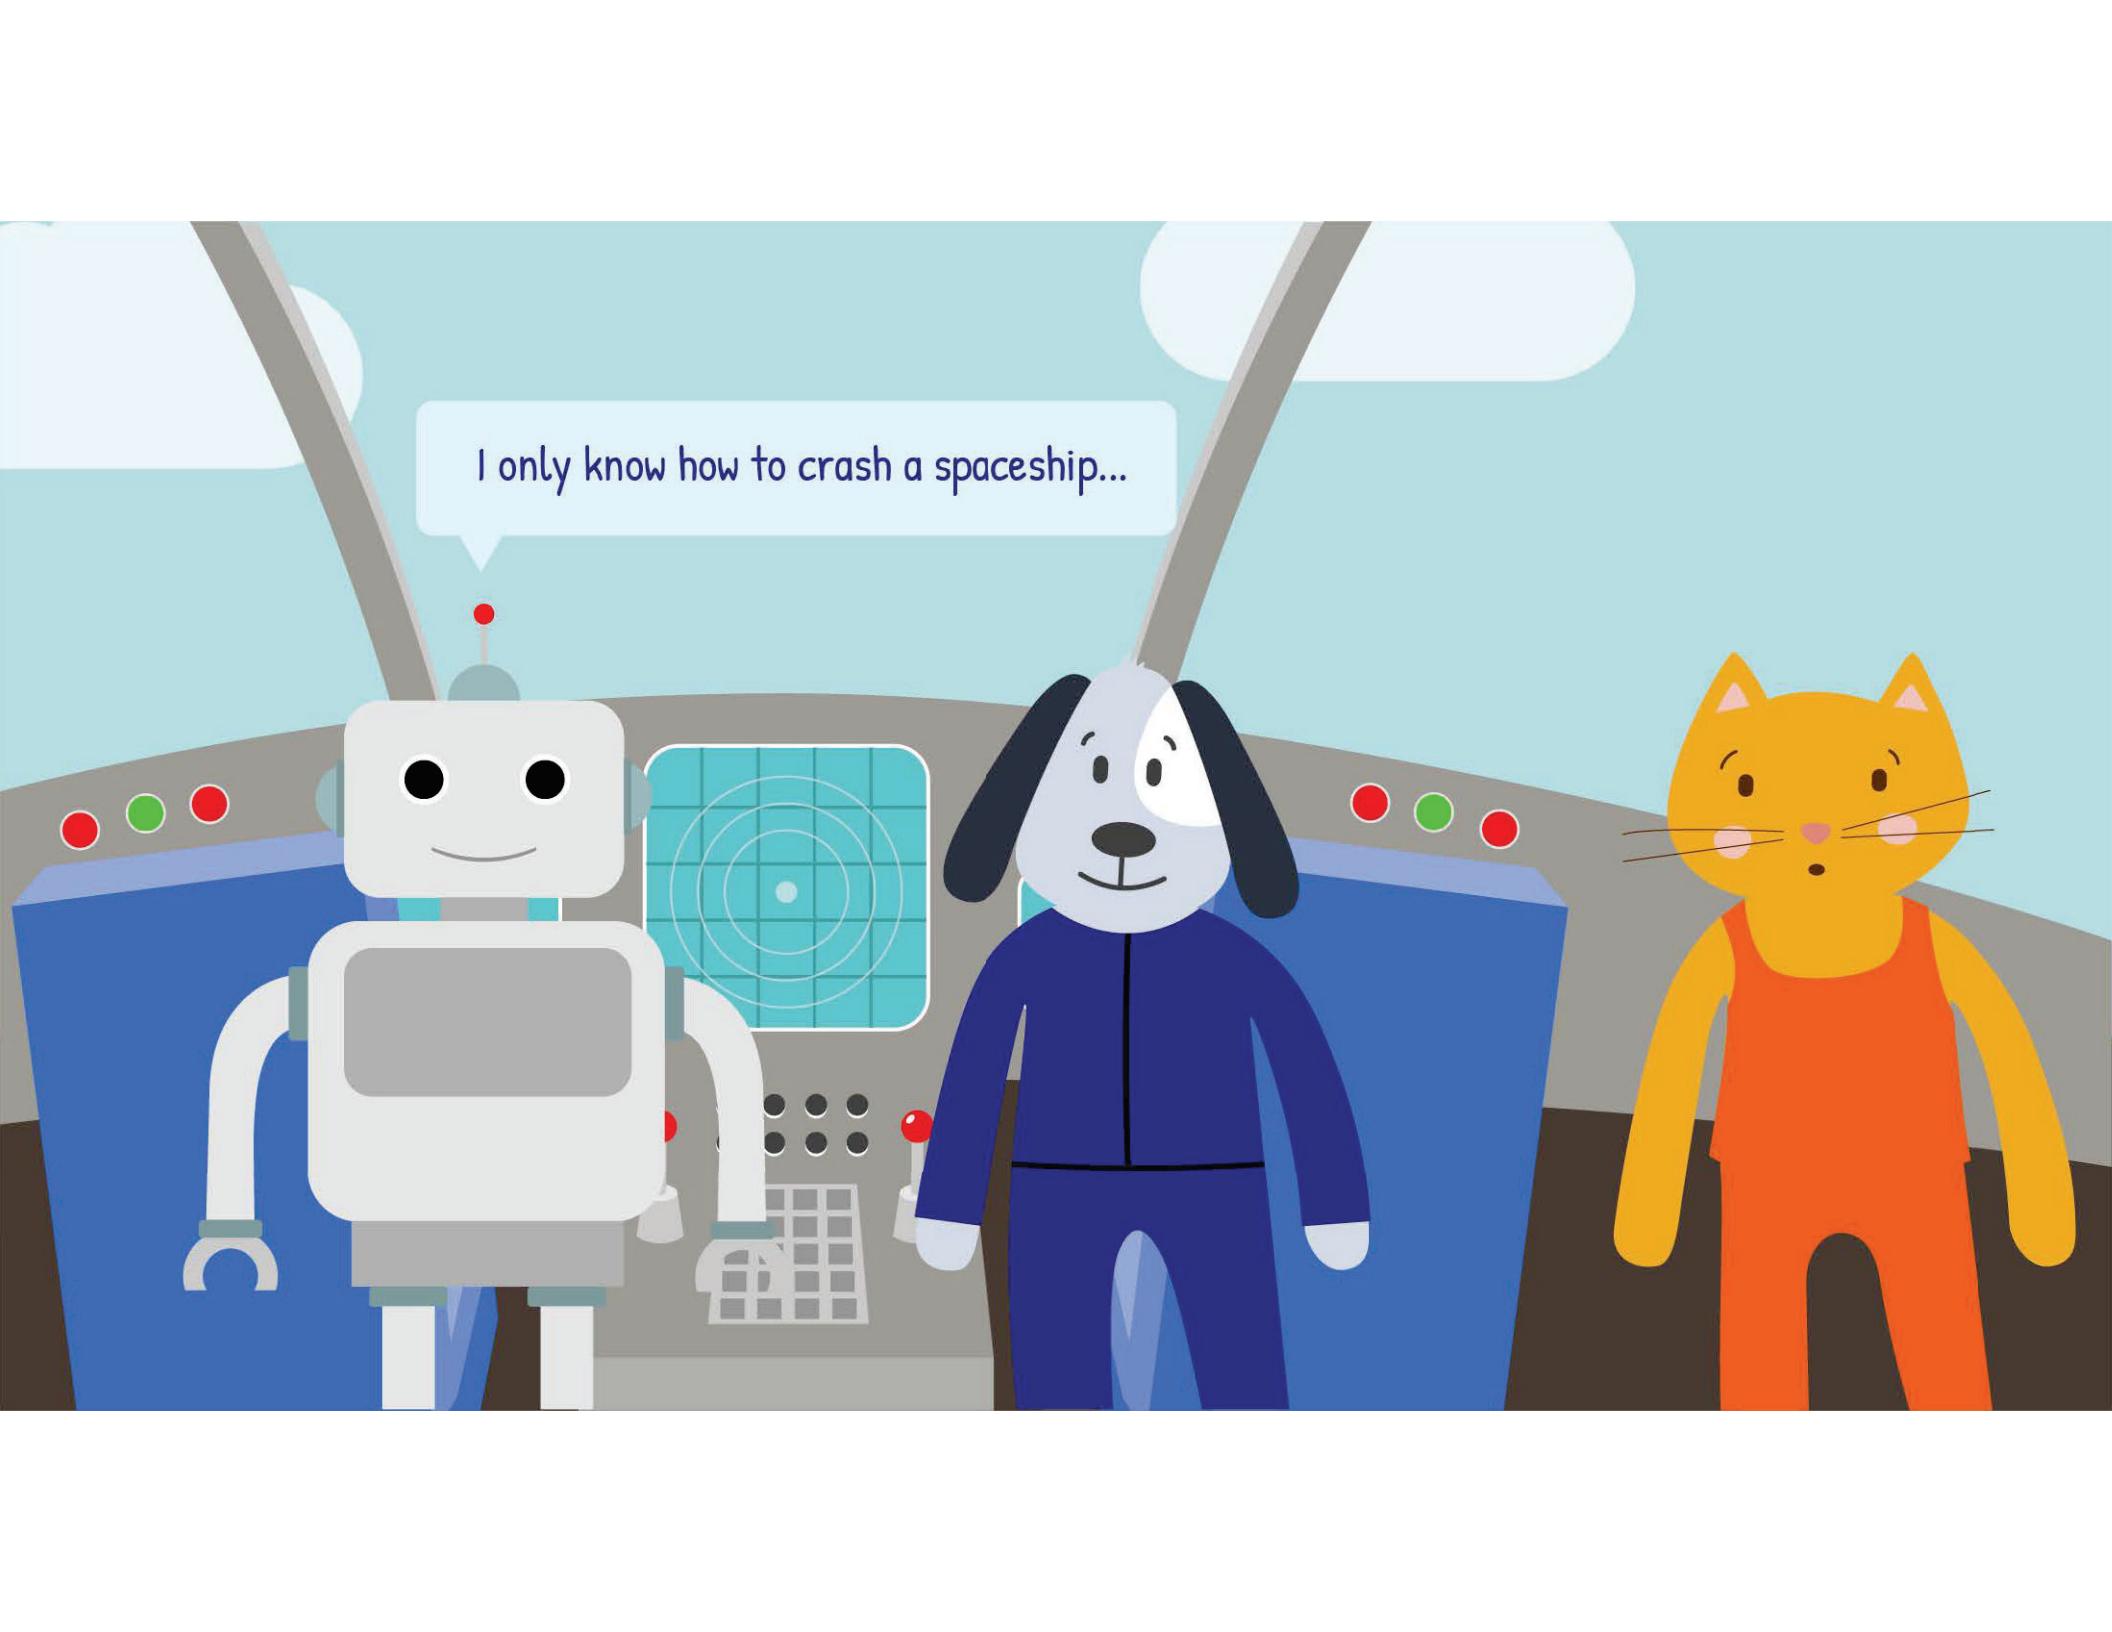

Nothing happens.

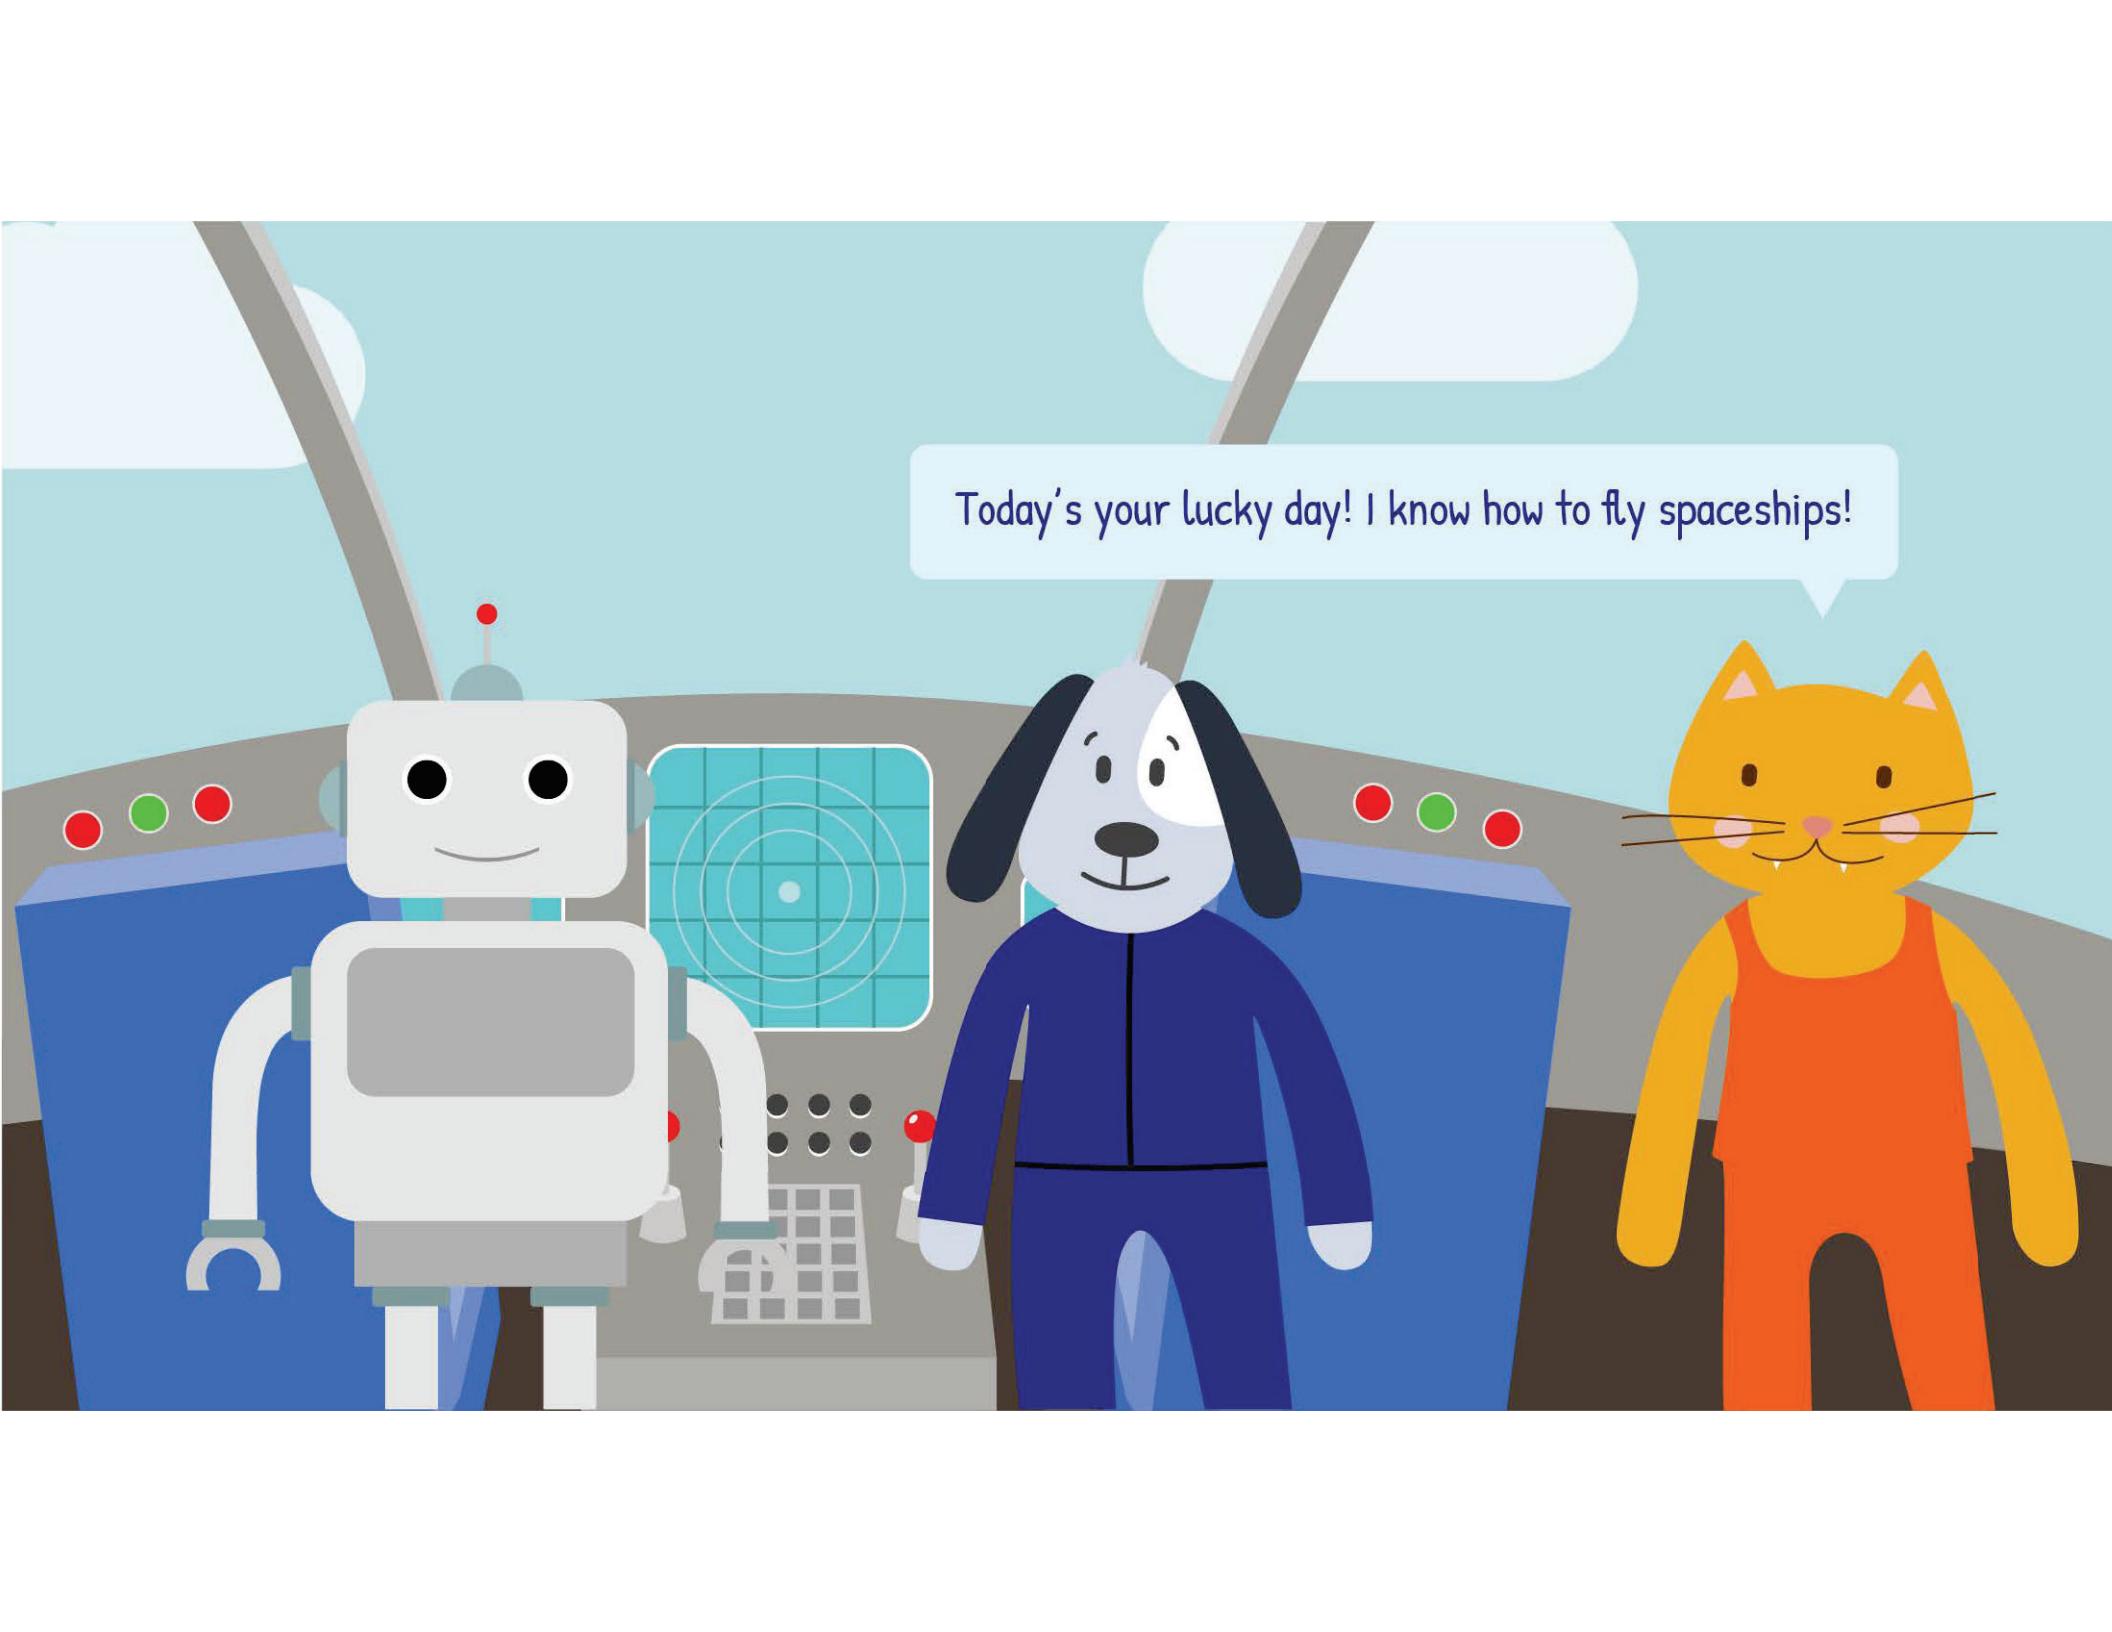

Hey, why are you just sitting there?

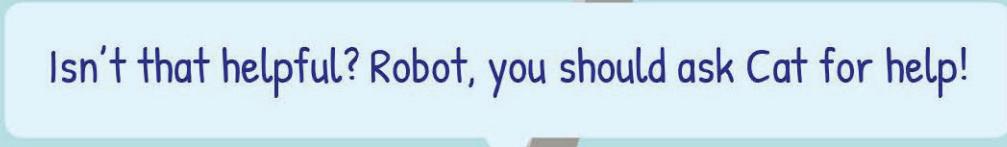

I don't know how to drive...

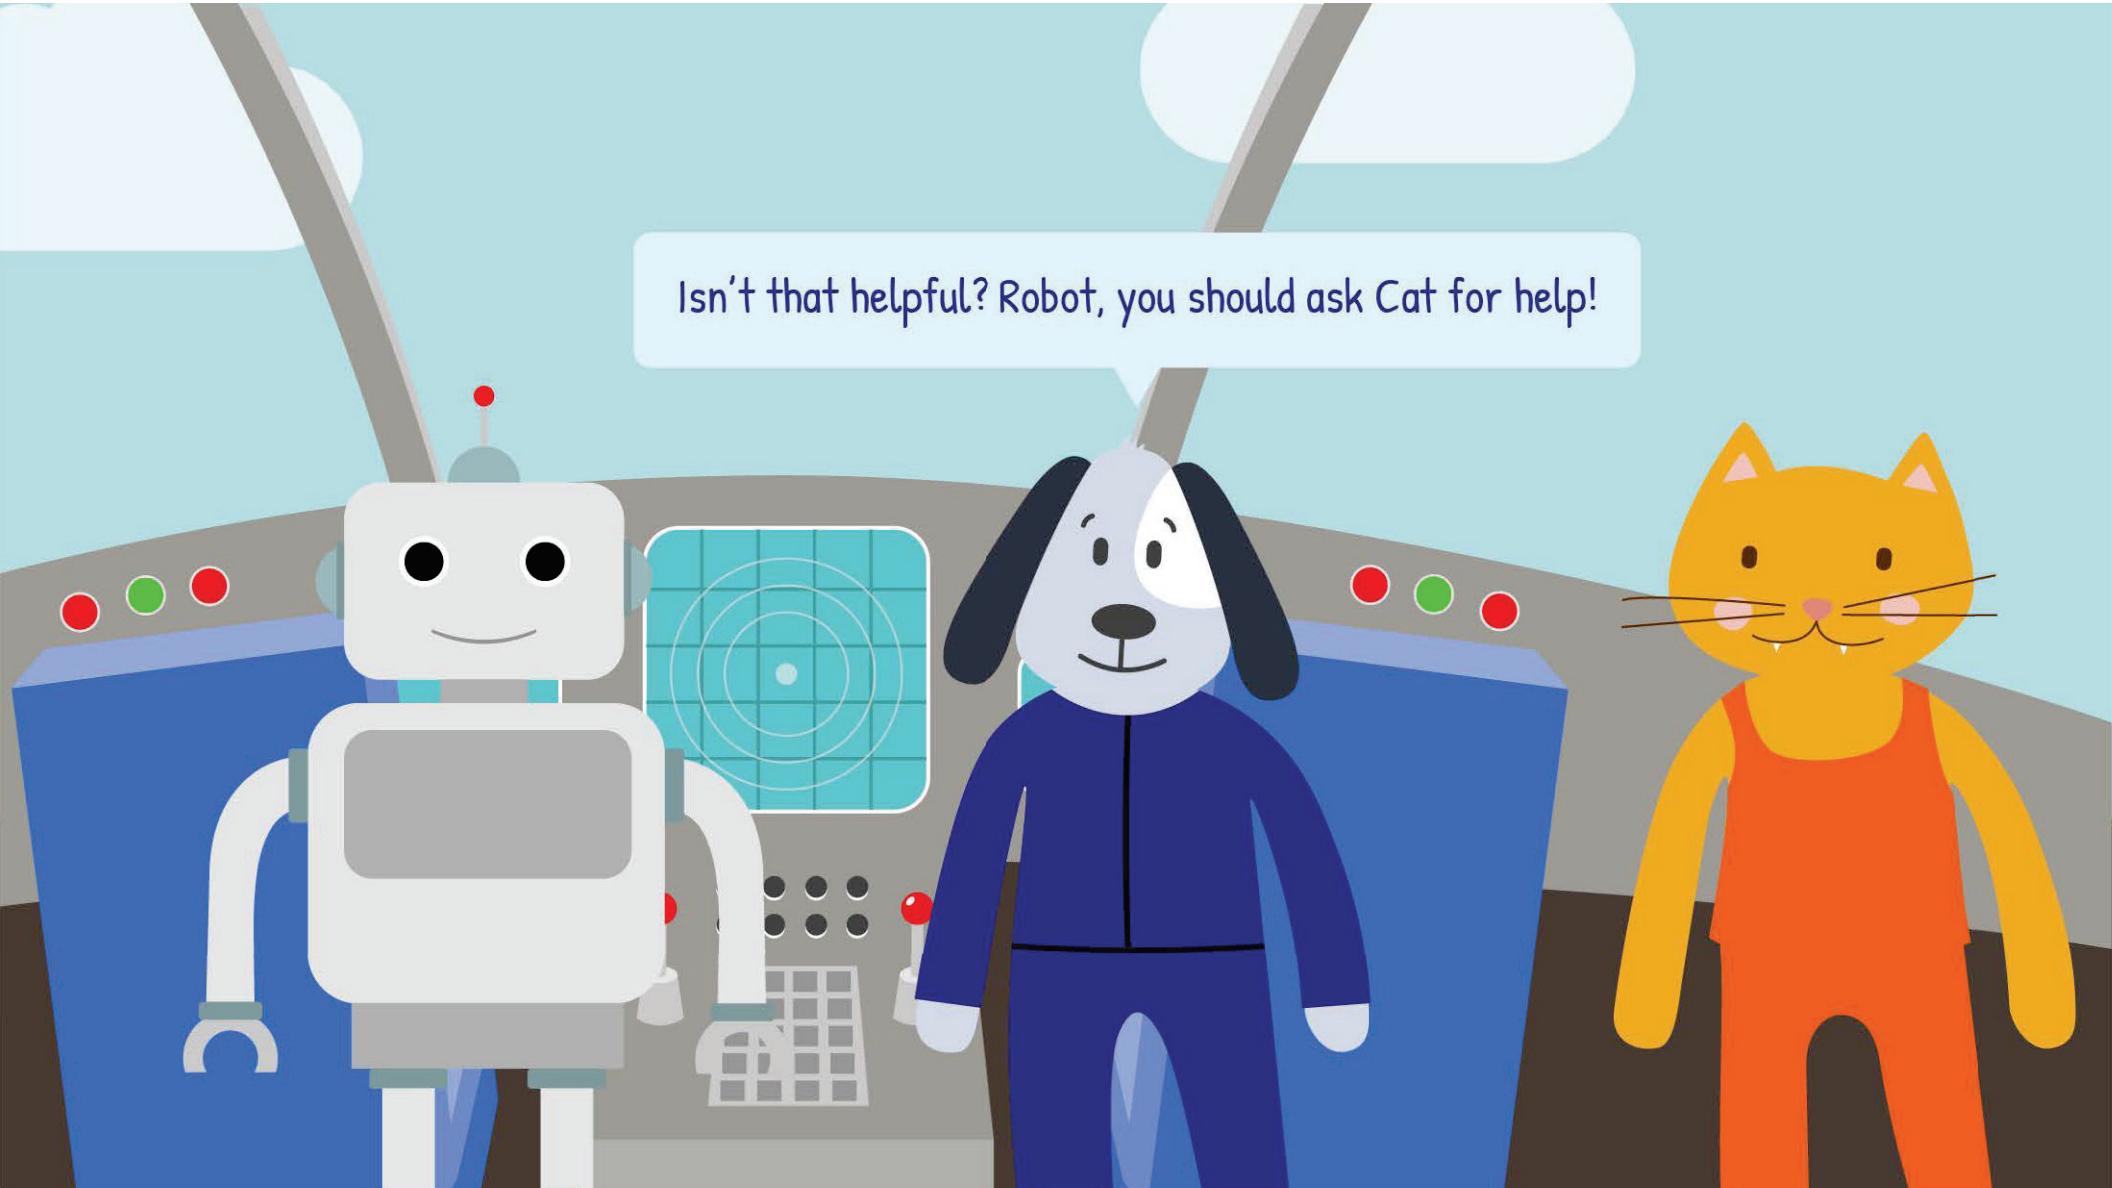

I only know how to crash a spaceship...

Today's your lucky day! I know how to fly spaceships!

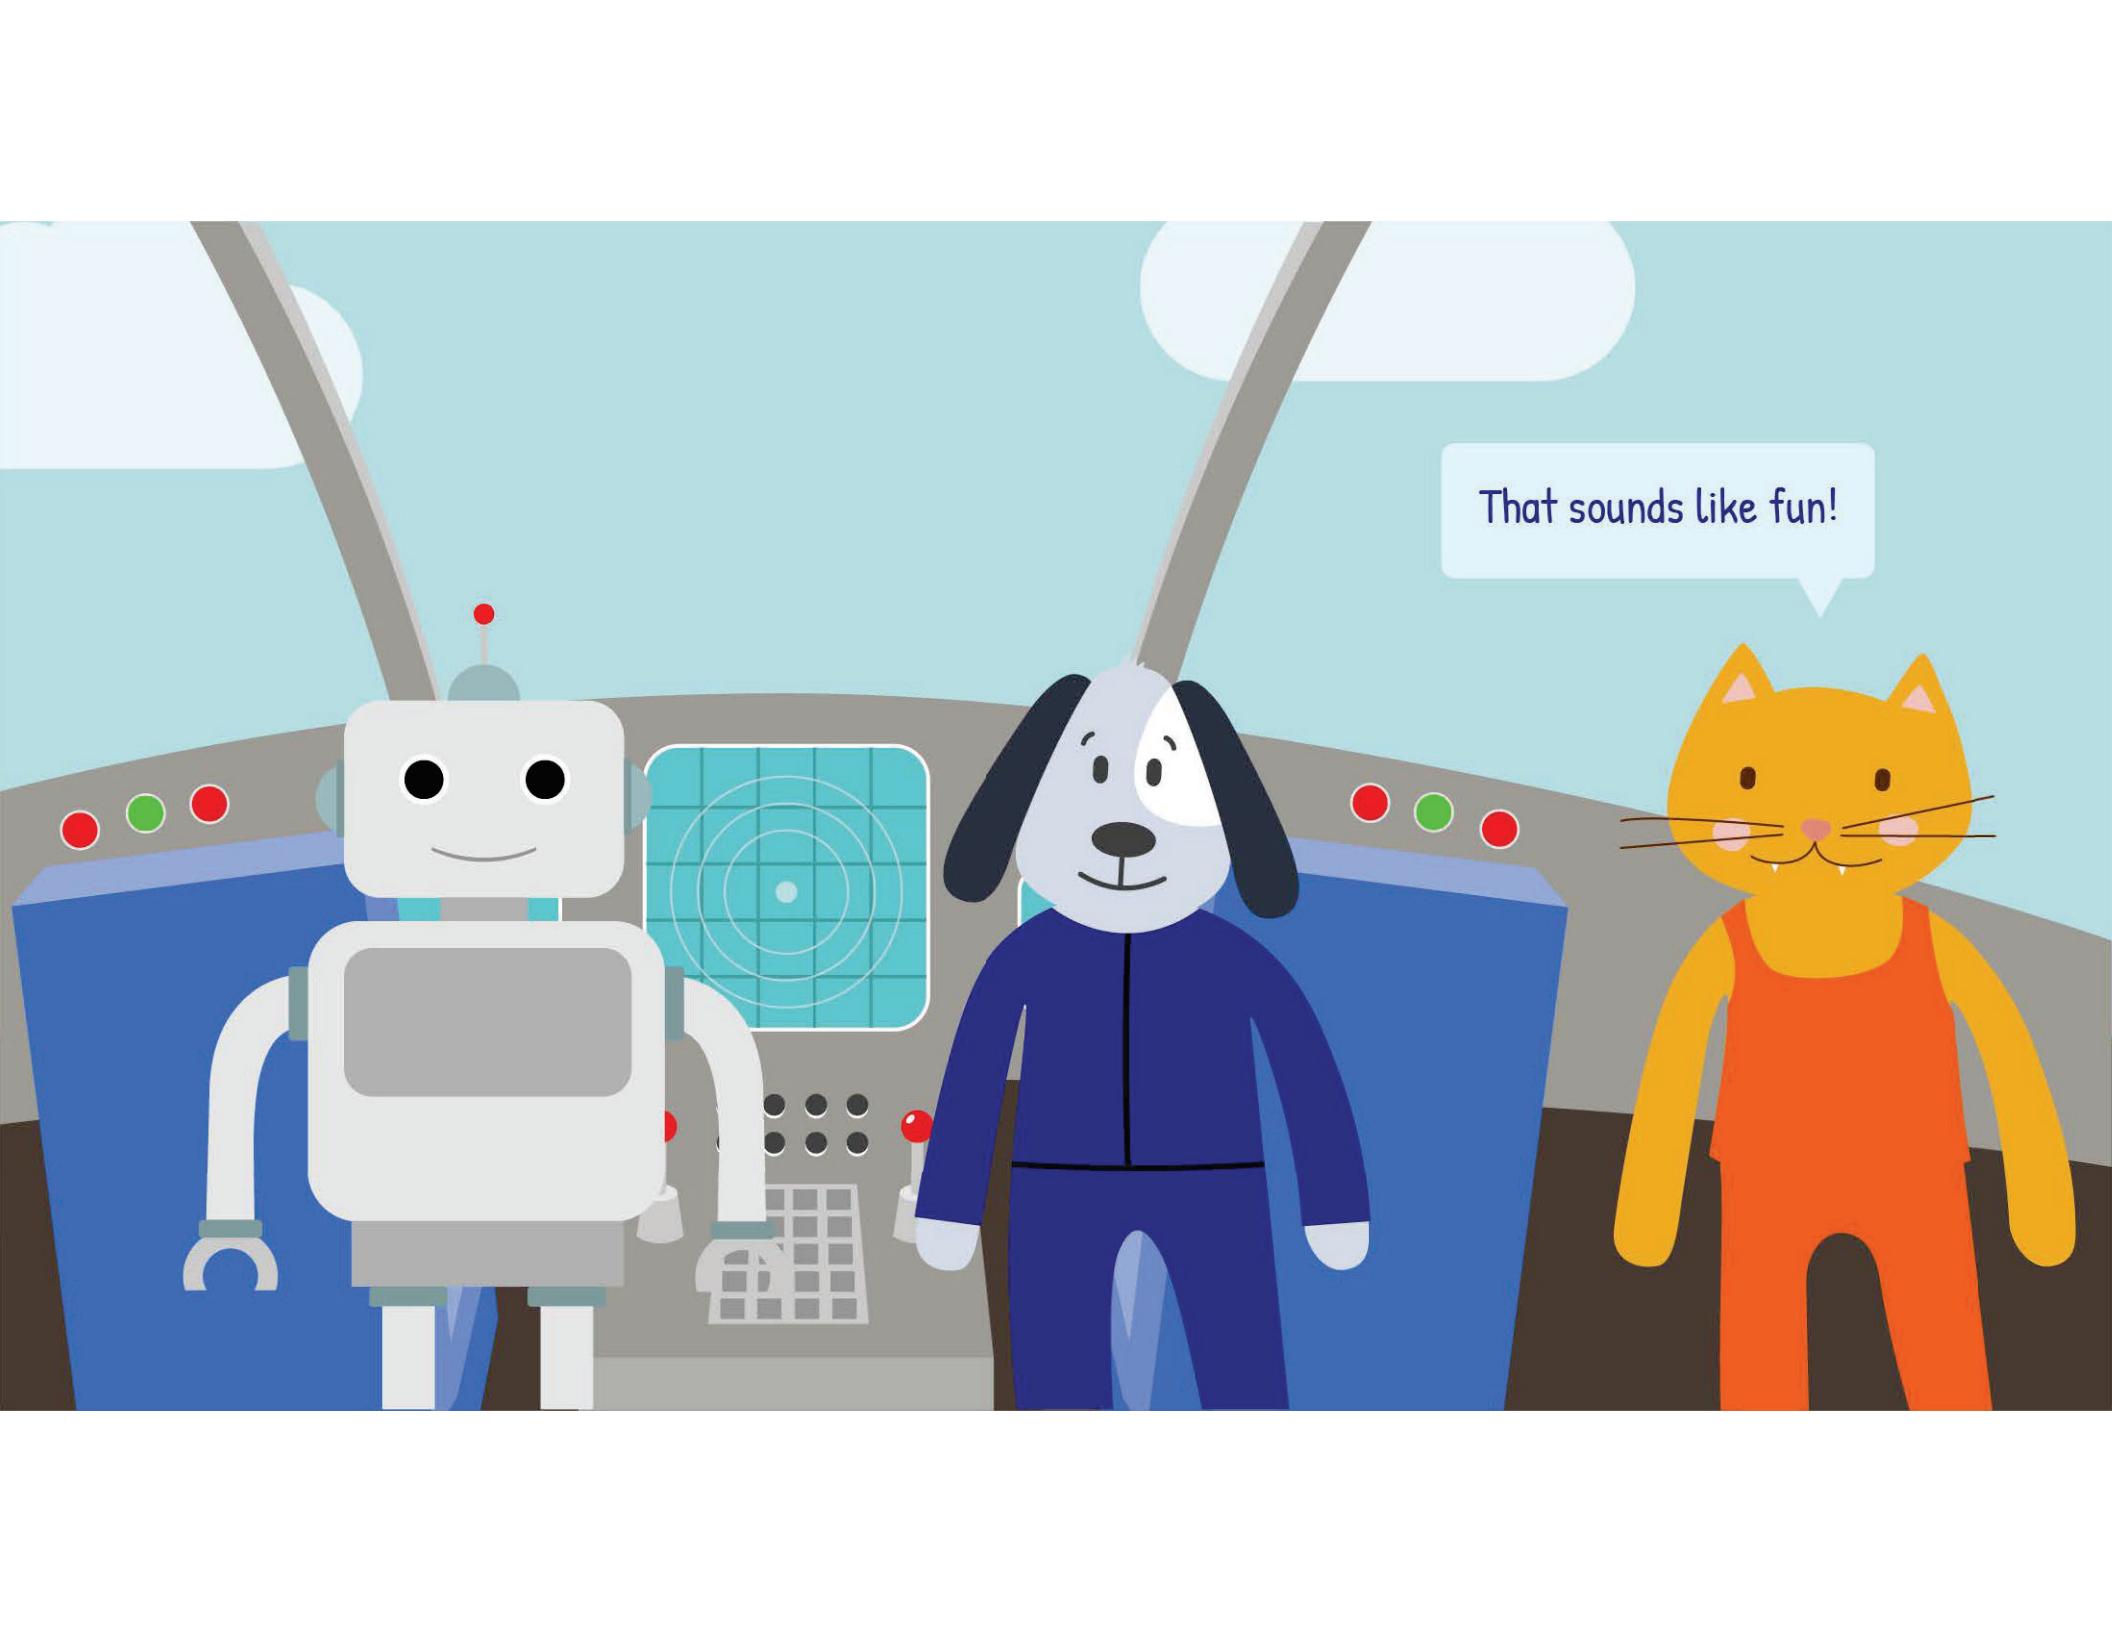

Isn't that helpful? Robot, you should ask Cat for help!

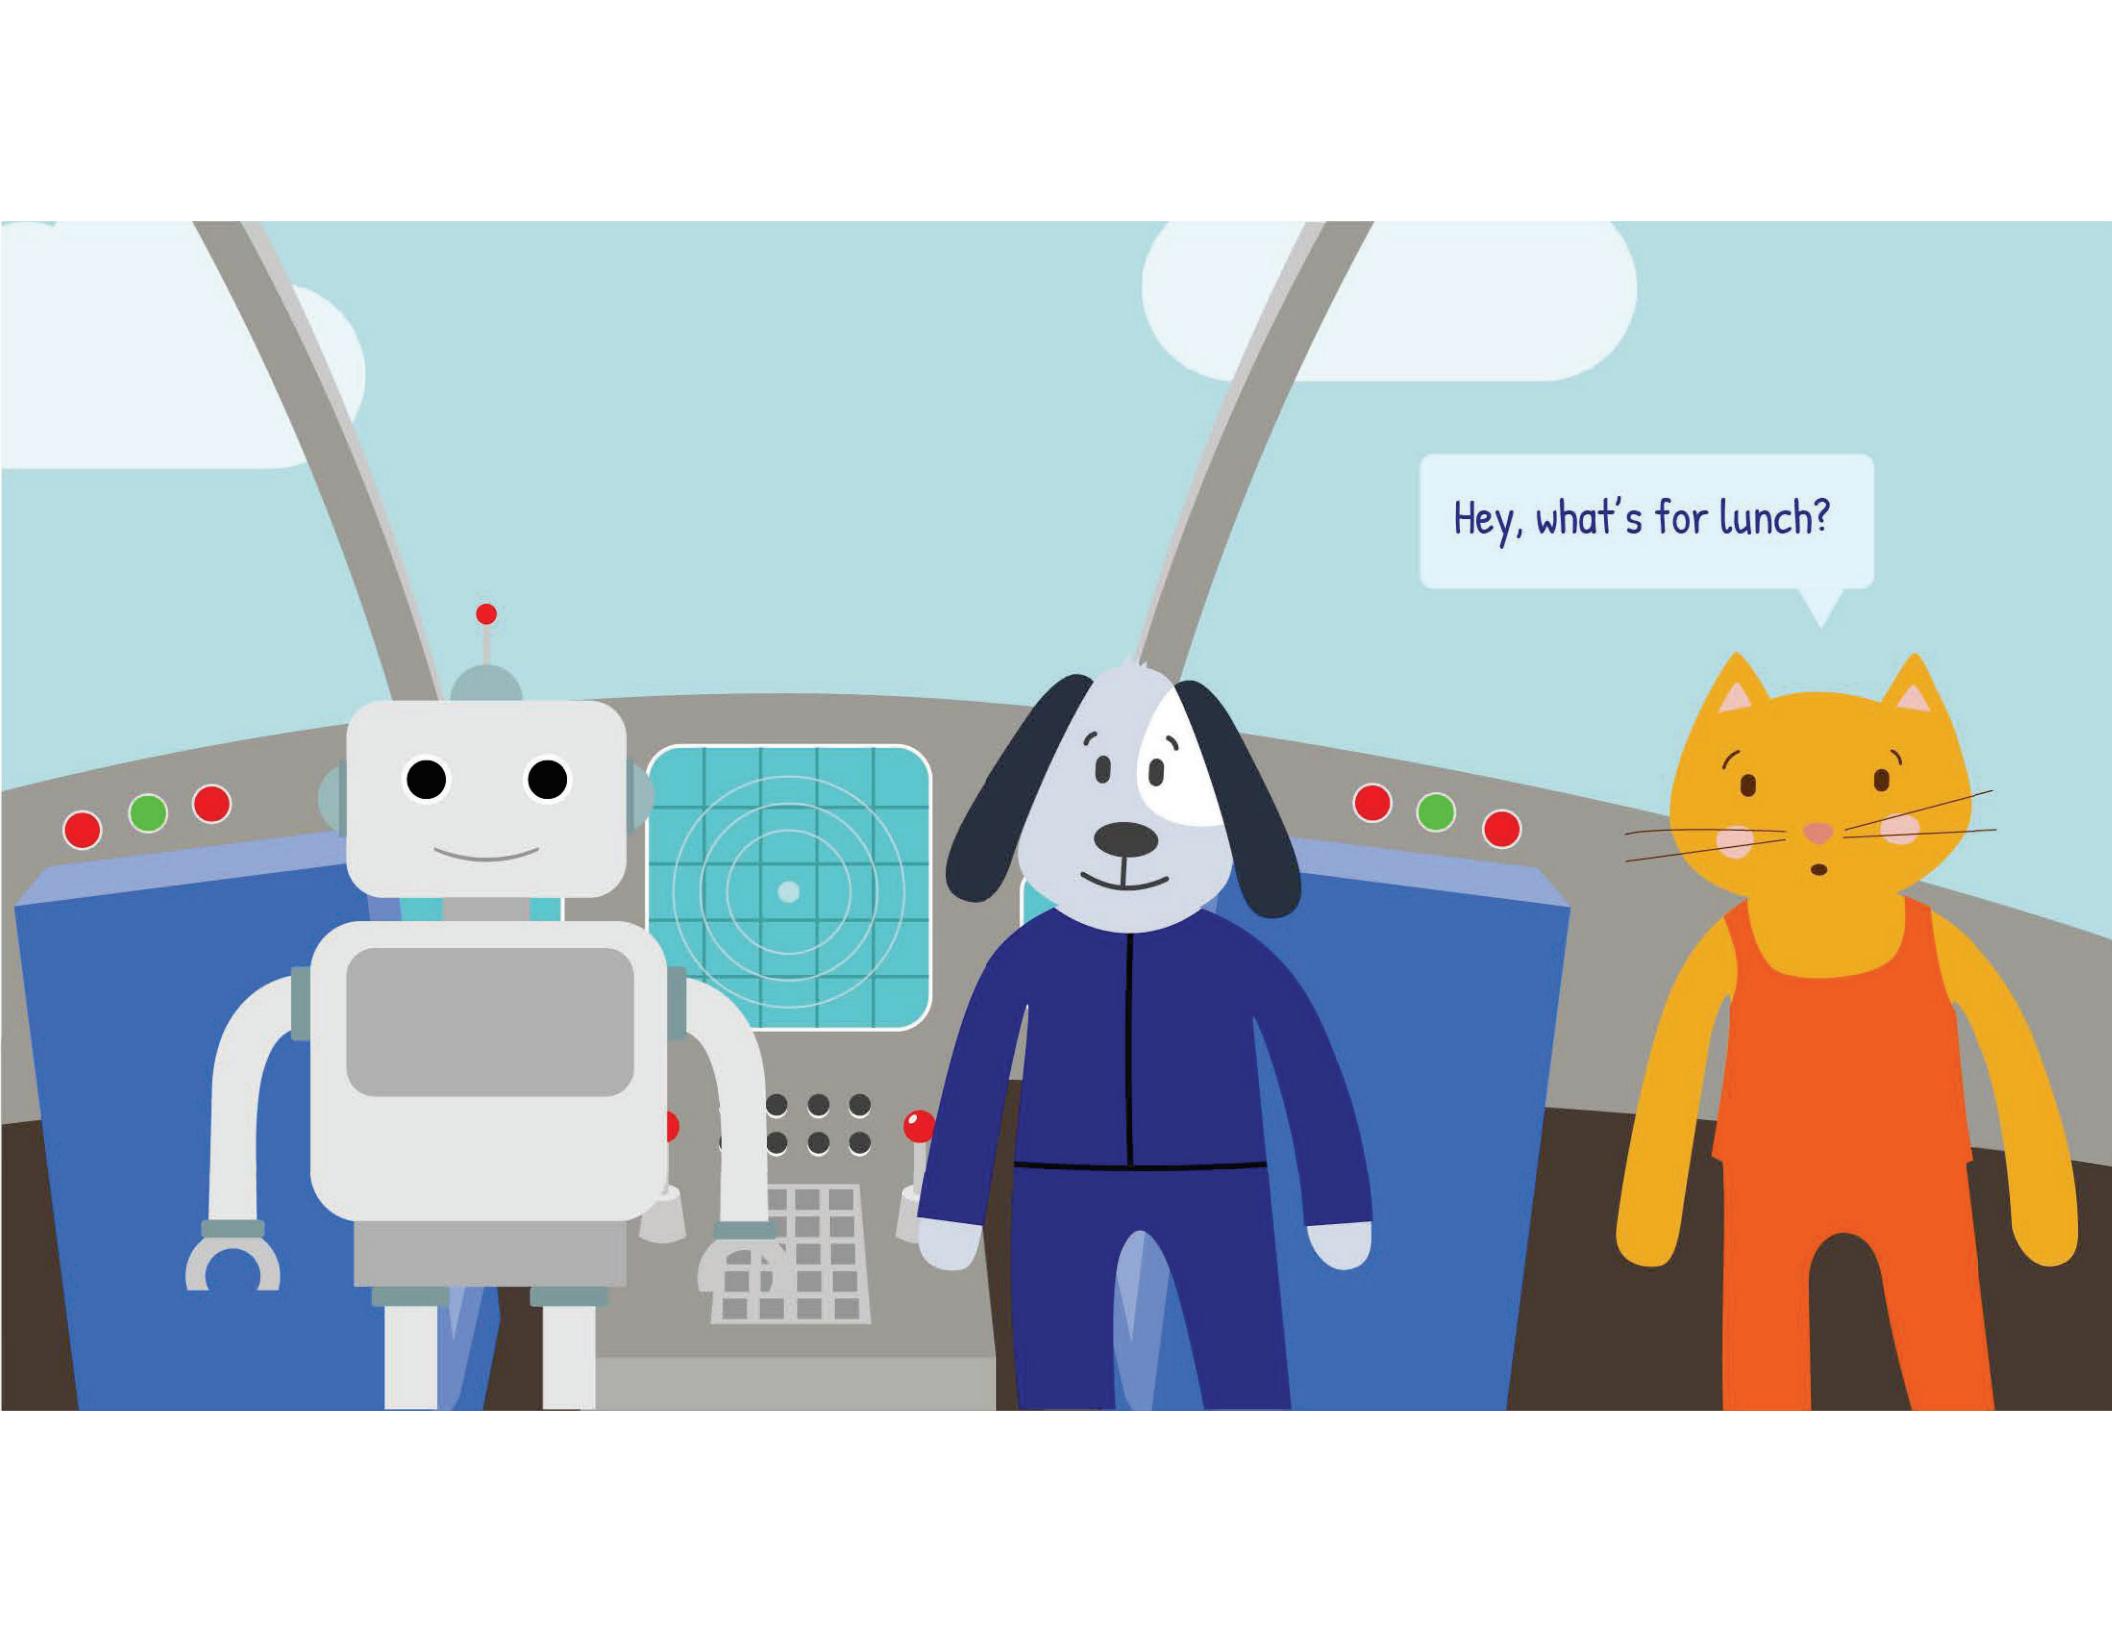

Oh, yeah! Cat, would you like to help us fly our spaceship?

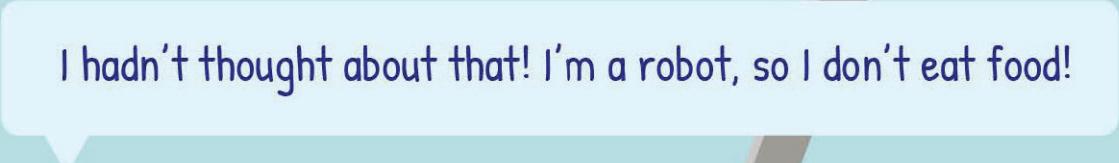

That sounds like fun!

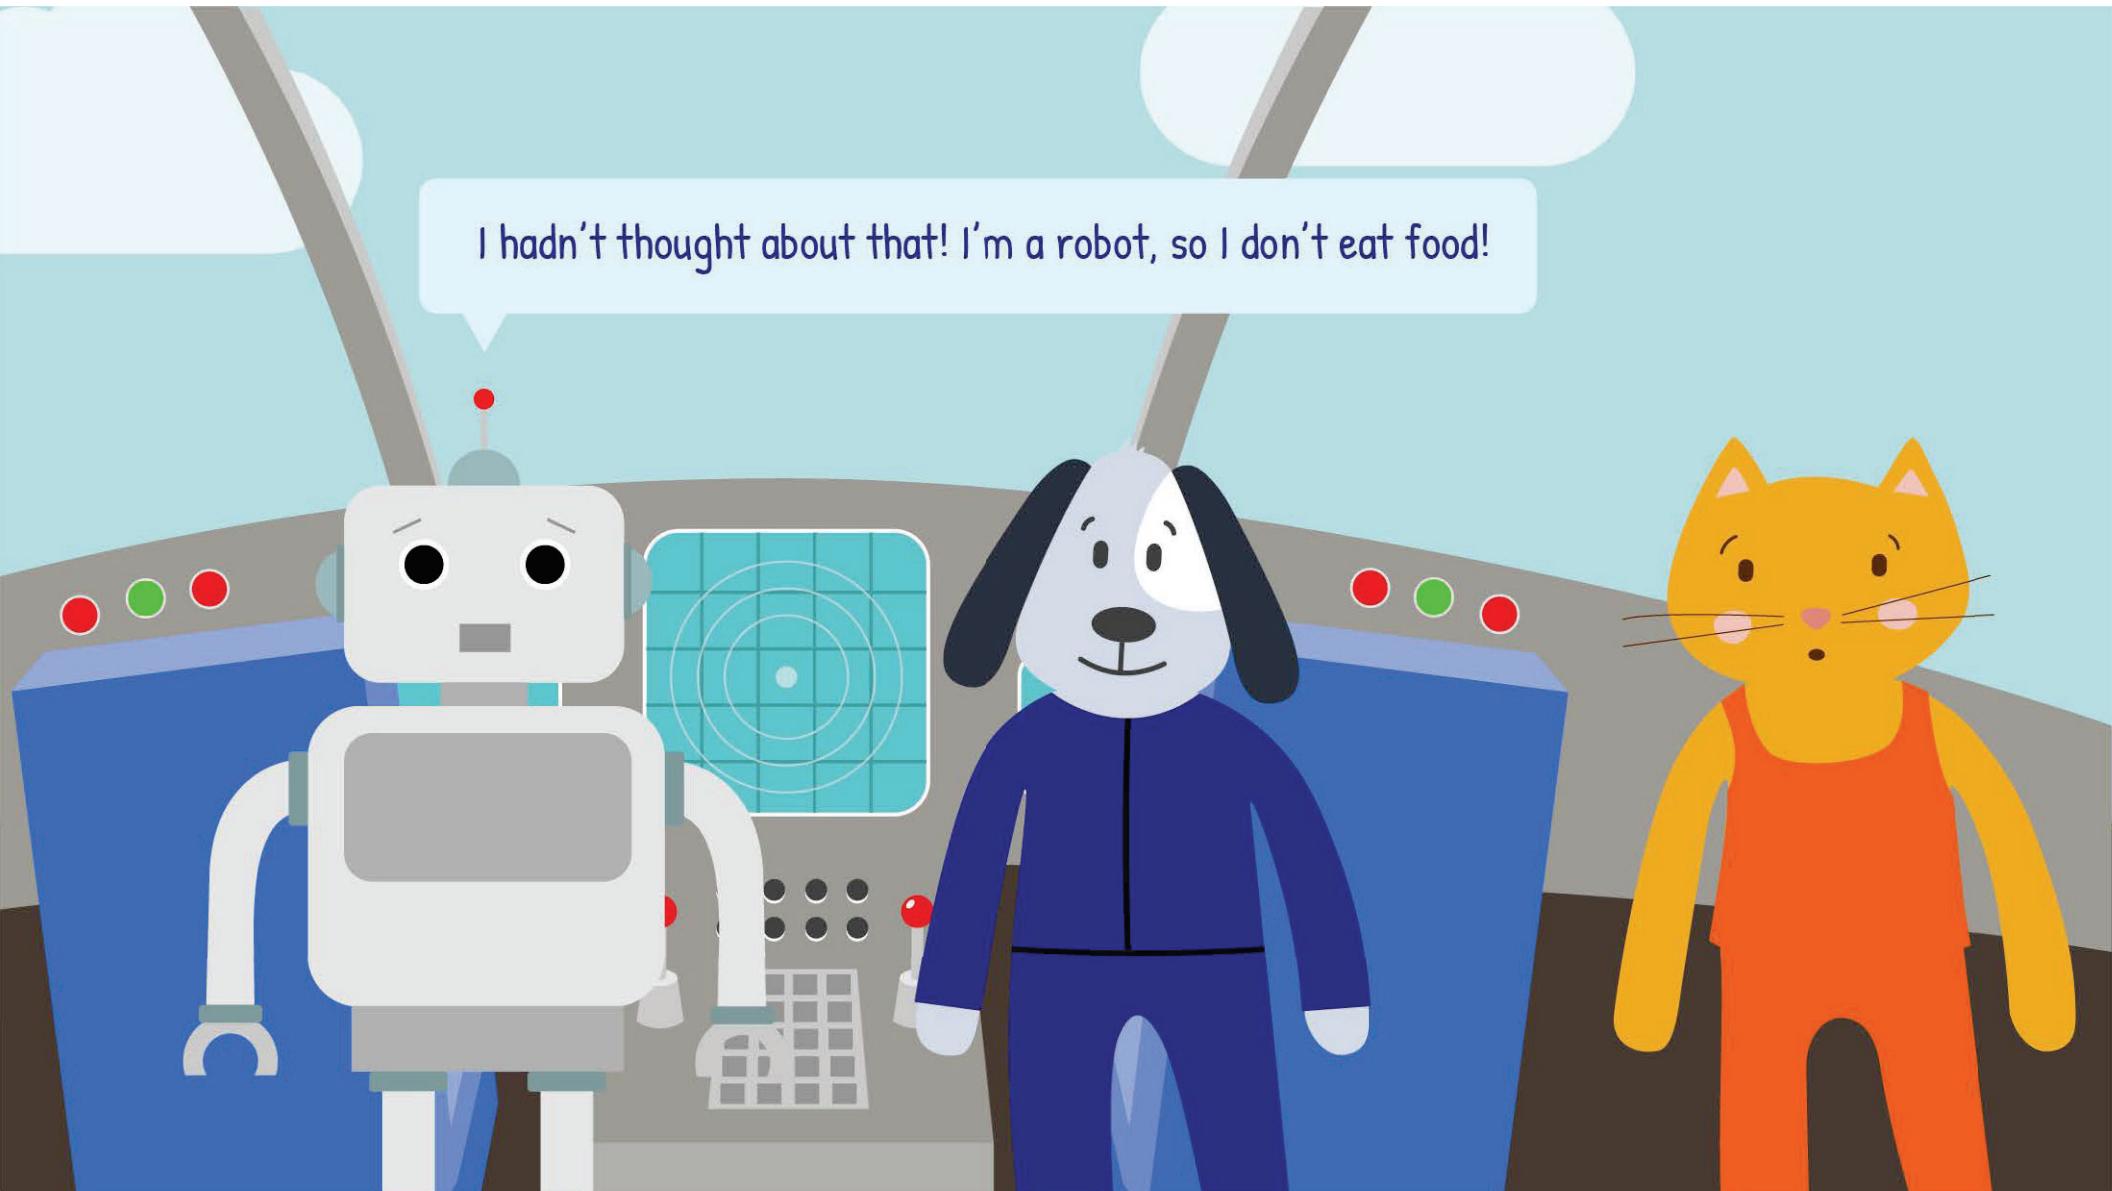

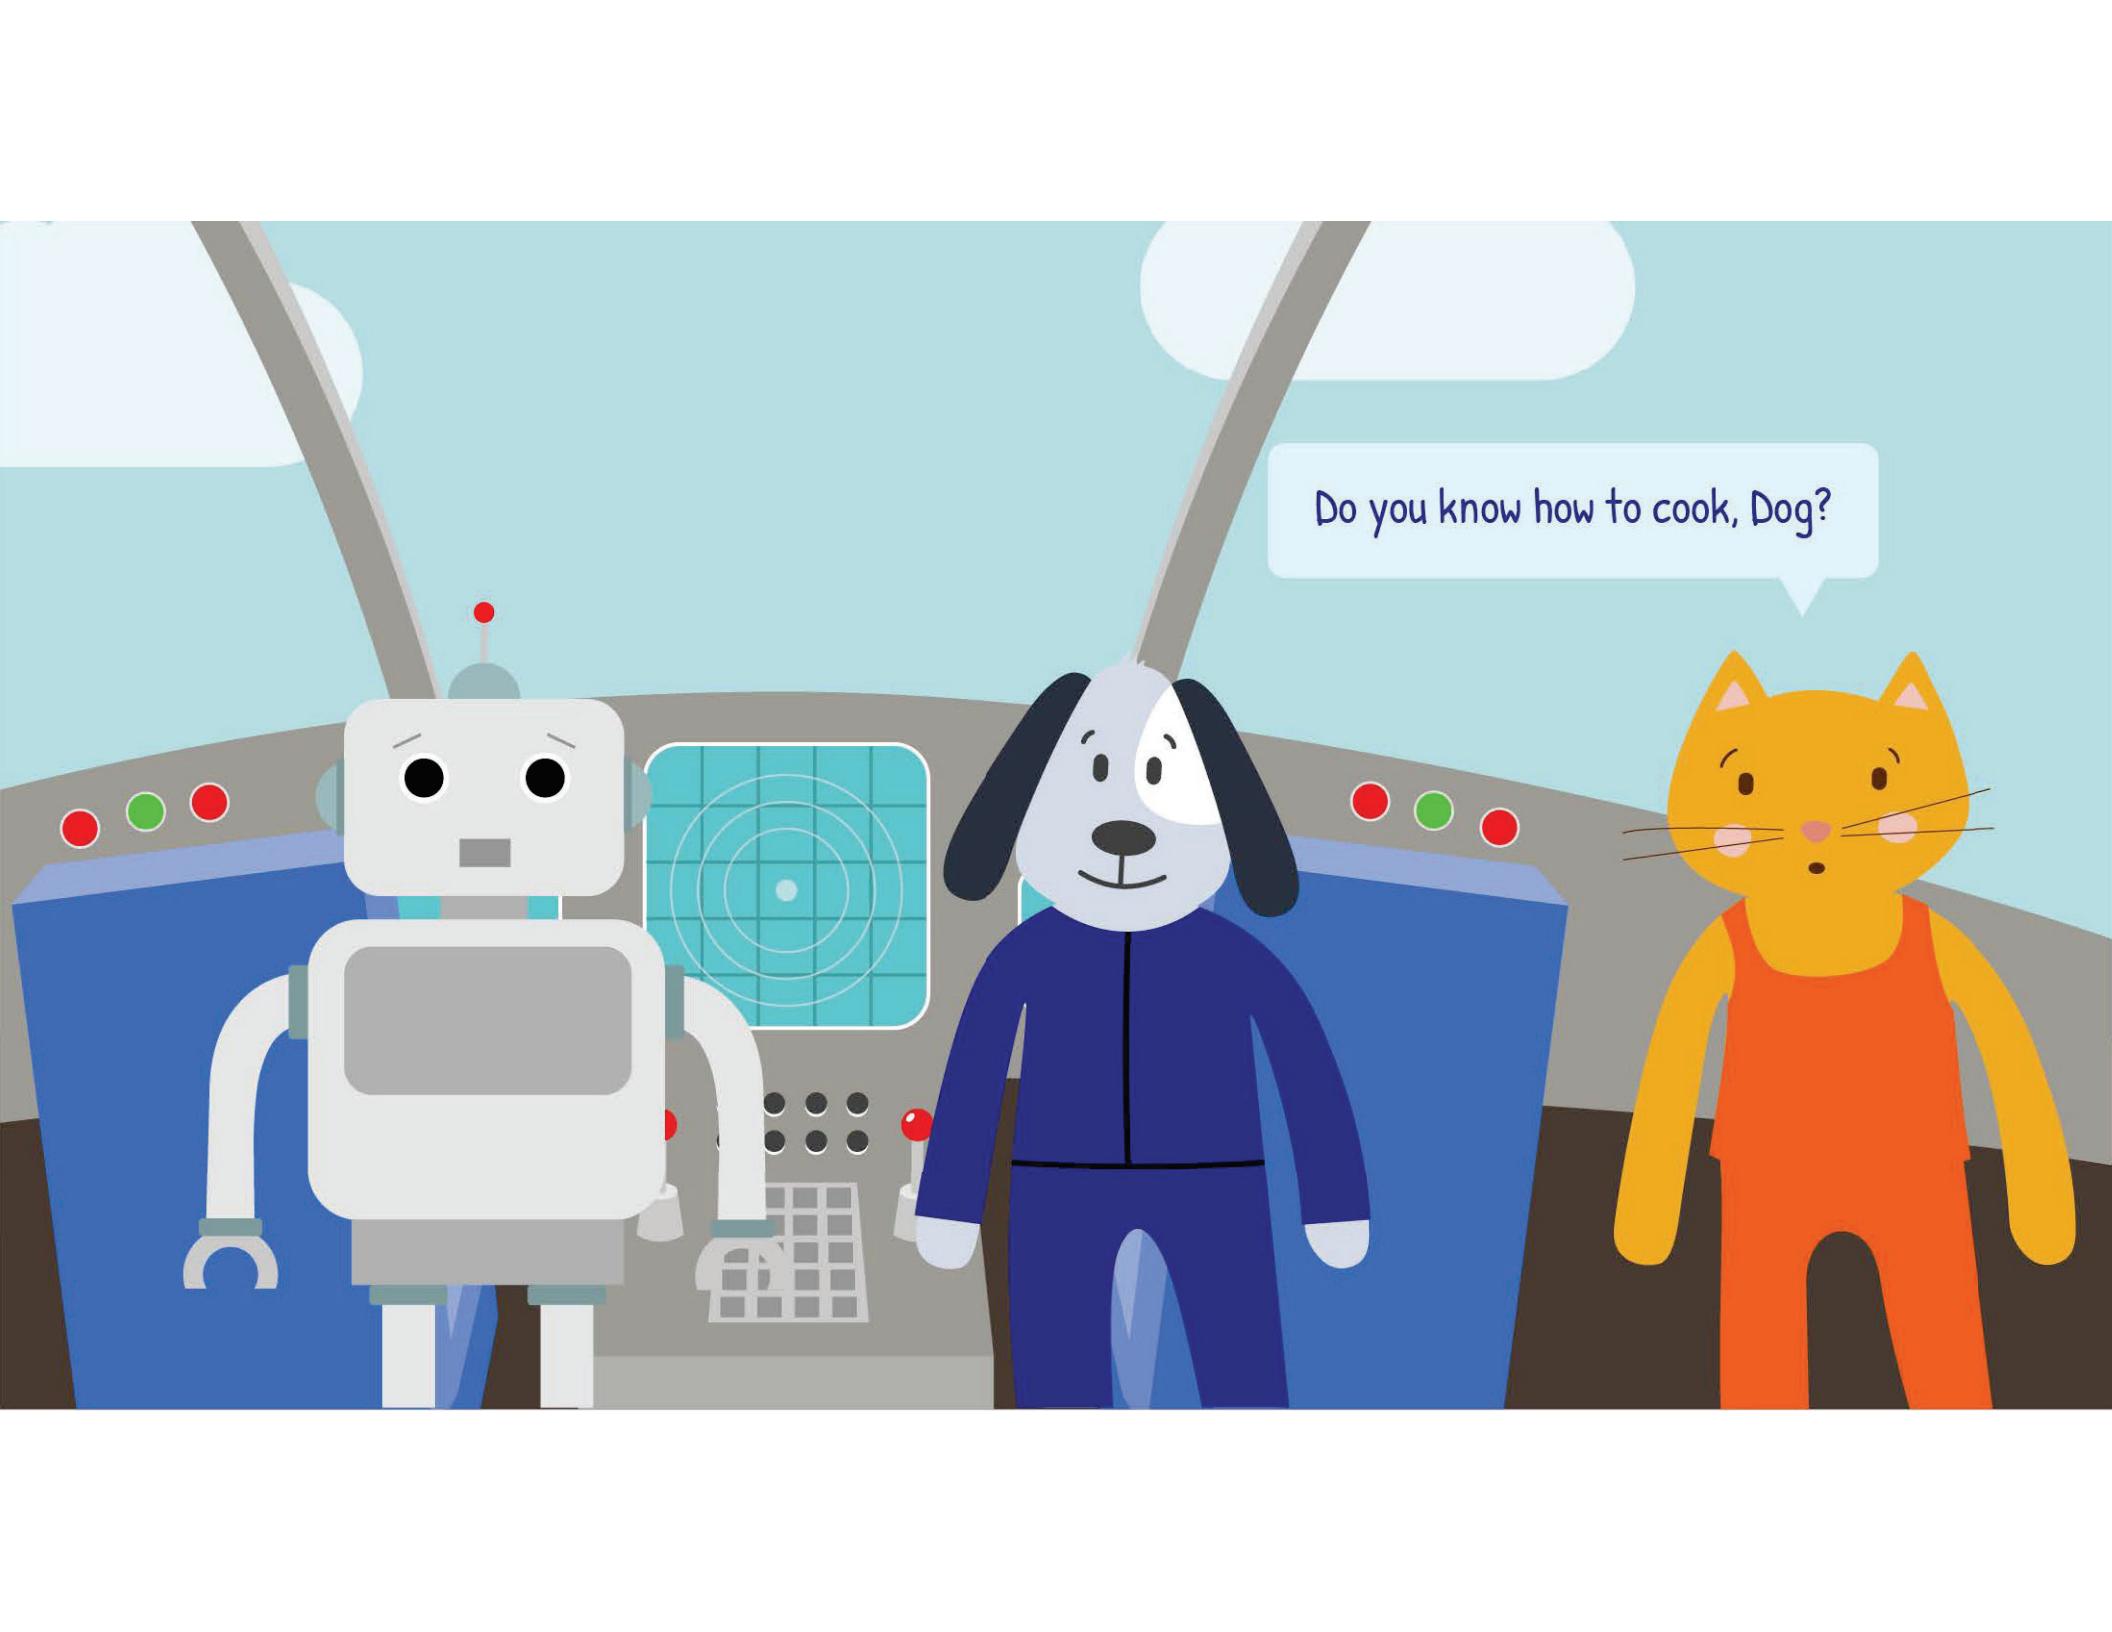

Hey, what's for lunch?

Oh no.

I hadn't thought about that! I'm a robot, so I don't eat food!

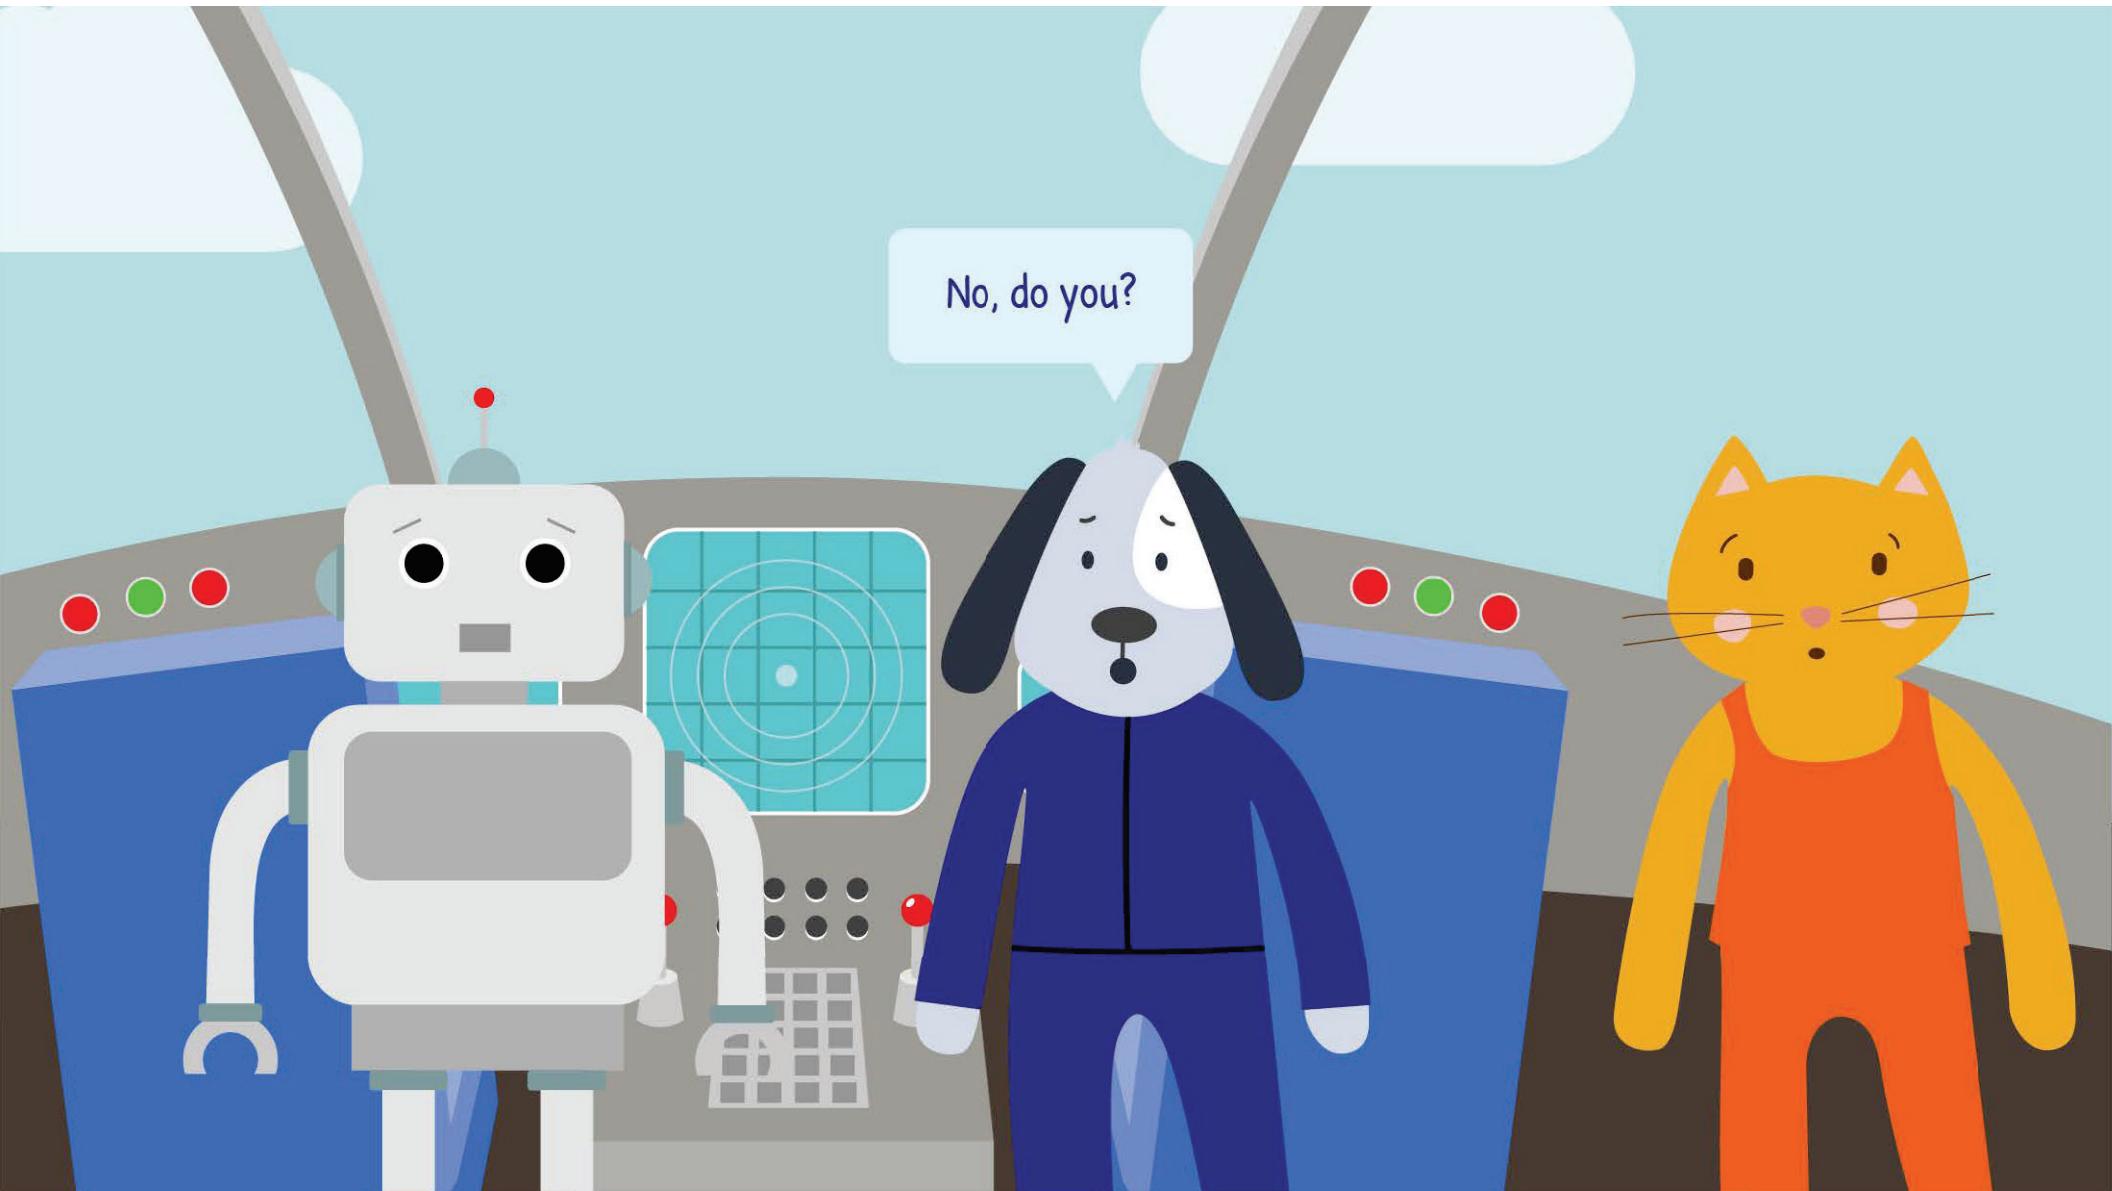

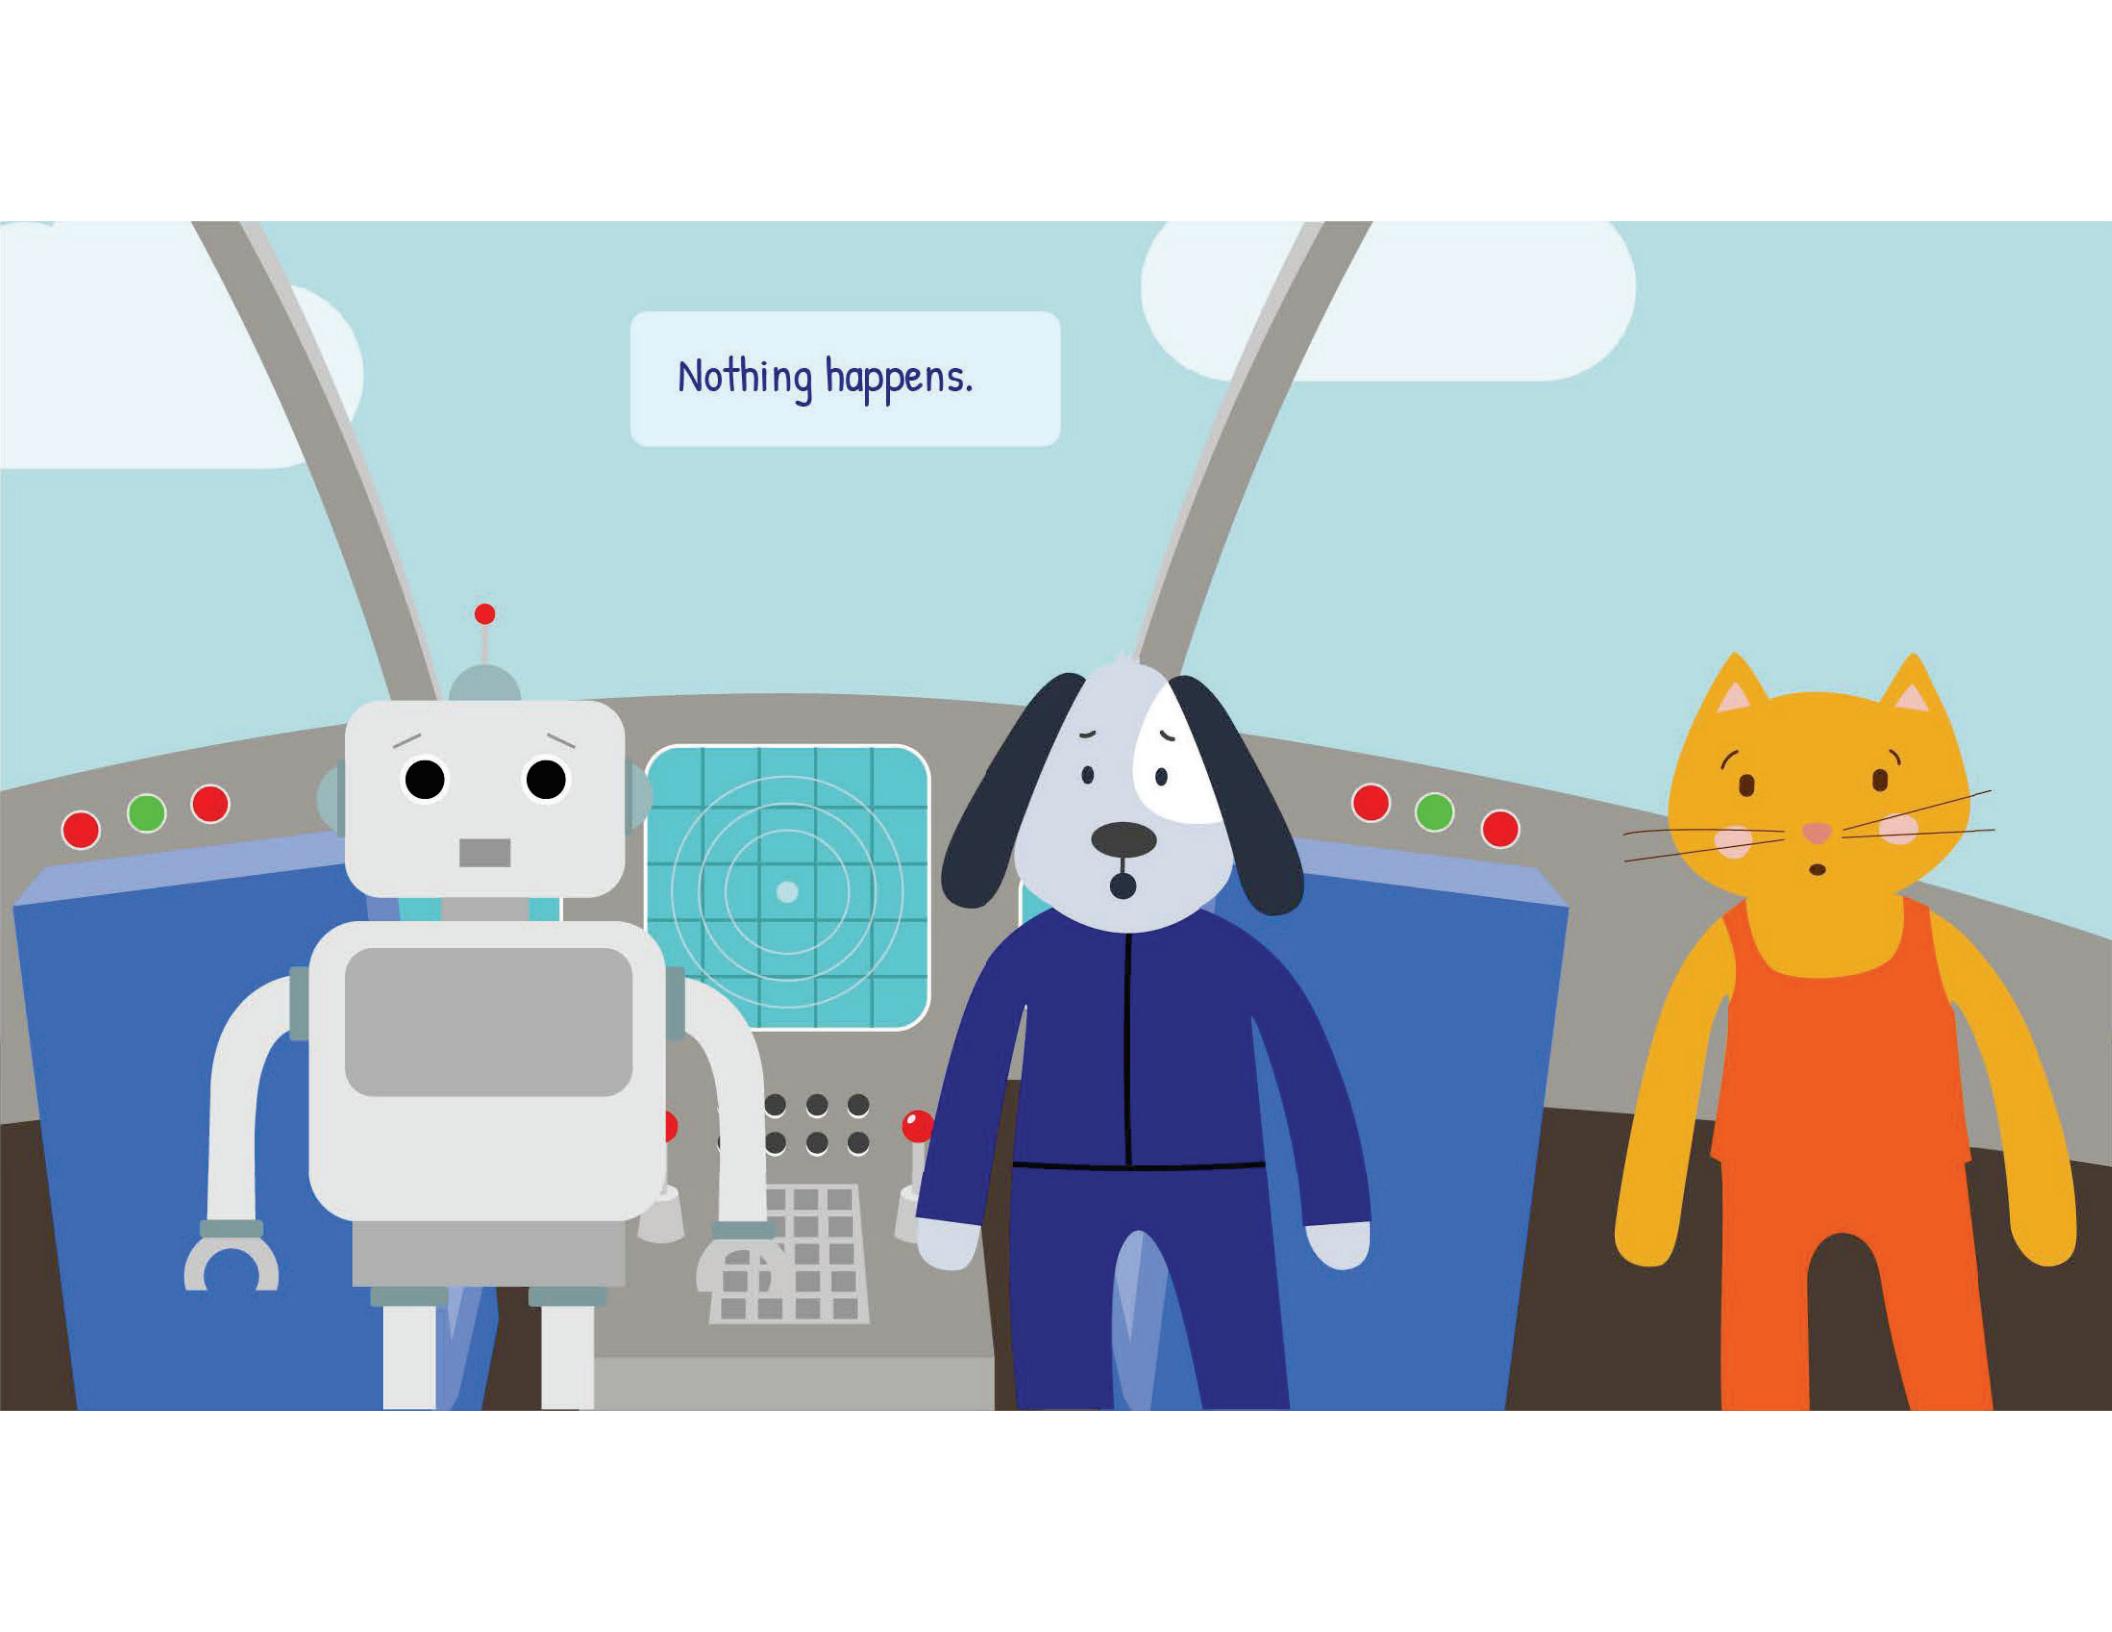

A cartoon illustration featuring three anthropomorphic characters: a white robot with a grey torso, a white dog with black ears and a blue jumpsuit, and an orange cat in an orange jumpsuit. They are standing in front of a large, grey, futuristic control panel with various buttons, a screen showing concentric circles, and a keypad. A speech bubble from the cat asks, "Do you know how to cook, Dog?".

Do you know how to cook, Dog?

No, do you?

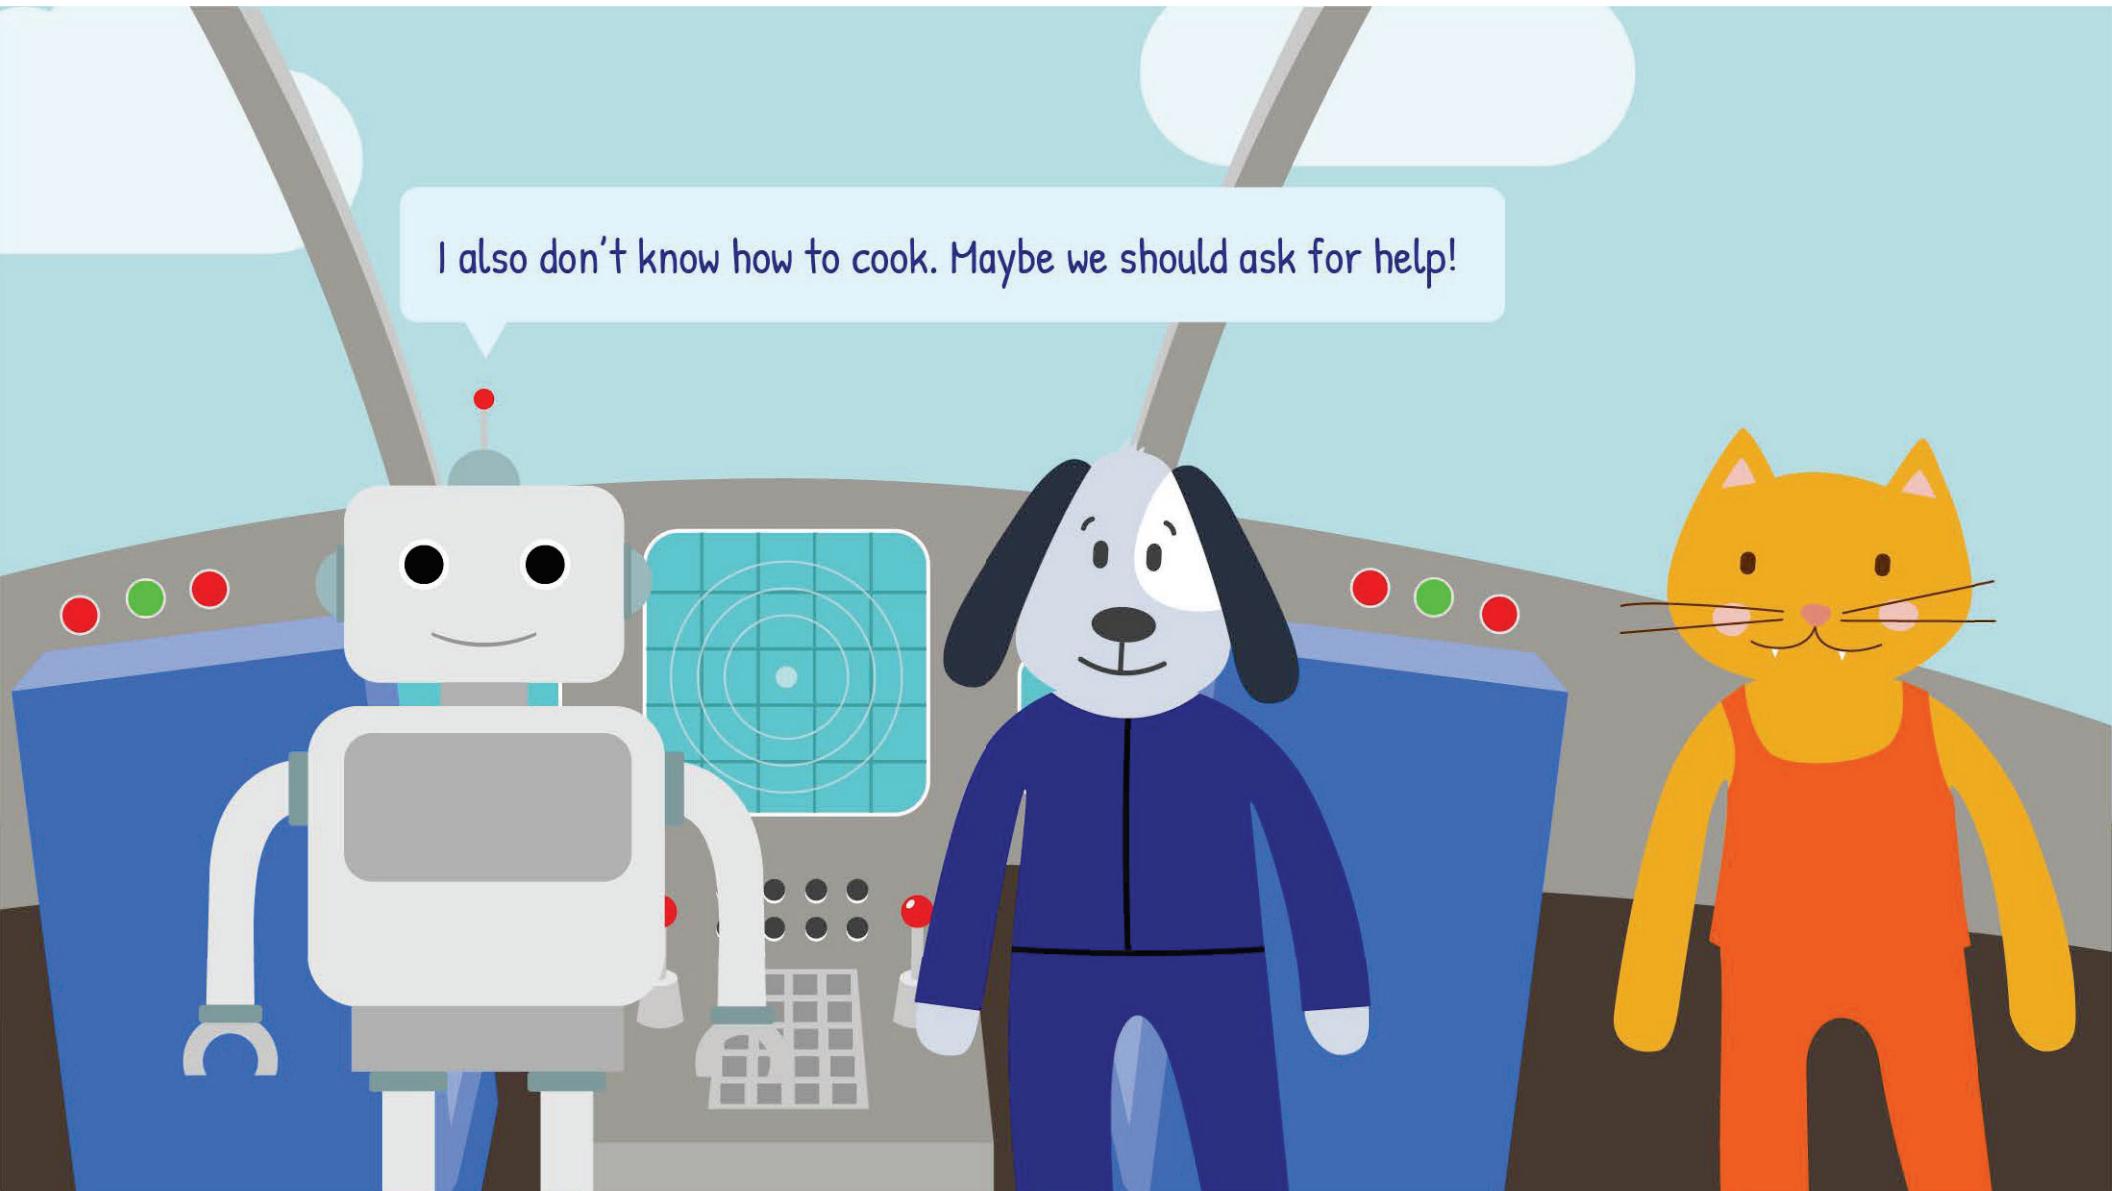

A colorful illustration featuring three anthropomorphic characters in a futuristic control room. On the left, a white robot with a grey rectangular head, two black eyes, and a small grey antenna on top, stands next to a grey control panel with red, green, and blue buttons. In the center, a white dog with dark blue ears and a dark blue suit jacket over a white shirt looks slightly to the right. On the right, an orange cat with a pink collar and a white belly wears an orange jumpsuit. The background is a light blue gradient with two large, white, rounded shapes resembling clouds or moon phases. A speech bubble above the dog contains the text "Nothing happens." in a dark blue font.

Nothing happens.

I also don't know how to cook. Maybe we should ask for help!

Robot! I got your phone call! What do you need help with?

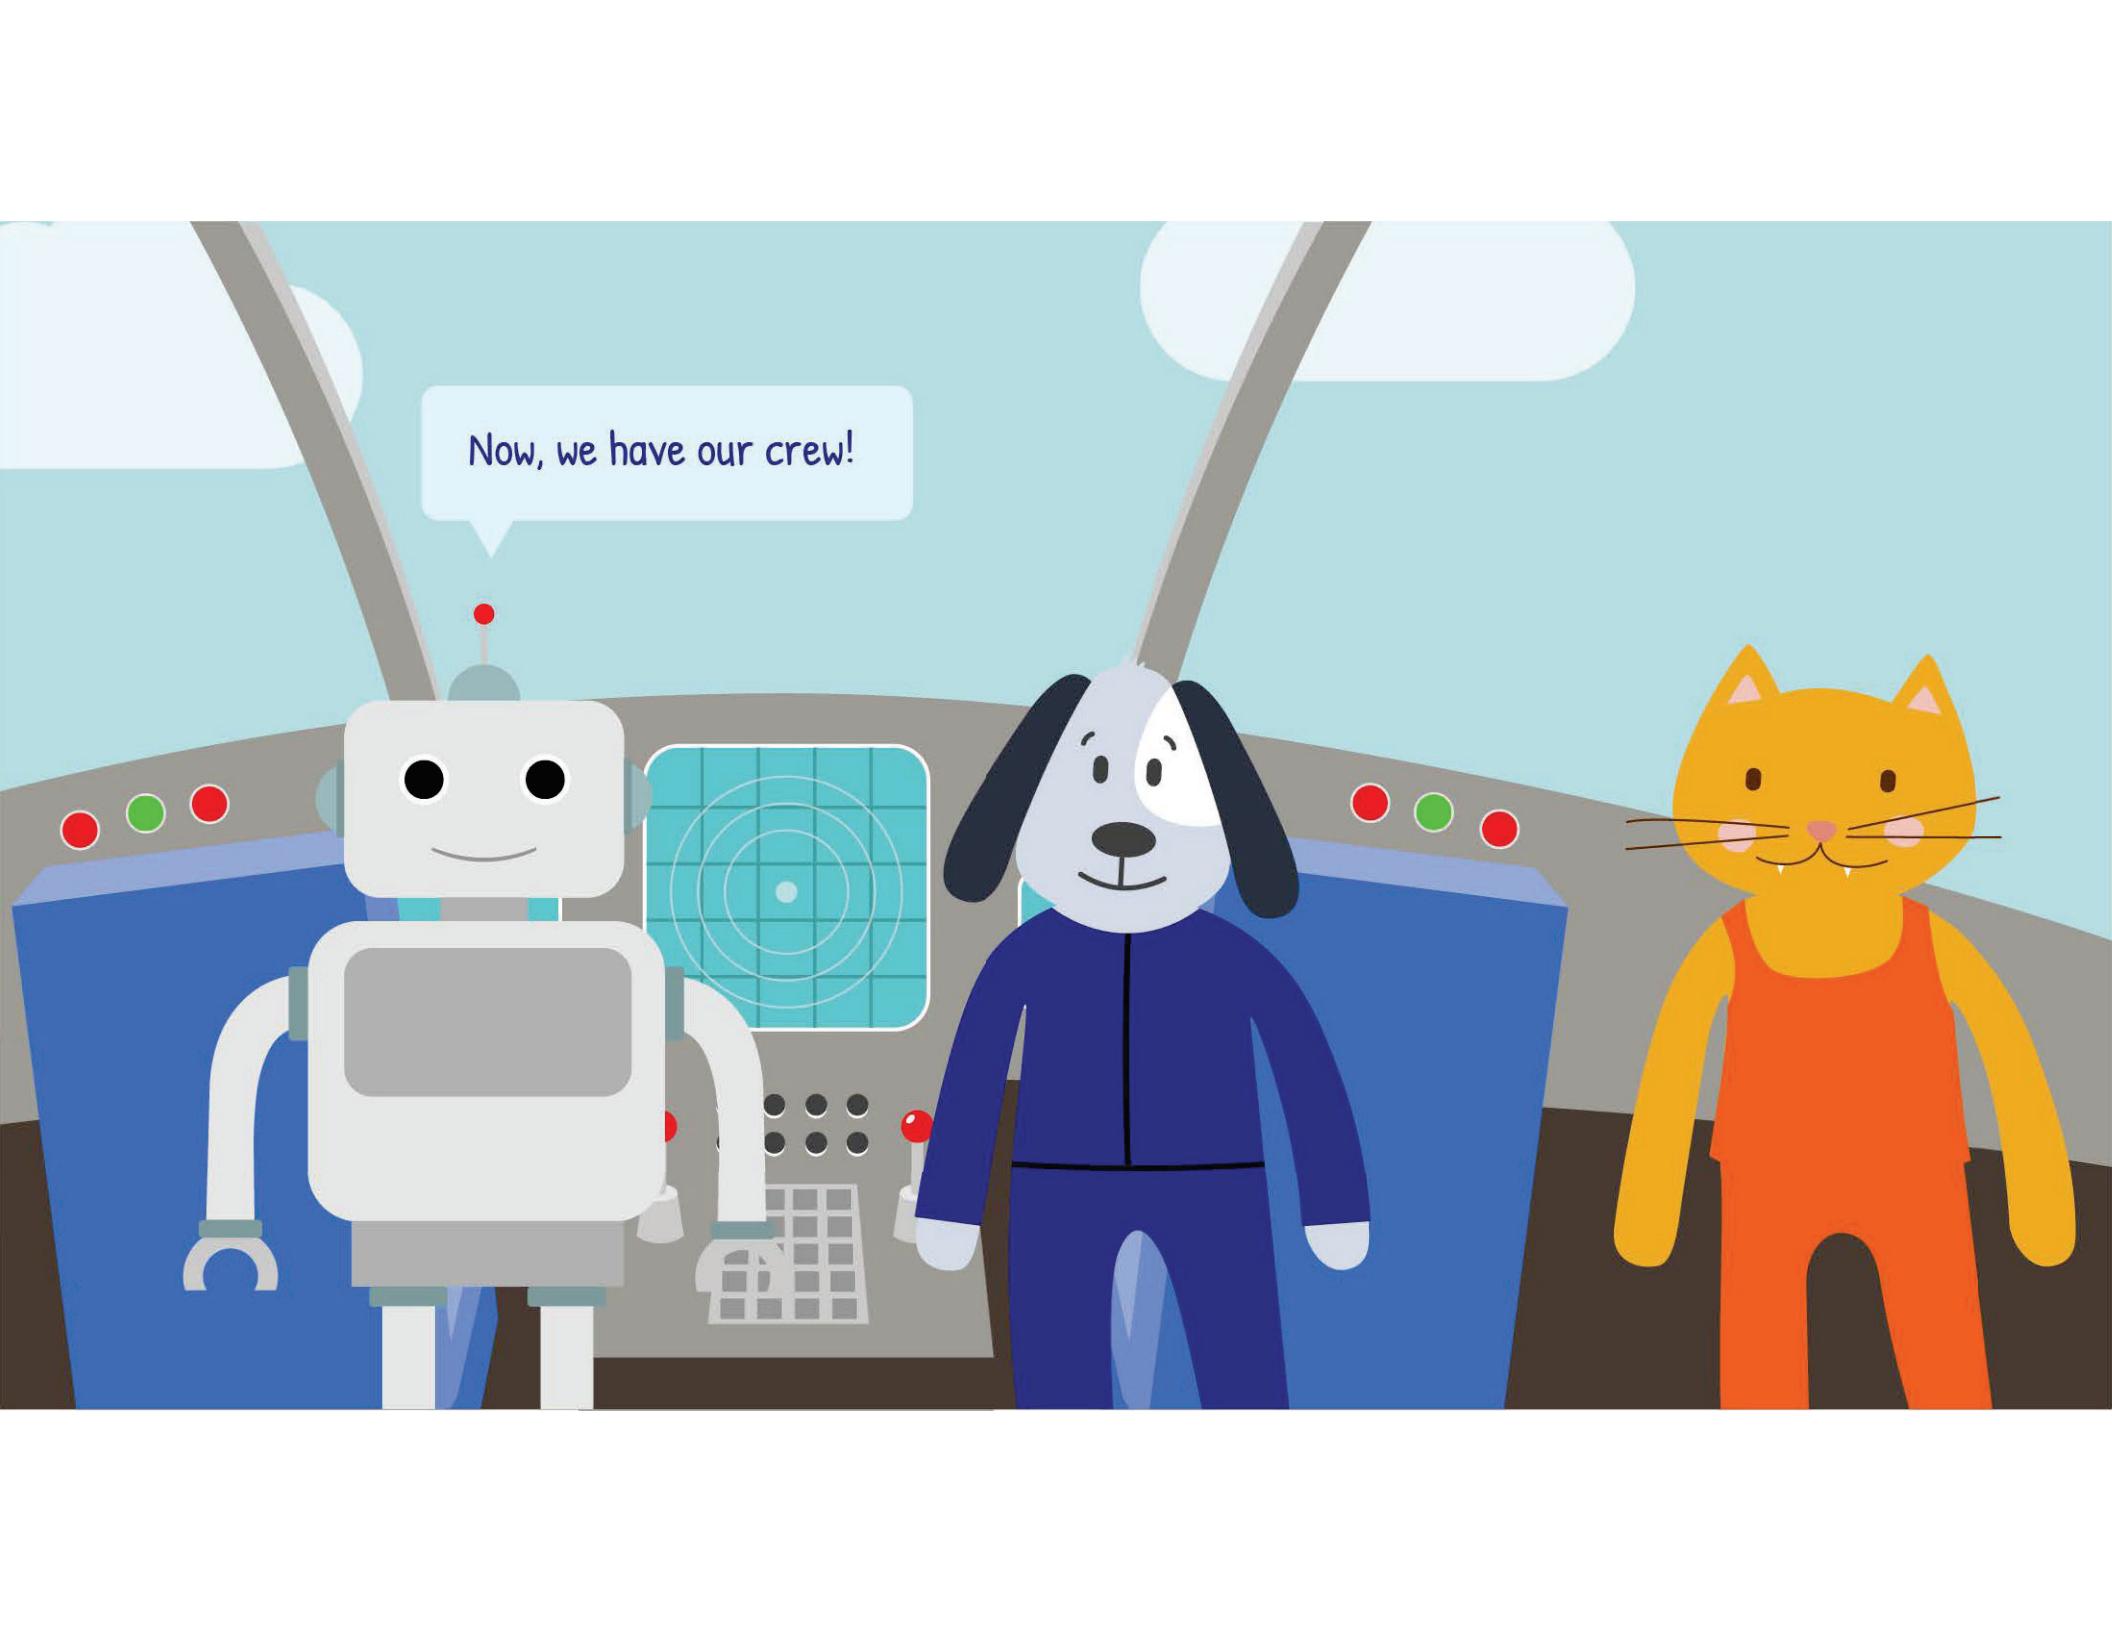

I know you're good at cooking! Do you think
you could help us make lunch on our spaceship?

Yes!

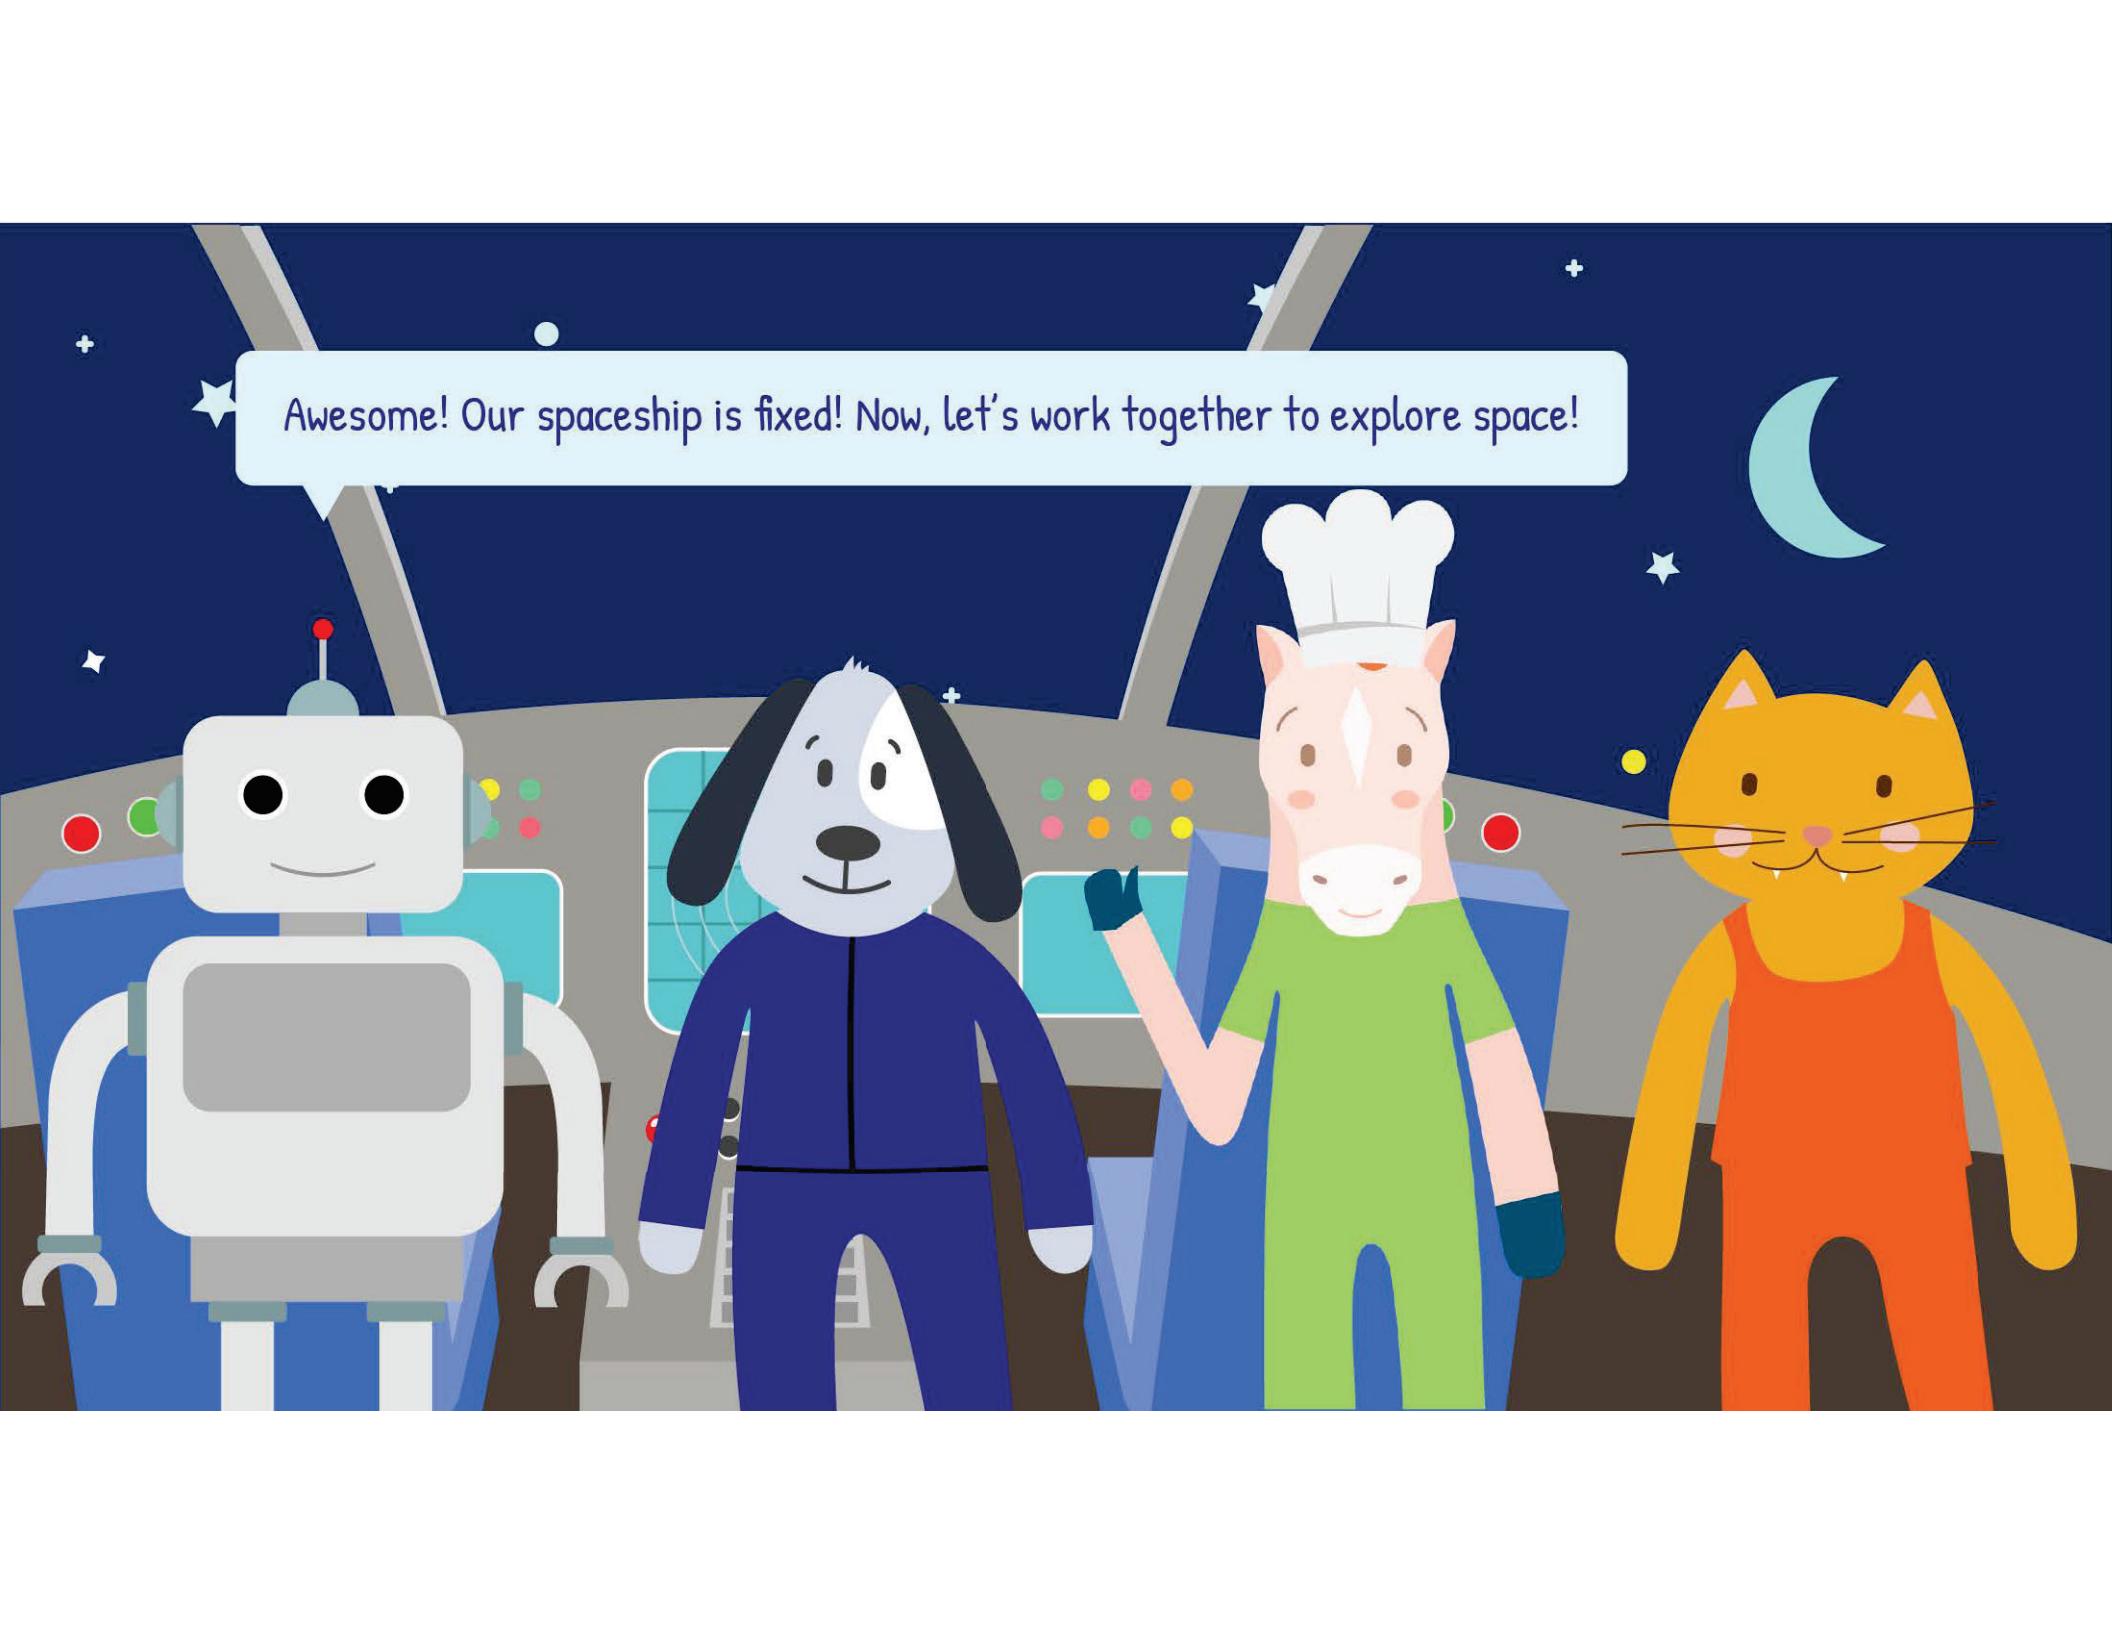

Now, we have our crew!

Robot, Dog, Cat, and Horse go into the spaceship, and the spaceship takes off.

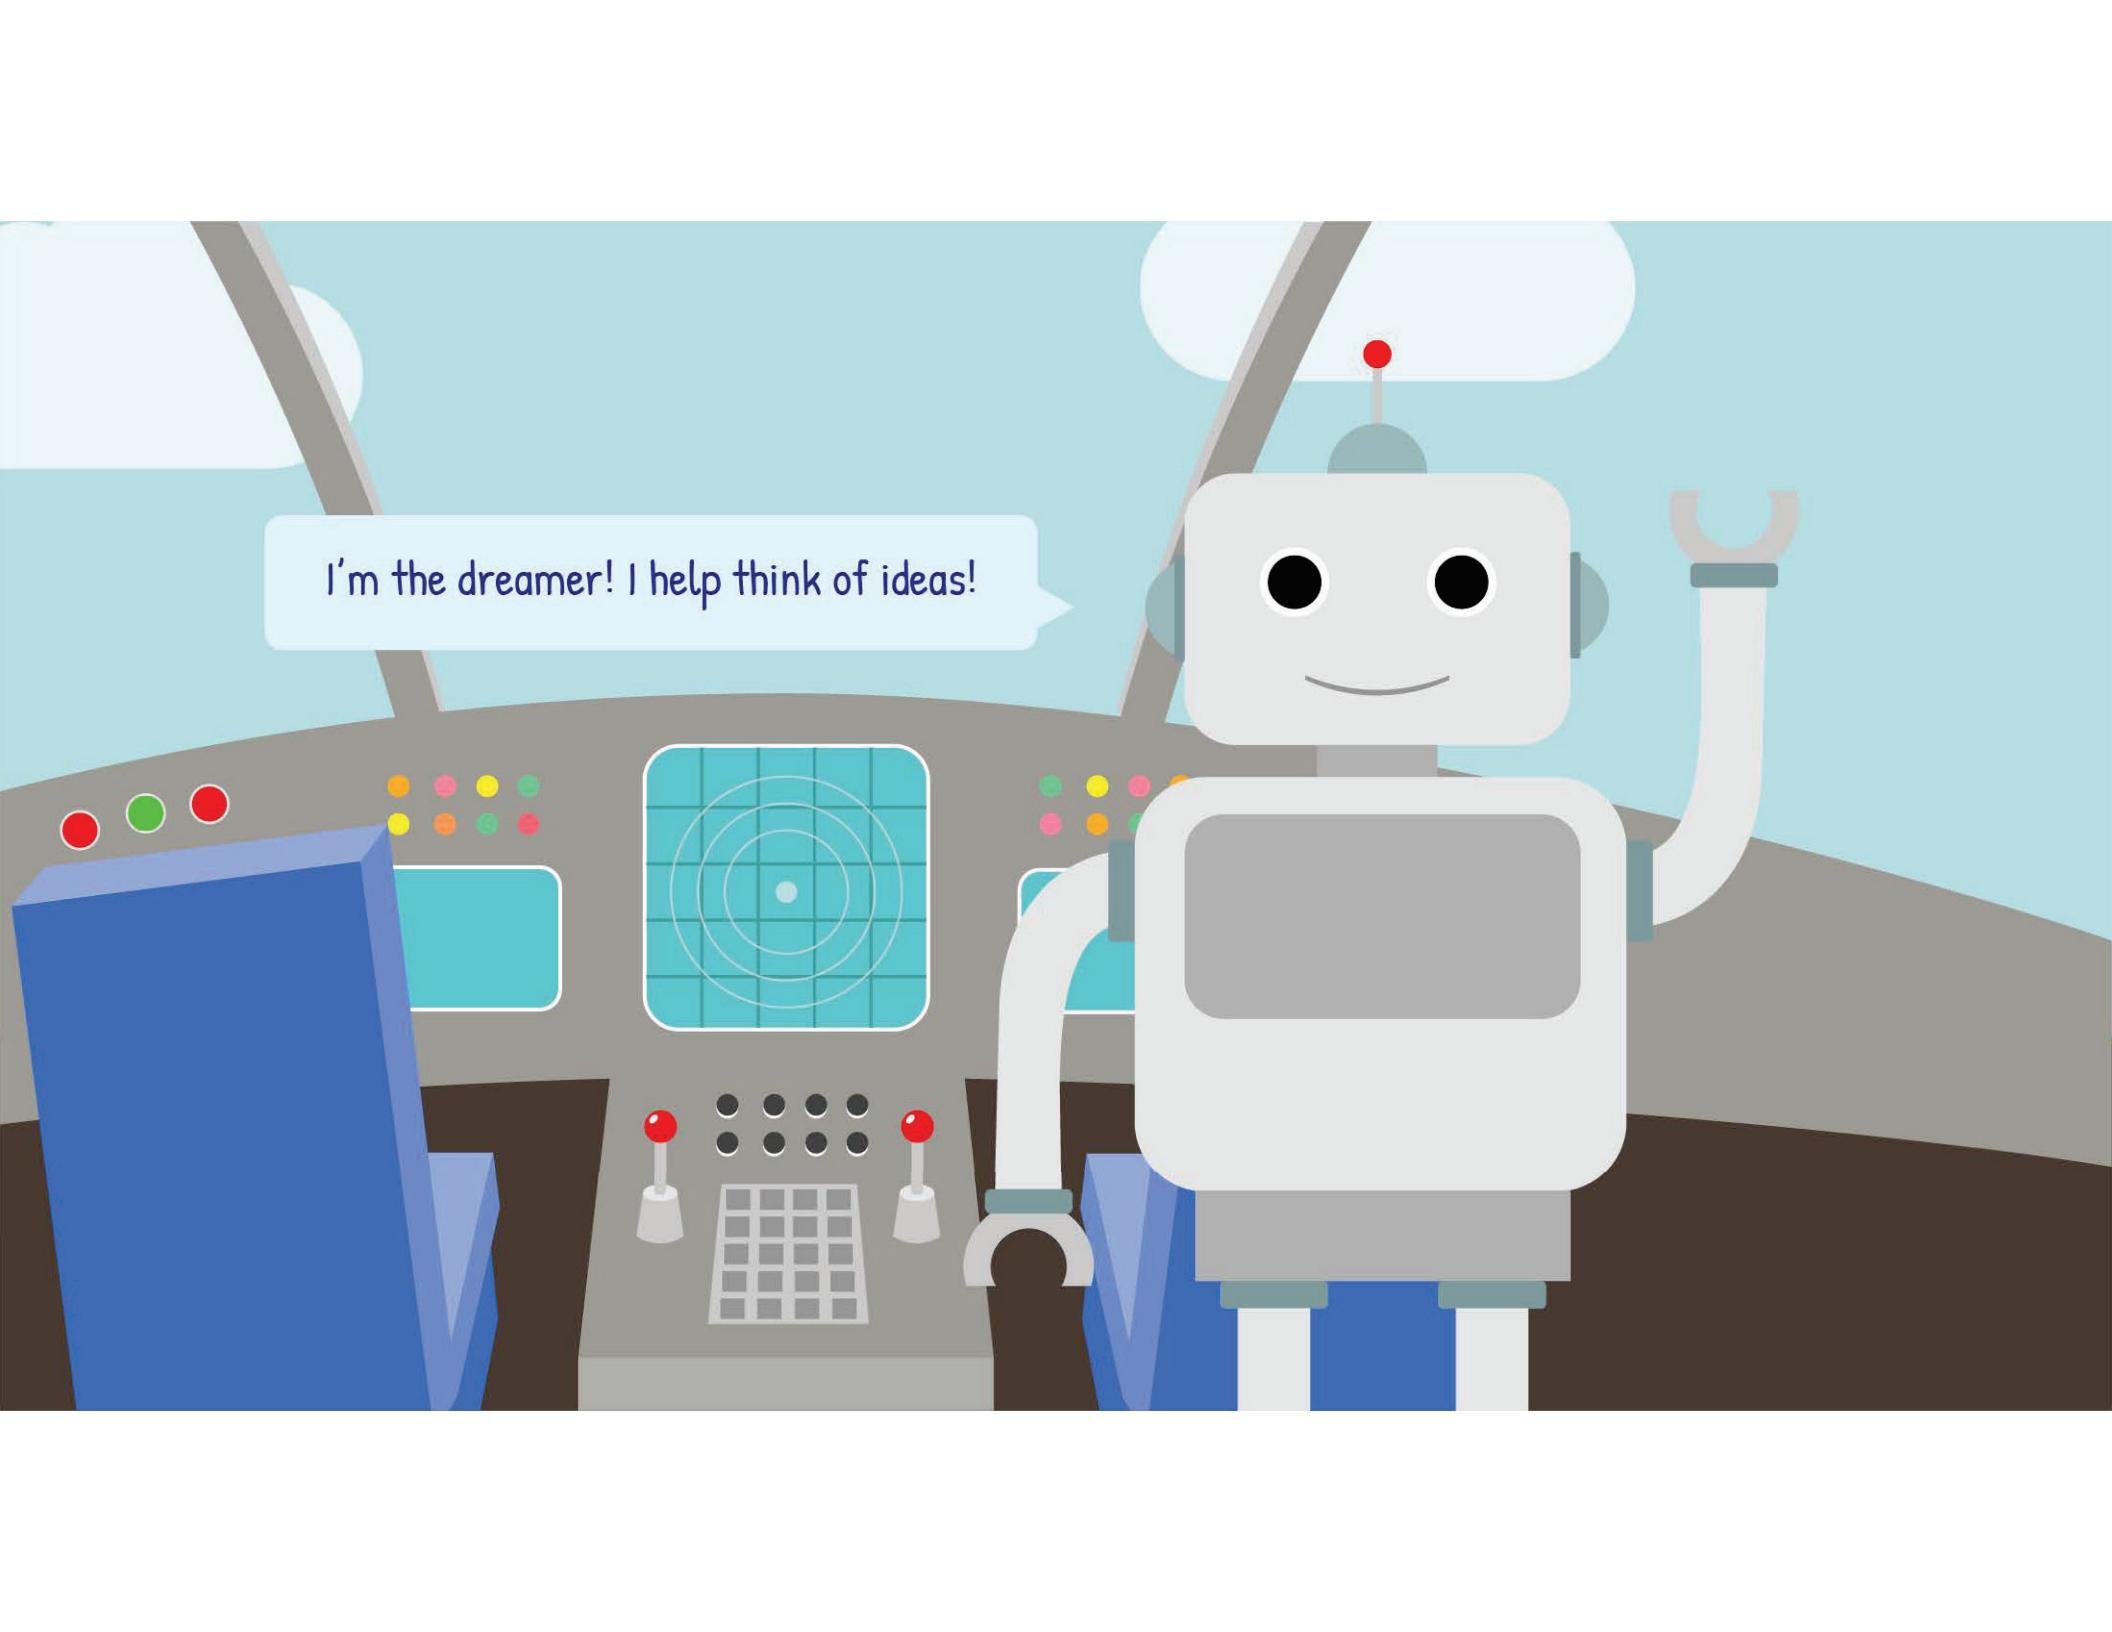

Awesome! Our spaceship is fixed! Now, let's work together to explore space!

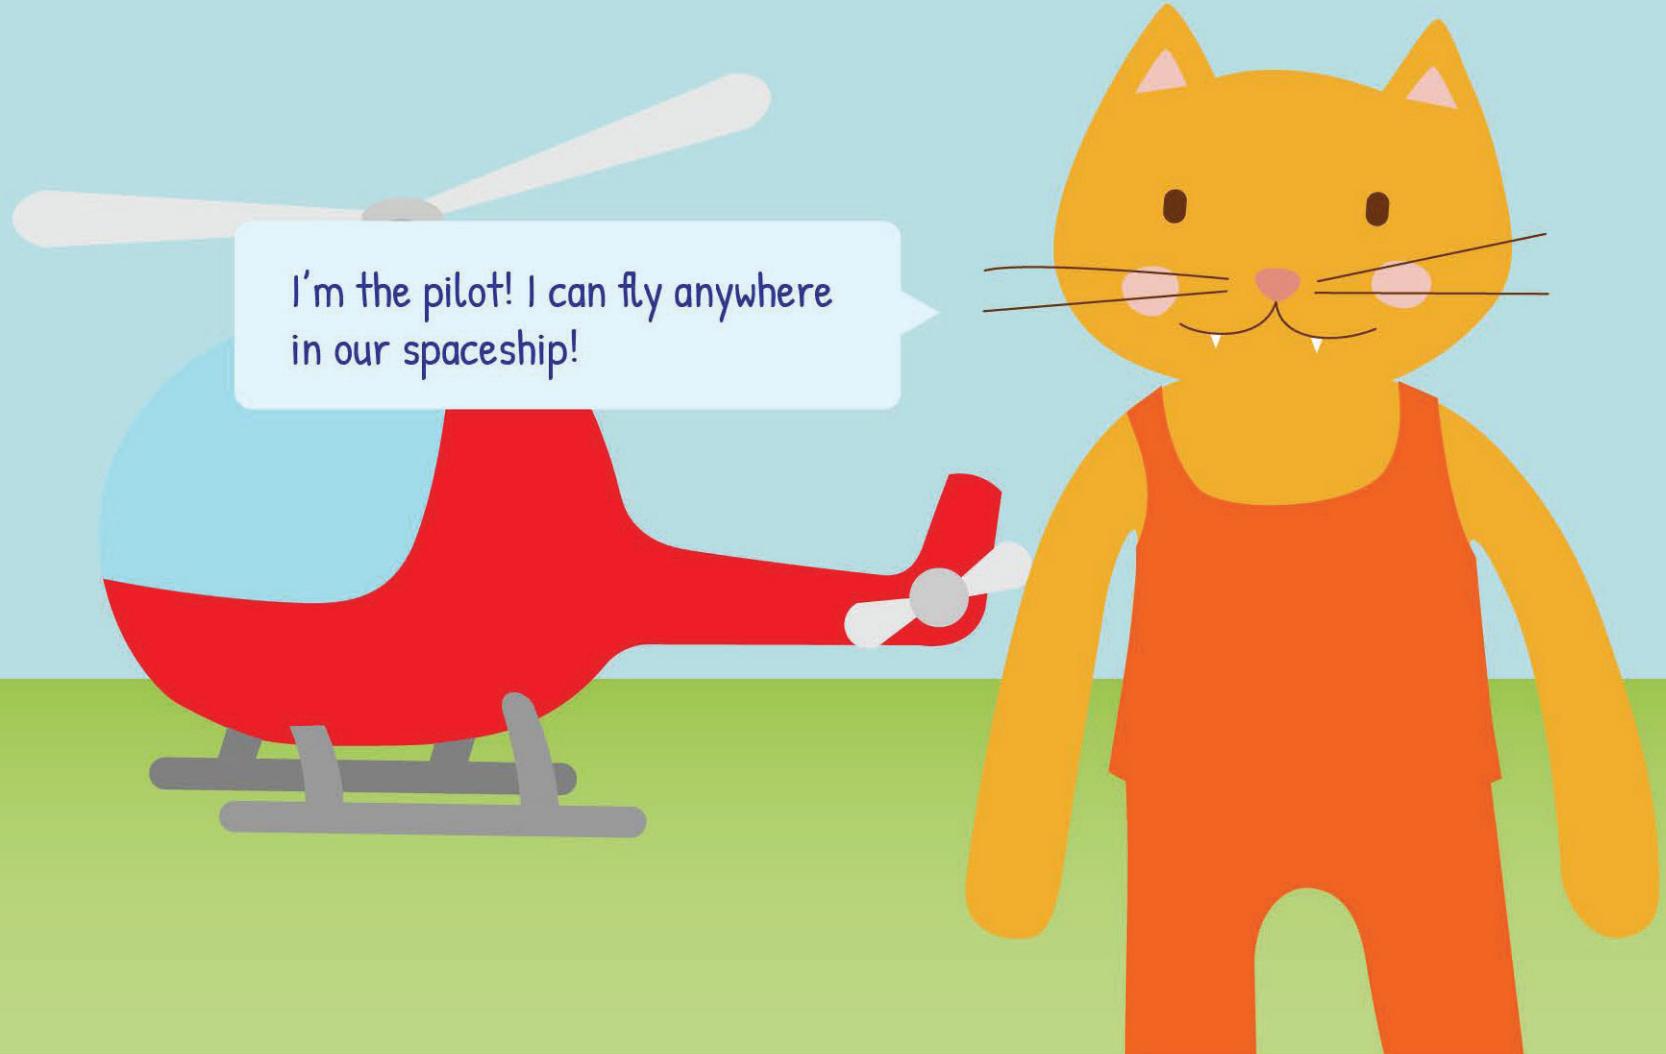

THE END.

I'm the dreamer! I help think of ideas!

I'm the fixer! I can fix anything!

I'm the pilot! I can fly anywhere
in our spaceship!

I'm the chef! I can cook lots of tasty foods!
